General Revenue Fund Surplus Being Rapidly Reduced By Deficit	
Spending	5

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
Jefferson City, Missouri

We have reviewed the financial condition of the state's General Revenue Fund. Due to the significance of the General Revenue Fund to the state and its taxpayers, the State Auditor's Office conducted this analysis to assess the financial condition of the fund and communicate the results to you as budget decision makers, as well as to taxpayers and relevant stakeholders.

Multiple years of budget surpluses in the aftermath of the COVID-19 pandemic resulted in a significant balance being built in the state's General Revenue Fund. The state has now begun the process of depleting that surplus due to deficit spending in the fund through a combination of expenditure increases and slowing revenue growth. Current projections show the need for immediate action to ensure revenue and expenditure levels are equalized before the General Revenue Fund balance becomes critically low and emergency action is required.

The accompanying Management Advisory Report presents the results of our analysis of the General Revenue Fund Financial Condition.

Scott Fitzpatrick
State Auditor

Analysis of General Revenue Fund Financial Condition

Introduction

Background

Missouri's state budget is divided into three main fund types - General Revenue, Federal, and Other. For Fiscal Year (FY) 2025, state expenditures totaled 34.3% from General Revenue, 43.1% from Federal, and 22.6% from Other sources.

Figure 1: State expenditures, by funding source, year ended June 30, 2025

Source: Prepared by the State Auditor's Office (SAO) using *Missouri House of Representatives Fast Facts 2026*.

Federal funds are received from the federal government and generally earmarked for specific programs like Medicaid, Temporary Aid to Needy Families (TANF), school aid, and many others. The Other category includes hundreds of funds created by state law, or administratively, and designated for specific purposes. Examples of Other funds include the Gaming Proceeds for Education Fund, the Lottery Proceeds Fund, and the State Road Fund.

The General Revenue category includes only 1 fund, the General Revenue Fund. The General Revenue Fund is unrestricted, meaning it can be budgeted and spent for any allowable state purpose at the discretion of the General Assembly. The General Revenue Fund receives funding mainly through taxes, including personal income, sales, and corporate income taxes levied by the State of Missouri. General Revenue is often used to match federal funds or when the use of Other funds is restricted. For these reasons, the health of the General Revenue Fund is critical to the overall health of the State of Missouri's budget and financial condition.

Analysis of General Revenue Fund Financial Condition

Introduction

Scope and Methodology

The scope of our analysis included, but was not necessarily limited to, General Revenue Fund activity occurring during the 25 years ended June 30, 2025.

This report combines information from a variety of sources. Our methodology included reviewing reports by the Office of Administration Division of Budget and Planning (OABP), House Appropriations staff, fiscal notes prepared by the General Assembly's Joint Committee on Legislative Research - Oversight Subcommittee, and the State Treasurer's Office (STO) fund reports. This information was combined with additional data from the state's accounting system, Statewide Advantage for Missouri (SAM II), as well as a review of recently passed legislation impacting state finances. To produce estimates for ongoing and future fiscal years, we used historical revenue and appropriation information.

Analysis of General Revenue Fund Financial Condition

Management Advisory Report

State Auditor's Findings

General Revenue Fund Surplus Being Rapidly Reduced By Deficit Spending

The balance of the state's General Revenue Fund (GRF) increased to unprecedented levels in recent years, but multiple years of significant deficit spending, and projected future deficit spending, threaten to eliminate all GRF surplus balances unless action is taken.

The recent increases in the GRF balance resulted primarily from the federal and state responses to the COVID-19 pandemic, which caused unusual activity for Missouri's budget and the GRF. While revenues initially declined, they later surged with increasing economic activity and significant federal aid, including the Coronavirus Aid, Relief, and Economic Security (CARES) Act and the American Rescue Plan Act (ARPA). While the balance of the GRF soared to unprecedented levels, this balance has supported multiple years of deficit spending which, if it is not corrected soon, will result in deterioration of the state's financial health.

General Revenue Fund balance increases

From fiscal year (FY) 2000 through FY 2020, the average year-end fund balance of the GRF was \$445.5 million. However, from FY 2021 to FY 2025, the average year-end fund balance of the GRF increased to approximately \$4.4 billion. This represents an 888% increase in the average GRF year-end balance. As shown in Figure 2, the GRF year-end balance did not exceed \$1 billion from FY 2000 through FY 2020, but the year-end balance has been greater than \$2 billion every year since then, and greater than \$4 billion for the last 4 fiscal years.

Figure 2: GRF Balance by Fiscal Year

Source: Prepared by the State Auditor's Office (SAO) using *Office of the Missouri State Treasurer Fiscal Year Fund Activity Reports*.

Analysis of General Revenue Fund Financial Condition Organization and Statistical Information

Revenues and expenditures outpacing CPI

In this historically unusual post-COVID era, both revenue and spending increased significantly faster than the Consumer Price Index (CPI). From FY 2020 to FY 2025, annual revenue increased by 45.8%, while annual expenditures increased by 53.4%. In comparison, the CPI increased by only 24.5%¹ over the same timeframe.

Changes in GRF collections are unpredictable

Changes in revenue to the GRF are historically volatile and unpredictable. From FY 2003 to FY 2025, the largest annual decrease in net collections to the GRF was negative 9.1%, while the largest increase was 25.8%. The average change in annual net collections during this period was 3.65%, but only 2 out of the 23 years during this period experienced a change in net collections between 3 and 4 percent. As Figure 3 shows, net collections tend to decrease rapidly during economic recessions, and experience strong growth in periods of economic expansion. Net collections have also historically been sensitive to changes in tax law at the state and federal levels.

Figure 3: Change in actual
GRF net collections, FY 2003
through FY 2025

State Fiscal Year					2003	2004	2005	2006	2007	2008	2009	2010	2011

3.2%	10.1%	-1.0%	8.8%	0.9%	2.6%	5.0%	1.0%	-6.6%	25.8%	14.6%	2.7%	1.5%	0.0%

Source: Prepared by the SAO using *Missouri House of Representatives Fast Facts 2026*.

Deficit spending is depleting General Revenue

The GRF balance peaked in FY 2023 with a year-end fund balance of approximately \$5.8 billion (see Figure 2). However, FYs 2024 and 2025 saw significant deficit spending of close to \$960 million and \$480 million, respectively, resulting in a FY 2025 year-end balance of approximately \$4.3 billion. Deficit spending is expected to continue in the near future. Assuming (1) the FY 2026 and FY 2027 Consensus Revenue Estimate (CRE) agreed to

¹ CPI is calculated on a calendar year basis. The 2025 CPI is an estimate based on change in CPI from 4th quarter 2023 to 4th quarter 2024.

Analysis of General Revenue Fund Financial Condition Organization and Statistical Information

by the Governor and the General Assembly is realized, (2) the average change in net GRF collections (3.65%) is realized for FY 2028, and (3) the FY 2026 estimated expenditures² remain constant for FY 2027 and FY 2028, deficit spending of over \$2 billion, \$1.5 billion and \$1 billion is projected for FY 2026, FY 2027 and FY 2028, respectively.

Figure 4: GRF revenues and expenditures, actual FY 2017 through 2025, projected FY 2026 through 2028

Source: Prepared by the SAO using *Missouri House of Representatives Fast Facts 2026* and *Budget Summary (FY 2019 to FY 2026)*. Revenue projected at recession levels is calculated assuming the worst 3 consecutive years of change in actual annual net collections from FY 2003 to FY 2025 being applied to FY 2026 through FY 2028. FY 2026 through FY 2028 CPI is calculated by assuming 3% annual growth for calendar years 2026 through 2028.

GRF balance projected to be reduced to zero by FY 2028

Assuming FY 2026 expenditures remain unchanged and revenues grow at the rate of the latest CRE, the state will deplete the GRF balance in FY 2028.

If we assume the worst 3 consecutive years of change in actual annual net collections from FY 2003 to FY 2025, which would essentially represent a recessionary period, and apply that experience to FY 2026 through FY 2028, Missouri would run out of General Revenue in FY 2027, at which point the deficit would be over \$3.8 billion. See Figure 5 for actual and projected year-end GRF balances for FY 2017 through FY 2028.

² FY 2026 through FY 2028 expenditures are calculated using FY 2026 appropriated budget amounts minus appropriation lapse, estimated based on the ratio of actual appropriation lapse to appropriated budget amounts from FY 2017 through FY 2025.

Recent tax legislation will
reduce GRF revenues in the
near term

Recent changes in tax law, including the increases in the standard deduction contained in the "One Big Beautiful Bill" (OB BB) Act, and the elimination of the state tax on capital gains,³ will put downward pressure on revenue to the GRF in the near term. The impact of such legislation is reflected in the latest CRE, and is therefore included in the above projections. However, these projections do not include, or assume, any future changes in federal or state tax law. This includes certain pre-existing provisions of state statute that will lead to further state income tax reductions⁴ and the elimination of the state tax on corporate capital gains.⁵ These changes are triggered by potential increases to General Revenue collections and reductions in the state's income tax rate. Specifically, additional income tax rate reductions are triggered when net General Revenue collections exceed the highest of the previous 3 fiscal years by at least \$200 million. Additionally, the exemption of capital gains income for corporate filers occurs when the individual income tax rate reaches 4.5%. Since it is unclear when these reductions will be triggered, they

³ House Bill 594, First Regular Session, 103rd General Assembly (2025).

⁴ Senate Bills 3 & 5, First Extraordinary Session, 101st General Assembly (2022).

⁵ House Bill 594, First Regular Session, 103rd General Assembly (2025).

Analysis of General Revenue Fund Financial Condition Organization and Statistical Information

are not included in this analysis, but it is certain these changes will eventually put additional downward pressure on GRF revenues in the period immediately following their enactment.

Budget Reserve Fund
balance available, but
restrictions exist on fund
use

Missouri's Budget Reserve Fund, which serves as the state's rainy day fund, had a balance of approximately \$950 million at June 30, 2025. However, Constitutional restrictions on the use of these funds make the Budget Reserve Fund of limited use as it relates to any potential shortages in the GRF. Additional information related to the Budget Reserve Fund and the restrictions that exist in the availability and use of its balance is available in Report No. 2019-103, *Budget Reserve Fund*, issued in October 2019.

Conclusion

Deficit spending in the GRF in multiple recent fiscal years has quickly reduced the historic surplus in the fund, and if continued, is projected to deplete the fund balance by the end of FY 2028. Executive and Legislative action is needed to address this situation in a timely manner.

The longer Missouri waits to equalize GRF revenues and expenditures, the harder this exercise will become and the more drastic the required budget cuts will be. Ultimately, failure to equalize revenues and expenditures could lead to emergency measures to control spending, up to and including emergency expenditure restrictions enacted by the Governor, with little warning to Missouri schools, hospitals, and other budget stakeholders.

Without viable rainy day funds available, it is imperative the General Assembly and the Governor work to balance the GRF budget as soon as possible to avoid emergency budget actions, and provide stakeholders with financial guidance on which they can rely.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

To the County Commission
and
Officeholders of Wayne County, Missouri

The Office of the State Auditor contracted for an audit of Wayne County's financial statements for the year ended December 31, 2023, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by Stopp & VanHoy, CPAs and Business Advisors, is attached.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive style with a large, stylized "S" and "F".

Scott Fitzpatrick
State Auditor

December 2025
Report No. 2025-100

Recommendations in the contracted audit of Wayne County

2023-001	The county prepare a budget for all required funds and periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes.
2023-002	In order to ensure that transfers are properly budgeted and in balance, we recommend transfers in always be accompanied by an equal transfer out and that the transfers can be clearly identified on the annual budget.
2023-003	The Collector and Treasurer implement procedures to periodically review bank balances and work with the bank to ensure that public funds are adequately secured, especially at December 31 since this is the due date for property taxes.
2024-004	The county implement internal controls to ensure that suspension and debarment assessments are performed during the procurement and contracting phase. In addition, sufficient documentation should be retained to evidence suspension and debarment verification is performed.

Independent Auditor's Report

To the County Commission and
Officeholders of Wayne County, Missouri

Report on the Audit of the Financial Statements***Opinions***

We have audited the accompanying financial statements of Wayne County, Missouri, as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise Wayne County, Missouri's basic financial statements as listed in the table of contents.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the accompanying financial statements present fairly, in all material respects, the cash balances of each fund of Wayne County, Missouri as of December 31, 2023, and their respective cash receipts and disbursements, and budgetary results for the year then ended in accordance with the basis of accounting practices prescribed or permitted by Missouri law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the *Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles* section of our report, the financial statements do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of Wayne County, Missouri as of December 31, 2023, or the changes in financial position and cash flows thereof for the year then ended.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Wayne County, Missouri and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by Wayne County, Missouri on the basis of accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws, which is a basis of accounting other than accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Wayne County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Wayne County, Missouri's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Wayne County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Wayne County, Missouri's basic financial statements. The Schedule of Expenditures of Federal Awards, as required by the audit requirements of Title 2 *U.S. Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 8, 2025 on our consideration of Wayne County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Wayne County, Missouri's internal control over financial reporting and compliance.

**The County of Wayne
Greenville, Missouri
Notes to the Financial Statements
For the year ended December 31, 2023**

Note 1 - Summary of Significant Accounting Policies

Organized in 1818, the county of Wayne was named after American Revolution General Anthony Wayne. It is a third-class county, and the county seat is Greenville. Wayne County's government is composed of a three-member county commission and the following separately elected Constitutional Officers: County Clerk, Collector, Treasurer, Sheriff, Assessor, Coroner, Circuit Clerk, Recorder of Deeds, Public Administrator, and Prosecuting Attorney.

As discussed further in Note 1, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of Wayne County, Missouri and the Wayne County Senate Bill 40 Board.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Wayne County, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity. The Senate Bill 40 Board is controlled by a separate board and also included under the control of the County.

Certain elected County officials, such as the County Collector, Treasurer, and Sheriff, collect and hold monies in a trustee capacity as an agent of an individual, taxing units, or other governments. These assets, which are held by these officeholders for the sole benefit of external parties, are included in the Statement of Assets and Liabilities Arising from Cash Transactions - Custodial Funds - Regulatory Basis.

Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of all funds of Wayne County and the comparisons of such information with the corresponding budgeted information for all funds of the County. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or an elected county official. The General Revenue Fund is the county's general operation fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

Basis of Accounting

The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. The effects of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation, bonds, and obligations under capital leases), and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

**The County of Wayne
Greenville, Missouri
Notes to the Financial Statements
For the year ended December 31, 2023**

Note 1 - Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Budget and Budgetary Accounting

In accordance with Chapter 50, RSMo., the County adopts a budget for each governmental fund.

On or before January 15th, each elected official and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

Prior to February 1, the budget is legally enacted by a vote of the County Commission.

Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

Budgets are prepared and adopted on the cash basis of accounting.

During the audit, it was noted the County was not in compliance with Missouri budgetary statute Chapter 50, RSMo. The following fund did not have an adopted budget: Wayne County Improvement Corporation Fund.

Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

**The County of Wayne
Greenville, Missouri
Notes to the Financial Statements
For the year ended December 31, 2023**

Note 1 - Summary of Significant Accounting Policies (continued)

Taxes (continued)

The assessed valuation of the tangible taxable property, included within Wayne County's boundaries for the calendar year for the purposes of taxation was:

Real Estate	\$ 91,184,170
Personal Property	46,804,426
Railroad and Utilities	23,948,297
	<u>\$ 161,936,893</u>

The tax levy per \$100 assessed valuation of tangible taxable property for the calendar year for the purpose of County taxation, was as follows:

Special Road and Bridge	\$ 0.1100
Senate Bill 40 Board	0.0800

The County also receives sales tax collected by the State and remitted based on the County's sales tax rate to the total sales tax collected in the County.

Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash, cash equivalent, and investment balances are presented in Note 2.

Interfund Transactions

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

**The County of Wayne
Greenville, Missouri
Notes to the Financial Statements
For the year ended December 31, 2023**

Note 2 - Deposits and Investments

Wayne County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed on the statement of receipts, disbursements, and changes in cash arising from cash transactions as "Cash and Equivalents." Cash held for others is displayed on the statement of assets and liabilities arising from cash transactions as "Cash and Equivalents."

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits.

The carrying values and bank balances of deposits and investments shown above are included in the financial statements at December 31, 2023, as follows:

	<u>Carrying Value</u>	<u>Bank Balance</u>
Deposits	\$ 6,554,457	\$ 5,697,204
Investments	659,208	659,208
Total Deposits and Investments as of December 31, 2023	<u>\$ 7,213,665</u>	<u>\$ 6,356,412</u>
Total Cash and Equivalents - Governmental Funds	\$ 2,959,065	
Total Cash and Equivalents - Custodial Funds	4,254,600	
	<u>\$ 7,213,665</u>	

Custodial Credit Risk - Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. At December 31, 2023, \$3,075,476 of the County's deposits and investments were not covered by the Federal Deposit Insurance Corporation (FDIC) and were not collateralized.

Custodial Credit Risk - Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party that sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U. S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities.

Notes to the Financial Statements
For the year ended December 31, 2023**

Note 2 - Deposits and Investments (continued)

The following investments represent more than 5%, individually, of total investments:

Issuer	Investment Type	Balance	% of Portfolio
First Midwest Bank of the Ozarks	Certificates of Deposit	\$ 102,786	15.59%
Peoples Community Bank	Certificates of Deposit	556,422	84.41%
		<u>\$ 659,208</u>	

Note 3 - Long-Term Debt

Financing Agreements

In 2008, the County entered into a financing agreement with the U.S. Department of Agriculture for \$696,000 to finance the construction of the Justice Center. The agreement requires thirty annual payments of \$42,735, which includes interest payable at 4.500%. The financing agreement matures on May 30, 2038.

In 2009, the County entered into a financing agreement with the U.S. Department of Agriculture for \$20,000 to finance the construction of the Justice Center. The agreement requires thirty annual payments of \$1,228, which includes interest payable at 4.500%. The financing agreement matures on May 20, 2039.

In 2019, the County entered into a financing agreement with First Midwest Bank of the Ozarks for two 2020 Western Star 4700SF Dump Trucks for \$207,932. The agreement requires four annual payments of \$58,051, which includes interest payable at 4.500%. The financing agreement matured on October 22, 2023.

In 2021, the County entered into a financing agreement with Peoples Community Bank for two used 2015 John Deere 770G Motor Graders for \$291,210. The agreement requires five annual payments of \$65,641, which includes interest payable at 3.990%. The financing agreement matures on October 21, 2026.

In 2023, the County entered into a financing agreement with Peoples Community Bank for a 2024 Case IH 110A Tractor with an Alamo 25' Machette 3 Mower for \$89,710. The agreement requires three payments of \$25,886, which includes interest payable at 5.750%, and one final payment of the entire unpaid balance of principal and interest on November 1, 2027. The financing agreement matures on November 1, 2027.

	Balance at 12/31/22	Amount Borrowed	Amount Repaid	Balance at 12/31/23	Interest Paid During Year

Note 3 - Long-Term Debt (continued)

As of December 31, 2023, the schedule of future payments of long-term debt of the County is as follows:

Year ending December 31,	Principal	Interest	Total
2024	\$ 102,443	\$ 33,047	\$ 135,490
2025	107,524	27,966	135,490
2026	112,361	23,129	135,490
2027	51,697	17,954	69,651
2028	28,525	15,438	43,963
2029-2033	163,072	56,743	219,815
2034-2038	150,600	17,890	168,490
Total	<u>\$ 716,222</u>	<u>\$ 192,167</u>	<u>\$ 908,389</u>

Line of Credit

In 2013, the County entered into a line of credit agreement with First Midwest Bank of the Ozarks which allows borrowings of up to \$250,000, as needed. The line of credit matures on February 23, 2025. There was no outstanding balance at December 31, 2023, and the County incurred no interest expense on the line of credit agreement during the fiscal year.

Note 4 - Interfund Transfers

Transfers between funds for the year ended December 31, 2023 are as follows:

<u>Fund</u>	<u>Transfers In</u>	<u>Transfers Out</u>

Note 5 - State of Missouri County Employees' Retirement Fund (CERF)

Plan Description

The County Employees' Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elected or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo., circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo., and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

Benefits Provided

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, Missouri, 65101, by calling (573) 632-9203, or by visiting the CERF website at www.mocerf.org.

Contributions

Prior to January 1, 2003, participating county employees were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002 are required to make contributions of 6%. If any employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 6% contribution on behalf of employees. During 2023, the County collected and remitted to CERF, employee contributions of \$118,575 for the year ended.

**The County of Wayne
Greenville, Missouri
Notes to the Financial Statements
For the year ended December 31, 2023**

Note 5 - State of Missouri County Employees' Retirement Fund (CERF) (continued)

Contributions (continued)

In addition to the above contributions required of employees, the following fees and penalties prescribed under Missouri law are required to be collected and remitted to CERF by counties covered by the plan:

- Late fees on filing of personal property tax declarations;
- Twenty dollars on each merchant's and manufacturer's license issued;
- Six dollars on each document recorded or filed with county recorders of deeds, with an additional one dollar on each document recorded;
- Three sevenths of the fee on delinquent property taxes; and
- Interest earned on investment of the above collections prior to remittance to CERF.

The County collected and remitted CERF fees and penalties of \$129,554 for the year ended December 31, 2023.

Further information related to required contributions, pension benefits, other plan terms, and investments and related return and financial information can be found in the notes to the financial statements of CERF's Annual Financial Report.

Note 6 - Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807, RSMo., the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys' and Circuit Attorneys' Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$11,628 for the year ended December 31, 2023.

Note 7 - Other Retirement Plans

Wayne County has voluntary 457 and 401(a) plans administered by Empower Retirement which are paid by a deduction from employees' salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the year ended December 31, 2023 for the 457 plan were \$41,205. Employee contributions collected and remitted by the County for the year ended December 31, 2023 for 401(a) plan were \$15,146.

Note 8 - Post Employment Benefits

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

Note 9 - Claims, Commitments, and Contingencies

Litigation

The County can be subject to various claims and legal proceedings covering a wide range of matters that arise in the ordinary course of its business activities. Management believes that any liability that may ultimately result from the resolution of such matters will not have a material adverse effect on the financial condition of the County.

**The County of Wayne
Greenville, Missouri
Notes to the Financial Statements
For the year ended December 31, 2023**

Note 9 - Claims, Commitments, and Contingencies (continued)

Compensated Absences

The County provides full-time employees with two hours of personal time off (PTO) for each completed pay period of employment, up to a maximum of 7 days. The County allows employees to carry forward PTO from one year to the next, but PTO may not be accrued beyond 30 days. Upon termination, employees will not be compensated for any unused PTO.

Full-time employees are eligible to accrue vacation time after completion of one year of service. Vacation time is accrued at a rate of five days per year with a maximum of fifteen days depending on length of employment. Earned and unused vacation time may be carried over from year to year, but vacation time may not be accrued beyond 10 days. Upon termination, employees are compensated for any unused vacation time.

Full-time employees earn overtime or compensatory time credits based on department of assignment. Overtime and compensatory time credits are earned at 1.5 times the regular hourly rate of the employee for work hours accumulated over 40 hours in a work week and 80 hours in a two-week pay period. Upon termination, employees are compensated for any compensatory time credits.

Federal and State Assisted Programs

The County receives proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned. Such audits could result in refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

Note 10 - Risk Management

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$500,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

Note 11 - Subsequent Events

The County has evaluated events subsequent to December 31, 2023 to assess the need for potential recognition or disclosure in the financial statements. Such events have been evaluated through August 8, 2025, the date the financial statements were available to be issued.

On February 13, 2024, the County entered into a financing agreement with Peoples Community Bank for a 2024 Case IH 110A Tractor with an Alamo Machette 3 Mower for \$94,710. The agreement requires three payments of \$27,230, which includes interest payable at 5.750%, and one final payment of the entire unpaid balance of principal and interest on February 13, 2028. The financing agreement matures on February 13, 2028.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING
STANDARDS*

Independent Auditor's Report

To the County Commission and
Officeholders of Wayne County, Missouri

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of Wayne County, Missouri as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise Wayne County, Missouri's basic financial statements, and have issued our report thereon dated August 8, 2025. Our opinion was adverse because the financial statements are not prepared in accordance with accounting principles generally accepted in the United States of America. However, the financial statements were found to be fairly stated on the regulatory basis of accounting, in accordance with regulatory reporting practices prescribed or permitted by the State of Missouri, which is a comprehensive basis of accounting other than generally accepted accounting principles.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Wayne County, Missouri's internal control over financial reporting (internal control) as a basis for designing procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Wayne County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Wayne County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Wayne County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*, and which are described in the accompanying schedule of findings and questioned costs as items 2023-001, 2023-002, and 2023-003.

Wayne County, Missouri's Responses to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the Wayne County, Missouri's responses to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. Wayne County, Missouri's responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

St. Louis, Missouri
August 8, 2025

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT
ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH THE
UNIFORM GUIDANCE

Independent Auditor's Report

To the County Commission and
Officeholders of Wayne County, Missouri

Report on Compliance for Each Major Federal Program

Qualified and Unmodified Opinions

We have audited Wayne County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Wayne County, Missouri's major federal programs for the year ended December 31, 2023. Wayne County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Qualified Opinion on COVID-19 Coronavirus State and Local Fiscal Recovery Funds

In our opinion, except for the noncompliance described in the Basis for Qualified and Unmodified Opinions section of our report, Wayne County, Missouri complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on COVID-19 Coronavirus State and Local Fiscal Recovery Funds for the year ended December 31, 2023.

Unmodified Opinion on Each of the Other Major Federal Programs

In our opinion, Wayne County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs for the year ended December 31, 2023.

Basis for Qualified and Unmodified Opinions

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Wayne County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Wayne County, Missouri's compliance with the compliance requirements referred to above.

Matter Giving Rise to Qualified Opinion on COVID-19 Coronavirus State and Local Fiscal Recovery Funds

As described in the accompanying schedule of findings and questioned costs, Wayne County, Missouri did not comply with requirements regarding Assistance Listing No. 21.027 COVID-19 Coronavirus State and Local Fiscal Recovery Funds as described in finding number 2023-004 for Suspension and Debarment.

Compliance with such requirements is necessary, in our opinion, for Wayne County, Missouri to comply with the requirements applicable to that program.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Wayne County, Missouri's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Wayne County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Wayne County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Wayne County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Wayne County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Wayne County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Government Auditing Standards requires the auditor to perform limited procedures on Wayne County, Missouri's response to the noncompliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. Wayne County, Missouri's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider a deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2023-004 to be a significant deficiency.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on Wayne County, Missouri's response to the internal control over compliance finding identified in our audit described in the accompanying schedule of findings and questioned costs. Wayne County, Missouri's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**The County of Wayne
Greenville, Missouri
Notes to the Schedule of Expenditures of Federal Awards
For the year ended December 31, 2023**

Note 1 - Summary of Significant Accounting Policies

Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). This Uniform Guidance requires a schedule that provides total federal awards expended for each federal program and the assistance listing number or other identifying number when the assistance listing number is not available.

This schedule includes all federal awards administered by Wayne County, Missouri.

Basis of Presentation

The *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* includes these definitions, which govern the contents of the schedule:

Federal financial assistance means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals.

Federal award means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Because the Schedule presents only a selected portion of the operations of Wayne County, Missouri, it is not intended to and does not present the financial position, changes in net assets, or cash flows of Wayne County, Missouri.

Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards is presented on the cash basis of accounting. The information in this schedule is presented in accordance with the requirements of the *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the financial statements.

Federal expenditures are considered to have occurred when cash is disbursed for allowable expenditures.

Wayne County, Missouri has not elected to use the 10% de minimis indirect cost rate.

Internal control over major programs:

Material weakness(es) identified? _____ Yes X No

Significant deficiencies identified
not considered to be material weaknesses? X Yes _____ None Reported

Type of auditor's report issued on
compliance for major programs: Qualified

Any audit findings disclosed that are
required to be reported in accordance
with section 2 CFR section 200.516(a)? X Yes _____ No

Identification of Major Programs:

CFDA Number	Name of Federal Program or Cluster
15.226	Payments in Lieu of Taxes
21.027	COVID-19 Coronavirus State and Local Fiscal Recovery Funds

Dollar threshold used to distinguish
between type A and type B programs: \$750,000

Auditee qualified as low-risk auditee? _____ Yes X No

**The County of Wayne
Greenville, Missouri
Schedule of Findings and Questioned Costs
For the year ended December 31, 2023**

Section 2 - Financial Statement Findings

2023-001 **Criteria:** Missouri statutes requires Counties to prepare an annual budget as applicable to each fund. Expenditures are not to exceed the budget.

Condition: During the audit, it was noted the County was not in compliance with Missouri budgetary statute Chapter 50, RSMo. The following fund did not have an adopted budget: Wayne County Improvement Corporation Fund.

Cause: Oversight

Effect: The County is in violation of Missouri Revised Statutes due to exceeding budgeted expenditures in certain funds and failing to prepare a budget for all required funds.

Recommendation: We recommend that the County prepare a budget for all required funds and periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes.

Management's Response: We were not aware that we needed to budget for the Wayne County Improvement Fund. This will be corrected during the next budget period to include this fund.

2023-002 **Criteria:** Management should prepare the budgets of the County, as presented in the adopted annual budget, to present balance transfers between all funds. Per RSMo. 50.540, expenditure estimates shall be classified to set forth the data by funds, organization units, character, and objects of expenditure. Revenue estimates shall be classified to show receipts by funds, organization units, and sources.

Condition: Budgeted transfers in did not balance to budgeted transfers out in the original and amended 2023 budgets for various funds.

Cause: Oversight.

Effect: The original and amended 2023 budgets of the County presented an imbalance between transfers in and transfers out. A schedule of budgeted transfers as presented in the budget is as follows:

**The County of Wayne
Greenville, Missouri
Schedule of Findings and Questioned Costs
For the year ended December 31, 2023**

Section 2 - Financial Statement Findings (continued)

2023-002 (cont.)	<u>Fund</u>	<u>Transfers In</u>	<u>Transfers Out</u>
	General Revenue	\$ 110,847	\$ 165,787
	Special Road and Bridge	287,000	-
	Assessment	38,428	-
	American Rescue Plan Act (ARPA)	-	-
	Election Services	3,275	-
	Flood Control	-	3,000
	Forest Reserve	-	90,000
	Law Enforcement Restitution	-	76,000
	Pros. Attorney Law Enforcement	32,000	32,000
	Recorder's User Fee	-	16,874
	Special Election Account	-	9,100
	Prosecuting Attorney Administrative Handling	-	12,000
	Tax Maintenance	-	9,900
	Local Assistance and Tribal Consistency	-	1,141,618
	Wayne County Improvement Corporation	-	-
		<u>\$ 471,550</u>	<u>\$ 1,556,279</u>

Recommendation: In order to ensure that transfers are properly budgeted and in balance, we recommend transfers in always be accompanied by an equal transfer out and that the transfers can be clearly identified on the annual budget.

Management's Response: The County will work with the software program to see if there is a way to easily identify transfers.

2023-003 **Criteria:** Public funds on deposit that exceed FDIC deposit insurance coverage limits must be secured by pledged collateral securities. Section 30.270, RSMo, lists the types of collateral that are considered legally acceptable.

Condition: The County had a bank balance of \$2,629,348 at First Midwest Bank of the Ozarks and a bank balance of \$3,727,064 at Peoples Community Bank for a total bank balance of \$6,356,412 at December 31, 2023. \$750,000 of the total bank balance was covered by FDIC deposit insurance, leaving an uninsured balance of \$5,606,412. The financial institutions provide reports showing a market value of pledged collateral securities totaling \$2,530,936, leaving \$3,075,476 of unsecured deposits at December 31, 2023.

This finding was noted in the prior audit for the years ended December 31, 2022 and 2021 as item 2022-005.

Cause: The bank did not provide adequate collateral securities to cover the County's deposits in excess of FDIC insurance.

Effect: Inadequate collateralization of public funds on deposit could lead to the loss of funds in the event of a bank failure.

Recommendation: We recommend that the Collector and Treasurer implement procedures to periodically review bank balances and work with the bank to ensure that public funds are adequately secured, especially at December 31 since this is the due date for property taxes.

**The County of Wayne
Greenville, Missouri
Schedule of Findings and Questioned Costs
For the year ended December 31, 2023**

Section 2 - Financial Statement Findings (continued)

2023-003 **Management's Response:** This issue was identified in the 2022 audit which concluded in the fall of 2023. This has (cont.) been corrected and the bank is providing quarterly statements of securities to identify pledged collateral.

Section 3 - Federal Award Findings

2023-004	Federal Agency:	U.S. Department of the Treasury
	Federal Program Title:	COVID-19 State and Local Fiscal Recovery Funds
	Federal Assistance Listing No.:	21.027
	Award Period:	2023
	Pass-through Entity:	n/a
	Questioned Costs:	n/a
	Compliance Requirement:	(I) - Suspension and Debarment

Criteria: Title 2 *U.S. Code of Federal Regulations* Part 200.303 requires that non-federal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal statutes, regulations, and the terms and conditions of the federal award. Effective internal controls should include procedures in place to ensure the required certifications for covered contracts and subawards are received and documented, and contracts are not made with a suspended or debarred party.

Condition: During our testing, it was noted that the County did not have adequate controls designed to ensure that suspension and debarment requirements were being met.

Context: Of the 4 vendors tested, we noted that all 4 were not verified by the County or certifications from the vendors were not collected to ensure the vendors were neither suspended or debarred.

Cause: The County has not designed and implemented internal controls to ensure compliance with suspension and debarment requirements outlined.

Effect: Failure to obtain the required certifications or perform verification procedures with SAM.gov could result in the payment of federal funds to vendors that are suspended or debarred from participation in federal assistance programs.

Recommendation: We recommend that the County implement internal controls to ensure that suspension and debarment assessments are performed during the procurement and contracting phase. In addition, sufficient documentation should be retained to evidence suspension and debarment verification is performed.

Management's Response: The County will ensure vendors are not suspended or debarred in the future.

**The County of Wayne
Greenville, Missouri
Summary Schedule of Prior Year Findings and Questioned Costs
For the year ended December 31, 2023**

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Wayne County, Missouri, on the applicable findings in the prior audit report issued for the years ended December 31, 2022 and 2021.

Prior Year Financial Statement Findings

2022-001 **Significant Deficiency - Lack of Proper Bank Reconciliations**

Criteria: A proper system of internal controls requires timely and proper completion of reconciliations between the accounting system and bank records.

Condition: A review of bank reconciliations of all County bank accounts included in the scope of the audit noted the following internal control issues:

A review of the Collector's bank reconciliations noted eight instances in which the bank reconciliations were not timely performed. Further, we noted three instances in which the Collector's bank reconciliations were not properly maintained and could not be provided. Additionally, the Collector's bank reconciliation at December 31, 2021 for the Cash and Checks account reported an outstanding receipt for a transfer from the Credit and Debit account, but the transfer was not reflected on the bank reconciliation on the Credit and Debit account. After further review, the transfer was not initiated until the following fiscal year resulting in an adjusting entry of \$670,974 to the reconciled balance for the Cash and Checks account.

A review of the Senate Bill 40 Board's monthly bank reconciliations noted 11 instances during 2021 and 2022 in which outstanding items should have been included on a formal bank reconciliation. The bank statements contained evidence of the Board Treasurer's review but did not compare the bank balance to the book balance and note the reconciling items.

Cause: Management does not place adequate emphasis upon reviewing cash transactions and preparing accurate bank reconciliations.

Effect: Proper and timely reconciliation of the book balance to the bank balance ensures that all cash transactions have been recorded and increases the likelihood of preventing and detecting errors or fraud.

Recommendation: We recommend that the Collector and Senate Bill 40 Board timely prepare and maintain documentation of proper monthly bank reconciliations.

County's Response: The previous Collector is responsible for the bank reconciliations mentioned in the finding. The current Collector, Tammy Morgan, is performing the bank reconciliation correctly and in a timely manner. The Senate Bill 40 Board will place more emphasis on the monthly bank reconciliations.

Auditor's Evaluation: The County's response is appropriate to correct the concern.

Status: Management has performed adequate corrective action, therefore, this finding will not be repeated.

**The County of Wayne
Greenville, Missouri
Summary Schedule of Prior Year Findings and Questioned Costs
For the year ended December 31, 2023**

Prior Year Financial Statement Findings (continued)

2022-002 **Significant Deficiency - Internal Control over Disbursements**

Criteria: A proper system of internal controls requires disbursements to be properly reviewed and approved by an authorized individual prior to payment. Further, a proper system of internal controls requires the segregation of incompatible duties. Additionally, the County's Internal Control and Risk Management policy advocates an adequate segregation of duties, and details that if a segregation of duties is not feasible, a documented review and approval process can act as a compensating control.

Condition: The County's disbursement process does not properly segregate the duties for authorization and recording of transactions for the "Special" funds identified by the Treasurer in which three signatures are not required on each check by the county. The Treasurer has the ability to enter invoices, generate checks, is the sole authorized signer on the check, and reconciles the checking account.

Additionally, a sample of 40 disbursements were selected for testing, and noted 3 instances in which invoices from the disbursement package were missing, and 7 instances in which the invoice/claim voucher lacked evidence of proper approval.

Cause: The County decided to streamline the access to budgetary funds designated for elected officials. As a result, the disbursement process for budgetary funds controlled by the County Commission and elected officials were split up causing a managerial oversight of mitigating controls.

Effect: The lack of a formal approval process and the lack of adequate recordkeeping increases the opportunity for unauthorized transactions to occur.

Recommendation: We recommend the County implement procedures that segregate the Treasurer's incompatible duties or implement mitigating controls that minimize the risk of unauthorized transactions. Additionally, we recommend the County implement procedures to ensure invoices are properly approved and maintained.

County's Response: The Treasurer presents all the disbursements from the Officeholder's special funds to the Commissioners for review on a weekly basis. The Commissioners review the report and sign off on it. The Treasurer will also present the monthly bank reconciliation and bank statement for review. All vouchers are presented to the Commission for approval before any invoices are paid.

Auditor's Evaluation: The County's response is appropriate to correct the concern.

Status: Management has performed adequate corrective action, therefore, this finding will not be repeated.

2022-003 **Significant Deficiency - Internal Controls over Payroll**

Criteria: A proper system of internal controls requires that rates of pay, and any changes to the rate of pay, and timesheets be properly documented, reviewed, and approved by an appropriate official.

Condition: The County does not maintain documentation to support the current pay rates of hourly employees and does not maintain documentation of approval of changes in pay rates for hourly employees in personnel files. The salaries for elected officials and their deputies are approved through the annual budget documents, however, there is no formal documentation of approved rates of pay for hourly employees.

**The County of Wayne
Greenville, Missouri
Summary Schedule of Prior Year Findings and Questioned Costs
For the year ended December 31, 2023**

Prior Year Financial Statement Findings (continued)

2022-003 **Significant Deficiency - Internal Controls over Payroll (continued)**
(cont.)

Cause: The hourly employees' pay rate changes were decided by each elected official but not formally documented.

Effect: The lack of documented approved rates of pay could lead to unauthorized changes in employee pay rates.

Recommendation: We recommend that the county improve the documentation of employee pay rates and ensure that pay rate changes for hourly employees are approved and documented.

County's Response: The Clerk's office will request signed documentation of the pay increase for employees from the appropriate official. We will then have the Commissioners review those pay increases before processing payroll. The signed documentation will be maintained in the employee's file.

Auditor's Evaluation: The County's response is appropriate to correct the concern.

Status: Management has performed adequate corrective action, therefore, this finding will not be repeated.

2022-004 **Significant Deficiency - Public Administrator Internal Controls**

Criteria: The State Auditor's Office requires the accounts of the Public Administrator to be included in regulatory basis financial statements of the County. A proper system of internal controls requires that adequate documentation be maintained to support balances and transactions recorded in the accounting records.

Condition: During the audit, we selected four wards for testing, and requested to review their bank statements, bank reconciliations, and a sample of cash disbursements. We noted that the Public Administrator does not keep records for the wards and turns over all documentation to the Court after the annual settlement is filed. The Court provided the auditors with the bank statements, and we noted that formal bank reconciliations were not performed. Upon review, the bank statements contained evidence of the Public Administrator's review of bank statements, however, we noted instances in which outstanding items had cleared in subsequent statements that were not reported as outstanding on a formal bank reconciliation.

Cause: The Public Administrator does not maintain adequate recordkeeping for ward financial activity and does not place adequate emphasis upon reviewing cash transactions and preparing accurate bank reconciliations.

Effect: Maintaining a record of the activity of all wards ensures the completeness and accuracy of amounts reported in the County's financial statements.

Recommendation: We recommend that the Public Administrator implement procedures to perform proper formal bank monthly reconciliations for each ward account, and to maintain copies of bank statements and supporting documentation for all disbursements.

County's Response: The Public Administrator will implement procedures to prepare bank reconciliations to show outstanding checks. She is also implementing a system to keep records available after she does the yearly settlements and turns over everything to the attorney.

Auditor's Evaluation: The County's response is appropriate to correct the concern.

**The County of Wayne
Greenville, Missouri
Summary Schedule of Prior Year Findings and Questioned Costs
For the year ended December 31, 2023**

Prior Year Financial Statement Findings (continued)

2022-004 **Significant Deficiency - Public Administrator Internal Controls (continued)**

(cont.)

Status: Management has performed adequate corrective action, therefore, this finding will not be repeated.

2022-005 **Noncompliance - Collateralization of Bank Deposits**

Criteria: Public funds on deposit that exceed FDIC deposit insurance coverage limits must be secured by pledged collateral securities. Section 30.270, RSMo, lists the types of collateral that are considered legally acceptable.

Condition: The County had a bank balance of \$1,736,654 at First Midwest Bank of the Ozarks and a bank balance of \$4,291,849 at Peoples Community Bank, for a total bank balance of \$6,028,503 at December 31, 2021. \$1,243,218 of the total bank balance was covered by FDIC deposit insurance, leaving an uninsured balance of \$4,785,285. The financial institutions provide reports showing a market value of pledged collateral securities totaling \$4,140,298, leaving \$644,987 of unsecured deposits at December 31, 2021. Additionally, the County had a bank balance of \$2,338,976 at First Midwest Bank of the Ozarks and a bank balance of \$3,759,372 at Peoples Community Bank, for a total bank balance of \$6,098,348 at December 31, 2022. \$1,233,043 of the total bank balance was covered by FDIC deposit insurance, leaving an uninsured balance of \$4,865,305. The financial institutions provided reports showing a market value of pledged collateral securities totaling \$3,488,412, leaving \$1,376,893 of unsecured deposits at December 31, 2022.

This finding was noted in the prior audit for the year ended December 31, 2020 as item 2020-001, however, the audit report was not issued until after December 31, 2022.

Cause: The bank did not provide adequate collateral securities to cover the County's deposits in excess of FDIC insurance.

Effect: Inadequate collateralization of public funds on deposit could lead to the loss of funds in the event of a bank failure.

Recommendation: We recommend that the Collector and Treasurer implement procedures to periodically review bank balances and work with the bank to ensure that public funds are adequately secured, especially at December 31 since this is the due date for property taxes.

County's Response: This was identified in our prior audit report. We received the audit report in 2023, and the issue has been corrected going forward. Currently, we receive quarterly reports for review to ensure that we are adequately collateralized.

Auditor's Evaluation: The County's response is appropriate to correct the concern.

Status: Management has not corrected this issue. The finding is repeated as finding 2023-003 in the current year.

Prior Year Federal Award Findings

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

To the County Commission
and
Officeholders of Cooper County, Missouri

The Office of the State Auditor contracted for an audit of Cooper County's financial statements for the 2 years ended December 31, 2024, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive style with a large, stylized "S" and "F".

Scott Fitzpatrick
State Auditor

December 2025
Report No. 2025-099

Recommendations in the contracted audit of Cooper County

2024-001	The County Commission adopt a formal budget for all county funds each year, and refrain from budgeting negative (deficit) fund balances for county funds. We also recommend the county adhere to the authorized spending limits as documented in the adopted county budget or follow the appropriate procedures to amend the budget.
2024-002	The county implement internal controls to ensure that the schedule of expenditures of federal awards (SEFA) completely and accurately states the expenditures of federal awards of the county each year.
Internal Controls Over Credit Cards	The county implement procedures to ensure purchases are authorized, and supporting documentation is provided to the County Clerk in a timely manner to ensure credit card statements are paid timely to avoid any late fees and interest charges.
Prosecuting Attorney Bank Reconciliations	The Prosecuting Attorney's office implement procedures to ensure proper monthly bank reconciliations are performed to ensure that all transactions are properly recorded in the accounting system.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Cooper County, Missouri

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Cooper County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023 and 2024, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Cooper County, Missouri, as of December 31, 2023 and 2024, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Cooper County, Missouri, as of December 31, 2023 and 2024, or the changes in financial position thereof for the years then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Cooper County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Cooper County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Cooper County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the

financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Cooper County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Cooper County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 31, 2025, on our consideration of Cooper County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Cooper County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Cooper County, Missouri's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of this statement.

COOPER COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2023 and 2024

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cooper County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are ten elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff, and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Cooper County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control. The Senate Bill 40 Board is separately audited by an independent certified public accountant and is therefore not included in this report in accordance with the regulatory basis of accounting.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County’s custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. However, the County budgeted a negative ending fund balance for the American Rescue Plan Act Grant Fund and the FEMA Reimbursement Fund in 2024.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law. However, the County did not adopt a formal budget for the National Opioids Settlement Fund in 2023.

10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds:

	2024	2023
Enhanced 911	✓	N/A
Law Enforcement Center	✓	N/A
Local Assistance and Tribal Consistency	✓	✓
American Rescue Plan Act Grant	N/A	✓
Law Enforcement Training	N/A	✓
National Opioids Settlement	✓	N/A
Adult Abuse	N/A	✓
Overton Wooldridge Levee	✓	✓
FEMA Reimbursement	N/A	✓
Local Emergency Planning Committee	N/A	✓

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property included within the County's boundaries for the calendar years 2024 and 2023 for purposes of taxation were:

	2024	2023
Real Estate	\$ 196,982,380	\$ 192,531,476
Personal Property	76,919,509	77,967,034
Railroad and Utilities	51,786,752	51,911,056
Total	<u>\$ 325,688,641</u>	<u>\$ 322,409,566</u>

For calendar years 2024 and 2023, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

	2024	2023
General Revenue	\$ 0.2501	\$ 0.2358
Special Road and Bridge	0.3139	0.3138

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest-bearing obligations guaranteed as to both principal and interest by the United

States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2024, the County had the following cash and investment balances:

	Carrying Value	Bank Balance	FDIC Coverage
Cash and Cash Equivalents	\$ 8,853,643	\$ 9,257,040	\$ 8,554,881
Investments	979,908	979,908	481,218
Total Governmental Funds	<u>\$ 9,833,551</u>	<u>\$ 10,236,948</u>	<u>\$ 9,036,099</u>
Cash and Cash Equivalents - Fiduciary Funds	<u>\$ 18,075,000</u>	<u>\$ 16,294,119</u>	<u>\$ 991,738</u>

At December 31, 2023, the County had the following cash and investment balances:

Cash and Cash Equivalents	\$ 9,583,556	\$ 10,226,411	\$ 9,525,866
Investments	954,124	954,124	494,420
Total Governmental Funds	<u>\$ 10,537,680</u>	<u>\$ 11,180,535</u>	<u>\$ 10,020,286</u>
Cash and Cash Equivalents - Fiduciary Funds	<u>\$ 15,321,802</u>	<u>\$ 14,014,506</u>	<u>\$ 1,699,938</u>

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2024 and 2023 were covered by pledged collateral securities or other acceptable collateral held by the County or by its safekeeping bank agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of

annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002. During 2024 and 2023, the County collected and remitted to CERF employee withholdings and fees collected of \$381,747 and \$392,804, respectively for the years then ended.

B. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$15,504 and \$11,628, respectively, for the years ended December 31, 2024 and 2023.

C. Other Retirement Plans

Cooper County has a voluntary 457(b) plan which is paid by a deduction from employee's salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the years ended December 31, 2024 and 2023 were \$111,008 and \$113,590, respectively.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full-time employees with up to five to 20 days of paid vacation based upon the number of years of continuous service. Vacation time can be carried over starting in year two ranging from five days to ten days depending on years of service. Full-time employees are eligible to carryover one half of the year's vacation accrual to the following year. Payments are usually not made for accrued hours in lieu of taking vacation, except for accrued, unused vacation at the time of transfer to a new department or termination.

The County provides full-time and part-time employees' compensation when work is missed due to personal or family illness or injury. Sick time is accrued at one day at the beginning of each month after completing the first thirty days of employment. Unused, accrued sick-time will not be paid out to active or terminated employees.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore,

no provision has been made in the accompanying financial statements for the potential refund of grant monies.

C. Litigation

The County was involved in pending litigation as of the audit report date. The County's management and legal counsel anticipate that potential claims, if any, against the County resulting from such litigation would not have a material effect on the financial position of the County.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation Trust. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG-TERM DEBT

The County had the following long-term debt outstanding as of December 31, 2024:

- A. On March 23, 2021, the County entered into a lease purchase agreement with Deere Credit, Inc., in the amount of \$539,820 for the purchase of two John Deere 772G Motor Graders. The lease purchase agreement is payable in five annual installments of \$63,870 starting in March 2021, with the final payment of \$261,252 due in February 2026. Interest on the lease purchase agreement is payable at 2.25%.

Fiscal Year Ending December 31,	Principal	Interest	Total
2025	\$ 56,751	\$ 7,119	\$ 63,870
2026	256,404	4,848	261,252
Totals	<u>\$ 313,155</u>	<u>\$ 11,967</u>	<u>\$ 325,122</u>

- B. On March 24, 2022, the County entered into a lease purchase agreement with Deere Credit, Inc., in the amount of \$1,146,620 for the purchase of four John Deere 772G Motor Graders with 6WD. The lease purchase agreement is payable in five annual installments of \$137,292 starting in March 2022, with a final payment of \$540,000 due in March 2027. Interest on the lease purchase agreement is payable at 2.05%.

Fiscal Year Ending December 31,	Principal	Interest	Total
2025	\$ 121,273	\$ 16,019	\$ 137,292
2026	123,783	13,509	137,292
2027	529,053	10,947	540,000
Totals	<u>\$ 774,109</u>	<u>\$ 40,475</u>	<u>\$ 814,584</u>

- C. In July 2023, the County entered into a lease purchase agreement in the amount of \$786,020 for the purchase of two John Deere 772G Motor Graders. The lease purchase agreement is payable in five annual installments of \$128,650 starting July 2023, with a final payment of \$286,261 due in August 2028. Interest on the lease purchase agreement is payable at 5.95%.

Fiscal Year Ending December 31,	Principal	Interest	Total
2025	\$ 93,861	\$ 34,789	\$ 128,650
2026	99,600	29,050	128,650
2027	105,691	22,959	128,650
2028	269,766	16,495	286,261
Totals	<u>\$ 568,918</u>	<u>\$ 103,293</u>	<u>\$ 672,211</u>

The following schedule shows changes in long-term debt during the year ended December 31, 2024:

Description	Balance 12/31/2023	Additions	Payments	Balance 12/31/2024	Interest Paid
2021 John Deere Graders	\$ 368,644	\$ -	\$ (55,489)	\$ 313,155	\$ 8,381
2022 John Deere Graders	892,923	-	(118,814)	774,109	18,478
2023 John Deere Graders	657,370	-	(88,452)	568,918	40,198

The following schedule shows changes in long-term debt during the year ended December 31, 2023:

Description	Balance 12/31/2022	Additions	Payments	Balance 12/31/2023	Interest Paid
2021 John Deere Graders	\$ 422,900	\$ -	\$ (54,256)	\$ 368,644	\$ 9,614
2022 John Deere Graders	1,009,328	-	(116,405)	892,923	20,887
2023 John Deere Graders	-	786,020	(128,650)	657,370	-

8. CONDUIT DEBT

The County issued two series of industrial revenue bonds (one for real property in the amount of \$7.4 million and one for personal property in the amount of \$4 million) to provide financial assistance to the private sector entity, Kawasaki Motors Manufacturing Corp., USA (Kawasaki), for the purpose of acquiring, constructing and equipping an industrial development project deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received pursuant to a real property lease agreement between the County and Columbia Property I, LLC (Columbia) and a personal property lease agreement between the County and Kawasaki. Upon repayment of the bonds, ownership of the financed assets will be transferred to Columbia or Kawasaki, as applicable. Neither the County, the State nor any political subdivision thereof is obligated in any manner for repayment of the bonds. The principal of the real property bonds is payable at maturity on December 1, 2031. The principal of the personal property bonds is payable at maturity on December 1, 2027.

9. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2024 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through October 31, 2025, the date the financial statements were available to be issued.

CERTIFIED PUBLIC ACCOUNTANTS

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the County Commission and
Officeholders of Cooper County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Cooper County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023 and 2024, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements, which collectively comprise Cooper County, Missouri's basic financial statements and have issued our report thereon dated October 31, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Cooper County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Cooper County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Cooper County, Missouri's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses, or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Cooper County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and questioned costs as item 2024-001.

Cooper County, Missouri's Response to Finding

Government Auditing Standards requires the auditor to perform limited procedures on Cooper County, Missouri's response to the finding identified in our audit and described in the accompanying schedule of findings and questioned costs. Cooper County, Missouri's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the County Commission and
Officeholders of Cooper County, Missouri

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Cooper County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Cooper County, Missouri's major federal programs for the years ended December 31, 2023 and 2024. Cooper County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Cooper County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2023 and 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Cooper County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Cooper County, Missouri's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Cooper County, Missouri's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Cooper County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Cooper County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Cooper County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Cooper County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Cooper County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

Our consideration of internal control over compliance was for the limited purposes described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we did identify a certain deficiency in internal control over compliance that we consider to be a material weakness.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2024-002 to be a material weakness.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on Cooper County, Missouri's response to the internal control over compliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. Cooper County, Missouri's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

See accompanying Notes to the Schedule of Expenditures of Federal Awards

COOPER COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEARS ENDED DECEMBER 31, 2023 AND 2024

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of Cooper County, Missouri for the years ended December 31, 2024 and 2023. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

COOPER COUNTY, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2023 AND 2024

SECTION I – SUMMARY OF AUDITOR’S RESULTS

Financial Statements:

Type of auditor’s report issued on whether the financial statements audited were prepared in accordance with GAAP: Adverse

Type of auditor’s report issued on whether the financial statements were prepared in accordance with the regulatory basis: Unmodified

The special purpose framework used as a basis of accounting was not required by state law.

Internal Control Over Financial Reporting:

- Material weakness(es) identified? Yes X No
- Significant deficiencies identified that are not considered to be material weaknesses? Yes X None Reported
- Noncompliance material to financial statements noted? X Yes No

Federal Awards:

Internal Control Over Major Programs:

- Material weakness(es) identified? X Yes No
- Significant deficiencies identified that are not considered to be material weaknesses? Yes X None Reported

Type of Auditor’s Report Issued on Compliance For Major Programs: Unmodified

Any audit findings disclosed that are required to be reported in accordance with Uniform Guidance section 200.516? X Yes No

Identification of Major Programs:

<u>Assistance Listing Number(s)</u>	<u>Name of Federal Program or Cluster</u>
21.027	Coronavirus State and Local Fiscal Recovery Funds

Dollar Threshold Used to Distinguish Between Type A and Type B Programs: \$750,000

Auditee Qualified as low-risk: Yes X No

SECTION II – FINANCIAL STATEMENTS FINDINGS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

None reported

ITEMS OF NONCOMPLIANCE

2024-001: Budgetary Compliance

Criteria: State statutes prohibit expenditures in excess of approved budgets and require the preparation of a formal budget for all County funds. Funds should not be budgeted to have a negative (deficit) ending balance (appropriations exceeding the beginning balance plus anticipated revenues).

Condition: The county did not adopt a formal budget for the National Opioids Settlement Fund in 2023. Additionally, the County exceeded budgeted expenditures for seven funds in 2023 and five funds in 2024. The detailed list can be found in Note 1.D.10 to the financial statements. Additionally, the County budgeted a negative ending fund balance for the American Rescue Plan Act Grant and FEMA Reimbursement Funds in 2024.

Cause: The County did not prepare formal budgets for all County funds, did not adequately review and amend budgeted expenditures of each fund to ensure actual expenditures did not exceed the budget amounts, and budgeted expenditures for certain funds in excess of their beginning available balance plus anticipated revenues.

Effect: Budgetary controls are significant to the proper management and custodianship of county funds. Compliance with statutory requirements related to budgets will improve controls over county funds and help maintain the integrity of the budget process.

Recommendation: We recommend that the County Commission adopt a formal budget for all County funds each year, and refrain from budgeting negative (deficit) fund balances for county funds. We also recommend the County adhere to the authorized spending limits as documented in the adopted County budget or follow the appropriate procedures to amend the budget.

County's Response: The County Commission will adopt a formal budget for all County funds each year, and refrain from budgeting negative (deficit) fund balances for County funds. The County will adhere to the authorized spending limits as documented in the adopted County budget or follow the appropriate procedures to amend the budget.

Auditor's Evaluation: The response is appropriate to correct the concern.

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2024-002: Internal Control Over Schedule of Expenditures of Federal Awards

Federal Grantor: U.S. Department of the Interior (DOI), U.S. Department of the Treasury (Treasury), U.S. Department of Health and Human Services (HHS), and U.S. Department of Homeland Security (DHS)

Pass-Through Grantor: Missouri Department of Public Safety, Missouri Department of Health and Senior Services

Federal Assistance Listing Number: 15.226, 15.659, 21.027, 21.032, 93.323, 97.137

Program Title: Payments in Lieu of Taxes, National Wildlife Refuge Fund, Coronavirus State and Local Fiscal Recovery Funds, Local Assistance and Tribal Consistency Fund, Epidemiology and Laboratory Capacity for Infectious Diseases, State and Local Cybersecurity Grant Program

Pass-through Entity Identifying Number: N/A

Award Year: 2023 and 2024

Questioned Costs: None

Criteria: 2 CFR 200.510(b) requires auditees to prepare a schedule of expenditures of federal awards (SEFA) which must report total federal awards expended during the audit period. At a minimum, the schedule must include: expenditures by individual federal program, name of the pass-through entity and identifying number for awards not received directly from the federal government, and the total amount provided to subrecipients from each federal program. This finding was noted in the prior audit for the year ending December 31, 2022 as item 2022-005.

Condition: The SEFA reported by the County in the 2024 and 2025 annual budget documents contained errors in amounts of federal expenditures reported. Discrepancies in amounts reported on the 2024 SEFA and amounts supported by underlying accounting records are summarized as follows:

Federal Agency	Assistance Listing Number	Program	Original SEFA	Supported	Difference
DOI	15.226	Payments in Lieu of Taxes	-	14,034	(14,034)
DOI	15.659	National Wildlife Refuge Fund	-	3,371	(3,371)
Treasury	21.027	Coronavirus State and Local Fiscal Recovery Funds	-	1,823,214	(1,823,214)
Treasury	21.032	Local Assistance and Tribal Consistency Fund	-	11,407	(11,407)
HHS	93.323	Epidemiology and Laboratory Capacity for Infectious Diseases	-	100,000	(100,000)
DHS	97.137	State and Local Cybersecurity Grant Program	-	3,020	(3,020)

Discrepancies in amounts reported on the 2023 SEFA and amounts supported by underlying accounting records are summarized as follows:

Federal Agency	Assistance Listing		Original SEFA	Supported	Difference
	Number	Program			
DOI	15.226	Payments in Lieu of Taxes	-	13,196	(13,196)
DOI	15.659	National Wildlife Refuge Fund	-	3,613	(3,613)
Treasury	21.027	Coronavirus State and Local Fiscal Recovery Funds	-	282,323	(282,323)
Treasury	21.032	Local Assistance and Tribal Consistency Fund	-	90,000	(90,000)

Cause: The County has not implemented a proper system of internal controls over SEFA preparation, such as reconciliation to underlying accounting records or having a separate individual review the SEFA for clerical accuracy after it had been prepared. The County believed that federal grant reimbursements did not have to be reported on the SEFA.

Effect: The SEFA presented for audit did not accurately reflect the County's actual expenditures of federal awards for both the years ended December 31, 2024 and 2023.

Recommendation: We recommend that the County implement internal controls to ensure that the SEFA completely and accurately states the expenditures of federal awards of the County each year.

County Response: The County Clerk working alongside the County Treasurer will use the recommendations from the auditors to implement internal controls to ensure that the accuracy of the SEFA expenditures is correctly reported.

Auditor's Evaluation: The response is appropriate to correct the concern.

MANAGEMENT'S RESPONSE TO AUDITOR'S FINDINGS:

- **Summary Schedule of Prior Audit Findings**
 - **Corrective Action Plan**

Cooper County Clerk

COOPER COUNTY, MISSOURI SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

In accordance with the Uniform Guidance, this section reports the follow-up on action taken by Cooper County, Missouri on the applicable findings in the prior audit report issued for the year ended December 31, 2022.

2022-001: During the audit, it was noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The following funds had actual expenditures that exceeded budgeted expenditures: Assessment Fund, Law Enforcement Training Fund, Law Enforcement Restitution Fund, and Overton Wooldridge Levee Fund. The following funds did not have a budget prepared for 2022: Adult Abuse Fund and Local Assistance and Tribal Consistency Fund.

Status: Not resolved, see finding 2024-001.

2022-002: There is no formal fraud risk assessment in place.

Status: Considered resolved.

2022-003: Documentation of the County's internal controls has not been prepared.

Status: Considered resolved.

2022-004: The recorded transfers in did not equal the recorded transfer out in both the 2022 budgeted and actual revenue and expenditures.

Status: Considered resolved.

2022-005: The Schedule of Expenditures of Federal Awards (SEFA) contained errors. The County's current internal controls over SEFA reporting are not sufficient to ensure correct reporting.

Status: Not resolved, see finding 2024-002.

CERTIFIED PUBLIC ACCOUNTANTS

October 31, 2025

To the County Commission
Cooper County, Missouri

We have audited the regulatory basis financial statements of Cooper County, Missouri for the years ended December 31, 2023 and 2024. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 14, 2025. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Cooper County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2023 and 2024. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 31, 2025.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2023 and 2024, we considered Cooper County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated October 31, 2025. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

Internal Controls Over Credit Cards

Our review of credit card statements during the audit period noted multiple instances in which finance charges were paid by the County. After inquiry, we noted that multiple credit cards are provided to elected officials and department heads, who are required to submit supporting documentation to the County Commission's and the County Clerk's offices before their credit card statement can be paid. The County Clerk's office experienced issues in which the credit card holder did not provide the supporting documentation in a timely manner, which resulted in late fees and interest charges. The County does not have a written policy controlling the use of credit cards by officeholders. We recommend the County implement procedures to ensure purchases are authorized, and supporting documentation is provided to the County Clerk in a timely manner to ensure credit card statements are paid timely to avoid any late fees and interest charges.

Prosecuting Attorney Bank Reconciliations

The Prosecuting Attorney's office does not perform adequate reconciliations of monthly bank statements for the Special Trust account. There is no process in place to compare the bank balance to a running balance of cash or liabilities within the system to ensure all transactions are recorded. Through discussion with staff, every two or three months the account is reviewed for outstanding checks, however, a formal reconciliation between the book and bank balances is not documented. We recommend the Prosecuting Attorney's office implement procedures to ensure proper monthly bank reconciliations are performed to ensure that all transactions are properly recorded in the accounting system.

Other Matters

We were engaged to report on the Schedule of Expenditures of Federal Awards, which accompanies the financial statements but is not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles prescribed or permitted by Missouri law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of Cooper County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions, other than cities, towns, and villages, required to file a financial report under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office shall notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Due to different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 110 political subdivisions required to file a financial report by October 31, 2025, is presented in summary on page 3 and in detail in Appendix A. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in October 2025, after their filing deadline. The filing status for these 17 entities is presented in summary on page 3 and by individual entity in Appendixes B and C.

A handwritten signature in black ink that reads "S. Fitzpatrick". The signature is stylized with a large "S" and a cursive "Fitzpatrick".

Monthly Report on Political Subdivision Filings

October 2025

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

This report includes the filing status for the 110 political subdivisions, other than cities, towns, and villages, with a fiscal year end of April 30, 2025. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 110 political subdivisions, 99 filed an annual financial report timely.

This report also includes the filing status for 17 political subdivisions, other than cities, towns, and villages, that filed their financial report in October 2025, after their filing deadline.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by October 31, 2025, under Section 105.145, RSMo, and 15 CSR 40-3.030 and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) shall notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO shall notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Due to different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 18 cities, 1 town, and 4 villages is presented in summary on page 3 and in detail in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in October 2025, after their filing deadline. The filing status for these 20 cities and 3 villages is presented in summary on page 4 and by individual entity in Appendixes B to E.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive, flowing style.

Scott Fitzpatrick
State Auditor

Monthly Report on Municipal Court and Revenue Filings

October 2025

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedure to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. Rule 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires the SAO to notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359, RSMo, and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and a mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 18 cities, 1 town, and 4 villages with a fiscal year end of April 30, 2025, whose financial report was due by October 31, 2025. Of the 23 municipalities, 16 filed the financial report timely. Of the 16 municipalities required to file an addendum, 9 filed timely. Of the 6 municipalities required to file a certification, 3 filed timely.

Monthly Report on Municipal Court and Revenue Filings
October 2025
Executive Summary

This report includes the filing status for 20 cities and 3 villages that filed at least one of the items (financial report, addendum, or certification) in October 2025, after their filing deadline. Of these municipalities, 8 filed an annual financial report, 16 filed an addendum, and 2 filed a certification.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
and
Boards of Directors of Fire Protection
Districts in St. Louis County

Certain fire protection districts are required by Section 321.690, RSMo, to be audited and to submit their audit reports to the State Auditor's Office (SAO). To address our statutory responsibilities of Section 321.690.3, RSMo, and regulatory requirements of 15 CSR 40-4.010 to 15 CSR 40-4.020, we have reviewed the independent audit reports of the fire protection districts in St. Louis County for audit periods ending December 31, 2024, submitted as of November 5, 2025. The purpose of this review is to evaluate the districts' compliance with statutory audit requirements and SAO regulations included in the Code of State Regulations. Because our review is limited to statutory and regulatory compliance, we do not express an opinion or any other form of assurance on the audit reports.

There are 23 fire protection districts in St. Louis County. Each district has a fiscal year end of December 31. All of the districts, except for Kinloch and Northeast Ambulance, submitted audit reports for the year ended December 31, 2024. Section 321.690.2, RSMo, requires certain fire protection districts to have an audit performed biennially, and Section 321.690.3, RSMo, requires the districts to forward the audit report to our office within 6 months of fiscal year end. The Kinloch and Northeast Ambulance districts did not timely obtain the required independent audits for the year ended December 31, 2024. However, the districts have engaged independent auditors to perform an audit for that period. Upon completion of the audits, the districts are expected to submit the reports to the SAO.

As noted in our prior report, No. 2024-093, *St. Louis County Fire Protection Districts*, issued in November 2024, the district of Kinloch did not timely obtain the required independent audit for the year ended December 31, 2022, and the districts of Florissant Valley and Kinloch did not timely obtain the required independent audits for the year ended December 31, 2023. The SAO received the audit report for the year ended December 31, 2022, for the district of Kinloch on February 12, 2025, subsequent to that review. The SAO received the audit reports for the year ended December 31, 2023, for the district of Florissant Valley on October 29, 2025, and the district of Kinloch on August 29, 2025, subsequent to that review.

The SAO posts the individual audit reports to the office's website. A searchable link is available at <https://auditor.mo.gov>. A table summarizing our review of the submitted audit reports follows.

District	Audit Report Period	Report Complied with Section 321.690.3, RSMo	Findings in Independent Audit Report

¹ Due to noncompliance in a previous period, the SAO reviewed the audit report for the year ended December 31, 2023, submitted October 29, 2025. The audit report had an audit finding and was in compliance with Section 321.690.3, RSMo, except for being filed after the statutory deadline.

² The district filed the audit report after the statutory deadline of 6 months after the close of the fiscal year end.

³ Due to noncompliance in previous periods, the SAO reviewed the audit reports for the years ended December 31, 2022, and 2023, submitted February 12, 2025, and August 29, 2025, respectively. The audit reports had audit findings and were in compliance with Section 321.690.3, RSMo, except for being filed after the statutory deadline.

Except for the districts of Kinloch and Northeast Ambulance failing to obtain and submit an audit report, we identified no other concerns from our review of the audit reports submitted by the St. Louis County fire protection districts.

Scott Fitzpatrick
State Auditor

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
and
Boards of Directors of Fire Protection
Districts in Greene County

Certain fire protection districts are required by Section 321.690, RSMo, to be audited and to submit their audit reports to the State Auditor's Office (SAO). To address our statutory responsibilities of Section 321.690.3, RSMo, and regulatory requirements of 15 CSR 40-4.010 to 15 CSR 40-4.020, we have reviewed the independent audit reports of the fire protection districts in Greene County for audit periods ending December 31, 2024, submitted as of November 7, 2025. The purpose of this review is to evaluate the districts' compliance with statutory audit requirements and SAO regulations included in the Code of State Regulations. Because our review is limited to statutory and regulatory compliance, we do not express an opinion or any other form of assurance on the audit reports.

There are 11 fire protection districts in Greene County. Each district has a fiscal year end of December 31. All of the districts submitted audit reports for the year or 2 years ended December 31, 2024, when required. Section 321.690.2, RSMo, requires certain fire protection districts to have an audit performed biennially, and Section 321.690.3, RSMo, requires the districts to forward the audit report to our office within 6 months of fiscal year end. Some of the districts were not required to submit a report in 2025, because they obtain biennial audits and the most recent audit report submitted was for the 2 years ended December 31, 2023. These districts are expected to submit a biennial audit report for the 2 years ended December 31, 2025.

As noted in our prior report, No. 2024-092, *Greene County Fire Protection Districts*, issued in November 2024, the district of Ash Grove did not timely obtain the required independent audit for the 2 years ended December 31, 2023. The SAO has yet to receive a report from the district of Ash Grove, as of November 7, 2025. However, the district has engaged independent auditors to perform an audit for that period. Upon completion of the audit, the district is expected to submit the report to the SAO.

The SAO posts the individual audit reports to the office's website. A searchable link is available at <https://auditor.mo.gov>. A table summarizing our review of the submitted audit reports follows.

District	Audit Report Period	Report Complied with Section 321.690.3, RSMo	Findings in Independent Audit Report
Ash Grove	Not applicable ¹		
Battlefield	1 Year Ended 12/31/24	Yes	Yes
Bois D'Arc	Not applicable ²		
Brookline	2 Years Ended 12/31/24	Yes	No
Ebenezer	1 Year Ended 12/31/24	Yes	No
Fair Grove	2 Years Ended 12/31/24	Yes	Yes
Logan-Rogersville	2 Years Ended 12/31/24	Yes	No
Strafford	1 Year Ended 12/31/24	Yes	Yes
Walnut Grove	1 Year Ended 12/31/24	Yes	Yes
West Republic	2 Years Ended 12/31/24	Yes ³	Yes
Willard	1 Year Ended 12/31/24	Yes	Yes

¹ The district has not yet obtained or submitted the required audit report for the 2 years ended December 31, 2023, as indicated in our prior audit report, No. 2024-092, *Green County Fire Protection Districts*, issued in November 2024. The district has contracted for an audit to cover this period, so the next audit is expected to cover the 2 years ended December 31, 2025, and is required to be submitted to the SAO no later than June 30, 2026.

² The fire protection district had an independent audit for the 2 years ended December 31, 2023. The district's next audit is expected to cover the 2 years ended December 31, 2025, and is required to be submitted to the SAO no later than June 30, 2026.

³ The district filed the audit report after the statutory deadline of 6 months after the close of the fiscal year end.

Except for the district of Ash Grove failing to obtain and submit an audit report for a prior period, we identified no other concerns from our review of the audit reports submitted by the Greene County fire protection districts.

Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the City of Chula

Oversight and Accounting Controls and Procedures

The Board of Aldermen has not established adequate oversight over various financial accounting functions, such as (1) receipting and depositing money, (2) reviewing and approving bank reconciliations, (3) following up on outstanding checks, (4) reviewing and approving financial reports, and (5) reviewing and approving annual budgets timely. The Board overlooked the existence of a city bank account, and related certificate of deposit, that was established prior to April 2014 for the city's community center operations. As a result, activity and operations within this account occurred without oversight from the board. The city did not file annual financial reports with the State Auditor's Office as required by state law for each of the 7 years ended June 30, 2024. As a result, information regarding the city's financial activity and condition is not available to citizens, and a daily fine is actively accruing on the city. According to the Department of Revenue (DOR), the city's total fine is \$1,159,000 through June 30, 2025. Because the city does not impose a sales or use tax, the DOR has not recouped any money from the city, but indicated if the city imposes such a tax in the future, the DOR would begin recouping the fine from any tax distributions the DOR would make to the city. The city has not obtained annual audits of its combined waterworks and sewerage system as required by state law. The city does not publish or post semiannual financial statements as required by state law.

Sunshine Law

The Board did not always comply with Sunshine Law requirements for closed meetings. During the fiscal year ended June 30, 2024, the board held 2 closed meetings. Minutes for both closed meetings did not include sufficient detail to ensure topics discussed were allowable, and included little or no description of the topics discussed. The board did not always document the reasons to enter closed meetings in open meeting minutes as required. In addition, the cited reasons were not always relevant, based on the limited detail available in the closed minutes, and topics discussed in closed meetings were not always allowable under the Sunshine Law. Additionally, the board has not adopted a written policy regarding public access to city records as required by state law. A written policy regarding public access to city records would establish guidelines for the city to make records available to the public.

Board Meeting Without Quorum

During the January 15, 2024, open meeting, the attending board members did not constitute a quorum, but approved a new ordinance under the mistaken belief a quorum was present.

Electronic Communication
Policy

The city has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

In the areas audited, the overall performance of this entity was Fair .*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

To the Honorable Mayor Pro-Tem
and
Members of the Board of Aldermen
City of Chula, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the City of Chula. We have audited certain operations of the city in fulfillment of our duties. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2024. The objectives of our audit were to:

1. Evaluate the city's internal controls over significant management and financial functions.
2. Evaluate the city's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and performing sample testing using judgmental selection. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We also obtained an understanding of city operations as they relate to citizen concerns significant to our objectives including open records (Sunshine) law compliance, budgets and financial statements, receipts, expenditures, and oversight by the Board of Aldermen. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Chula.

A handwritten signature in black ink, appearing to read "Scott Fitzpatrick". The signature is stylized with a large initial "S" and a prominent "F".

Scott Fitzpatrick
State Auditor

City of Chula

Management Advisory Report

State Auditor's Findings

1. Oversight and Accounting Controls and Procedures

The Board of Aldermen has not established adequate oversight over city accounting functions. In addition, significant weaknesses exist in the city's accounting controls and procedures.

1.1 Oversight

The Board of Aldermen has not established adequate oversight over various financial accounting functions, such as (1) receipting and depositing money, (2) reviewing and approving bank reconciliations, (3) following up on outstanding checks, (4) reviewing and approving financial reports, and (5) reviewing and approving annual budgets timely. Weaknesses identified throughout this report are significant and demonstrate a lack of proper oversight by the Board.

Proper segregation of duties helps ensure transactions are accounted for properly and assets are adequately safeguarded. Since there is only 1 part-time employee, the City Clerk, to handle all of the city's financial responsibilities, proper segregation of duties is not possible; therefore, timely supervisory or independent reviews of work performed and investigation into unusual items and variances is necessary. Good management practices require extensive and detailed oversight by the board. The Mayor indicated the board was relying solely on the City Clerk, because they trusted her to perform her job functions.

1.2 Chula Community Center account and operations

The Board of Aldermen overlooked the existence of a city bank account, and related certificate of deposit, that was established prior to April 2014 for the city's community center operations. As a result, activity and operations within this account occurred without oversight from the board. During the year ended June 30, 2024, account activity included \$33,416 in receipts and \$21,502 in disbursements for an ending balance of \$49,869, and covered the city's annual street fair, periodic community center rentals, and other utility and maintenance costs of the community center. The certificate of deposit had a balance of \$2,347 at June 30, 2024.

Several factors contributed to the board overlooking the existence of the accounts. The bank account, established in one of the city's current banks, was titled "Chula Community Center, Inc." for a "Corporation - Non-Profit" purpose, and was not registered under the city's tax ID. This classified it as an entity separate from the city and its other bank accounts at the same bank, which are titled "City of Chula" for "State Political" purposes. It is unclear why the city chose this classification. The Board of Aldermen indicated the decision may relate to the city's prior use of a separate community center board to oversee the account and operations, which dissolved at least 10 years

City of Chula Management Advisory Report - State Auditor's Findings

ago. The bank account's signature card was most recently updated in April 2014.

The Board of Aldermen also stated that after the dissolution, the City Clerk single-handedly managed the operations and accounts, without regular communication with the Board regarding the account or activity. In addition, the activity in this account was not included in the city's budgets, and there were no related discussions documented in the board meeting minutes for the year ending June 30, 2024. However, all checks that cleared the bank during that period were signed by 2 board members, and the only current board member who was also on the board at that time indicated he remembered signing checks for this account. It is unclear why board members would sign checks but not incorporate the account into city budgets, or provide related oversight.

Auditors used the transaction information available to review the account activity for the year ending June 30, 2024, and such activity appeared reasonable for community center operations. However, supporting documents such as receipts slips or invoices were not available because the City Clerk did not create, retain, or comprehensively provide such documents. This outcome, and other auditor observations of the City Clerk's handling of the account, are similar to (and/or contribute to) concerns raised over the city's standard operations noted throughout the remainder this finding.

The isolation of the city's community center operations and accounts, and the absence of board oversight, reduces assurance that account activity is appropriate, necessary, supported, and aligned with the board's expectations.

1.3 Receipting and depositing

The city's procedures for receipting and depositing money need improvement. As a result, there is reduced assurance all money collected is properly receipted and deposited.

When receiving payments for water and sewer bills, the City Clerk does not always give receipt slips or deposit money timely. Payments are made at city hall in a drop box, by mail, or sometimes dropped off at the City Clerk's residence. The City Clerk is a part-time employee and has a separate full-time job, causing inconsistencies in timing of deposits.

Receipt slip concerns

The City Clerk did not issue receipt slips for all money received. We reviewed all 1,037 cash, check, money order, and online payments for utility bills entered in the city's utility system from July 1, 2023, through June 30, 2024.¹ For the 826 payments made by cash, check, or money order, the City Clerk

¹ Specific details such as receipt counts, check counts, and dollar amounts discussed in this finding, as well as sections 1.4, and 1.9, do not cover the Chula Community Center account discussed in section 1.2.

City of Chula Management Advisory Report - State Auditor's Findings

only issued 21 receipt slips (less than 3% of such payments). These receipt slips were not always issued in numerical sequence, and did not always indicate the method of payment. The remaining 211 receipts reviewed were online payments, which do not require the City Clerk's physical handling, and therefore, do not require the City Clerk to issue a receipt slip.

Receipts not deposited timely The City Clerk did not make deposits timely. We used the city utility system's daily deposit reports and bank statements to trace the 1,037 receipts to 103 bank deposits. The following table summarizes the number of days between a given receipt batch and the subsequent deposit. Of the 103 deposits, 41 deposits, or approximately 40%, were not deposited within 1 week of receipt.

Days Between Receipt and Deposit	Count	Percent
0 days (same day deposit)	9	9
1 - 7 days	53	51
8 - 30 days	25	24
31 - 60 days	11	11
61 - 90 days	2	2
91 - 120 days	0	0
Over 120 days	3	3
Totals	103	100

Conclusion

Failure to implement adequate receipting and depositing procedures increases the risk that loss, theft, or misuse of money will occur and increases the likelihood that errors will go undetected.

1.4 Outstanding checks

The city has not established procedures to follow up on outstanding checks. As of June 30, 2024, at least 192 checks totaling \$63,919² were outstanding for up to 18 years with dates ranging from August 28, 2006, to June 10, 2024. These checks are summarized below and reflected approximately 11% of the city's bank balances as of June 30, 2024. The City Clerk performs monthly bank reconciliations and maintains lists of outstanding checks, but did not provide either to the board or act on these checks. The City Clerk indicated she did not realize she should be providing these lists to the board. It is also unclear why the City Clerk did not act on the outstanding checks.

- The majority of the outstanding checks, 138 checks totaling \$58,232, were issued to the City Clerk. According to the City Clerk and the Mayor Pro-Tem, most of these checks were payroll checks, with occasional payments reflecting reimbursements for supplies or other tasks. In addition, the City Clerk indicated she did not cash all checks because she

² This includes an entry for negative \$388 in the City Clerk's bank reconciliation support to correct an unspecified error occurring prior to 2019.

City of Chula Management Advisory Report - State Auditor's Findings

has a separate full-time job, she lost track of their accumulation over time, and she no longer possesses all of the checks.

- The city issued 25 checks totaling \$1,562 to the City Clerk's family members from 2010 to 2017 that remain outstanding. According to the City Clerk and the Mayor Pro-Tem, these were payroll checks for periods in which the family members performed city tasks such as taking water samples and reading water meters. In addition, the City Clerk indicated she did not ensure family members cashed all checks because she lost track of their accumulation over time, and they no longer possess all of the checks.
- The outstanding checks included 29 checks totaling \$4,513 to various third parties, including individuals, companies, and other governmental organizations, for various services. The City Clerk and the Mayor Pro-Tem indicated the city had not been contacted by these third parties for re-issuance of the checks.

Procedures to routinely follow up on and reissue outstanding checks, as appropriate, are necessary to prevent the accumulation of money in the account and to ensure funds are disbursed to the appropriate payees or as otherwise provided by state law. Section 447.532, RSMo, provides that any funds held by a political subdivision that remain unclaimed for more than 3 years should be turned over to the Missouri State Treasurer's Unclaimed Property Division.

1.5 Financial reporting

The city did not file annual financial reports with the State Auditor's Office (SAO) as required by state law for each of the 7 years ended June 30, 2024. As a result, information regarding the city's financial activity and condition is not available to citizens, and a daily fine is actively accruing on the city. The Department of Revenue (DOR) indicated the city's total fine is \$1,159,000 through June 30, 2025, which began accruing on February 25, 2019. Because the city does not impose a sales or use tax, the DOR has not recouped any money from the city. The DOR further indicated if the city imposes such a tax in the future, the DOR would begin recouping the fine from any tax distributions the DOR would make to the city.

The City Clerk indicated her part-time employment, prioritization of monthly responsibilities, and other difficulties managing the city's accounting ledgers left her unable to prioritize the annual financial reports. A similar condition was noted in a previous audit report.³

³ Report No. 2011-21, *City of Chula*, issued in May 2011.

City of Chula
Management Advisory Report - State Auditor's Findings

Section 105.145, RSMo, requires each political subdivision to file annual reports of financial transactions with the SAO. Section 105.145.5, RSMo, prohibits elected officials from continuing to receive compensation or processing disbursements after the deadline to submit the financial statement and until the financial statement is submitted to the SAO. Section 105.145.9, RSMo, requires political subdivisions to be fined \$500 per day for missing filing deadlines. In addition, 15 CSR 40-3.030, requires each political subdivision to file annual reports within 6 months of the end of the subdivision's fiscal year.

1.6 Annual audits

The city has not obtained annual audits of its combined waterworks and sewerage system as required by state law. The Board of Aldermen and City Clerk indicated they were unaware audits were required, even though a similar condition was noted in a previous audit report.⁴

Section 250.150, RSMo, requires the city to obtain annual audits of the combined waterworks and sewerage system with the cost of the audit to be paid from revenues received from the system.

1.7 Published financial statements

The city does not publish or post semiannual financial statements as required by state law. As a result, information regarding the city's financial activity and condition is not available to citizens. The City Clerk indicated her part-time employment, prioritization of monthly responsibilities, and other difficulties managing the city's accounting ledgers left her unable to prioritize the semiannual financial statements.

Section 79.160, RSMo, requires the city to prepare and publish semiannual financial statements in a local newspaper.

1.8 Budgets

The city did not timely prepare and approve a budget for the fiscal year ended June 30, 2024. The budget was presented to the board and approved on December 14, 2023, almost 6 months after the fiscal year started. The City Clerk indicated she forgot to create the budget and the city operated on the previous fiscal year's budget. Board members were not aware the budget was past due. Not having a budget prepared and approved timely can limit the city's ability to plan for the future and effectively allocate resources based on community needs.

A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific financial expectations for each area of city's operations. It also informs the public about city operations and current finances. Section 67.010, RSMo, requires the budget present a complete financial plan for the ensuing budget

⁴ Report No. 2011-21, *City of Chula*, issued in May 2011.

City of Chula Management Advisory Report - State Auditor's Findings

year and sets specific guidelines for the information to be included in the budget. In addition, Section 67.080, RSMo, provides that no expenditures of public money should be made unless it is authorized in the budget. Proper monitoring of budgeted amounts to actual results is necessary for the budget to be an effective management tool.

1.9 Check sequence

The city did not always write checks in numerical order. Out of 112 checks issued during the year ended June 30, 2024, there were 6 skipped checks whose disposition (unused, voided, outstanding, etc.) could not be determined. The City Clerk used checks from multiple checkbooks at once, which created sequence gaps in the check numbers or made it appear checks were issued out of order. The City Clerk indicated she sometimes used different checkbooks on the basis of convenience, and did not want to waste older checkbooks. In other instances, it is unclear why the City Clerk issued checks out of the most current checkbook out of order.

Issuing checks out of sequence and using multiple checkbooks increases the risk of disbursements that are unauthorized or unaccounted for. Issuing checks in numerical sequence and accounting for the numerical sequence of checks issued would help to properly account for all disbursements and reduce the risk of unauthorized transactions.

Recommendations

The Board of Aldermen:

- 1.1 Establish oversight over the city's financial accounting functions to the extent possible and implement appropriate reviews and monitoring procedures.
- 1.2 Establish oversight for the city's community center operations and accounts, and include them in the city's standard operations and accounts, including annual budget efforts, as appropriate.
- 1.3 Ensure pre-numbered receipt slips are issued in numerical sequence for all money received, the numerical sequence of receipt slips is accounted for, and receipt slips indicate the method of payment. In addition, the board should ensure deposits are made timely.
- 1.4 Establish procedures to routinely detect and investigate outstanding checks. Old outstanding checks should be voided and reissued to payees that can be readily located. If payees cannot be located, the funds should be disposed of in accordance with state law.
- 1.5 Submit annual financial reports to the State Auditor's Office as required by state law.

City of Chula
Management Advisory Report - State Auditor's Findings

- 1.6 Obtain annual audits of the combined waterworks and sewerage system as required by state law.
- 1.7 Publish semiannual financial statements as required by state law.
- 1.8 Timely prepare and approve annual budgets, and ensure budgets are adequately monitored.
- 1.9 Ensure checks are issued in numerical sequence with the sequence properly accounted for.

Auditee's Response

The Board's written response indicates it will act on the recommendations. The Board's full response is included in the Appendix.

2. Sunshine Law

The Board of Aldermen did not always ensure compliance with the Sunshine Law.

2.1 Closed meetings

The board did not always comply with Sunshine Law requirements for closed meetings. During the fiscal year ended June 30, 2024, the board held 2 closed meetings, on August 21, 2023, and May 1, 2024.

Insufficient detail

Minutes for both closed meetings did not include sufficient detail to ensure topics discussed were allowable, and included little or no description of the topics discussed. The August 21, 2023, closed minutes only mention the closing of a street "for liability reasons." The City Clerk and Mayor Pro-Tem later explained to auditors the board was concerned over the possibility of litigation because a company was building a permanent truck scale exit on a city street. The May 1, 2024, closed minutes only mention "Discussion was held with their [the board's] attorney" and it is unclear what the discussion covered, or if any decisions were made. The board indicated it was not aware greater detail in the closed meeting minutes was needed.

Reasons for closed meetings

The board did not always document the reasons to enter closed meetings in open meeting minutes as required. In addition, the cited reasons were not always relevant, based on the limited detail available in the closed minutes. The Mayor indicated the board was not aware it was required to document its reasons in the open meeting minutes, and did not realize it was citing irrelevant reasons.

The August 21, 2023, open meeting minutes did not include the reason for the motion and vote to enter a closed meeting. The board only communicated the reasons for entering a closed meeting in the publicly posted agenda for the open meeting.

City of Chula Management Advisory Report - State Auditor's Findings

The board cited, Sections 610.021(1), (2), and (3), RSMo, in the August 21, 2023, open meeting agenda, and the May 1, 2024, open meeting minutes as reasons to close both meetings. Of these reasons, none were relevant for the August 21, 2023, meeting, and only Section 610.021(1), RSMo, was relevant for the May 1, 2024, meeting: "Legal actions, causes of action or litigation involving a public governmental body and any confidential or privileged communications between a public governmental body or its representatives and its attorneys." The board's attorney was present for that meeting, but not the August 21, 2023, closed meeting. The remaining citations, Sections 610.021(2) and (3), RSMo, allow closed meeting discussions over "Leasing, purchase or sale of real estate by a public governmental body where public knowledge of the transaction might adversely affect the legal consideration therefor," as well as "Hiring, firing, disciplining or promoting of particular employees by a public governmental body when personal information about the employee is discussed or recorded." However, because the board does not appear to have actually discussed these subjects during either closed meeting, the board should not have cited them as reasons.

Allowable topics

Based on the information documented in the August 21, 2023, closed minutes, that meeting's topic was not allowable under the Sunshine Law. There is not a section within Section 610.021, RSMo, allowing the board to close meetings for street closures, which was the basis for the closure of this meeting. In addition, the board's attorney did not attend this closed meeting, and the Sunshine Law does not include a provision for possible litigation. The board indicated its decision to enter this closed meeting was an oversight because it does not often close meetings.

Conclusion

Section 610.020.7, RSMo, requires meeting minutes to be maintained as a record of business conducted and to provide an official record of the board's actions and decisions. Section 610.021, RSMo, provides that the discussion topics and actions in closed meetings are limited to only those specifically allowed by law. Section 610.022.1, RSMo, requires public bodies to announce the specific reasons allowed by law for going into a closed meeting and to enter the vote and reason into the minutes. Sufficiently detailed meeting minutes are necessary to demonstrate compliance with statutory provisions and support decisions made.

Failure to sufficiently document the proceedings of closed meetings, document within open meeting minutes the relevant reasons for entering closed meetings, or discuss only allowable topics in closed meetings limits the usefulness of minutes and limits the public's ability to know and understand decisions.

2.2 Public access policy

The board has not adopted a written policy regarding public access to city records as required by state law. A written policy regarding public access to city records would establish guidelines for the city to make records available

City of Chula
Management Advisory Report - State Auditor's Findings

to the public. Such policies typically identify a person to contact, provide an address to mail such requests, and establish fees that may be assessed for providing copies of public records.

Section 610.023, RSMo, lists requirements for making records available to the public. Section 610.026, RSMo, allows the city to charge fees for providing access to and/or copies of public records and provides requirements related to fees. Section 610.028, RSMo, requires a written policy regarding release of information under the Sunshine Law. The Mayor indicated the board was not aware of these requirements.

Recommendations

The Board of Aldermen:

- 2.1 Ensure closed meeting minutes are sufficiently detailed, only relevant reasons for entering closed meetings are provided and documented in the open meeting minutes, and only topics allowed by state law are discussed in closed meetings.
- 2.2 Develop a written public access policy.

Auditee's Response

The Board's written response indicates it will act on the recommendations. The Board's full response is included in the Appendix.

3. Board Meeting Without Quorum

During the January 15, 2024, open meeting, the attending board members did not constitute a quorum, but approved a new ordinance under the mistaken belief a quorum was present. As a result, this approval was invalid. The board held 10 open meetings during the fiscal year ended June 30, 2024.

The January 15, 2024, open meeting minutes noted 2 aldermen were absent, with only 2 aldermen and the mayor present. The minutes stated there was a quorum, but 2 of the 4 aldermen did not constitute a quorum. The board approved a budget increase of \$2,000 for a code enforcement program and approved an ordinance to enter into a memorandum of understanding with a local commission for code enforcement services at this meeting. The Board of Aldermen and City Clerk stated they believed, since the mayor was also present, they had achieved a quorum.

In *Reynolds County Telephone Co. v. City of Piedmont*, 133 S.W. 141 (Mo. App. 1911), the court addressed whether 2 city aldermen and a city mayor constituted a quorum for the purpose of transacting official city business when the city had a total of 4 aldermen and a city mayor. The court held that 2 aldermen and the mayor did not constitute a quorum because the mayor did not have the full voting rights of an alderman and only could cast a vote in the event of a tie. Section 79.120, RSMo, in pertinent part, states, "[t]he mayor shall have a seat in and preside over the board of aldermen, but shall not vote on any question except in case of a tie[.]"

City of Chula Management Advisory Report - State Auditor's Findings

Section 79.130, RSMo, states no ordinance shall be passed except by bill, and no bill shall become an ordinance unless on its final passage a majority of the members elected to the board of aldermen shall vote for it, and the ayes and nays be entered on the journal. It was not possible for the majority of the board's members to vote, because the board did not achieve a quorum.

Recommendation

The Board of Aldermen ensure a quorum is present before holding an open meeting and voting on city business. In addition, the board should determine if additional votes need to be held for previous votes taken that lacked a quorum.

Auditee's Response

The Board's written response indicates it will act on the recommendation. The Board's full response is included in the Appendix.

4. Electronic Communication Policy

The city has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.⁵

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the city is retained as required by state law. The Board indicated it was unaware of the record retention requirements and the electronic communications guidelines.

Recommendation

The Board of Aldermen develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response

The Board's written response indicates it will act on the recommendation. The Board's full response is included in the Appendix.

⁵ Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <<https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>>, accessed July 21, 2025.

City of Chula

Organization and Statistical Information

The City of Chula is located in Livingston County. The city was incorporated in 1885 and is currently a fourth-class city. The city employed 1 City Clerk and 1 maintenance employee as of June 30, 2024. The city's population was 195 in 2020, according to the U.S. Census Bureau.

City operations include utilities (water, sewer, and trash) and street maintenance.

Mayor and Board of Aldermen

The city government consists of a mayor and 4-member board of aldermen. The members are elected for 2-year terms. The mayor is elected for a 2-year term, presides over the board, and votes only in the case of a tie. The Mayor and members of the Board of Aldermen, at June 30, 2024, are identified below. The Mayor and Board of Aldermen receive no compensation.

Vacant, Mayor (1)

Benny Simpson, Alderman North Ward, Mayor Pro-Tem (2)

Randy Hamilton, Alderman North Ward

Kyle Gramenz, Alderman South Ward

Jeremy Bru, Alderman South Ward

- (1) Vacant position since the April 2024 election results were certified on May 16, 2024. John Graves, the previous Mayor, did not run for reelection, and there were no other candidates for Mayor.
- (2) Benny Simpson was appointed Mayor Pro-Tem by the Board of Aldermen at the Board's June 10, 2024, meeting.

Financial Activity

A summary of the city's financial activity for the year ended June 30, 2024, follows.

City of Chula
Schedule of Receipts, Disbursements, and Changes in Cash
Year Ended June 30, 2024

	Sewer & Water Account (1)	Sewer Replacement/ Extension Account	Water Replacement/ Extension Account	Water & Sewer Account	General Account	Park Account	Street Account	Waterworks Account	Chula Community Center (1)	Certificates of Deposit	Total
RECEIPTS	\$ 137,292	12	12	12	0	0	21,380	0	33,416	367	192,491
DISBURSEMENTS	157,809	0	0	0	604	0	1,001	3,039	21,502	0	183,955
RECEIPTS OVER (UNDER) DISBURSEMENTS	(20,517)	12	12	12	(604)	0	20,379	(3,039)	11,914	367	8,536
CASH, JULY 1, 2023	345,326	1,016	1,016	1,074	11,749	3,160	163,937	22,851	37,955	40,716	628,800
CASH, JUNE 30, 2024	\$ 324,809	1,028	1,028	1,086	11,145	3,160	184,316	19,812	49,869	41,083	637,336

(1) The city used these accounts for all manual receipts and disbursements; other accounts were limited to automated electronic fund transfers.

Subject: Response to State Audit's Findings

1.1. Establish oversight over the city's financial accounting functions to the extent possible and implement appropriate reviews and monitoring procedures.

Auditee's Response to 1.1.

1. To further strengthen internal control over the city's financial accounting functions, the City continues to implement oversight procedures following the audit.

However, as a small fourth-class city with limited administrative staff, oversight of the City's financial accounting functions is structured within the capacity of the **City Clerk** and the **Board of Aldermen**.

The City Clerk serves as the primary custodian of financial records and is responsible for maintaining accounting books, preparing financial statements, and reconciling bank accounts. Oversight will be provided by the Board of Aldermen through regular review and approval processes.

Key oversight measures include:

- **Council review of financial reports:** The City Clerk prepares monthly and year-to-date financial statements and bank reconciliation summaries for review at regular Board of Aldermen meetings.
- **Formal approval of expenditures:** All disbursements and vendor payments are reviewed and approved by the Board of Aldermen prior to payment.
- **Budgetary oversight:** The Board of Aldermen adopts the annual budget and monitors expenditures against the approved budget throughout the year.
- **Dual review of transactions:** With every financial transaction such as transfers, check signings, and journal entries are reviewed or co-signed by at least one board member.

2. Implementation of Reviews and Monitoring Procedures

Given the City's size and limited staffing, the following monitoring procedures are in place following the audit to provide reasonable assurance of accuracy and compliance:

Appendix City of Chula Board's Responses to Audit Recommendations

- **Monthly bank reconciliations:** The City Clerk completes monthly bank reconciliations, which are presented to the Board of Aldermen for review and approval.
- **Regular financial reporting:** Financial statements showing revenues, expenditures, and fund balances are provided to the Board of Aldermen at least monthly.
- **Budget monitoring:** The Board of Aldermen reviews budget-to-actual comparisons to identify variances and ensure expenditures remain within approved limits.
- **Audit follow-up:** The Board of Aldermen reviews any audit findings or recommendations and directs corrective actions as needed.
- **Transparency measures:** Financial information and council meeting minutes are made available to the public, supporting accountability and transparency.

3. Continuous Improvement Efforts

The city is actively pursuing strengthening oversight and accountability by:

- Seeking training opportunities for the City Clerk and Board of Aldermen members on municipal accounting and financial management practices.
- Periodically reviewing internal processes to identify areas for improvement, such as enhancing documentation or expanding council review procedures.
- Consulting with external accountants or auditors as needed for technical assistance and independent verification of financial data.

1.2. Establish oversight for the city's community center operations and accounts, and include them into the city's standard operations and accounts, including annual budget efforts, as appropriate.

Auditee's Response to 1.2.

1. To further strengthen internal control over financial controls over all city accounts, including the Community Center account.

To ensure proper accountability, oversight, and compliance with Missouri statutes and sound financial practices, the following measures are being implemented:

2. Board Oversight and Authorization

All Community Center revenues and expenditures will be recorded as part of the City's financial records and included in the monthly Treasurer's Report.

The Board of Aldermen will review and approve all disbursements from the Community Center accounts during regular or special meetings documented in the meeting minutes.

3. Deposits and Receipts

All funds received from Community Center rentals, deposits, or other revenues will be promptly

Appendix
City of Chula
Board's Responses to Audit Recommendations

received using pre-numbered receipt forms or an electronic receipt system.
Deposits will be made weekly.

4. Disbursement Controls

All disbursements will be made by check or electronic payment supported by original invoices or other documentation.
Two authorized signatures (typically the Mayor and City Clerk/Treasurer) will be required on all checks.

5. Recordkeeping and Reconciliation

The City Clerk/Treasurer will maintain detailed records of all Community Center receipts, disbursements, and account balances.
Monthly bank reconciliations will be prepared and reviewed by the Mayor and presented to the Board for verification.

6. Use of Funds

Community Center funds will be used solely for the operation, maintenance, and improvement of the Community Center, as approved by the Board of Aldermen.

7. Policy Adoption and Review

The Board of Aldermen will formally adopt these internal control procedures as part of the City's Financial Policies Manual.
The procedures will be reviewed annually or as needed to ensure continued compliance and effectiveness.

By implementing these internal controls, the City of Chula, Missouri, ensures that the Community Center account is properly managed, transparent, and subject to the same oversight as all other city funds.

1.3. Ensure pre-numbered receipt slips are issued in numerical sequence for all money received, the numerical sequence of receipt slips is accounted for, and receipt slips indicate the method of payment. In addition, the board should ensure deposits are made timely.

Auditee's Response to 1.3.

1. Oversight and Procedures for Receipt Slips

Following the audit, the City has implemented procedures to ensure that **all monies received are properly receipted, recorded, and deposited** in accordance with sound financial practices.

Key measures include:

Appendix
City of Chula
Board's Responses to Audit Recommendations

- **Use of pre-numbered receipt slips:**
The City Clerk issues pre-numbered receipt slips for **all payments received**, whether by cash, check, or other form. The receipt book is maintained in numerical sequence to ensure all receipts are accounted for.
- **Sequential control and reconciliation:**
The City Clerk periodically reviews the numerical sequence of receipts to verify that all receipt numbers are used in order, with no gaps or duplicates. Any voided or spoiled receipts are retained and marked "VOID" for audit purposes.
- **Documentation of payment method:**
Each receipt slip clearly indicates the **payer's name, amount, purpose of payment, and method of payment** (cash, check, money order, etc.). This information is recorded both on the receipt and in the City's accounting records.
- **Council review:**
The Board of Aldermen reviews receipt listings or deposit summaries, along with monthly financial reports, to confirm that receipts are being issued and recorded appropriately.

2. Timely Deposits

The City has adopted a policy to ensure that all collections are deposited promptly to safeguard public funds.

- **Deposit schedule:**
All money received is deposited into the City's official bank account **within 24 to 48 hours of receipt**, or the next business day if received on a weekend or holiday.
- **Deposit documentation:**
Bank deposit slips are attached to corresponding receipt records and retained for reconciliation.
- **Council oversight:**
Deposit activity is included in the monthly financial report presented to the Board of Aldermen. The Board reviews these reports to verify that deposits are made timely and correspond to recorded receipts.

3. Continuous Improvement

To further strengthen internal control over collections and deposits, the City continues to:

- Periodically review receipt books and deposit records for completeness and accuracy.
- Provide training for the City Clerk and Council members on cash handling and documentation practices.
- Explore low-cost accounting software or tracking tools to assist with reconciliation and reporting.

Appendix
City of Chula
Board's Responses to Audit Recommendations

1.4. Establish procedures to routinely detect and investigate outstanding checks. Old outstanding checks should be voided and reissued to payees that can be readily located. If payees cannot be located, the funds should be disposed of in accordance with state law.

Auditee's Response to 1.4.

1. Oversight and Review Procedures

To further strengthen procedures to routinely detect, review, and resolve **outstanding checks** to ensure accurate financial reporting and compliance with state law.

- **Monthly review of outstanding checks:**
As part of the monthly bank reconciliation process, the City Clerk reviews the list of outstanding checks to identify any items that remain uncleared for an extended period.
- **Investigation of old items:**
Checks outstanding for more than **90 days** are investigated by contacting the payee, verifying mailing addresses, and confirming whether replacement is necessary. If the payee can be located, the original check is voided and a **replacement check** is issued.
- **Recordkeeping:**
Voided checks are clearly marked and retained for audit documentation. Adjustments are recorded in the City's accounting system to ensure reconciliation with bank balances.

2. Disposition of Unclaimed Funds

If payees **cannot be located** after reasonable efforts, the City will follow applicable **state unclaimed property laws** for handling those funds.

- **State compliance:**
Funds remaining unclaimed after the statutory holding period are reported and remitted to the **Missouri State Treasurer's Unclaimed Property Division** (or the applicable state agency, if different).
- **Documentation:**
Copies of correspondence and reports submitted to the state are retained as part of the City's financial records.

3. Board of Aldermen Oversight and Continuous Improvement

The **Board of Aldermen** will receive periodic updates on the status of outstanding checks as part of the financial reporting process. This provides oversight and ensures corrective actions are taken in a timely manner.

Appendix
City of Chula
Board's Responses to Audit Recommendations

The City continues to strengthen its oversight and compliance by:

- Reviewing outstanding check lists during regular reconciliation reviews.
- Providing periodic training to the City Clerk and Council members on proper handling of stale-dated checks and unclaimed property procedures.
- Consulting with the State Treasurer's Office or city auditor, as needed, for guidance on compliance with reporting requirements.

1.5. Submit annual financial reports to the State Auditor's Office as required by state law.

Auditee's Response to 1.5.

1. Compliance with Reporting Requirements

To further strengthen compliance with **Section 105.145, RSMo**, which requires submission of the **Annual Financial Report** to the **Missouri State Auditor's Office (SAO)** within the statutory timeframe.

The City is establishing the following procedures:

- **Preparation of the annual financial report:**
At the close of each fiscal year, the **City Clerk** will prepare the City's Annual Financial Report summarizing revenues, expenditures, fund balances, and outstanding debt in accordance with state requirements.
- **Timely submission:**
The completed report will be submitted to the State Auditor's Office **within the required timeframe (within 30 days after the annual financial statement is presented to the governing body, and no later than 180 days after the fiscal year-end).**
- **Board of Aldermen review and approval:**
Prior to submission, the financial report will be reviewed by the **Board of Aldermen** during a regular meeting to confirm accuracy and completeness.
- **Documentation:**
Proof of submission (such as email confirmation or submission receipt) will be retained in the City's financial records for audit verification.

2. Oversight and Accountability

The **Board of Aldermen** will maintain oversight of the reporting process by requiring confirmation from the City Clerk each year that the Annual Financial Report has been filed with the State Auditor's Office.

If necessary, the City consults with the **State Auditor's Office** or external accounting professionals to ensure the report meets statutory and accounting requirements.

Appendix
City of Chula
Board's Responses to Audit Recommendations

3. Continuous Improvement

The City will strengthen compliance through the following practices:

- Maintaining a **compliance calendar** or reminder system to track key financial reporting deadlines.
- Providing **training** to the City Clerk and Board Members on state reporting requirements.
- Reviewing prior submissions for consistency and accuracy.

1.6. Obtain annual audits of the combined waterworks and sewerage system as required by state law.

Auditee's Response to 1.6.

1. Compliance with Statutory Audit Requirements

To further strengthen the requirement under **Section 250.150, RSMo**, which mandates that municipalities operating a **combined waterworks and sewerage system** obtain an **annual audit** of the system's financial statements.

To comply with this requirement, the City has established the following procedures:

- **Engagement of an independent auditor:**
Each year, the **Board of Aldermen** will engage a qualified independent Certified Public Accountant (CPA) to perform an audit of the combined water and sewer system's financial activities for the preceding fiscal year.
- **Coordination and preparation:**
The **City Clerk** will prepare and provide all necessary financial records, ledgers, and supporting documentation to the auditor in a timely manner to facilitate the completion of the audit.
- **Timely completion and submission:**
The completed audit report will be presented to the **Board of Aldermen** for review and acceptance. Once accepted, the City will file the audit report with the **Missouri State Auditor's Office (SAO)** and retain a copy in the City's permanent records.

2. Oversight and Accountability

To ensure continued compliance:

- The **Board of Aldermen** will monitor the audit timeline each year and confirm that the water and sewer audit is completed and submitted as required.

Appendix City of Chula Board's Responses to Audit Recommendations

- The **City Clerk** will maintain a compliance checklist or calendar noting key deadlines for engaging the auditor, providing records, and submitting the final report.
- Audit findings or recommendations, if any, will be reviewed by the Board of Aldermen, and corrective actions will be taken promptly.

3. Continuous Improvement

The City remains committed to maintaining transparency and accountability in its utility operations by:

- Reviewing audit engagement options annually to ensure cost-effectiveness and compliance with professional standards.
- Providing training or guidance to the City Clerk and Council members regarding audit requirements and reporting obligations.
- Coordinating with the State Auditor's Office for any updates to statutory or procedural requirements.

1.7. Publish semiannual financial statements as required by state law.

Auditee's Response to 1.7.

1. Compliance with Statutory Requirement

To further strengthen the requirement under **Section 79.165, RSMo**, which mandates that **semiannual financial statements** be prepared and published to inform citizens of the City's financial activities.

To ensure compliance, the City has established the following procedures:

- **Preparation of semiannual statements:**
The **City Clerk** prepares the semiannual financial statements covering the six-month periods ending **June 30** and **December 31** of each fiscal year. These statements include all receipts, disbursements, outstanding obligations, and balances for each fund, as required by law.
- **Board of Aldermen review and approval:**
The **Board of Aldermen** reviews and approves each semiannual statement at a regular council meeting to confirm accuracy and completeness prior to publication.
- **Publication:**
Following approval, the City Clerk ensures the statement is **published in a local newspaper of general circulation** within the City, in accordance with statutory requirements.
- **Proof of publication:**
A **publisher's affidavit** or proof of publication is obtained from the newspaper and retained in the City's permanent financial records for verification and audit purposes.

Appendix
City of Chula
Board's Responses to Audit Recommendations

2. Oversight and Accountability

To maintain compliance and oversight:

- The **City Clerk** will track the due dates for each semiannual statement and schedules preparation and publication in advance.
- The **Board of Aldermen** will verify publication has occurred by reviewing the affidavit or clipping during a subsequent meeting.
- Documentation of publication and Board of Aldermen approval will be retained as part of the City's financial reporting file.

3. Continuous Improvement

The City will continue to strengthen its financial transparency by:

- Maintaining a compliance checklist to ensure timely preparation and publication of future statements.
- Reviewing the published statements for clarity and completeness to ensure the public can easily understand the City's financial condition.
- Providing training and reference materials for the City Clerk and Board of Aldermen members on statutory reporting and publication requirements.

1.8. Timely prepare and approve annual budgets, and ensure budgets are adequately monitored.

Auditee's Response to 1. 8..

1. Compliance with Budget Preparation Requirements

To further strengthen the importance of preparing, approving, and monitoring an annual budget in compliance with **Sections 67.010–67.110, RSMo**, and applicable municipal budget laws.

To ensure timely preparation and adoption of the annual budget, the City has established the following procedures:

- **Budget preparation schedule:**
The **City Clerk**, under the direction of **The Board of Aldermen**, prepares a draft budget each year for the upcoming fiscal year. The process begins several months prior to the start of the fiscal year to allow sufficient time for review, adjustments, and approval.
- **The Board of Aldermen review and adopt:**
The **Board of Aldermen** reviews the proposed budget in open meetings, discusses revenue projections and planned expenditures, and makes necessary revisions. The final

Appendix
City of Chula
Board's Responses to Audit Recommendations

budget is formally **approved by ordinance or resolution prior to the beginning of the fiscal year**, as required by state law.

- **Documentation and filing:**

A copy of the adopted budget is maintained in the City's official records and made available for public inspection.

2. Monitoring and Oversight Procedures

To ensure the budget is effectively implemented and monitored throughout the fiscal year:

- **Monthly reporting:**

The **City Clerk** will provide monthly financial reports to The Board of Aldermen showing actual revenues and expenditures compared to budgeted amounts. Also include Chula Community Center account and certificate of deposit.

- **Variance review:**

Significant variances between actual and budgeted figures will be discussed during regular Board of Aldermen meetings, and adjustments are made when necessary to maintain budgetary control.

- **Board of Aldermen oversight:**

The **Board of Aldermen** will maintain direct oversight of the City's financial performance and approves any necessary budget amendments during the year.

3. Continuous Improvement

To strengthen budget management and ensure ongoing compliance, the City will:

- Maintain a **budget calendar** with key preparation and approval deadlines to prevent delays.
- Provide **training or guidance** for the City Clerk and Board of Aldermen members on municipal budgeting best practices.
- Periodically review budget policies and update them to reflect changes in financial conditions, goals, or state requirements.

1.9. Ensure checks are issued in numerical sequence with the sequence properly accounted for.

Auditee's Response to 1.9.

1. Oversight and Control of Check Issuance

Appendix
City of Chula
Board's Responses to Audit Recommendations

To further strengthen procedures to ensure that **all checks are issued in numerical sequence** and that the sequence is properly accounted for to maintain control over disbursements.

Key procedures include:

- **Pre-numbered checks:**
The City utilizes **pre-numbered checks** through its accounting software or manual checkbook to maintain an unbroken numerical sequence.
- **Sequential control:**
The **City Clerk** is responsible for monitoring the check sequence to ensure all checks are used in order, with no missing or duplicate numbers.
- **Voided checks:**
Any voided or spoiled checks are clearly marked "VOID," retained in the checkbook or financial records, and documented in the disbursement log to maintain a complete audit trail.
- **Reconciliation and verification:**
The numerical sequence of issued and voided checks is verified during the monthly **bank reconciliation process**, which is reviewed by the **Board of Aldermen** as part of regular financial oversight.

2. Council Review and Oversight

Following the audit, to ensure accountability and oversight:

- A **check register** listing all issued, voided, and outstanding checks will be presented to the **Board of Aldermen** with monthly financial reports.
- The **Board of Aldermen** will review and approve all disbursements at regular meetings before payment is made.
- The Board of Aldermen will verify that check sequences are continuous and correspond with supporting invoices or payment authorizations.

3. Continuous Improvement

To further strengthen control over check issuance, the City will:

- Maintain a **check log or tracking report** to document check numbers, dates, payees, and amounts.
- Periodically review check stock inventory to ensure all unused checks are accounted for and securely stored.
- Provide training to the City Clerk and Board of Aldermen members on best practices for cash disbursement controls and reconciliation procedures.

Appendix
City of Chula
Board's Responses to Audit Recommendations

2.1. Ensure closed meeting minutes are sufficiently detailed, only relevant reasons for entering closed meetings are provided and documented in the open meeting minutes, and only topics allowed by state law are discussed in closed meetings.

Auditee's Response to 2.1.

1. Compliance with the Missouri Sunshine Law

To further strengthen the requirements of **Section 610, RSMo**, governing open and closed meetings, and recognizes the importance of ensuring transparency and proper documentation when conducting closed sessions of the Board of Aldermen.

The City has established the following procedures to ensure closed meeting compliance:

- **Proper justification and documentation:**
Before entering a closed session, the **Board of Aldermen** will publicly announce in the **open meeting minutes** the **specific statutory reason(s)** for going into closed session, citing the applicable subsection(s) of **Section 610.021, RSMo** (e.g., legal actions, personnel matters, real estate negotiations).
- **Motion and roll call vote:**
Entry into a closed meeting is made by **motion**, seconded and approved by **roll call vote**, with each member's vote recorded in the open meeting minutes.
- **Limitation of discussion topics:**
Discussions during the closed session are limited strictly to the **topics authorized under the cited statutory exemption(s)**. No unrelated subjects are discussed.

2. Preparation and Retention of Closed Meeting Minutes

To ensure accuracy and proper recordkeeping:

- **Detailed closed session minutes:**
The **City Clerk** will prepare **detailed but confidential minutes** of all closed meetings, including the date, time, members present, matters discussed, and any votes taken.
- **Restricted access:**
Closed session minutes are maintained in a **secure and confidential file**, accessible only to authorized officials as permitted by law.
- **Review by The Board of Aldermen:**
The **Board of Aldermen** will review and approve closed session minutes to confirm they accurately reflect the proceedings and comply with statutory requirements.

3. Oversight and Continuous Improvement

Appendix
City of Chula
Board's Responses to Audit Recommendations

The City will continue to strengthen compliance and oversight through the following actions:

- **Training and awareness:**
The **City Clerk** and **Board of Aldermen members** will receive periodic training or guidance on the **Missouri Sunshine Law**, particularly regarding closed meeting requirements.
- **Legal consultation:**
When necessary, the City will consult with the **City Attorney** to confirm whether a topic qualifies for closed session discussion before entering a closed meeting.
- **Periodic review:**
The Board of Aldermen will periodically review closed meeting procedures to ensure continued compliance with all applicable statutes.

2.2. Develop a written public access policy.

Auditee's Response to 2.2.

1. Compliance with the Missouri Sunshine Law

To further strengthen the city's obligation under **Chapter 610, RSMo (Missouri Sunshine Law)** to make public records and meetings accessible to citizens. To formalize compliance and promote transparency, the City will **develop and adopt a written Public Access Policy** outlining procedures for requesting and providing access to public records.

2. Development and Adoption of the Policy

The City has established the following plan to create and implement a written public access policy:

- **Drafting the policy:**
The **City Clerk**, in consultation with the **City Attorney** (if available), will prepare a written **Public Access Policy** consistent with the Missouri Sunshine Law. The policy will specify how the public may request access to records, the types of records available, applicable response times, and any allowable fees.
- **The Board of Aldermen review and approval:**
The **Board of Aldermen** will review the draft policy during a regular open meeting and formally **approve the policy by resolution or motion** to ensure it becomes an official city document.
- **Designation of custodian of records:**
The **City Clerk** will be officially designated as the **Custodian of Records**, responsible for receiving, tracking, and responding to all Sunshine Law requests.

Appendix
City of Chula
Board's Responses to Audit Recommendations

3. Implementation and Availability

Once approved, the City will ensure the policy is properly implemented and publicly available:

- **Public posting:**
A copy of the Public Access Policy will be made available at **City Hall** and posted on the **City's website or public bulletin board**, if available.
- **Documentation of requests:**
The City Clerk will maintain a **log of Sunshine Law requests** received, noting the date, requester, nature of request, response provided, and any fees charged.
- **Timely response:**
The City will respond to public records requests **as promptly as possible and within the timeframes required by law**.

4. Oversight and Continuous Improvement

To ensure continued compliance and transparency:

- The City Council will **periodically review** the Public Access Policy to confirm it remains current with statutory requirements.
- The City Clerk and Board of Aldermen will receive **periodic training** on the Missouri Sunshine Law and the City's responsibilities under the policy.
- Updates will be made as needed based on legal or procedural changes.

3. The Board of Aldermen ensure a quorum is present before holding an open meeting and voting on city business. In addition, the board should determine if additional votes need to be held for previous votes taken that lacked a quorum.

Auditee's Response to 3.

1. Compliance with Quorum Requirements

To further strengthen the city's compliance, we recognize that under **Section 79.120, RSMo**, **a majority of the Board of Aldermen constitutes a quorum** for the transaction of city business, and no official action or vote should occur without a quorum being present.

To ensure compliance, the Board of Aldermen has established the following procedures:

- **Verification of quorum before each meeting:**
Prior to the start of every regular or special meeting, the **City Clerk** conducts a **roll call** of aldermen present. The **Mayor or presiding officer** verifies that a quorum exists before calling the meeting to order or conducting any official business.

Appendix
City of Chula
Board's Responses to Audit Recommendations

- **Recording attendance:**
The **open meeting minutes** clearly document which aldermen are present and absent, confirming that a quorum was established prior to votes or discussion of city matters.
- **Postponement if quorum not met:**
If a quorum is not present, the meeting is **not convened**, and no votes or official actions are taken. The meeting may be adjourned or rescheduled in compliance with public notice requirements.

2. Review and Correction of Previous Actions

To address potential issues from past meetings where votes may have been taken without a quorum:

- The **Board of Aldermen** will **review past meeting minutes** to identify any actions or votes that occurred without a quorum being recorded.
- Any such actions will be **reconsidered and re-voted upon** at a future meeting where a quorum is present, to ensure all decisions are properly validated and legally adopted.
- Documentation of these corrective actions will be maintained in the meeting minutes for transparency and audit purposes.

3. Oversight and Continuous Improvement

To maintain compliance going forward, the City will implement the following oversight and improvement measures:

- The **City Clerk** will maintain a checklist for each meeting agenda to confirm quorum verification and attendance are recorded prior to discussion or voting.
- The **Mayor** or presiding officer will ensure no vote is conducted unless a quorum is verified and documented.
- The **City Clerk and Board of Aldermen members** will receive periodic training or guidance on open meeting requirements, quorum rules, and meeting documentation under the **Missouri Sunshine Law (Chapter 610, RSMo)**.

4. The Board of Aldermen develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response to 4.

1. Compliance with State Records Management Requirements

Appendix City of Chula Board's Responses to Audit Recommendations

To further strengthen the city's obligation under **Chapter 109, RSMo**, and guidance from the **Missouri Secretary of State, Records Services Division**, to establish and maintain a proper **records management and retention policy**, including provisions for **electronic communications** such as emails, text messages, and other digital correspondence.

To comply with these requirements, the **Board of Aldermen** will develop and adopt a comprehensive written **Records Management and Retention Policy** addressing both physical and electronic records.

2. Policy Development and Adoption

The following steps will be taken to develop and implement the written policy:

- **Policy drafting:**
The **City Clerk**, in consultation with the **City Attorney** (if available) and using the **Missouri Secretary of State's Local Records Retention Schedules and Electronic Communications Guidelines**, will prepare a written **Records Management and Retention Policy** tailored to the City's size and operations.
- **Inclusion of electronic communications:**
The policy will specifically define how **emails, text messages, and other electronic communications** that constitute public records are to be created, retained, archived, and disposed of according to state guidelines.
- **Board of Aldermen review and adopt:**
The **Board of Aldermen** will review, revise as needed, and formally **adopt the policy by resolution or ordinance** during a regular open meeting.

3. Implementation and Oversight

After adoption, the City will ensure the policy is properly implemented and followed:

- **Custodian of records:**
The **City Clerk** will serve as the official **Custodian of Records**, responsible for maintaining both paper and electronic records in accordance with the adopted policy and state retention schedules.
- **Electronic record management:**
The City will establish procedures for archiving and retaining emails and other digital records related to city business, including storage duration, backup methods, and authorized deletion protocols.
- **Training and compliance:**
The **City Clerk** and the **Board of Aldermen members** will receive training on proper records handling and electronic communication retention to ensure consistent compliance with the policy and state law.

Appendix
City of Chula
Board's Responses to Audit Recommendations

4. Continuous Review and Improvement

The City is committed to ongoing compliance and transparency by:

- Periodically reviewing the policy to reflect changes in **state guidelines or technology practices**.
- Consulting with the **Missouri Secretary of State's Records Services Division** when updates or clarifications are needed.
- Maintaining documentation of all records management actions for audit and legal reference.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

To the County Commission
and
Officeholders of Morgan County, Missouri

The Office of the State Auditor contracted for an audit of Morgan County's financial statements for the 2 years ended December 31, 2024, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive style with a large, stylized "S" and "F".

Scott Fitzpatrick
State Auditor

November 2025
Report No. 2025-093

Scott Fitzpatrick
Missouri State Auditor

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Morgan County

2024-001	The Collector implement procedures to ensure receipt numbers are generated with each transaction.
2024-002	The county adhere to the authorized spending limits as documented in the adopted county budget or follow the appropriate procedures to amend the budget.
2024-003	The county implement internal controls to ensure that the Schedule of Expenditures of Federal Awards (SEFA) completely and accurately states the expenditures of federal awards of the county each year.
Senate Bill 40 Board Internal Controls	The Senate Bill 40 Board implement procedures to ensure that checks are issued in sequential order.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Morgan County, Missouri

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Morgan County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023 and 2024, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Morgan County, Missouri, as of December 31, 2023 and 2024, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Morgan County, Missouri, as of December 31, 2023 and 2024, or the changes in financial position thereof for the years then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Morgan County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Morgan County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Morgan County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Morgan County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Morgan County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 9, 2025, on our consideration of Morgan County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Morgan County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Morgan County, Missouri's internal control over financial reporting and compliance.

MORGAN COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2023 and 2024

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Morgan County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are ten elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff, and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Morgan County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County’s custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law.

10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds:

	2023	2024
Special Road and Bridge	✓	N/A
Prosecuting Attorney Training	✓	✓
Local Emergency Planning Committee	✓	N/A
Law Enforcement Sales Tax	✓	✓
Sheriff Revolving	✓	✓
Inmate Security	✓	N/A
Senate Bill 40 Board	✓	N/A
ARPA	✓	✓

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property included within the County's boundaries for the calendar years 2024 and 2023 for purposes of taxation were:

	2024	2023
Real Estate	\$ 470,944,850	\$ 464,297,650
Personal Property	121,342,389	121,966,734
Railroad and Utilities	29,492,754	30,164,131
Total	<u>\$ 621,779,993</u>	<u>\$ 616,428,515</u>

For calendar years 2024 and 2023, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

	2024	2023
General Revenue	\$ 0.0261	\$ 0.0411
Special Road and Bridge	0.1233	0.1646
Senate Bill 40 Board	0.0417	0.0417
Senior Citizens Services Board	0.0417	0.0417

In addition to the levies above, the County has several levies and fees assessed on property located in 12 Neighborhood Improvement Districts within the County. These include debt service levies for paying back N.I.D. bond debt, and maintenance levies and fees assessed to maintain the condition of the roads within the Districts.

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest-bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2024, the County had the following cash and investment balances:

	Carrying Value	Bank Balance	FDIC Coverage
Cash and Cash Equivalents	\$ 17,953,482	\$ 18,380,682	\$ 750,000
Investments	2,228,926	2,228,926	500,000
Total Governmental Funds	<u>\$ 20,182,408</u>	<u>\$ 20,609,608</u>	<u>\$ 1,250,000</u>
 Cash and Cash Equivalents	 \$ 20,301,987	 \$ 18,049,662	 \$ 541,429
Investments	269,926	269,926	269,926
Total Fiduciary Funds	<u>\$ 20,571,913</u>	<u>\$ 18,319,588</u>	<u>\$ 811,355</u>

At December 31, 2023, the County had the following cash and investment balances:

	<u>Carrying Value</u>	<u>Bank Balance</u>	<u>FDIC Coverage</u>
Cash and Cash Equivalents	\$ 19,175,469	\$ 18,380,682	\$ 750,000
Investments	<u>1,811,377</u>	<u>1,811,377</u>	<u>250,000</u>
Total Governmental Funds	<u>\$ 20,986,846</u>	<u>\$ 20,192,059</u>	<u>\$ 1,000,000</u>
Cash and Cash Equivalents	\$ 21,597,589	\$ 16,481,859	\$ 733,774
Investments	<u>211,044</u>	<u>211,044</u>	<u>211,044</u>
Total Fiduciary Funds	<u>\$ 21,808,633</u>	<u>\$ 16,692,903</u>	<u>\$ 944,818</u>

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2024 and 2023 were covered by pledged collateral securities or other acceptable collateral held by the County or by its safekeeping bank agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, all participants hired on or after February 24, 2002 are required to contribute an additional 4% of their gross compensation to CERF, starting January 1, 2003. An active LAGERS participant who was employed with the County prior to February 24, 2002, is not required to make contributions. The County has elected not to make contributions on behalf of employees. During 2023 and 2024, the County collected and remitted to CERF employee withholdings and fees collected of \$536,940 and \$586,173, respectively, for the years then ended.

B. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$11,608 and \$15,508, respectively, for the years ended December 31, 2023 and 2024.

C. Other Retirement Plans

Morgan County has a voluntary 457(b) and 401(a) plan which is paid by a deduction from employee's salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the 401(a) plan for the years ended December 31, 2023 and 2024 were \$31,810 and \$33,525. Employee contributions collected and remitted by the County for the 457(b) plan for the years ended December 31, 2023 and 2024 were \$136,494 and \$113,516.

The Morgan County Senate Bill 40 Board participates in a SIMPLE IRA plan and matches up to 3% of an employee's elective deferrals. These contributions qualify under the Internal Revenue Code and are tax exempt. The Board contributed \$3,088 and \$6,862 for the years ended December 31, 2023 and 2024, respectively.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full-time employees with 12 days of sick leave per year, up to a maximum of 36 days. Upon termination, employees will not be compensated for any unused sick time.

Vacation time is accrued for every full-time employee and accrues at a rate of six days per year for employees with three years of service time or less, 12 days for employees with four to nine years of service time, or 18 days for employees with ten years of service time or more. If an employee has reached the maximum amount of unused vacation (one and one-half times the annual vacation amount), vacation will stop accruing on a monthly basis until the employee is below the limit. Upon separation, employees with ninety days or more of continuous service will be compensated for unused vacation time.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation Trust. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG-TERM DEBT

In 2006, the County issued \$222,000 in Limited General Obligation Bonds for the purpose of capital improvements located within the Saddle Road Neighborhood Improvement District. The

bonds are paid through a special assessment that is assessed on the benefitted properties located within the District. Principal and interest payments are due annually on March 1 with interest payable at 4.875%.

<u>Fiscal Year Ending December 31,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2025	\$ 16,000	\$ 1,609	\$ 17,609
2026	17,000	829	17,829
Totals	<u>\$ 33,000</u>	<u>\$ 2,438</u>	<u>\$ 35,438</u>

The following schedule shows changes in long-term debt during the year ended December 31, 2024:

<u>Description</u>	<u>Balance 12/31/2023</u>	<u>Additions</u>	<u>Payments</u>	<u>Balance 12/31/2024</u>	<u>Interest Paid</u>
General Obligation Bonds	\$ 48,000	\$ -	\$ (15,000)	\$ 33,000	\$ 2,340

The following schedule shows changes in long-term debt during the year ended December 31, 2023:

<u>Description</u>	<u>Balance 12/31/2022</u>	<u>Additions</u>	<u>Payments</u>	<u>Balance 12/31/2023</u>	<u>Interest Paid</u>
General Obligation Bonds	\$ 63,000	\$ -	\$ (15,000)	\$ 48,000	\$ 3,071

8. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2024 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through October 9, 2025, the date the financial statements were available to be issued.

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Morgan County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Morgan County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023 and 2024, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements, which collectively comprise Morgan County, Missouri's basic financial statements and have issued our report thereon dated October 9, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Morgan County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Morgan County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Morgan County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs as item 2024-001 that we consider to be a significant deficiency.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Morgan County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and questioned costs as item 2024-002.

Morgan County, Missouri's Responses to Findings

Government Auditing Standards requires the auditor to perform limited procedures on Morgan County, Missouri's responses to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. Morgan County, Missouri's responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the County Commission and
Officeholders of Morgan County, Missouri

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Morgan County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Morgan County, Missouri's major federal programs for the years ended December 31, 2023 and 2024. Morgan County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Morgan County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2023 and 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Morgan County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Morgan County, Missouri's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Morgan County, Missouri's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Morgan County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Morgan County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Morgan County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Morgan County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Morgan County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

Our consideration of internal control over compliance was for the limited purposes described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we did identify a certain deficiency in internal control over compliance that we consider to be a material weakness.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2024-003 to be a material weakness.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on Morgan County, Missouri's response to the internal control over compliance finding identified in our compliance audit described in the accompanying schedule of findings and questioned costs. Morgan County, Missouri's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

MORGAN COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEARS ENDED DECEMBER 31, 2023 AND 2024

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of Morgan County, Missouri for the years ended December 31, 2024 and 2023. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE C – SUBRECIPIENTS

The County did not pass any federal awards through to subrecipients during the years ended December 31, 2024 and 2023.

MORGAN COUNTY, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2023 AND 2024

SECTION I – SUMMARY OF AUDITOR’S RESULTS

21.027	Coronavirus State and Local Fiscal Recovery Funds

Dollar Threshold Used to Distinguish Between
Type A and Type B Programs: \$750,000

Auditee Qualified as low-risk: Yes X No

SECTION II – FINANCIAL STATEMENTS FINDINGS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

2024-001: Collector’s Internal Controls over Receipts

Criteria: A proper system of internal controls dictates that receipts should be numbered in an accounting ledger and accounted for in sequential order.

Condition: During our audit, we selected 40 receipts of the Collector’s office for testing. We noted that there was no receipt number assigned in the Ulrich system for two of the 40 transactions tested. We obtained copies of the paid tax receipts which were provided to the payors for these two transactions, noting that the “Receipt #” was blank for both. A review of the Audit Journal reports for January 8, 2024 and March 28, 2024, the days on which the two transactions occurred, noted that several, but not all, of the transactions on those days were not assigned a receipt number by the system.

Cause: The accounting system did not generate a receipt number for each transaction, leaving gaps between various transactions. The Collector contacted the software vendor and was told that it was due to a loss of connection to the network.

Effect: Accounting for receipts with sequentially ordered receipt numbers is an anti-fraud measure that improves the accountability of funds received and helps to ensure that all money received is recorded and deposited in the bank.

Recommendation: We recommend that the Collector implement procedures to ensure receipt numbers are generated with each transaction.

County’s Response: The Collector will implement procedures to ensure receipt numbers are generated with each transaction in the future.

Auditor’s Evaluation: The response, if implemented, would be appropriate to correct the concern.

ITEMS OF NONCOMPLIANCE

2024-002: Budgetary Controls

Criteria: State statutes prohibit expenditures in excess of approved budgets and require the preparation of a formal budget for all County funds.

Condition: The County incurred expenditures in excess of the approved budgets for eight funds in 2023 and four funds in 2024. The complete list of funds can be found in Note 1.D.10.

Cause: The County did not adequately review and amend budgeted expenditures of each Fund to ensure actual expenditures did not exceed the budgeted amounts.

Effect: Budgetary controls are significant to the proper management and custodianship of county funds. Compliance with statutory requirements related to budgets will improve controls over county funds and help maintain the integrity of the budget process.

Recommendation: We recommend the County adhere to the authorized spending limits as documented in the adopted County budget or follow the appropriate procedures to amend the budget.

County's Response: The County Commission is taking steps along with elected officials to monitor their funds more closely to help prevent budget overruns and to promote fiscal responsibility.

Auditor's Evaluation: The response is appropriate to correct the concern.

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2024-003: Internal Control Over Schedule of Expenditures of Federal Awards

Federal Grantor: U.S. Department of Justice (DOJ), U.S. Department of Transportation (DOT), U.S. Department of the Treasury (Treasury), Executive Office of the President (EOP)

Pass-Through Grantor: Missouri Department of Transportation, University of Central Missouri, Missouri Secretary of State, Missouri State Highway Patrol

Federal Assistance Listing Number: 16.575, 20.205, 20.607, 20.616, 21.027, 95.001

Program Title: Crime Victim Assistance, Highway Planning and Construction, Alcohol Open Container Requirements, National Priority Safety Programs, Coronavirus State and Local Fiscal Recovery Funds, High Intensity Drug Trafficking Area Program

Pass-through Entity Identifying Number: BRO-R071(11), BRO-R071(12), 24-154-AL-049, 25-ENF-03-078, 24-M2HVE-05-032, SLFRP4542-CJMI030, G23MW0001A-QQ

Award Year: 2023 and 2024

Questioned Costs: None

Criteria: 2 CFR 200.510(b) requires auditees to prepare a schedule of expenditures of federal awards (SEFA) which must report total federal awards expended during the audit period. At a minimum, the schedule must include: expenditures by individual federal program, name of the pass-through entity and identifying number for awards not received directly from the federal government, and the total amount provided to subrecipients from each federal program.

Condition: The SEFA reported by the County in the 2024 and 2025 annual budget documents contained errors in amounts of federal expenditures reported. This finding was noted in the prior audit as item 2020-006.

Discrepancies in amounts reported on the 2023 SEFA and amount supported by underlying accounting records are summarized as follows:

Assistance			Original		
Federal Agency	Listing Number	Program	SEFA	Supported	Difference
DOJ	16.575	Crime Victim Assistance	\$ -	\$ 33,641	\$ (33,641)
DOT	20.205	Highway Planning and Construction	57,028	553,153	(496,125)
DOT	20.607	Alcohol Open Container Requirements	-	2,200	(2,200)
EOP	95.001	High Intensity Drug Trafficking Areas Program	-	11,546	(11,546)

Discrepancies in amounts reported on the 2024 SEFA and amounts supported by underlying accounting records are summarized as follows:

Assistance			Original		
Federal Agency	Listing Number	Program	SEFA	Supported	Difference
DOJ	16.575	Crime Victim Assistance	\$ -	\$ 37,820	\$ (37,820)
DOT	20.205	Highway Planning and Construction	360,170	18,099	342,071
DOT	20.607	Alcohol Open Container Requirements	-	3,500	(3,500)
DOT	20.616	National Priority Safety Programs	-	2,200	(2,200)
Treasury	21.027	Coronavirus State and Local Fiscal Recovery	-	2,891,577	(2,891,577)

Cause: The County has not implemented a proper system of internal control over SEFA preparation, such as a reconciliation to underlying accounting records or having a separate individual review the SEFA for clerical accuracy after it has been prepared. Reasons for discrepancies in individual programs varied.

Effect: The SEFA presented for audit did not accurately reflect the County's actual expenditures of federal awards for both the years ended December 31, 2023 and 2024.

Recommendation: We recommend that the County implement internal controls to ensure that the SEFA completely and accurately states the expenditures of federal awards of the County each year.

County's Response: We are taking steps to address the ongoing issue by coordinating with department heads and the Treasurer to ensure all grant paperwork is properly received and documented.

Auditor's Evaluation: The response is appropriate to correct the concern.

MANAGEMENT'S RESPONSE TO AUDITOR'S FINDINGS:

- **Summary Schedule of Prior Audit Findings**
 - **Corrective Action Plan**

Morgan County Commission

100 E. Newton
Versailles, Missouri 65084

MORGAN COUNTY, MISSOURI SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

In accordance with the Uniform Guidance, this section reports the follow-up on action taken by Morgan County, Missouri on the applicable findings in the prior audit report issued for the two years ended December 31, 2020.

2020-001: During the audit, it was noted the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. Two funds in 2020 and six funds in 2019 had actual expenditures that exceeded budgeted expenditures. Two funds did not have budgets prepared in 2020 and 2019.

Status: Partially resolved, see finding 2024-002.

2020-002: During the audit, it was noted that the Senate Bill 40 Board's budgets for the years ended December 31, 2020 and 2019 were prepared with formula errors.

Status: Considered resolved.

2020-003: The County did not have a formal fraud risk assessment in place.

Status: Considered resolved.

2020-004: For the years ended December 31, 2020 and 2019, the County Clerk's office failed to perform timely and accurate bank reconciliations or prepare a list of outstanding liabilities for all bank accounts held by the County Clerk's office.

Status: Considered resolved.

2020-005: The recorded transfers out did not equal the recorded transfers in for either 2020 or 2019.

Status: Considered resolved.

2020-006: The Schedule of Expenditures of Federal Awards contained errors. The County's current internal controls over SEFA reporting are not sufficient to ensure correct SEFA reporting.

Status: Not resolved, see finding 2024-003

CERTIFIED PUBLIC ACCOUNTANTS

October 9, 2025

To the County Commission
Morgan County, Missouri

We have audited the regulatory basis financial statements of Morgan County, Missouri for the years ended December 31, 2023 and 2024. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 22, 2025. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Morgan County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2023 and 2024. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 9, 2025.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2023 and 2024, we considered Morgan County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated October 9, 2025. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

Senate Bill 40 Board Internal Controls

In reviewing the Senate Bill 40 Board general ledger, we noted instances where check numbers did not follow in sequential order in the SB40 checking account. In October 2023, the check numbers went from 2747 to 2500. The last check number written in 2023 was 2524 per the general ledger, while the first check written in 2024 was 2532. In December 2024, the check numbers went from 2624 to 2750. The Board uses prenumbered checkbooks ordered from the bank. The Senate Bill 40 Board Director mentioned that a new checkbook was ordered after not being able to locate the original one. Issuing checks in sequential order ensures the completeness of disbursement records and reduces the risk of unauthorized, duplicate, or unrecorded disbursements going undetected. We recommend that the Senate Bill 40 Board implement procedures to ensure that checks are issued in sequential order.

Other Matters

We were engaged to report on the Schedule of Expenditures of Federal Awards, which accompanies the financial statements but is not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles prescribed or permitted by Missouri law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of Morgan County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

(Original Signed by McBride, Lock & Associates, LLC)

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

To the County Commission
and
Officeholders of Moniteau County, Missouri

The Office of the State Auditor contracted for an audit of Moniteau County's financial statements for the year ended December 31, 2024, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

A handwritten signature in black ink that reads "S. Fitzpatrick". The signature is stylized with a large, flowing "S" and a clear, legible "Fitzpatrick".

Scott Fitzpatrick
State Auditor

November 2025
Report No. 2025-092

Recommendations in the contracted audit of Moniteau County

2024-001	The Sheriff's office implement procedures to maintain complete accounting ledgers for the Bond and C/O Commissary accounts showing the running bank balance of the account and prepare formal monthly bank reconciliations noting any reconciling items such as outstanding checks or deposits that haven't cleared the bank. Additionally, we recommend the Sheriff perform a documented review of the monthly statements and reconciliations performed by the Jail Administrator.
2024-002	The Sheriff's office implement procedures to ensure that funds from the C/O Commissary account are turned over to the Treasurer in accordance with state statutes to ensure that the expenditures are subject to the budgetary process and follow the same internal control process as other county funds.
2024-003	The county refrain from adopting budgets with negative (deficit) ending fund balances by ensuring that funds have sufficient beginning balances or expected revenues to cover the budgeted expenditures.
2024-004	The county implement internal controls to ensure that the Schedule of Expenditures of Federal Awards (SEFA) completely and accurately states the expenditures of federal awards of the county each year.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Moniteau County, Missouri

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Moniteau County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2024, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Moniteau County, Missouri, as of December 31, 2024, and their respective cash receipts and disbursements, and budgetary results for the year then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Moniteau County, Missouri, as of December 31, 2024, or the changes in financial position thereof for the year then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Moniteau County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Moniteau County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Moniteau County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the

financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Moniteau County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Moniteau County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 22, 2025, on our consideration of Moniteau County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Moniteau County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Moniteau County, Missouri's internal control over financial reporting and compliance.

MONITEAU COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2024

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Moniteau County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are nine elected Constitutional Officers: Assessor, Circuit Clerk/ex officio Recorder, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Sheriff, and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Moniteau County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County’s custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. However, the County budgeted a negative ending fund balance for the General Revenue and Sheriff/CPD Contract Funds. The Sheriff/CPD Contract Fund had actual expenditures that exceeded actual revenues plus beginning fund balance, however, the negative balance represented unreimbursed expenditures as of December 31, 2024 for which reimbursement was subsequently received.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law.

10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets.

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property included within the County's boundaries for the calendar year 2024 for purposes of taxation were:

Real Estate	\$ 157,550,320
Personal Property	68,644,124
Railroad and Utilities	39,262,038
Total	<u>\$ 265,456,482</u>

For calendar year 2024, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

General Revenue	\$ 0.1493
Special Road and Bridge	0.2470
Senate Bill 40 Board	0.1183

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest-bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2024, the County had the following cash and investment balances:

	<u>Carrying Value</u>	<u>Bank Balance</u>	<u>FDIC Coverage</u>
Cash and Cash Equivalents	\$ 6,573,528	\$ 6,753,439	\$ 750,000
Investments	<u>1,807,897</u>	<u>1,822,700</u>	<u>393,567</u>
Total Governmental Funds	<u>\$ 8,381,425</u>	<u>\$ 8,576,139</u>	<u>\$ 1,143,567</u>
Cash and Cash Equivalents	\$ 13,325,158	\$ 10,905,588	\$ 1,336,857
Investments	<u>306,598</u>	<u>306,598</u>	<u>-</u>
Total Fiduciary Funds	<u>\$ 13,631,756</u>	<u>\$ 11,212,186</u>	<u>\$ 1,336,857</u>

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2024 were covered by pledged collateral securities, letters of credit, or other acceptable collateral held by the County or by its safekeeping bank agent in the County's name, except for \$306,598 held by the Public Administrator for one ward in one account in excess of FDIC coverage.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002. During 2024, the County collected and remitted to CERF employee withholdings and fees collected of \$264,684.

B. Missouri Local Government Employees Retirement System (LAGERS)

1) Plan Description

Moniteau County Senate Bill 40 Board participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, Section 70.600-70.755, RSMo. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri 65102 or by calling 1-800-447-4334, or by the following website,

2) Pension Benefits

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police), and early retirement is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and amount of credited service time.

3) Funding Policy

Full-time employees of Moniteau County Senate Bill 40 Board do not contribute to the pension plan. The January 1st statutorily required contribution rate was 12.0% (General) of annual covered payroll for 2024. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the year ended December 31, 2024, full time employees of the Senate Bill 40 Board contributed \$114,615 to LAGERS.

C. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$15,504 for the year ended December 31, 2024.

D. Other Retirement Plans

Moniteau County has a voluntary 457(b) and 401(a) plan which is paid by a deduction from employee's salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the 401(a) plan for the year ended December 31, 2024 were \$16,422. Employee contributions collected and remitted by the County for the 457(b) plan for the year ended December 31, 2024 were \$39,899.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full-time employees with ten hours of sick leave for each completed calendar month of employment. Upon termination of employment, an employee shall be compensated 15% of their remaining sick leave balance. Senate Bill 40 Board employees are entitled to sick leave of six days to 12 days per year based on their employment classification and accrue to a maximum of ten days to 30 days. Once the maximum accrual limit is reached, further accrual of sick leave benefits will be suspended until the employee has reduced the balance below the limit. Sick leave is not paid upon termination.

Permanent full-time employees who have completed the probationary period (a minimum of three months) and work a minimum of 37.5 hours per week are eligible to receive vacation time as follows: one through ten years of service earn ten hours per month, maximum of 30 days; 11 through 15 years of service earn 12 hours per month, maximum of 36 days; and 16 years and above of service earn 14 hours per month, maximum 42 days. Once the accrual limit is reached no further annual leave will accrue. Upon termination of employment, an employee shall be compensated for unused annual leave. Senate Bill 40 Board employees are eligible to receive vacation time of three days up to a maximum of 27 days per year depending on the employee's employment classification and years of service. Upon termination of employment, an employee shall be compensated for unused vacation benefits.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

C. Litigation

The County was involved in pending litigation as of the audit report date. The County's management and legal counsel anticipate that potential claims, if any, against the County resulting from such litigation would not have a material effect on the financial position of the County.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County purchases workers compensation insurance through Missouri Employers Mutual. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$1,000,000 per occurrence and is reinsured up to the statutory limit through

excess insurance.

7. LONG-TERM DEBT

On April 4, 2024, the County entered into a lease purchase agreement for a 2024 John Deere Motor Grader. The lease called for five annual payments through April 2029 of \$49,764 with an interest rate of 5.85%. The County paid off the lease in full in February 2025.

The following schedule shows changes in long-term debt during the year ended December 31, 2024:

Description	Balance	Additions	Payments	Balance	Interest
	12/31/2023			12/31/2024	Paid
John Deere Motor Grader	\$ -	\$ 209,572	\$ -	\$ 209,572	\$ -

8. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2024 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through September 22, 2025, the date the financial statements were available to be issued.

COMPLIANCE SECTION

McBRIDE, LOCK & ASSOCIATES, LLC

CERTIFIED PUBLIC ACCOUNTANTS

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the County Commission and
Officeholders of Moniteau County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Moniteau County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2024, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements, which collectively comprise Moniteau County, Missouri's basic financial statements and have issued our report thereon dated September 22, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Moniteau County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Moniteau County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Moniteau County, Missouri's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs as item 2024-001 that we consider to be a material weakness.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Moniteau County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as items 2024-002 and 2024-003.

Moniteau County, Missouri's Responses to Findings

Government Auditing Standards requires the auditor to perform limited procedures on Moniteau County, Missouri's responses to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. Moniteau County, Missouri's responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the County Commission and
Officeholders of Moniteau County, Missouri

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Moniteau County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Moniteau County, Missouri's major federal programs for the year ended December 31, 2024. Moniteau County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Moniteau County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Moniteau County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Moniteau County, Missouri's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Moniteau County, Missouri's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Moniteau County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Moniteau County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Moniteau County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Moniteau County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Moniteau County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

Our consideration of internal control over compliance was for the limited purposes described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, as discussed below, we did identify a certain deficiency in internal control over compliance that we consider to be a significant deficiency.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance

requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2024-004 to be a significant deficiency.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on Moniteau County, Missouri's response to the internal control over compliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. Moniteau County, Missouri's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

MONITEAU COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEAR ENDED DECEMBER 31, 2024

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of Moniteau County, Missouri for the year ended December 31, 2024. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

MONITEAU COUNTY, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS

21.027	Coronavirus State and Local Fiscal Recovery Funds

Dollar Threshold Used to Distinguish Between Type A and Type B Programs: \$750,000

Auditee Qualified as low-risk: Yes X No

SECTION II – FINANCIAL STATEMENTS FINDINGS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

2024-001: Sheriff Internal Controls

Criteria: A proper system of internal control requires reconciliations between bank statements and accounting ledgers. A proper accounting ledger should include a running bank balance after each receipt or disbursement of funds. Additionally, an effective system of internal control requires regular oversight of the accounting function and documentation of internal control procedures.

Condition: During the audit, it was noted that proper formal bank reconciliations are not performed and documented by the Sheriff's office for the Bond or C/O Commissary bank accounts. Bond account receipts are recorded onto a monthly receipts spreadsheet that shows the breakdown of how the receipts should be distributed. However, the County does not maintain a ledger with a running balance of cash to compare to the bank balances on the monthly bank statements.

A ledger is maintained for the C/O Commissary account transactions, however, we noted that the ledger did not record transactions in chronological order, there were two receipts totaling \$34,733 that occurred per the bank statements that were not recorded on the ledger, and there was no formal reconciliation between the bank balance per the ledger and the balances on the monthly bank statements.

Our walkthrough of the Sheriff's internal control process noted that the Jail Administrator records and deposits receipts, is an authorized signer on the bank accounts, and performs the monthly reconciliations and provides the reconciliation to the Sheriff for review. However, the bank statements did not contain evidence of the Sheriff's review.

Cause: The office does not maintain proper accounting ledgers or an accounting system for the Bond and C/O commissary accounts to facilitate the performance of proper formal bank reconciliations.

Effect: The absence of proper accounting ledgers, monthly bank account reconciliations, and supervisory oversight of the accounting function increase the likelihood that accounting errors or a misappropriation of funds would not be detected in a timely manner.

Recommendation: We recommend the Sheriff's office implement procedures to maintain complete accounting ledgers for the Bond and C/O Commissary accounts showing the running bank balance of the account and prepare formal monthly bank reconciliations noting any reconciling items such as outstanding checks or deposits that haven't cleared the bank. Additionally, we recommend the Sheriff perform a documented review of the monthly statements and reconciliations performed by the Jail Administrator.

County's Response: We will adjust the process to maintain the recommended accounting ledgers for the Bond and Commissary accounts to show the monthly running balances and reconciliations. The Sheriff currently reviews the bank accounts and statements monthly but will create a process to document the accounts have been reviewed.

Auditor's Evaluation: The response is appropriate to correct the concern.

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

None noted

ITEMS OF NONCOMPLIANCE

2024-002: Sheriff Turnover of Receipts

Criteria: Section 50.360, RSMo, requires every officer to turnover all monies collected to the County Treasurer at the end of each month.

Condition: The Sheriff maintains a C/O Commissary account that collects prisoner boarding fees from the housing of inmates for other governmental entities and prisoner phone usage fees. During 2024, there were no turnovers of funds to the Treasurer. The majority of the purchases from the account were described as jail supplies, but there were also purchases for \$39,500, \$28,500, \$14,000, and \$32,828 for items such as vehicles and emergency equipment. No budget has been adopted for the funds in this account. The office maintains another commissary bank account for use with the current Stellar commissary system.

Cause: The C/O Commissary account has accumulated a bank balance of \$199,703 due to funds from prisoner board and commissary phone sales not being turned over to the Treasurer.

Effect: As the funds have accumulated in the account and not been turned over to the Treasurer and no formal budget has been adopted, the expenditures of the account are not subject to the accountability of the budgetary process and do not follow the County's typical internal control process for approving invoices and paying vendors.

Recommendation: We recommend the Sheriff's office implement procedures to ensure that funds from the C/O Commissary account are turned over to the Treasurer in accordance with state statutes to ensure that the expenditures are subject to the budgetary process and follow the same internal control process as other County funds.

County's Response: The C/O Commissary account contains some funds that are not required by statute to be turned over to the County Treasurer. However, for those funds that are required to be turned over, accounts will be established to ensure that those funds are separated and turned into the Treasurer on a monthly basis.

Auditor's Evaluation: The response is appropriate to correct the concern.

2024-003: Budgetary Controls

Criteria: State statutes prohibit budgeting expenditures in excess of the beginning balance plus anticipated revenues for an individual fund.

Condition: The County budgeted expenditures in excess of the beginning balance plus anticipated revenues for the General Revenue and Sheriff/CPD Contract Funds in 2024.

Cause: The County increased the budgeted expenditures of the two funds without increasing budgeted revenues while approving amendments to the 2024 budget in December 2024. The Sheriff/CPD

Contract fund operates on a reimbursement basis and the deficit was resolved through receipt of funds subsequent to year end.

Effect: The County budgeted for the General Revenue and Sheriff/CPD Contract Funds to have negative expected ending balances at the end of the year.

Recommendation: We recommend that the County refrain from adopting budgets with negative (deficit) ending fund balances by ensuring that funds have sufficient beginning balances or expected revenues to cover the budgeted expenditures.

County's Response: Roberta Elliott, County Clerk, will re-check budget amendments even for money in money out accounts.

Auditor's Evaluation: The response is appropriate to correct the concern.

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2024-004: Internal Control Over Schedule of Expenditures of Federal Awards

Federal Grantor: U.S. Department of the Treasury

Pass-Through Grantor: N/A

Federal Assistance Listing Number: 21.027

Program Title: Coronavirus State and Local Fiscal Recovery Funds

Pass-through Entity Identifying Number: N/A

Award Year: 2024

Questioned Costs: None

Criteria: 2 CFR 200.510(b) requires auditees to prepare a schedule of expenditures of federal awards (SEFA) which must report total federal awards expended during the audit period. At a minimum, the schedule must include: expenditures by individual federal program, name of the pass-through entity and identifying number for awards not received directly from the federal government, and the total amount provided to subrecipients from each federal program.

Condition: The SEFA reported by the County in the 2024 annual budget document underreported expenditures of the Coronavirus State and Local Fiscal Recovery Funds program (ALN 21.027) by \$1,184,214.

Cause: The County has not implemented a proper system of internal control over SEFA preparation, such as a reconciliation to underlying accounting records or having a separate individual review the SEFA for clerical accuracy after it has been prepared.

Effect: The SEFA presented for audit did not accurately reflect the County's actual expenditures of federal awards for the year ended December 31, 2024.

Recommendation: We recommend that the County implement internal controls to ensure that the SEFA completely and accurately states the expenditures of federal awards of the County each year.

County's Response: The SEFA information needed for this finding was from the 2025 budget. The 2025 budget can be amended up to 12/31/2025. Even though the ARPA funds in question were not reported on the SEFA page of the 2025 budget, it was reported within the budget within its own fund, which would show actual expenditures of the year ended December 31, 2024.

Going forward the County Clerk will have the Treasurer review the SEFA report for accuracy.

Auditor's Evaluation: The response is appropriate to correct the concern.

MONITEAU COUNTY, MISSOURI
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

In accordance with the Uniform Guidance, this section reports the follow-up on action taken by Moniteau County, Missouri on the applicable findings in the prior audit report issued for the year ended December 31, 2021.

2021-001: It was noted the County was not in compliance with Missouri budgetary statute Chapter 50, RSMo.

Status: Partially resolved, see finding 2024-003.

2021-002: Documentation of the County's internal controls has not been prepared.

Status: Considered resolved.

2021-003: The County did not have a formal fraud risk assessment in place.

Status: Considered resolved.

CERTIFIED PUBLIC ACCOUNTANTS

September 22, 2025

To the County Commission
Moniteau County, Missouri

We have audited the regulatory basis financial statements of Moniteau County, Missouri for the year ended December 31, 2024. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 22, 2025. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Moniteau County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2024. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. The following material misstatements detected as a result of our audit were corrected by management:

- Revenues of the ARPA account were reduced by \$1,715,440 due to maturing certificates of deposit being recorded as revenue. Disbursements were reduced by \$620,116 due to the opening of new certificates of deposit being recorded as expenses.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated September 22, 2025.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We were engaged to report on the Schedule of Expenditures of Federal Awards, which accompanies the financial statements but is not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles prescribed or permitted by Missouri law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of Moniteau County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

(Original Signed by McBride, Lock & Associates, LLC)

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions, other than cities, towns, and villages, required to file a financial report under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office shall notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Due to different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 52 political subdivisions required to file a financial report by September 30, 2025, is presented in summary on page 3 and in detail in Appendix A. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in September 2025, after their filing deadline. The filing status for these 31 entities is presented in summary on page 3 and by individual entity in Appendixes B and C.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive style with a large, stylized "S" and "F".

Scott Fitzpatrick
State Auditor

Monthly Report on Political Subdivision Filings

September 2025

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

This report includes the filing status for the 52 political subdivisions, other than cities, towns, and villages, with a fiscal year end of March 31, 2025. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 52 political subdivisions, 42 filed an annual financial report timely.

This report also includes the filing status for 31 political subdivisions, other than cities, towns, and villages, that filed their financial report in September 2025, after their filing deadline.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by September 30, 2025, under Section 105.145, RSMo, and 15 CSR 40-3.030 and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) shall notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO shall notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Due to different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 49 cities and 24 villages is presented in summary on page 3 and in detail in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in September 2025, after their filing deadline. The filing status for these 121 cities and 12 villages is presented in summary on page 4 and by individual entity in Appendixes B to I.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive, flowing style.

Scott Fitzpatrick
State Auditor

Monthly Report on Municipal Court and Revenue Filings

September 2025

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedure to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. Rule 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires the SAO to notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359, RSMo, and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and a mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 49 cities and 24 villages with a fiscal year end of March 31, 2025, whose financial report was due by September 30, 2025. Of the 73 municipalities, 50 filed the financial report timely. Of the 52 municipalities required to file an addendum, 26 filed timely. Of the 21 municipalities required to file a certification, 9 filed timely.

Monthly Report on Municipal Court and Revenue Filings
September 2025
Executive Summary

This report includes the filing status for 121 cities and 12 villages that filed at least one of the items (financial report, addendum, or certification) in September 2025, after their filing deadline. Of these municipalities, 19 filed an annual financial report, 99 filed an addendum, and 35 filed a certification.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

To the County Commission
and
Officeholders of Scotland County, Missouri

The Office of the State Auditor contracted for an audit of Scotland County's financial statements for the year ended December 31, 2024, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

A handwritten signature in black ink that reads "S. Fitzpatrick". The signature is written in a cursive, flowing style.

Scott Fitzpatrick
State Auditor

November 2025
Report No. 2025-089

Scott Fitzpatrick
Missouri State Auditor

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Scotland County

2024-001

The county implement internal controls to ensure that the Schedule of Expenditures of Federal Awards (SEFA) completely and accurately states the expenditures of federal awards of the county each year.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Scotland County, Missouri

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Scotland County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2024, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Scotland County, Missouri, as of December 31, 2024, and their respective cash receipts and disbursements, and budgetary results for the year then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Scotland County, Missouri, as of December 31, 2024, or the changes in financial position thereof for the year then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Scotland County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Scotland County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Scotland County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the

financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Scotland County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Scotland County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 29, 2025, on our consideration of Scotland County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Scotland County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Scotland County, Missouri's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of this statement.

SCOTLAND COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2024

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Scotland County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are ten elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff, and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Scotland County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County’s custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law.
10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures in 2024 exceeded budgeted amounts for the CARES Fund.

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property included within the County's boundaries for the calendar year 2024 for purposes of taxation were:

Real Estate	\$ 53,557,064
Personal Property	32,618,304
Railroad and Utilities	11,553,328
Total	<u>\$ 97,728,696</u>

For calendar year 2024, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

General Revenue	\$ 0.4998
Road & Bridge	0.3499
Special Road & Bridge	0.3100

In addition to the levies above, the County has levied a tax of \$.75 per acre on all agricultural and horticultural land which is included in the Road Rock Fund.

Both the Road and Bridge and Special Road and Bridge levies go into the Special Road & Bridge Fund.

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been

eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2024, the County had the following cash and investment balances:

	Carrying Value	Bank Balance	FDIC Coverage
Cash and Cash Equivalents	\$ 2,541,709	\$ 2,752,392	\$ 250,000
Investments	506,501	506,501	250,000
Total Governmental Funds	<u>\$ 3,048,210</u>	<u>\$ 3,258,893</u>	<u>\$ 500,000</u>
Cash and Cash Equivalents - Fiduciary	<u>\$ 4,988,955</u>	<u>\$ 4,507,238</u>	<u>\$ 283,296</u>

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2024 were covered by pledged collateral securities, letters of credit, or other acceptable collateral held by the County or by its safekeeping bank agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002. During 2024, the County collected and remitted to CERF employee withholdings and fees collected of \$90,838 for the year then ended.

B. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$4,114 for the year ended December 31, 2024.

C. Other Retirement Plans

Scotland County has a voluntary 401(a) plan which is paid by a deduction from the employee's salary. Employee contributions collected and remitted by the County for the year ended December 31, 2024 were \$7,203.

Scotland County has a voluntary 457(b) plan which is paid by a deduction from employee's salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the year ended December 31, 2024 were \$40,581.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

Full-time employees shall earn eight hours of sick leave with pay credit monthly in which a minimum of 120 hours have been worked. Introductory employees are not eligible for leave pay until six months of employment have been completed, although sick leave accrues from the first month of employment. Full-time employees may accumulate sick leave with pay to a maximum of 240 hours. Employees may use up to 48 hours of sick leave each year. Upon termination, employees will not be compensated for any unused sick leave.

Each full-time regular employee shall accrue vacation leave credit at annual rates as follows: zero hours during introductory period; 40 hours during year two; 80 hours during years three through five; 120 hours after year five. Employees may accrue vacation leave to a maximum of 240 hours, except personnel who are FLSA exempt may accrue vacation leave to a maximum of 360 hours. It is the general policy not to reimburse individuals for accrual of vacation time beyond their eligible amounts. Any employee with benefits leaving the County service due to resignation, death or termination shall be compensated for vacation credit unused to the date of termination.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation Trust. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. RELATED PARTIES

The Prosecuting Attorney received rent payments from the County for use of a commercial building located at 103 South Main Street, Memphis, Missouri. During 2024, \$5,600 was paid by the County, of which \$2,400 was paid to the Prosecuting Attorney, prior to her resignation in April 2024.

8. LONG-TERM DEBT

In August 2019, two tax anticipation notes in the amounts of \$57,291 and \$342,709 were issued by the Bank of Kirksville with a 7 year repayment period. The tax anticipation notes are repaid through annual principal and interest payments. The interest rate shall not exceed 3.75%. The final payment on the notes was made in February 2024.

The following schedule shows changes in long-term debt during the year ended December 31, 2024:

Description	Balance 12/31/2023	Additions	Payments	Balance 12/31/2024	Interest Paid
Tax Anticipation Notes	\$ 48,637	\$ -	\$ (48,637)	\$ -	\$ 1,925

9. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2024 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through September 29, 2025, the date the financial statements were available to be issued.

COMPLIANCE SECTION

McBRIDE, LOCK & ASSOCIATES, LLC

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Scotland County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Scotland County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2024, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements, which collectively comprise Scotland County, Missouri's basic financial statements and have issued our report thereon dated September 29, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Scotland County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Scotland County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Scotland County, Missouri's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses, or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Scotland County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the County Commission and
Officeholders of Scotland County, Missouri

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Scotland County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Scotland County, Missouri's major federal programs for the year ended December 31, 2024. Scotland County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Scotland County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Scotland County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Scotland County, Missouri's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Scotland County, Missouri's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Scotland County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Scotland County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Scotland County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Scotland County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Scotland County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

Our consideration of internal control over compliance was for the limited purposes described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we did identify a certain deficiency in internal control over compliance that we consider to be a material weakness.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2024-001 to be a material weakness.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on Scotland County, Missouri's response to the internal control over compliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. Scotland County, Missouri's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

See accompanying Notes to the Schedule of Expenditures of Federal Awards

SCOTLAND COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEAR ENDED DECEMBER 31, 2024

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of Scotland County, Missouri for the year ended December 31, 2024. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE C – SUBRECIPIENTS

The County did not pass any federal awards through to subrecipients during the year ended December 31, 2024.

SCOTLAND COUNTY, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED DECEMBER 31, 2024

SECTION I – SUMMARY OF AUDITOR’S RESULTS

Financial Statements:

Type of auditor’s report issued on whether the financial statements audited were prepared in accordance with GAAP: Adverse

Type of auditor’s report issued on whether the financial statements were prepared in accordance with the regulatory basis: Unmodified

The special purpose framework used as a basis of accounting was not required by state law.

Internal Control Over Financial Reporting:

- Material weakness(es) identified? Yes X No
- Significant deficiencies identified that are not considered to be material weaknesses? Yes X None Reported
- Noncompliance material to financial statements noted? Yes X No

Federal Awards:

Internal Control Over Major Programs:

- Material weakness(es) identified? X Yes No
- Significant deficiencies identified that are not considered to be material weaknesses? Yes X None Reported

Type of Auditor’s Report Issued on Compliance For Major Programs: Unmodified

Any audit findings disclosed that are required to be reported in accordance with Uniform Guidance section 200.516? X Yes No

Identification of Major Programs:

<u>Assistance Listing Number(s)</u>	<u>Name of Federal Program or Cluster</u>
20.205	Highway Planning and Construction

Dollar Threshold Used to Distinguish Between Type A and Type B Programs: \$750,000

Auditee Qualified as low-risk: Yes X No

SECTION II – FINANCIAL STATEMENTS FINDINGS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

None reported

ITEMS OF NONCOMPLIANCE

None

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2024-001: Internal Control Over Schedule of Expenditures of Federal Awards

Federal Grantor: U.S. Department of Transportation (DOT), U.S. Department of the Treasury (Treasury), Election Assistance Commission (EAC)

Pass-Through Grantor: Missouri Department of Transportation, Missouri Secretary of State

Federal Assistance Listing Number: 20.205, 21.027, 90.404

Program Title: Highway Planning and Construction, Coronavirus State and Local Fiscal Recovery Funds, HAVA Election Security Grants

Pass-through Entity Identifying Number: BRO-R099(001), BRO-B099(23), RRP-000S(581)

Award Year: 2024

Questioned Costs: None

Criteria: 2 CFR 200.510(b) requires auditees to prepare a schedule of expenditures of federal awards (SEFA) which must report total federal awards expended during the audit period. At a minimum, the schedule must include: expenditures by individual federal program, name of the pass-through entity and identifying number for awards not received directly from the federal government, and the total amount provided to subrecipients from each federal program.

Condition: The SEFA reported by the County in the 2025 annual budget document did not include all federal expenditures. Discrepancies in amounts reported on the 2024 SEFA and amount supported by underlying accounting records are summarized as follows:

Assistance					
Federal Agency	Listing Number	Program	Original SEFA	Supported	Difference
DOT	20.205	Highway Planning and Construction	-	1,851,456	(1,851,456)
Treasury	21.027	Coronavirus State and Local Fiscal Recovery Funds	-	289,970	(289,970)
EAC	90.404	HAVA Election Security Grants	-	247	(247)

Cause: The County has not implemented a proper system of internal control over SEFA preparation, such as a review of underlying accounting records to ensure all federal expenditures have been included.

Effect: The SEFA presented for audit did not accurately reflect the County's actual expenditures of federal awards for the year ended December 31, 2024.

Recommendation: We recommend that the County implement internal controls to ensure that the SEFA completely and accurately states the expenditures of federal awards of the County each year.

County's Response: Scotland County's response for issues found:

1. We will double check to make sure we didn't miss something for the SEFA report.
2. We will update the 2024 SEFA for the corrected amounts.
3. The Highway Planning and Construction (MODOT Intermodal) included the railroad bridge that no one could tell us where the money was coming from. This accounted for \$1,228,104.64. We will correct this on the SEFA.
4. The ARPA was the interest received in 2024. We didn't receive any more money from the state in 2024. We will get this added to the SEFA.
5. The HAVA Election Security Grant was missed when we were putting them in the report. We will get this added to the SEFA.

Auditor's Evaluation: The grant agreement from MODOT for the RRP-000S(581) project did not include an Assistance Listing Number or other information identifying it is federal, however, the grant agreements for the two BRO projects did indicate the Assistance Listing Number. The expenditures of Coronavirus State and Local Fiscal Recovery Funds in 2024 were well in excess of the amount of interest earned on the funds since the first receipt of funds in 2021.

MANAGEMENT'S RESPONSE TO AUDITOR'S FINDINGS:

- **Summary Schedule of Prior Audit Findings**
 - **Corrective Action Plan**

SCOTLAND COUNTY, MISSOURI
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

In accordance with the Uniform Guidance, this section reports the follow-up on action taken by Scotland County, Missouri on the applicable findings in the prior audit report issued for the two years ended December 31, 2020 and 2019.

There were no findings noted in the prior audit report.

SCOTLAND COUNTY, MISSOURI
CORRECTIVE ACTION PLAN

Finding Reference Number: 2024-001

Federal Agency: U.S. Department of Transportation, U.S. Department of the Treasury, Election Assistance Commission

Program Name: Highway Planning and Construction, Coronavirus State and Local Fiscal Recovery Funds, HAVA Election Security Grants

Assistance Listing Number: 20.205, 21.027, 90.404

CERTIFIED PUBLIC ACCOUNTANTS

September 29, 2025

To the County Commission
Scotland County, Missouri

We have audited the regulatory basis financial statements of Scotland County, Missouri for the year ended December 31, 2024. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated August 13, 2025. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Scotland County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2024. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated September 29, 2025.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We were engaged to report on the Schedule of Expenditures of Federal Awards, which accompanies the financial statements but is not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles prescribed or permitted by Missouri law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of Scotland County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

(Original Signed by McBride, Lock & Associates, LLC)

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Mercer County, Missouri

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Mercer County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023 and 2024, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Mercer County, Missouri, as of December 31, 2023 and 2024, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Mercer County, Missouri, as of December 31, 2023 and 2024, or the changes in financial position thereof for the years then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Mercer County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Mercer County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Mercer County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Mercer County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Mercer County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 9, 2025, on our consideration of Mercer County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Mercer County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Mercer County, Missouri's internal control over financial reporting and compliance.

MERCER COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2023 and 2024

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Mercer County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are eight elected Constitutional Officers: Assessor, Circuit Clerk/ex officio Recorder of Deeds, Collector/Treasurer, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, and Sheriff.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Mercer County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County’s custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law.
10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets.

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property included within the County's boundaries for the calendar years 2024 and 2023 for purposes of taxation were:

	2024	2023
Real Estate	\$ 44,930,598	\$ 44,178,102
Personal Property	30,263,071	30,665,327
Railroad and Utilities	14,939,937	14,486,483
Total	<u>\$ 90,133,606</u>	<u>\$ 89,329,912</u>

For calendar years 2024 and 2023, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

	2024	2023
General Revenue	\$ 0.2632	\$ 0.2656
Special Road and Bridge	0.1418	0.1418
Senior Citizens	0.0473	0.0473

Lindley Township, which is managed by Mercer County, also receives property taxes based on the assessed valuation of the tangible taxable property included within the Township's boundaries.

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest-bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and

as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2024, the County had the following cash and investment balances:

	Carrying Value	Bank Balance	FDIC Coverage
Cash and Cash Equivalents	\$ 944,991	\$ 1,004,967	\$ 672,323
Investments	3,000,000	3,000,000	-
Total Governmental Funds	<u>\$ 3,944,991</u>	<u>\$ 4,004,967</u>	<u>\$ 672,323</u>
Cash and Cash Equivalents			
- Fiduciary Funds	<u>\$ 4,753,621</u>	<u>\$ 4,781,876</u>	<u>\$ 399,669</u>

At December 31, 2023, the County had the following cash and investment balances:

	Carrying Value	Bank Balance	FDIC Coverage
Cash and Cash Equivalents	\$ 603,216	\$ 664,390	\$ 370,963
Investments	3,000,000	3,000,000	-
Total Governmental Funds	<u>\$ 3,603,216</u>	<u>\$ 3,664,390</u>	<u>\$ 370,963</u>
Cash and Cash Equivalents			
- Fiduciary Funds	<u>\$ 5,657,545</u>	<u>\$ 5,405,686</u>	<u>\$ 347,750</u>

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2024 and 2023 were covered by pledged collateral securities or other acceptable collateral held by the County or by its safekeeping bank agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002. During 2024 and 2023, the County collected and remitted to CERF employee withholdings and fees collected of \$46,718 and \$50,696, respectively for the years then ended.

B. 401 (A) Pension Plan

Participation in the plan is mandatory for all employees who have worked over 1,000 hours in a calendar year. The County does not contribute to the plan. Plan participants contribute .7% of earnings to the plan. During 2024 and 2023, the County collected and remitted to the plan employee withholdings of \$5,597 and \$6,342, respectively.

C. Deferred 457 Pension Plan

Participation in the plan is voluntary for all full-time employees. Part-time employees are not eligible to participate in the plan. Plan participants can elect to contribute any whole percentage or dollar amount of their earnings to the plan. Fifty cents on the dollar is matched by CERF on the first 6% of an employee's contribution. The County does not contribute to the plan. Employee contributions collected and remitted by the County for the years ended December 31, 2024 and 2023 were \$44,773 and \$48,470, respectively.

D. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$4,488 and \$3,366, respectively, for the years ended December 31, 2024 and 2023.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides employees with two full weeks of sick leave upon the anniversary of their hire date. After fifteen years of employment, the employee will receive three full weeks of sick leave. Sick leave does not carry over from year to year. Employees who have worked with the County for one full fiscal year or longer will be reimbursed for unused sick leave at the rate of 50% at the end of every year.

The County provides regular full-time employees who have completed one year of employment with two full weeks of vacation time. After fifteen years of employment, the employee will receive three full weeks of vacation time. Vacation leave must be used in the year it is earned. Upon termination of employment, employees are paid for unused vacation time earned during the year.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation Trust. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG-TERM DEBT

The County had the following long-term debt outstanding as of December 31, 2024:

- A. In January 2020, the County entered into a \$128,000, five-year non-cancellable lease agreement for a 2014 CAT road grader with an interest rate of 3.99%, under which the County can purchase the grader at the end of the lease for \$1. The agreement calls for annual payments of \$28,753 beginning on February 1, 2021 through February 1, 2025. The schedule of remaining payments and interest is below:

Fiscal Year Ending	Principal	Interest	Total
December 31,			
2025	\$ 27,651	\$ 1,102	\$ 28,753

- B. In February 2020, the County entered into a \$112,497, three-year non-cancelable lease agreement for a 2019 John Deere Tractor with an interest rate of 3.99%, under which the County can purchase the tractor at the end of the lease for \$1. The agreement called for a \$50,000 principal payment on February 11, 2020, and annual payments of \$22,495 beginning on February 1, 2021 through February 1, 2023. The final payment was made in 2023.

The following schedule shows changes in long-term debt during the year ended December 31, 2024:

Description	Balance	Additions	Payments	Balance	Interest
	12/31/2023			12/31/2024	Paid
2014 CAT Motorgrader	\$ 54,240	\$ -	\$ 26,589	\$ 27,651	\$ 2,164

The following schedule shows changes in long-term debt during the year ended December 31, 2023:

Description	Balance	Additions	Payments	Balance	Interest
	12/31/2022			12/31/2023	Paid
2014 CAT Motorgrader	\$ 79,808	\$ -	\$ 25,568	\$ 54,240	\$ 3,184
JD Tractor w/Tiger Mower	21,632	-	21,632	-	863

8. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2024 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through October 9, 2025, the date the financial statements were available to be issued.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Mercer County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Mercer County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023 and 2024, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements, which collectively comprise Mercer County, Missouri's basic financial statements and have issued our report thereon dated October 9, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Mercer County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Mercer County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Mercer County, Missouri's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs as item 2024-001 that we consider to be a significant deficiency.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Mercer County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Mercer County, Missouri's Response to Finding

Government Auditing Standards requires the auditor to perform limited procedures on Mercer County, Missouri's response to the finding identified in our audit and described in the accompanying schedule of findings and questioned costs. Mercer County, Missouri's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

McBRIDE, LOCK & ASSOCIATES, LLC

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the County Commission and
Officeholders of Mercer County, Missouri

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Mercer County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Mercer County, Missouri's major federal programs for the years ended December 31, 2023 and 2024. Mercer County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Mercer County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2023 and 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Mercer County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Mercer County, Missouri's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Mercer County, Missouri's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Mercer County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Mercer County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Mercer County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Mercer County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Mercer County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant

deficiencies over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

MERCER COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEARS ENDED DECEMBER 31, 2023 AND 2024

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of Mercer County, Missouri for the years ended December 31, 2024 and 2023. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE C – SUBRECIPIENTS

The County did not pass any federal awards through to subrecipients during the years ended December 31, 2024 and 2023.

Auditee Qualified as low-risk: Yes X No

SECTION II – FINANCIAL STATEMENTS FINDINGS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

2024-001: Public Administrator Internal Control over Disbursements

Criteria: A proper system of internal controls requires all supporting documents for disbursements to be properly maintained. Section 473.543, RSMo states that, “Each expenditure of more than seventy-five dollars for which a personal representative claims credit in any settlement shall be supported by vouchers executed by the person to whom the disbursement was made or other documentation, such as an electronic copy of a check or a bank statement, which establishes to the court’s satisfaction that the payment claimed in the settlement was actually made to the payee to whom it is claimed to have been made.”

Condition: We selected a sample of five wards for testing and performed a walkthrough of the Public Administrator’s disbursement process noting that supporting documentation is not required for expenditures below \$75. During our audit, we noted multiple instances of the Public Administrator writing several \$74 checks on the same day to wards for personal spending for which no supporting documentation could be provided. The table below details the number of \$74 checks written during the audit period for the five wards selected for testing:

	Total Ward Disbursements	Number of \$74 Checks	Amount
Ward 1	\$ 23,094	164	\$ 12,136
Ward 2	82,689	0	-
Ward 3	42,977	2	148
Ward 4	27,384	58	4,292
Ward 5	49,295	4	296

Cause: Due to the state statute noted above, the Public Administrator does not maintain supporting documentation for disbursements that are less than \$75.

Effect: Disbursements for personal spending were broken up into multiple \$74 checks written on the same day, thereby avoiding the requirement to maintain supporting documentation for the disbursements.

Recommendation: We recommend that the Public Administrator discontinue the practice of breaking up disbursements into multiple checks and implement procedures to maintain supporting documentation in accordance with state statutes.

County’s Response: Public Administrator will try to obtain documents of the expenses or obtain specific allowances for the Ward from the Court (doing a Motion).

Auditor’s Evaluation: The response is appropriate to correct the concern.

MERCER COUNTY, MISSOURI

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

In accordance with the Uniform Guidance, this section reports the follow-up on action taken by Mercer County, Missouri on the applicable findings in the prior audit report issued for the two years ended December 31, 2021 and 2020.

2020-001: The Sheriff's office was not performing adequate reconciliations of the monthly bank statements during 2019 and 2020. Additionally, cash receipts and disbursements were not always timely recorded in the checkbook register, a running ledger balance was not properly recorded, and the monthly bank statement was not reconciled with the checkbook register. Furthermore, there was no indication that the bank statements and register were reviewed by the Sheriff.

Status: Resolved.

2020-002: The County Commission has not adopted an investment policy as required by state statute.

CERTIFIED PUBLIC ACCOUNTANTS

October 9, 2025

To the County Commission
Mercer County, Missouri

We have audited the regulatory basis financial statements of Mercer County, Missouri for the years ended December 31, 2023 and 2024. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 22, 2025. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Mercer County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2023 and 2024. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no misstatements detected during the audit.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 9, 2025.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We were engaged to report on the Schedule of Expenditures of Federal Awards, which accompanies the financial statements but is not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles prescribed or permitted by Missouri law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of Mercer County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

(Original Signed by McBride, Lock & Associates, LLC)

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

To the County Commission
and
Officeholders of Daviess County, Missouri

The Office of the State Auditor contracted for an audit of Daviess County's financial statements for the 2 years ended December 31, 2024, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

A handwritten signature in black ink that reads "S. Fitzpatrick". The signature is stylized, with the first letters of the first and last names being capitalized and prominent.

Scott Fitzpatrick
State Auditor

November 2025
Report No. 2025-087

Recommendations in the contracted audit of Daviess County

2024-001	The Prosecuting Attorney's office implement internal controls to ensure that incompatible duties are properly segregated, that bank reconciliations are properly performed each month, that a proper accounting ledger showing a running total of the cash balance is maintained, and that funds held in a fiduciary capacity are disbursed to the proper entities in a timely manner.
2024-002	The Public Administrator implement procedures to ensure that supporting documentation is maintained to support the transactions and balances for all wards.
2024-003	The county adhere to authorized spending limits as documented in the adopted county budget, and that the county refrain from budgeting negative (deficit) fund balances for county funds.
Sheriff's Internal Control over Cash	The Sheriff's office implement procedures to properly segregate duties related to the physical control over assets from the reconciliation procedures, or implement procedures requiring the Sheriff's review and documented approval of the monthly bank reconciliations.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Daviess County, Missouri

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Daviess County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023 and 2024, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Daviess County, Missouri, as of December 31, 2023 and 2024, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Daviess County, Missouri, as of December 31, 2023 and 2024, or the changes in financial position thereof for the years then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Daviess County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Daviess County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri Law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Daviess County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the

financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Daviess County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Daviess County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 5, 2025, on our consideration of Daviess County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Daviess County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Daviess County, Missouri's internal control over financial reporting and compliance.

DAVIESS COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2024 and 2023

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Daviess County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are nine elected Constitutional Officers: Assessor, Circuit Clerk, Collector/Treasurer, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder and Sheriff.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Daviess County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County’s custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. However, the County budgeted a negative ending fund balance for the Law Enforcement Training Fund in 2024, Election Services Fund in 2023, and Law Enforcement Federal Grants Fund in 2023 and 2024. Also, the Law Enforcement Training and Law Enforcement Federal Grants Funds in 2023 and 2024 and the Emergency Management Fund in 2024 had actual expenditures that exceeded actual revenues plus beginning fund balances.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law.

10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds:

Fund	2024	2023
Law Enforcement Training	✓	✓
Law Enforcement Civil	✓	N/A
Tax Maintenance	N/A	✓
Jackson Township	✓	N/A
Inmate Security	N/A	✓
Cares Act	✓	N/A

The expenditures of the Election Equipment Purchase Fund in 2023 exceeded the budgeted amount due to a \$26,000 adjustment related to a timing difference between the general ledger and the Treasurer's Settlements.

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property included within the County's boundaries for the calendar years 2024 and 2023 for purposes of taxation were:

	2024	2023
Real Estate	\$ 108,300,634	\$ 105,752,140
Personal Property	48,049,386	48,078,015
Railroad and Utilities	14,131,199	13,883,986
Total	<u>\$ 170,481,219</u>	<u>\$ 167,714,141</u>

For calendar years 2024 and 2023, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

	2024	2023
General Revenue	\$ 0.3604	\$ 0.2717
Senior Services Board	0.0500	0.0500
Senate Bill 40 Board	0.0930	0.0930

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States,

other interest-bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2024, the County had the following cash and investment balances:

	Carrying Value	Bank Balance	FDIC Coverage
Cash and Cash Equivalents	\$ 3,008,324	\$ 3,078,122	\$ 295,044
Investments	2,809,924	2,809,924	467,946
Total Governmental Funds	<u>\$ 5,818,248</u>	<u>\$ 5,888,046</u>	<u>\$ 762,990</u>
Cash and Cash Equivalents - Fiduciary Funds	<u>\$ 7,219,404</u>	<u>\$ 7,171,075</u>	<u>\$ 426,554</u>

At December 31, 2023, the County had the following cash and investment balances:

	Carrying Value	Bank Balance	FDIC Coverage
Cash and Cash Equivalents	\$ 3,802,946	\$ 3,785,919	\$ 288,345
Investments	1,612,506	1,612,506	458,283
Total Governmental Funds	<u>\$ 5,415,452</u>	<u>\$ 5,398,425</u>	<u>\$ 746,628</u>
Cash and Cash Equivalents - Fiduciary Funds	<u>\$ 7,948,535</u>	<u>\$ 6,594,014</u>	<u>\$ 454,380</u>

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2024 and 2023 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002. During 2024 and 2023, the County collected and remitted to CERF employee withholdings and fees collected of \$136,518 and \$116,557, respectively, for the years then ended.

B. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$0 and \$3,366, respectively, for the years ended December 31, 2024 and 2023.

C. Other Retirement Plan

Daviess County has a mandatory 401(a) plan and a voluntary 457(b) plan administered by Empower Retirement. The 401(a) plan consists of a mandatory 0.7% deduction from employee's salaries, and employees may elect to make voluntary contributions under the 457(b) plan. These contributions qualify under the Internal Revenue Code and are tax exempt. For the years ended December 31, 2024, and 2023, the County collected and remitted 401(a) contributions of \$8,796 and \$8,175, respectively, and 457(b) contributions of \$54,351 and \$47,764, respectively.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full-time employees with ten hours of personal leave for each completed calendar month of employment. Upon termination, employees will not be compensated for any unused personal time.

Vacation time is made available in whole on the employee's anniversary date. Vacation time is five days for full-time employees with one year of service; ten days for employees with two to four years of service; 15 days for employees with five to nine years of service; and 20 days for employees with 10 or more years of service. Vacation leave must be used in its entirety before the employee's anniversary date or it will be forfeited. Upon termination, employees are compensated for any unused vacation time.

Full-time employees earn overtime or compensatory time credits based on department assignment. Overtime and Compensatory Time credits are earned at 1.5 times the regular hourly rate of the employee for work hours accumulated over 40 hours in a work week and 80 hours in a two-week pay period. Employees are not allowed to accrue more than 240 hours of compensatory time, except for law enforcement employees, who may accumulate up to 480 hours. Upon termination, employees are compensated for any compensatory time credits.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation Trust. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG-TERM DEBT

The County had the following long-term debt outstanding as of December 31, 2024:

- A. On May 22, 2019, the County entered into a lease purchase agreement for a 2019 Dodge Durango for \$30,183. The agreement required four annual payments of \$8,175, which included interest payable at 3.75%. The final payment was made on May 22, 2023.
- B. On May 22, 2019, the County entered into a lease purchase agreement for a second 2019 Dodge Durango for \$28,574. The agreement required four annual payments of \$7,739, which included interest payable at 3.75%. The final payment was made on May 22, 2023.

- C. On May 22, 2019, the County entered into a lease purchase agreement for a third 2019 Dodge Durango for \$29,683. The agreement required four annual payments of \$8,040, which included interest payable at 3.75%. The final payment was made on May 22, 2023.
- D. On October 2, 2019, the County entered into a lease purchase agreement for a 2019 Dodge Ram for \$32,226. The agreement required four annual payments of \$8,612, which included interest payable at 3.75%. The final payment was made on October 2, 2023.
- E. On July 28, 2021, the County entered into a lease purchase agreement for a 2021 Chevy Silverado for \$32,124. The agreement requires four annual payments of \$8,539, which includes interest payable at 2.50%. The agreement matures on July 28, 2025.

Fiscal Year Ending December 31,	Principal	Interest	Total
2025	\$ 8,332	\$ 207	\$ 8,539

- F. On June 18, 2024, the County entered into a lease purchase agreement for three 2024 Chevy Tahoes for \$153,054. The agreement requires four annual payments of \$42,951, which includes interest payable at 5.25%. The agreement matures on April 1, 2028.

Fiscal Year Ending December 31,	Principal	Interest	Total
2025	\$ 36,634	\$ 6,317	\$ 42,951
2026	36,839	6,112	42,951
2027	38,773	4,178	42,951
2028	40,808	2,143	42,951
Totals	\$ 153,054	\$ 18,750	\$ 171,804

The following schedule shows changes in long-term debt during the year ended December 31, 2024:

Description	Balance 12/31/2023	Additions	Payments	Balance 12/31/2024	Interest Paid
Chevy Silverado	\$ 16,459	\$ -	\$ (8,127)	\$ 8,332	\$ 412
Chevy Tahoes	-	153,054	-	153,054	-

The following schedule shows changes in long-term debt during the year ended December 31, 2023:

Description	Balance 12/31/2022	Additions	Payments	Balance 12/31/2023	Interest Paid
Dodge Durango	\$ 7,880	\$ -	\$ (7,880)	\$ -	\$ 295
Dodge Durango	7,460	-	(7,460)	-	279
Dodge Durango	7,749	-	(7,749)	-	291
Dodge Ram	8,301	-	(8,301)	-	311
Chevy Silverado	24,388	-	(7,929)	16,459	610

8. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2024 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through September 5, 2025, the date the financial statements were available to be issued.

COMPLIANCE SECTION

McBRIDE, LOCK & ASSOCIATES, LLC

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Daviess County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Daviess County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023 and 2024, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements, which collectively comprise Daviess County, Missouri's basic financial statements and have issued our report thereon dated September 5, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Daviess County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Daviess County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Daviess County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as items 2024-001 and 2024-002 that we consider to be significant deficiencies.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Daviess County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and questioned costs as item 2024-003.

Daviess County, Missouri's Responses to Findings

Government Auditing Standards requires the auditor to perform limited procedures on Daviess County, Missouri's responses to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. Daviess County, Missouri's responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

McBRIDE, LOCK & ASSOCIATES, LLC

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the County Commission and
Officeholders of Daviess County, Missouri

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Daviess County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of Daviess County, Missouri's major federal programs for the years ended December 31, 2023 and 2024. Daviess County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Daviess County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2023 and 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Daviess County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Daviess County, Missouri's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Daviess County, Missouri's federal programs.

Auditor's Responsibilities for Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Daviess County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Daviess County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Daviess County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Daviess County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Daviess County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant

deficiencies over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

DAVIESS COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEARS ENDED DECEMBER 31, 2024 AND 2023

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of Daviess County, Missouri for the years ended December 31, 2024 and 2023. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE C – SUBRECIPIENTS

The County did not pass any federal awards through to subrecipients during the years ended December 31, 2024 and 2023.

DAVIESS COUNTY, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2024 AND 2023

Financial Statements:

Type of auditor’s report issued on whether the financial statements
audited were prepared in accordance with GAAP: Adverse

Type of auditor’s report issued on whether the financial statements
were prepared in accordance with the regulatory basis: Unmodified

The special purpose framework used as a basis of accounting was not required by state law.

Internal Control Over Financial Reporting:

- Material weakness(es) identified? Yes X No
- Significant deficiencies identified that are
not considered to be material weaknesses? X Yes None Reported
- Noncompliance material to financial
statements noted? X Yes No

Federal Awards:

Internal Control Over Major Programs:

- Material weakness(es) identified? Yes X No
- Significant deficiencies identified that are
not considered to be material weaknesses? Yes X None Reported

Type of Auditor’s Report Issued on Compliance
For Major Programs: Unmodified

Any audit findings disclosed that are required to be
reported in accordance with Uniform Guidance
section 200.516? Yes X No

Identification of Major Programs:

<u>Assistance Listing Number(s)</u>	<u>Name of Federal Program or Cluster</u>
20.205	Highway, Planning, and Construction

Dollar Threshold Used to Distinguish Between
Type A and Type B Programs: \$750,000

Auditee Qualified as low-risk: Yes X No

SECTION II – FINANCIAL STATEMENTS FINDINGS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

2024-001: Prosecuting Attorney Internal Controls

Criteria: A proper system of internal control requires reconciliations between bank statements and accounting ledgers. A proper accounting ledger should include a cash account showing the running balance of cash after each receipt or disbursement of funds.

Furthermore, Section 50.370, RSMo, states, “every county officer who receives any fees or other remuneration for official services which is payable to the county...shall at the end of each month...pay over to the county treasurer all fees and other moneys collected by him which belong to the county...”

Condition: There was no evidence of bank reconciliations being performed monthly or that the bank statements had been reviewed. A proper accounting ledger showing a running total of the cash balance on hand for the Office that can be reconciled to the monthly bank statement balances is not maintained. All accounting functions, including receipt of payments, bank deposits, and preparation of checks, are performed by one clerical employee in the Prosecuting Attorney’s office.

As of December 31, 2024, the Prosecuting Attorney’s bank account balance was \$35,058 for which the intended use of the funds is unknown. A review of the bank statements during the period noted that disbursements only occurred during the months of June, July, and September 2023, and during the months of June, November and December 2024. Further, there were no disbursements for the turnover of funds to the Treasurer during the audit period.

Cause: The accounting function has not been consistently performed and proper segregation of duties has not been implemented.

Effect: The lack of a proper accounting function, monthly bank account reconciliations, monthly turnovers to the Treasurer and supervisory oversight of the accounting function increase the likelihood that accounting errors or a misappropriation of funds would not be detected in a timely manner.

Recommendation: We recommend the Prosecuting Attorney’s office implement internal controls to ensure that incompatible duties are properly segregated, that bank reconciliations are properly performed each month, that a proper accounting ledger showing a running total of the cash balance is maintained, and that funds held in a fiduciary capacity are disbursed to the proper entities in a timely manner.

County’s Response: No response was provided by the Prosecuting Attorney.

2024-002: Public Administrator’s Internal Controls

Criteria: A proper system of internal controls requires that adequate documentation be maintained to support balances and transactions recorded in the accounting records.

Condition: There were three wards for which some or all of the bank statements during the audit period could not be provided. In one instance, only the 2024 bank statements for a ward could be provided. For another ward, only some of the 2024 bank statements could be provided. The third instance involved a Certificate of Deposit account for which no statements showing the balances and activity during the audit period could be provided.

We selected 40 disbursements for testing and noted 14 instances where supporting documentation for the payments were not maintained or could not be provided. The total of the 14 transactions was \$6,602, and seven of the transactions were for items that were not recurring room and board expenditures.

Cause: There was a change in officeholders during the audit period. The Public Administrator who took over during the audit period did not utilize the EMS accounting system like their predecessor, instead, the officeholder decided to utilize a manual accounting system. Certain accounting records could not be located by the current Public Administrator upon request.

Effect: Maintaining proper documentation ensures a proper audit trail to support amounts reported in the County's financial statement and in the wards annual settlements.

Recommendation: We recommend that the Public Administrator implement procedures to ensure that supporting documentation is maintained to support the transactions and balances for all wards.

County's Response: Previous Public Administrator, Tammy Huffman, resigned at the end of 2024. The Daviess County Commission appointed a new Public Administrator, who is experienced with the duties and responsibilities required of a Public Administrator. She is very conscientious and has already cleaned up, updated, and organized all the Public Administrator's wards' paperwork. She also did her best to comply with this audit, when she wasn't the one responsible for the past issues, and she also had just been appointed and was still trying to meet the County's wards and learn the duties of her position. Daviess County is confident that the past situation that caused the audit findings will no longer be an issue.

Auditor's Evaluation: The response is appropriate to correct the concern.

ITEMS OF NONCOMPLIANCE

2024-003: Budgetary Compliance

Criteria: State statutes prohibit expenditures in excess of approved budgets. Funds should not be budgeted to have a negative (deficit) ending balance (appropriations exceeding the beginning balance plus anticipated revenues).

Condition: Actual expenditures exceeded budgeted appropriations for four funds in 2024 and three funds in 2023. The detailed list of funds can be found in Note 1.D.10 to the financial statements. Additionally, the County budgeted a negative ending balance for the Law Enforcement Training fund in 2024, the Election Services Fund in 2023, and the Law Enforcement Federal Grants Fund in 2023 and 2024.

Cause: Expenditures were approved in excess of budgeted amounts, and expenditures were budgeted

for certain funds in excess of their beginning available balance plus anticipated revenues.

Effect: Budgetary controls are significant to the proper management and custodianship of county funds. Compliance with statutory requirements related to budgets will improve controls over county funds and help maintain the integrity of the budget process.

Recommendation: We recommend that the County adhere to authorized spending limits as documented in the adopted County budget, and that the County refrain from budgeting negative (deficit) fund balances for county funds.

County's Response: The Daviess County Commission and County Clerk have been advised by legal counsel that Missouri State Statutes do not allow third-class counties to amend their budgets only for exceeding budgeted appropriations. The County does not agree with this audit finding. The Commission and County Clerk have always followed the County's policy that the budget's expenses cannot exceed the year's budgeted revenue. This can result in actual expenses being higher than budgeted. The Commission and County Clerk received direction from the State Auditor's Office that budget expenses can exceed revenue as long as the expenses do not exceed the fund reserves. The County will adopt this policy going forward. This new policy will allow for more accurate budgeting and forecasting of the County's expenses. The issue of exceeding budgeted appropriations will no longer be an issue.

Auditor's Evaluation: Budgeted expenditures can exceed budgeted revenues, but cannot exceed budgeted revenues plus the beginning fund balance. Expenditure budgets should be adhered to unless unforeseen additional sources of funds are received, in which case budgets can be amended.

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

None

MANAGEMENT'S RESPONSE TO AUDITOR'S FINDINGS:

DAVIESS COUNTY, MISSOURI

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

In accordance with the Uniform Guidance, this section reports the follow-up on action taken by Daviess County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2022 and 2021.

2022-001: The County budgets, financial statements, general ledgers, and Treasurer Settlements were not in agreement during the calendar years ended December 31, 2022 and 2021.

Status: Resolved.

2022-002: The Prosecuting Attorney does not maintain a complete accounting ledger showing the running balance of cash after each transaction. Separate ledgers of receipts and disbursements are maintained using different software programs. The Prosecuting Attorney does not perform proper monthly bank reconciliations or otherwise track outstanding items which have not cleared the bank. Virtually all accounting functions are performed by one clerical employee in the Prosecuting Attorney's office. The Prosecuting Attorney did not provide the escrow bank statements for the months of January, February, April, and May 2021, and November 2022. Additionally, turnover of funds to the Treasurer was performed twice during the two-year audit period.

Status: Not resolved, see finding 2024-001.

2022-003: Expenditures exceeded budgeted appropriations for five funds in 2022 and six funds in 2021. Additionally, a formal budget was not adopted for the Election Equipment Purchase Fund in 2022, and the County budgeted a negative ending balance for the Special Road & Bridge Fund in 2022.

Status: Not resolved, see finding 2024-003.

2022-004: The schedule of expenditures of federal awards reported by the County in the 2021 and 2022 annual budget documents contained errors in the amounts of federal expenditures reported.

Status: Resolved.

CERTIFIED PUBLIC ACCOUNTANTS

September 5, 2025

To the County Commission
Daviess County, Missouri

We have audited the regulatory basis financial statements of Daviess County, Missouri for the years ended December 31, 2023 and 2024. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated June 11, 2025. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Daviess County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2023 and 2024. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated September 5, 2025.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2023 and 2024, we considered Daviess County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated September 5, 2025. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

Sheriff's Internal Control over Cash

We reviewed the Sheriff's office 2023 and 2024 bank statements and reconciliations noting that the Sheriff did not document any evidence of his review onto the bank reconciliations. Upon inquiry, a Sheriff's deputy is responsible for collecting receipts, depositing receipts, and performing the bank reconciliations. An adequate system of internal control dictates that either a proper segregation of duties must be in place in order to safeguard assets, or a review process must be in place when segregation of duties is not feasible. We recommend the Sheriff's office implement procedures to properly segregate duties related to the physical control over assets from the reconciliation procedures, or implement procedures requiring the Sheriff's review and documented approval of the monthly bank reconciliations.

Other Matters

We were engaged to report on the Schedule of Expenditures of Federal Awards, which accompanies the financial statements but is not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles prescribed or permitted by Missouri law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of Daviess County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

(Original Signed by McBride, Lock & Associates, LLC)

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

To the County Commission
and
Officeholders of Knox County, Missouri

The Office of the State Auditor contracted for an audit of Knox County's financial statements for the year ended December 31, 2023, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by Stopp & VanHoy, CPAs and Business Advisors, is attached.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive, flowing style.

Scott Fitzpatrick
State Auditor

November 2025
Report No. 2025-086

Scott Fitzpatrick
Missouri State Auditor

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Knox County

2023-001	The county periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes.
2023-002	In order to ensure that transfers are properly budgeted and in balance, we recommend transfers in always be accompanied by an equal transfer out and that the transfers can be clearly identified on the annual budget.

Independent Auditor's Report

To the County Commission and
Officeholders of Knox County, Missouri

Report on the Audit of the Financial Statements***Opinions***

We have audited the accompanying financial statements of Knox County, Missouri, as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise Knox County, Missouri's basic financial statements as listed in the table of contents.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the accompanying financial statements present fairly, in all material respects, the cash balances of each fund of Knox County, Missouri as of December 31, 2023, and their respective cash receipts and disbursements, and budgetary results for the year then ended in accordance with the basis of accounting practices prescribed or permitted by Missouri law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the *Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles* section of our report, the financial statements do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of Knox County, Missouri as of December 31, 2023, or the changes in financial position and cash flows thereof for the year then ended.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Knox County, Missouri and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by Knox County, Missouri on the basis of accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Knox County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Knox County, Missouri's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Knox County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated July 16, 2025 on our consideration of Knox County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Knox County, Missouri's internal control over financial reporting and compliance.

**The County of Knox
Edina, Missouri
Notes to the Financial Statements
For the year ended December 31, 2023**

Note 1 - Summary of Significant Accounting Policies

Organized in 1845, the county of Knox was named after Revolutionary War General Henry Knox. It is a third-class county, and the county seat is Edina. Knox County's government is composed of a three-member county commission and the following separately elected Constitutional Officers: County Clerk, Collector, Treasurer, Sheriff, Assessor, Coroner, Circuit Clerk, Recorder of Deeds, Public Administrator, and Prosecuting Attorney.

As discussed further in Note 1, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of Knox County, Missouri.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Knox County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

Certain elected County officials, such as the County Collector, Treasurer, and Sheriff, collect and hold monies in a trustee capacity as an agent of an individual, taxing units, or other governments. These assets, which are held by these officeholders for the sole benefit of external parties, are included in the Statements of Assets and Liabilities Arising from Cash Transactions - Custodial Funds - Regulatory Basis.

Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of all funds of Knox County and the comparisons of such information with the corresponding budgeted information for all funds of the County. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or an elected county official. The General Revenue Fund is the county's general operation fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

Basis of Accounting

The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. The effects of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation, bonds, and obligations under capital leases), and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

**The County of Knox
Edina, Missouri
Notes to the Financial Statements
For the year ended December 31, 2023**

Note 1 - Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Budget and Budgetary Accounting

In accordance with Chapter 50, RSMo., the County adopts a budget for each governmental fund.

On or before January 15th, each elected official and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

Prior to February 1, the budget is legally enacted by a vote of the County Commission.

Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

Budgets are prepared and adopted on the cash basis of accounting.

During the audit, it was noted the County was not in compliance with Missouri budgetary statute Chapter 50, RSMo. The following funds had actual expenditures which exceeded the budgeted expenditures: Concentrated Animal Feeding Operation Fund and Prosecuting Attorney Administrative Handling Cost Fund.

Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

**The County of Knox
Edina, Missouri
Notes to the Financial Statements
For the year ended December 31, 2023**

Note 1 - Summary of Significant Accounting Policies (continued)

Taxes (continued)

The assessed valuation of the tangible taxable property, included within Knox County's boundaries for the calendar year for the purposes of taxation was:

Real Estate	\$ 50,005,542
Personal Property	35,141,529
Railroad and Utilities	33,981,948
	<u>\$ 119,129,019</u>

The tax levy per \$100 assessed valuation of tangible taxable property for the calendar year for the purpose of County taxation, was as follows:

General Revenue	\$ 0.2985
Special Road and Bridge	0.2735
Special Road and Bridge	0.3500

The County also receives sales tax collected by the State and remitted based on the County's sales tax rate to the total sales tax collected in the County.

Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer's funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash, cash equivalent, and investment balances are presented in Note 2.

Interfund Transactions

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

**The County of Knox
Edina, Missouri
Notes to the Financial Statements
For the year ended December 31, 2023**

Note 2 - Deposits and Investments

Knox County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed on the statement of receipts, disbursements, and changes in cash arising from cash transactions as "Cash and Equivalents." Cash held for others is displayed on the statement of assets and liabilities arising from cash transactions as "Cash and Equivalents."

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits.

The carrying values and bank balances of deposits and investments shown above are included in the financial statements at December 31, 2023, as follows:

	<u>Carrying Value</u>	<u>Bank Balance</u>
Deposits	\$ 8,115,637	\$ 6,972,426
Investments	-	-
Total Cash and Equivalents as of December 31, 2023	<u>\$ 8,115,637</u>	<u>\$ 6,972,426</u>
 Total Cash and Equivalents - Governmental Funds	 \$ 2,512,393	
Total Cash and Equivalents - Custodial Funds	<u>5,603,244</u>	
	<u>\$ 8,115,637</u>	

Custodial Credit Risk - Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. At December 31, 2023, 100% of the County's deposits and investments were covered by the Federal Deposit Insurance Corporation (FDIC) or were collateralized.

Custodial Credit Risk - Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party that sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U. S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities.

**The County of Knox
Edina, Missouri
Notes to the Financial Statements
For the year ended December 31, 2023**

Note 3 - Long-Term Debt

In 2020, the County entered into a lease-purchase agreement to finance the purchase of a Mack GR64F Truck at a cost of \$86,816. The agreement requires five annual payments of \$19,022, which includes interest payable at 4.74%. The financing agreement will mature in July of 2025.

In 2021, the County issued \$605,000 in Series 2021 Refunding Certificates of Participation for the purpose of refunding all outstanding Series 2016 Lease Certificates of Participation. The Series 2016 issuance was used to pay for renovations and improvements to the County courthouse. Funds from a dedicated sales tax are used to make principal and interest payments. The certificates bear interest at 2.00% and mature in October of 2025.

In 2022, the County entered into a lease-purchase agreement to finance the purchase of a Caterpillar 150-15 Motor Grader at a cost of \$359,237. The agreement requires fourteen semi-annual payments of \$30,891, which includes interest payable at 4.85%. The financing agreement will mature in September of 2029.

In 2022, the County entered into a lease-purchase agreement to finance the purchase of a Kubota 4WD HST Tractor and a Kubota Front Loader MX Series at a cost of \$45,700. The agreement requires 4 annual payments of \$12,118, which includes interest payable at 3.74%. This lease was paid in full ahead of schedule in 2023.

In 2022, the County entered into a lease-purchase agreement to finance the purchase of a John Deere 772GP Motor Grader at a cost of \$255,000. The agreement requires four annual payments of \$66,395, which includes interest payable at 2.74%. The financing agreement will mature in January of 2025.

In 2022, the County entered into a lease-purchase agreement to finance the purchase of eight FreedomVote Scan Ballot Boxes, six FreedomVote Tablet Ballot Marking Devices, and one Election Management System laptop at a cost of \$52,733. The agreement requires two payments of \$17,577 which were made in 2022 and a final payment of \$17,577 due in July of 2023. The agreement includes interest free (0%) financing.

	Balance at 12/31/22	Amount Borrowed	Amount Repaid	Balance at 12/31/23	Interest Paid During Year

Note 3 - Long-Term Debt (continued)

As of December 31, 2023, the schedule of future payments of long-term debt of the County is as follows:

Year Ending December 31,	Principal	Interest	Total
2024	\$ 277,439	\$ 25,860	\$ 303,299
2025	287,110	18,190	305,300
2026	51,503	10,280	61,783
2027	54,066	7,716	61,782
2028	56,741	5,041	61,782
2029	59,584	2,200	61,784
Total	<u>\$ 786,443</u>	<u>\$ 69,287</u>	<u>\$ 855,730</u>

Note 4 - Interfund Transfers

Transfers between funds for the year ended December 31, 2023 are as follows:

<u>Fund</u>	<u>Transfers In</u>	<u>Transfers Out</u>
General Revenue Fund	\$ -	\$ 78,000
Special Road and Bridge Fund	65,000	-
Assessment Fund	25,000	-
Law Enforcement Fund	20,000	-
Sever Lake Fund	-	65,000
Emergency Fund	33,000	-
Total	<u>\$ 143,000</u>	<u>\$ 143,000</u>

Note 5 - State of Missouri County Employees' Retirement Fund (CERF)

Plan Description

The County Employees' Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elected or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo., circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo., and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

**The County of Knox
Edina, Missouri
Notes to the Financial Statements
For the year ended December 31, 2023**

Note 5 - State of Missouri County Employees' Retirement Fund (CERF) (continued)

Benefits Provided

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, Missouri, 65101, by calling (573) 632-9203, or by visiting the CERF website at www.mocerf.org.

Contributions

Prior to January 1, 2003, participating county employees were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002 are required to make contributions of 6%. If any employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 6% contribution on behalf of employees. During 2023, the County collected and remitted to CERF, employee contributions of \$49,385 for the year ended December 31, 2023.

In addition to the above contributions required of employees, the following fees and penalties prescribed under Missouri law are required to be collected and remitted to CERF by counties covered by the plan:

- Late fees on filing of personal property tax declarations;
- Twenty dollars on each merchant's and manufacturer's license issued;
- Six dollars on each document recorded or filed with county recorders of deeds, with an additional one dollar on each document recorded;
- Three sevenths of the fee on delinquent property taxes; and
- Interest earned on investment of the above collections prior to remittance to CERF.

The County collected and remitted CERF fees and penalties of \$47,003 for the year ended December 31, 2023.

Further information related to required contributions, pension benefits, other plan terms, and investments and related return and financial information can be found in the notes to the financial statements of CERF's Annual Financial Report.

**The County of Knox
Edina, Missouri
Notes to the Financial Statements
For the year ended December 31, 2023**

Note 6 - Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807, RSMo., the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys' and Circuit Attorneys' Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed \$3,366 for the year ended December 31, 2023.

Note 7 - Other Retirement Plans

Knox County has voluntary 457 and 401(a) plans administered by Norwest Bank which are paid by a deduction from employees' salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the year ended December 31, 2023 for the 457 plan were \$32,101. Employee contributions collected and remitted by the County for the year ended December 31, 2023 for the 401(a) plan were \$6,213.

Note 8 - Post Employment Benefits

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

Note 9 - Claims, Commitments, and Contingencies

Litigation

The County can be subject to various claims and legal proceedings covering a wide range of matters that arise in the ordinary course of its business activities. Management believes that any liability that may ultimately result from the resolution of such matters will not have a material adverse effect on the financial condition of the County.

Compensated Absences

Vacation time is accrued for every eligible employee in the County and accrues at a rate of up to two weeks per year. The County provides full-time employees and part-time employees who occupy regular budgeted positions with sick time, which accrues at two days per calendar month of employment up to ninety days. Upon termination, no payment will be made for unused vacation or sick days. These have not been subjected to auditing procedures.

Federal and State Assisted Programs

The County receives proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned. Such audits could result in refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

**The County of Knox
Edina, Missouri
Notes to the Financial Statements
For the year ended December 31, 2023**

Note 10 - Risk Management

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$500,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

Note 11 - Subsequent Events

The County has evaluated events subsequent to December 31, 2023 to assess the need for potential recognition or disclosure in the financial statements. Such events have been evaluated through July 16, 2025, the date the financial statements were available to be issued.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING
STANDARDS*

Independent Auditor's Report

To the County Commission and
Officeholders of Knox County, Missouri

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of Knox County, Missouri as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise Knox County, Missouri's basic financial statements, and have issued our report thereon dated July 16, 2025. Our opinion was adverse because the financial statements are not prepared in accordance with accounting principles generally accepted in the United States of America. However, the financial statements were found to be fairly stated on the regulatory basis of accounting, in accordance with regulatory reporting practices prescribed or permitted by the State of Missouri, which is a comprehensive basis of accounting other than generally accepted accounting principles.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Knox County, Missouri's internal control over financial reporting (internal control) as a basis for designing procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Knox County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Knox County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Knox County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*, and which are described in the accompanying schedule of findings and responses as items 2023-001 and 2023-002.

Knox County, Missouri's Responses to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the Knox County, Missouri's responses to the findings identified in our audit and described in the accompanying schedule of findings and responses. Knox County, Missouri's responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

St. Louis, Missouri
July 16, 2025

**The County of Knox
Edina, Missouri
Schedule of Findings and Responses
For the year ended December 31, 2023**

Financial Statement Findings

2023-001 **Criteria:** Missouri statutes require Counties to prepare an annual budget as applicable to each fund. Expenditures are not to exceed the budget.

Condition: During the audit, it was noted the County was not in compliance with Missouri budgetary statute Chapter 50, RSMo. The following funds had actual expenditures which exceeded the budgeted expenditures: Concentrated Animal Feeding Operation Fund and Prosecuting Attorney Administrative Handling Cost Fund.

Cause: Oversight

Effect: The County is in violation of Missouri Revised Statutes due to expenditures in excess of the approved budgets in certain funds.

Recommendation: We recommend that the County periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes.

Management's Response: Starting in 2026, my office will be more diligent to review expenditures versus budgeted amount in order to prepare an amended budget. The County Clerk will be responsible for correcting this issue.

2023-002 **Criteria:** Management should prepare the budgets of the County, as presented in the adopted annual budget, to present balanced transfers between all funds. Per RSMo. 50.540, expenditure estimates shall be classified to set forth the data by funds, organization units, character, and objects of expenditure. Revenue estimates shall be classified to show receipts by funds, organization units, and sources.

Condition: Budgeted transfers in did not balance to budgeted transfers out in the original and amended 2023 budgets for the Special Road and Bridge Fund and the Capital Improvement Fund.

Cause: Oversight.

Effect: The original and amended 2023 budgets of the County presented an imbalance between transfers in and transfers out. A schedule of budgeted transfers as presented in the budget is as follows:

<u>Fund</u>	<u>Transfers In</u>	<u>Transfers Out</u>
General Revenue Fund	\$ -	\$ 78,000
Special Road and Bridge Fund	95,000	-
Assessment Fund	25,000	-
Capital Improvement Fund	60,000	-
Law Enforcement Fund	20,000	-
Sever Lake Fund	-	65,000
Emergency Fund	33,000	-
Total	<u>\$ 233,000</u>	<u>\$ 143,000</u>

Recommendation: In order to ensure that transfers are properly budgeted and in balance, we recommend transfers in always be accompanied by an equal transfer out and that the transfers can be clearly identified on the annual budget.

**The County of Knox
Edina, Missouri
Schedule of Findings and Responses
For the year ended December 31, 2023**

Financial Statement Findings (continued)

2023-002 **Management's Response:** Clerical errors will be monitored closer in the future starting in 2026 before the budget is
(cont.) approved. The County Clerk will be responsible for correcting this issue.

**The County of Knox
Edina, Missouri
Summary Schedule of Prior Year Findings and Responses
For the year ended December 31, 2023**

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Knox County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2019 and 2018.

Prior Year Financial Statement Findings

2019-001 **Criteria:** Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Effect: Lack of an appropriate fraud risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identifying risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.

Management's Response: The County will work to prepare a risk assessment procedure. The expected completion date is December 31, 2020. The phone number for the County Clerk's office is (660) 397-2184.

Status: Management has resolved this issue, and therefore, the finding will not be repeated.

2019-002 **Criteria:** The Sheriff is charged with maintaining accountability over funds in a trustee capacity as an agent of an individual, taxing units, or other government. A proper system of internal controls dictates that bank reconciliations be performed on a timely basis to ensure that cash balances per accounting records agree to the cash balances held in the bank.

Condition: For the year ended December 31, 2018, the Sheriff's office failed to perform timely bank reconciliations.

Effect: Without timely, accurate bank reconciliations, the risk of material misstatement of the Sheriff's cash balances due to error or misappropriation is heightened.

Cause: The reconciled bank balance was not being compared to the balances of the funds on hand per the Sheriff's records.

Recommendation: We recommend that the Sheriff implement the necessary procedures to ensure that the bank balance reconciles to the book balance on a monthly basis.

Management's Response: The Sheriff's office has implemented the necessary procedures to ensure that the bank balance reconciles to the book balance on a monthly basis, and the procedures were implemented in the year ended December 31, 2019. The phone number for the Sheriff's office is (660) 397-2186.

**The County of Knox
Edina, Missouri
Summary Schedule of Prior Year Findings and Responses
For the year ended December 31, 2023**

Prior Year Financial Statement Findings (continued)

2019-002 **Status:** Management has resolved this issue, and therefore, the finding will not be repeated.
(cont.)

2019-003 **Criteria:** The Prosecuting Attorney is charged with maintaining accountability over funds in a trustee capacity as an agent of an individual, taxing units, or other government. A proper system of internal controls dictates that bank reconciliations be performed on a timely basis to ensure that cash balances per accounting records agree to the cash balances held in the bank.

Condition: For the year ended December 31, 2018, the Prosecuting Attorney's was unable to provide bank statements and reconciliations which support the cash balances held.

Effect: Without timely, accurate bank reconciliations, the risk of material misstatement of the Prosecuting Attorney's cash balances due to error or misappropriation is heightened.

Cause: The previously elected Prosecuting Attorney did not provide bank statements and reconciliations to the current office holder upon completion of her term. The prior office holder provided a narrative accounting of funds turned over, however, bank statements supporting the accounting were not provided.

Recommendation: We recommend that the Prosecuting Attorney's office implement the necessary procedures to ensure that all funds assumed upon entry to the position are accounted for in a custodial capacity and supported by funds held in the bank account.

Management's Response: The Prosecuting Attorney's office has attempted to obtain a court order to compel the bank to provide bank statements of the prior office holder, however, attempts to do so have remained unsuccessful. The Prosecuting Attorney's office has reviewed the accounting of the prior office holder's summary of funds and attempted to reconcile the accounting to the cash turned over upon assuming the duties of the office. The Prosecuting Attorney has also implemented the necessary procedures to ensure that the bank balance reconciles to the book balance on a monthly basis, and the procedures were implemented in the year ended December 31, 2019. The phone number for the Prosecuting Attorney's office is (660) 397-2658.

Status: Management has resolved this issue, and therefore, the finding will not be repeated.

Scott Fitzpatrick

Missouri State Auditor

Department of Revenue

Sales and Use Tax Overpayments

Report No. 2025-085

October 2025

auditor.mo.gov

CITIZENS SUMMARY

Findings in the audit of Department of Revenue - Sales and Use Tax Overpayments

Background

When a payment made to the Department of Revenue (DOR) for sales and use taxes exceeds the tax amount due for a certain tax filing period, an overpayment occurs. An overpayment can occur for various reasons, including the use of an incorrect tax rate at the time of purchase or when preparing the tax return, calculation errors on a seller's tax return, a seller not claiming the 2 percent timely discount when allowed, making duplicate or incorrect tax payments, filing an amended tax return, adjustments from audit results, litigation, charging a purchaser sales tax when they were tax exempt, or law changes impacting sales tax exemptions. A seller may apply for a refund of the overpaid sales or use tax or request credit of the overpayment to be applied to a future period's tax liability.

As of June 30, 2023, the DOR reported approximately 754,000 sales and use tax overpayments, for a total of approximately \$194.6 million. Overpayments occurring in fiscal year 2023 account for approximately \$55.1 million (28 percent) of the total overpayment balance, with overpayments from the last five years (2019 through 2023) comprising approximately \$150.8 million (77 percent). After 10 years from the date of overpayment, if no claim for refund or credit is made, the overpayment is considered "out of statute" and can no longer be claimed per Missouri law. Once an overpayment is out of statute, the amount of the overpayment will remain in the General Revenue Fund.

Change in State Law Has Resulted in Increase of Sales and Use Tax Overpayments

A change in Missouri law provides 10 years to claim a refund or credit of overpaid sales and use tax, which is the longest such timeframe of any state in the nation, and does not result in a significantly larger number of overpayment refunds being claimed after the previously authorized 3 year claim period. The longer period creates an increased administrative burden on the DOR, increased litigation liability, and increased risk of inappropriately or erroneously refunding overpayments.

Since the law change took effect in 2019, the number of overpayments held by the DOR has more than doubled, with over 414,000 overpayments held at the end of fiscal year 2019, and approximately 842,000 overpayments held at the end of fiscal year 2024. The dollar value of the overpayments has also increased significantly over the same timeframe, with the total balance of overpayments increasing from approximately \$113.5 million at the end of fiscal year 2019, to approximately \$180.5 million at the end of fiscal year 2024 (a 59 percent increase).

An analysis of overpayment refunds paid during fiscal year 2023 showed 2,973 of the total 3,143 refunds and credits (94.6 percent) had overpayment dates within 5 years (fiscal year 2019 to 2023). These refunds represented \$79.7 million of the \$81.8 million in overpayments refunded (97.5 percent) by the DOR in fiscal year 2023. During the same fiscal year ended June 30, 2023, only 2.5 percent of refunds were from overpayments that occurred prior to the last 5 years.

Once a sales and use tax overpayment is over 10 years old and a refund or credit can no longer be requested from the DOR, state law does not specify

how the overpayment is to be handled. In addition, the DOR does not remit sales and use tax overpayments to Missouri's Unclaimed Property program.

Significant Number of Overpayments Have an Unknown Payment Date

The DOR's sales and use tax overpayments data includes a significant number of records that do not identify the overpayment date. As of June 30, 2023, DOR overpayment data included 418,241 overpayments (55 percent of the total number of overpayments) totaling approximately \$4 million where the overpayment date is not identified. As a result, these overpayments could not be classified to a specific fiscal year and the age of the overpayment could not be determined based on the date of overpayment. In addition, the number of unidentified overpayments has significantly increased each year from 2019 to 2024.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
and
Trish Vincent, Director
Department of Revenue
Jefferson City, Missouri

We have audited certain operations of the Department of Revenue, sales and use tax overpayments, in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2023. The objectives of our audit were to:

1. Evaluate current sales and use tax overpayment balances.
2. Evaluate the department's compliance with Section 144.190(2), RSMo, related to the 10 year limitation for when a sales and use tax overpayment can be claimed as a refund.
3. Evaluate the economy and efficiency of state laws related to sales and use tax overpayments.

Except as discussed in the following paragraph, we conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

Government Auditing Standards require us to obtain and report the views of responsible officials of the audited entity concerning the findings, conclusions, and recommendations included in the audit report. Due to Management Advisory Report finding number 1 being legislative in nature, we were unable to obtain views of responsible officials for that finding. For Management Advisory Report finding number 2, we obtained the views of responsible Department of Revenue officials and included them in the report.

For the areas audited, we identified (1) deficiencies with current sales and use tax overpayment balances, (2) no significant noncompliance with Section 144.190(2), RSMo, and (3) the need for evaluation of current state laws related to sales and use tax overpayments. The accompanying Management Advisory Report presents our findings arising from our audit of the Department of Revenue, sales and use tax overpayments.

Scott Fitzpatrick
State Auditor

Department of Revenue

Sales and Use Tax Overpayments

Introduction

Background

The Department of Revenue (DOR) was created by Article IV, Section 12, of the Missouri Constitution as the central collection agency for state revenues. Article IV, Section 15, of the Missouri Constitution establishes the DOR as the custodian of nonstate funds, which are defined as taxes and fees imposed by political subdivisions and collected by the DOR; all taxes that are imposed by the state, collected by the DOR and distributed by the DOR to political subdivisions; and other money designated as "nonstate funds." The Director of Revenue is appointed by the Governor, with the advice and consent of the Senate, and is responsible for all operations and policies.

Sales and use tax

The state's sales tax is imposed on the purchase price of tangible personal property or taxable services sold at retail. Use tax is imposed on the storage, use, or consumption of tangible personal property in the state. Cities and counties may impose a local sales and use tax. Special taxing districts such as transportation development districts, community improvement districts, and ambulance districts may also impose additional sales taxes. State and local sales and use taxes are collected by the DOR. The DOR then distributes the state portion to various state funds and the local portion to the applicable political subdivisions.

For operating purposes, the DOR has been charged with the responsibility of administering transactions related to sales and use taxes. Sales and use tax receipts collected from sellers (i.e., retail) and motor vehicle sales tax receipts collected from sellers and individuals are deposited into various state and local funds. Marine and ATV sales and use tax collections are deposited into the same funds as state sales and use tax. Motor vehicle leasing sales tax collections are deposited into the same funds as motor vehicle sales tax. For purposes of this audit, our review focused on retail sales and use tax overpayments.

Overpayments

When a payment made to the DOR for sales and use taxes exceeds the tax amount due for a certain tax filing period, an overpayment occurs. An overpayment can occur for various reasons, including the use of an incorrect tax rate at the time of purchase or when preparing the tax return, calculation errors on a seller's tax return, a seller not claiming the 2 percent timely discount when allowed, making duplicate or incorrect tax payments, filing an amended tax return, adjustments from audit results, litigation, charging a purchaser sales tax when they were tax exempt, or law changes impacting sales tax exemptions. All sales and use tax overpayments are deposited into the state's General Revenue Fund provided a sales or use tax return was filed with the payment. When a sales or use tax return has not been filed, the

Department of Revenue Sales and Use Tax Overpayments Introduction

payment is held in the suspense holding account until the return is received and processed.¹

A seller may apply for a refund of the overpaid sales or use tax or request credit of the overpayment to be applied to a future period's tax liability, by completing the Seller's Claim for Sales or Use Tax Refund or Credit (Form 472S). The seller must submit the completed form, amended sales or use tax returns for the applicable period(s), and any additional documentation supporting the claim (e.g., worksheets, calculations, invoices) to the DOR. A purchaser may apply for a refund of sales or use tax by completing the Purchaser's Claim Under Section 144.190.4 for Sales or Use Tax Refund (Form 472P), and submitting this form with applicable supporting documentation to the DOR.

According to Section 144.190.2, RSMo, if any tax, penalty or interest has been paid more than once, or erroneously or illegally collected, or erroneously or illegally computed, such sum shall be credited on any taxes then due from the person legally obligated to remit the tax under Chapter 144, RSMo. The balance, with interest as determined by Section 32.065, RSMo, shall be refunded to the person legally obligated to remit the tax, but no such credit or refund shall be allowed unless duplicate copies of a claim for refund are filed within 10 years from date of overpayment. Effective August 28, 2019, Senate Bill 87 was enacted to allow a refund or credit claim within 10 years of the date of overpayment. Prior to Senate Bill 87, a refund or credit claim was required to be filed within 3 years from date of overpayment.

Figure 1 illustrates the total number of sales and use tax overpayments from June 30, 2019, to June 30, 2024.

¹ Sales and use tax payments received without a tax return are held in the suspense holding account unless the taxpayer is required to make quarter-monthly payments. Section 144.081, RSMo, requires sellers with aggregate state sales tax exceeding a specified threshold in each of at least 6 months during the prior 12 months, to remit state sales tax payments on a quarter-monthly (i.e., weekly) basis. Overpayments resulting from the quarter-monthly payments are allocated to various state funds.

Department of Revenue Sales and Use Tax Overpayments Introduction

Figure 1: Total number of sales and use tax overpayments at fiscal year end, 2019 to 2024

Source: DOR records. See additional detail at Appendix B.

As of June 30, 2023, the DOR reported approximately 754,000 sales and use tax overpayments, for a total of approximately \$194.6 million. As shown in Figure 2, overpayments occurring in fiscal year 2023 account for approximately \$55.1 million (28 percent) of the total overpayment balance, with overpayments from the last five years (2019 through 2023) comprising approximately \$150.8 million (77 percent).

Figure 2: Sales and use tax overpayments as of June 30, 2023, by overpayment date

Source: DOR records. See additional detail at Appendix B.

After 10 years from the date of overpayment, if no claim for refund or credit is made, the overpayment is considered "out of statute" and can no longer be claimed per Section 144.190.2, RSMo. Once an overpayment is out of statute, the amount of the overpayment will remain in the General Revenue Fund²

² For sales and use tax overpayments that are not associated with a completed tax return, the overpayment amount will be moved from the suspense holding account to the General Revenue Fund. For overpayments relating to quarter-monthly payments, the overpayment amounts will remain in the various state funds they were initially deposited into.

Department of Revenue
Sales and Use Tax Overpayments
Introduction

and the overpayment record will be removed from the DOR's computer system.

Scope and Methodology

The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2023.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the DOR, as well as certain external parties; gathering information regarding various overpayment transactions, applicable laws and regulations; and performing sample testing using haphazard, judgmental, and random selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected.

We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We performed procedures to (1) evaluate current sales and use tax overpayment balances; (2) evaluate the DOR's compliance with Section 144.190(2), RSMo, related to the 10 year limitation for when a sales and use tax overpayment can be claimed as a refund; and (3) evaluate the economy and efficiency of state laws related to sales and use tax overpayments. This included performing the following review and evaluations:

- We reviewed applicable state laws and written policies and procedures; interviewed various personnel; and evaluated current operations.
- We evaluated and compared the sales and use tax overpayment balance from the fiscal year ended June 30, 2019, through the fiscal year ended June 30, 2023.
- We evaluated the number of sales and use tax refunds issued and compared the refunds issued to the sales and use tax overpayment balance for the fiscal year ended June 30, 2023.
- We evaluated the DOR's compliance with Section 144.190(2), RSMo, by reviewing the age of sales and use tax overpayments associated with refunds issued during the fiscal year ended June 30, 2023.

Department of Revenue
Sales and Use Tax Overpayments
Introduction

- We evaluated and compared Missouri's handling of sales and use tax overpayments with the handling of sales and use tax overpayments by other states. We contacted personnel from other states to discuss procedures for sales and use tax overpayments and reviewed other states' applicable laws and regulations relating to collecting and refunding sales and use tax overpayments.

Department of Revenue

Sales and Use Tax Overpayments

Management Advisory Report - State Auditor's Findings

1. Change in State Law Has Resulted in Increase of Sales and Use Tax Overpayments

A change in Missouri law to require sales and use tax overpayments be held for 10 years has resulted in a significant increase in the number of sales and use tax overpayments as well as an increase in the dollar value of overpayments held. Missouri's allowance of 10 years to claim a refund or credit of overpaid sales and use tax is the longest such timeframe of any state in the nation, and does not result in a significantly larger number of overpayment refunds being claimed after the previously authorized 3 year claim period. Rather, this increase in overpayments results in increased administrative burden on the Department of Revenue (DOR), as well as increased liabilities to the General Revenue Fund. Additionally, state law does not specify how sales and use tax overpayments are to be handled after the overpayments can no longer be claimed from the DOR.

Change in state law significantly increased timeframe an overpayment can be claimed

Section 144.190.2, RSMo, was modified in 2019³ to allow a refund or credit of overpaid sales and use tax to be claimed within 10 years from the date of overpayment. Prior to August 28, 2019, state law only allowed up to 3 years to claim a refund or credit of overpaid sales and use tax.

In the fiscal note prepared with this bill, potential disadvantages to the change were noted by the Office of Administration (OA) - Division of Budget and Planning and the DOR. According to the OA - Division of Budget and Planning, this change would open the state up to increased litigation liability and has the potential to result in significant negative impact to the General Revenue Fund, state sales tax funds, and local funds. In addition, according to the DOR, this would adversely impact distributions to local jurisdictions.

Increase in overpayments since law change

Since the law change took effect in 2019, the number of overpayments held by the DOR has more than doubled, with over 414,000 overpayments held at the end of fiscal year 2019, and approximately 842,000 overpayments held at the end of fiscal year 2024⁴. See Figure 1, in the Background section of this report, for data from 2019 to 2024. The dollar value of the overpayments being held has also increased significantly over the same timeframe, with the total overpayments balance increasing from approximately \$113.5 million at the end of fiscal year 2019, to approximately \$180.5 million at the end of fiscal year 2024 (a 59 percent increase). See Figure 3 for the total balance of sales and use tax overpayments at fiscal year end, from 2019 to 2024.

³ Senate Bill 87, 100th General Assembly, First Regular Session (2019).

⁴ Fiscal year 2024 overpayments were not audited as part of this audit, but are included here to provide more timely figures for analysis.

Department of Revenue
Sales and Use Tax Overpayments
Management Advisory Report - State Auditor's Findings

Figure 3: Total balance of sales and use tax overpayments at fiscal year end from 2019 to 2024

Source: DOR records. See additional detail at Appendix B.

The vast majority of overpayment refunds are issued in the first 5 years

Almost all overpayment refunds are applied for and made within 5 years of the overpayment. Our analysis of overpayment refunds paid during fiscal year 2023 showed 2,973 of the total 3,143 refunds and credits (94.6 percent) had overpayment dates within 5 years (fiscal year 2019 to 2023). These refunds represented \$79.7 million of the \$81.8 million in overpayments refunded (97.5 percent) by the DOR in fiscal year 2023. As shown in the following table, the older the overpayment, the less likely it is to be refunded.

Figure 4: Fiscal year 2023 sales and use tax refunds, by overpayment date

Overpayment Date (Fiscal Year)	Count	Total
Multiple years (1)	25	\$ 312,835
2017 and prior years	98	1,559,213
2018	47	209,780
2019	61	1,796,935
2020	141	2,128,898
2021	339	4,162,123
2022	1,331	55,732,150
2023	1,101	15,917,050
	3,143	\$81,818,984

(1) Includes refunds of overpayments from multiple years.

Source: DOR records

Missouri's sales tax overpayment refund window is the most generous in the nation

Evaluation of the other 44 states that have a sales and use tax or similar tax, and comparison of those states to Missouri, identified that Missouri allows a significantly longer period of time to claim a refund or credit of sales or use tax overpayments than the other states. In contrast to Missouri's 10 year overpayment refund allowance, 9 states allow up to 4 years to claim an overpayment, and 35 states allow between 2 and 3.5 years to claim an overpayment.

Department of Revenue
Sales and Use Tax Overpayments
Management Advisory Report - State Auditor's Findings

State law is silent on the distribution of unclaimed overpayments

Missouri's 10 year period to claim a refund or credit of sales and use tax overpayments benefits sellers and purchasers as there is a greater period of time to make a claim. However, during the year ended June 30, 2023, only 2.5 percent of refunds were from overpayments that occurred prior to the last 5 years. Additionally, while it appears the DOR's system is adequately tracking sales and use tax overpayments, the longer period creates an increased administrative burden on the DOR, increased litigation liability, and increased risk of inappropriately or erroneously refunding overpayments.

Once a sales and use tax overpayment is over 10 years old and a refund or credit can no longer be requested from the DOR, state law does not specify how the overpayment is to be handled.

During the 10 years to claim a refund, if the tax payment that resulted in an overpayment is associated with a completed sales or use tax return, the DOR deposits the overpaid amount into the General Revenue Fund and records the overpayment as a liability for financial reporting purposes. According to DOR personnel, once the 10 years to claim the overpayment have passed, the DOR's computer system reverses the overpayment in the period the overpayment was applied. As the overpayment no longer shows in the system, it is no longer considered a liability for financial reporting purposes, and the overpaid amount remains in the General Revenue Fund.

In addition, the DOR does not remit sales and use tax overpayments to Missouri's Unclaimed Property program.⁵ Overpayments can occur for various reasons, which may result in a refund due to the seller or the purchaser. Because of this, if an overpayment was to be remitted to the Unclaimed Property program it may be difficult to determine to whom the unclaimed payment belongs.

Recommendation

The General Assembly consider modifying state law to reduce the period of time allowed by sellers and purchasers to claim a refund or credit of sales and use tax overpayments, and to address how overpayments should be handled once they can no longer be claimed for refund or credit.

Auditee's Response

Due to this recommendation being legislative in nature, no management response can be obtained. While the recommendation is not addressed to the DOR, department officials provided a written response. The response is included at Appendix A.

⁵ Chapter 447, RSMo, requires financial institutions, insurance companies, public agencies, and other businesses to transfer unclaimed assets to the State Treasurer's Office, administrator of Missouri's Unclaimed Property program.

2. Significant Number of Overpayments Have an Unknown Payment Date

The DOR's sales and use tax overpayments data includes a significant number of records that do not identify the overpayment date. As of June 30, 2023, DOR overpayment data included 418,241 overpayments (55 percent of the total number of overpayments) totaling approximately \$4 million where the overpayment date is not identified. As a result, these overpayments could not be classified to a specific fiscal year and the age of the overpayment could not be determined based on the date of overpayment. In addition, as shown in Appendix B, the number of unidentified overpayments has significantly increased each year from 2019 to 2024.

According to the DOR, when there is no overpayment transaction in the system, there is no overpayment date recorded. Possible reasons why there is no overpayment transaction in the system include conversion issues when the DOR implemented a new computer system in 2017, or the amount of the overpayment is less than \$1. Of the 418,241 total unidentified overpayments as of June 30, 2023, 413,470 overpayments (99 percent) were each less than \$1. The DOR uses the due date of the original tax return or the payment date, whichever is later, to determine if an overpayment is eligible for refund or credit.

In addition, further analysis of the overpayments data as of June 30, 2023, identified a significant number of these unidentified overpayments have existed for more than 10 years. Using the filing period end date⁶ associated with the overpayments, we identified 2,265 overpayments totaling approximately \$37,000 with a filing period ending June 30, 2013, or earlier. This includes filing periods dating back to the fiscal year ended June 30, 1983.

DOR personnel indicated the process to remove overpayments from the computer system began in fiscal year 2021. According to the DOR, from fiscal year 2021 through fiscal year 2023, 4,698 overpayments, totaling approximately \$998,000 were removed from the overpayment records. However, based on the information presented in this finding, additional review of these payments is needed.

Maintaining these old and individually immaterial overpayment records in the DOR's computer system results in unnecessary record keeping and an administrative burden for the DOR. It also increases the risk of potential errors and unnecessarily increases the DOR's liabilities.

⁶ The overpayments data was reviewed using the filing period end date since this was the only other date related field available in the data provided by the DOR. The due date to file sales and use tax returns and pay amounts due to the DOR is typically one month after the end of the filing period.

Department of Revenue
Sales and Use Tax Overpayments
Management Advisory Report - State Auditor's Findings

Recommendation

The DOR evaluate overpayments data, assess the cause for the significant increases in unidentified overpayments, and take appropriate actions to ensure all overpayments no longer eligible to be claimed for a refund or credit are removed from the system.

Auditee's Response

The DOR agreed with this recommendation. The DOR's full response is included at Appendix A.

Scott Fitzpatrick
Missouri State Auditor
Missouri State Auditor's Office
PO Box 869
Jefferson City, MO 65102

Dear Mr. Fitzpatrick:

The Department of Revenue acknowledges the recommendation in the Missouri State Auditor's report on Sales and Use Tax Overpayments.

Recommendation 1 — The General Assembly consider modifying state law to reduce the period of time allowed by sellers and purchasers to claim a refund or credit of sales and use tax overpayments, and to address how overpayments should be handled once they can no longer be claimed for refund or credit.

DOR Response 1 — If the General Assembly passes legislation that requires action, the Department will incorporate those provisions into our processes and comply with any state laws regarding this recommendation.

Recommendation 2 — The DOR evaluate overpayments data, assess the cause for the significant increases in unidentified overpayments, and take appropriate actions to ensure all overpayments no longer eligible to be claimed for a refund or credit are removed from the system.

DOR Response 2 — The Department agrees with the recommendation. The Department will evaluate the overpayments data and determine the appropriate action to ensure all overpayments no longer eligible to be claimed for a refund or credit are removed from the system.

(1) Totals for 2024 have been included for comparison purposes only.

(2) Overpayment total for this fiscal year includes overpayments for the respective fiscal year and any previous fiscal years.

(3) Overpayments occurring after June 30 of each respective fiscal year are due to timing of when the overpayment occurred in comparison to the relevant filing period.

(4) "Unidentified" totals represent overpayment records in the DOR's computer system for which the overpayment date was not identified; therefore, the overpayments could not be categorized based on the age of the overpayment. For additional information, see Management Advisory Report finding number 2.

SCOTT FITZPATRICK MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
and
Michelle Hataway, Director
Department of Economic Development
Jefferson City, Missouri

We completed audit work at the Department of Economic Development (DED) as part of our annual statewide audit of the State of Missouri's federal awards for the fiscal year ended June 30, 2024. We issued the Single Audit Report (Report No. 2025-056), in September 2025.¹ The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the DED during the audit and the audit results.

Statewide Single Audit and Methodology

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended \$21.1 billion in federal funds for 317 programs in fiscal year 2024. We performed risk assessments on each of the state's 36 Type A programs (programs with federal award expenditures more than \$31.6 million) and 33 larger Type B programs (programs with federal award expenditures between \$7.9 million and \$31.6 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2024, our Single Audit included 16 major federal programs with expenditures totaling \$16.2 billion, administered by 10 state agencies.

Single Audit Work at the DED

The DED reported federal award expenditures totaling \$135.6 million for fiscal year 2024. We audited, as major, the Coronavirus Capital Projects Fund (CPF) program with expenditures totaling \$47.7 million.

¹ The Single Audit Report is available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

Audit Results and Findings at the DED

Our responsibility for the statewide Single Audit is limited to the previously stated objectives. The Single Audit reported no material noncompliance with direct and material compliance requirements for the major program audited at the DED.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of federal statutes, regulations, and terms and conditions of federal awards; fraud affecting a federal award; and/or known or likely questioned costs greater than \$25,000.

We reported an audit finding related to the DED's administration of federal awards.

- DED FFATA Reporting (Finding No. 2024-016) - During state fiscal year 2024, the DED did not comply with Federal Funding Accountability and Transparency Act (FFATA) reporting requirements for any of the 47 first-tier subawards, totaling approximately \$196.7 million, for the CPF program. The DED had not established internal controls over FFATA reporting for the CPF program.

The audit finding and the DED's response and Corrective Action Plan are included in the Single Audit Report (Report No. 2025-056).

A handwritten signature in black ink, reading "S. Fitzpatrick". The signature is stylized with a large "S" and a cursive "Fitzpatrick".

State Auditor

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
and
Mark S. James, Director
Department of Public Safety
and
James Remillard, Director
State Emergency Management Agency
Jefferson City, Missouri

We completed audit work at the Department of Public Safety - State Emergency Management Agency (SEMA) as part of our annual statewide audit of the State of Missouri's federal awards for the fiscal year ended June 30, 2024. We issued the Single Audit Report (Report No. 2025-056), in September 2025.¹ The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the SEMA during the audit and the audit results.

Statewide Single Audit and Methodology

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended \$21.1 billion in federal funds for 317 programs in fiscal year 2024. We performed risk assessments on each of the state's 36 Type A programs (programs with federal award expenditures more than \$31.6 million) and 33 larger Type B programs (programs with federal award expenditures between \$7.9 million and \$31.6 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2024, our Single Audit included 16 major federal programs with expenditures totaling \$16.2 billion, administered by 10 state agencies.

¹ The Single Audit Report is available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

Single Audit Work at the SEMA

The SEMA reported federal award expenditures totaling \$210.7 million for fiscal year 2024. We audited, as major, the Disaster Grants - Public Assistance (Presidentially Declared Disasters) (DGPA) program with expenditures totaling \$184 million.

Audit Results and Findings at the SEMA

Our responsibility for the statewide Single Audit is limited to the previously stated objectives. The Single Audit reported material noncompliance with direct and material compliance requirements for the DGPA program.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of federal statutes, regulations, and terms and conditions of federal awards; fraud affecting a federal award; and/or known or likely questioned costs greater than \$25,000.

We reported an audit finding related to the SEMA's administration of federal awards.

- SEMA Subrecipient Monitoring (Finding No. 2024-012) - The SEMA did not perform subrecipient monitoring reviews or review subrecipient single audit reports for the DGPA program as required. The SEMA's Monitoring Specialist performed risk assessments for all 890 subrecipients of open projects; however, the SEMA did not perform the 190 monitoring reviews of these subrecipients as required by the monitoring policy. The SEMA did not conduct the required review of single audit reports for applicable DGPA program subrecipients as required by SEMA policies and federal regulations.

The audit finding and the SEMA's response and Corrective Action Plan are included in the Single Audit Report (Report No. 2025-056).

State Auditor

SCOTT FITZPATRICK MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
and
Angela L. Nelson, Director
Department of Commerce and Insurance
Jefferson City, Missouri

We completed audit work at the Department of Commerce and Insurance (DCI) as part of our annual statewide audit of the State of Missouri's financial statements for the fiscal year ended June 30, 2024. We issued audit reports (Report Nos. 2025-016 and 2025-030) of the state's Annual Comprehensive Financial Report, in April and May 2025.¹ The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the DCI during the audit and the audit results.

Statewide Financial Statement Audit and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered \$66 billion in total assets and \$40 billion in total expenses for fiscal year 2024. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2024, our financial statement audit included work at the OA and 13 other state agencies and offices.

Financial Statement Audit Work at the DCI

For the DCI, we audited \$23.9 million in revenue activity and \$13.7 million in expenditure activity for the Insurance Dedicated Fund and \$4.3 million in revenue activity and \$3.2 million in expenditure activity for the Insurance Examiners' Fund.

Audit Results and Findings at the DCI

Our responsibility for the statewide financial statement audit is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the DCI.

¹ Audit reports are available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

We are required by the audit standards to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; and/or fraud. The reports issued reported no audit findings related to the audit procedures performed at the DCI.

and
Members of the General Assembly
and
Honorable Vivek Malek, State Treasurer
Jefferson City, Missouri

We completed audit work at the Office of State Treasurer (STO) as part of our annual statewide audit of the State of Missouri's financial statements for the fiscal year ended June 30, 2024. We issued audit reports (Report Nos. 2025-016 and 2025-030) of the state's Annual Comprehensive Financial Report, in April and May 2025.¹ The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the STO during the audit and the audit results.

Statewide Financial Statement Audit and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered \$66 billion in total assets and \$40 billion in total expenses for fiscal year 2024. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2024, our financial statement audit included work at the OA and 13 other state agencies and offices.

Financial Statement Audit Work at the STO

For the STO, we audited \$14.5 billion in cash and investment balances and \$1.3 billion in securities lending collateral and related liabilities in various funds. In addition, we audited \$142 million in revenue activity for the Abandoned Fund Account (unclaimed property) Fund.

Audit Results and Findings at the STO

Our responsibility for the statewide financial statement audit is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the STO.

¹ Audit reports are available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

We are required by the audit standards to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; and/or fraud. The reports issued reported no audit findings related to the audit procedures performed at the STO.

Members of the General Assembly
and
Honorable Catherine L. Hanaway, Attorney General
Jefferson City, Missouri

We completed audit work at the Office of Attorney General (AGO) as part of our annual statewide audit of the State of Missouri's financial statements for the fiscal year ended June 30, 2024. We issued audit reports (Report Nos. 2025-016 and 2025-030) of the state's Annual Comprehensive Financial Report, in April and May 2025.¹ The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the AGO during the audit and the audit results.

Statewide Financial Statement Audit and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered \$66 billion in total assets and \$40 billion in total expenses for fiscal year 2024. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2024, our financial statement audit included work at the OA and 13 other state agencies and offices.

Financial Statement Audit Work at the AGO

For the AGO, we audited an accounts receivable balance of \$105 million for the Early Childhood Development, Education and Care Fund.

Audit Results and Findings at the AGO

Our responsibility for the statewide financial statement audit is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the AGO.

¹ Audit reports are available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

We are required by the audit standards to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; and/or fraud. Scott Fitzpatrick
State Auditor

SCOTT FITZPATRICK MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
and
Kenneth J. Zellers, Commissioner
Office of Administration
Jefferson City, Missouri

We completed audit work at the Office of Administration (OA) as part of our annual statewide audits of the State of Missouri's financial statements and federal awards for the fiscal year ended June 30, 2024. We issued audit reports (Report Nos. 2025-016 and 2025-030) of the state's Annual Comprehensive Financial Report, in April and May 2025; and issued the Single Audit Report (Report No. 2025-056), in September 2025.¹ The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the OA during these audits and the audit results.

Statewide Audits and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered \$66 billion in total assets and \$40 billion in total expenses for fiscal year 2024. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2024, our financial statement audit included work at the OA and 13 other state agencies and offices.

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended \$21.1 billion in federal funds for 317 programs in fiscal year 2024. We performed risk assessments on each of the state's 36 Type A programs (programs with federal award expenditures more than \$31.6 million) and 33 larger Type B programs (programs with federal award expenditures between \$7.9 million and \$31.6

¹ Audit reports are available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2024, our Single Audit included 16 major federal programs with expenditures totaling \$16.2 billion, administered by 10 state agencies.

Financial Statement Audit Work at the OA

We audited certain significant accounts specific to OA operations. For the OA, we audited expenditure activity totaling \$979.2 million, including \$578.7 million for the General Revenue Fund, \$80.6 million for the Missouri Revolving Information Technology Trust Fund, and \$319.9 million for the Coronavirus State Fiscal Recovery - Health and Economic Impact Fund.

Single Audit Work at the OA

The OA reported federal award expenditures totaling \$633.9 million for fiscal year 2024. We audited, as major, the Coronavirus State and Local Fiscal Recovery Funds (SLFRF) program with expenditures totaling \$623 million.

Audit Results and Findings at the OA

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the OA. The Single Audit reported material noncompliance with direct and material compliance requirements for the SLFRF program.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than \$25,000.

We reported an audit finding related to the OA's administration of federal awards.

- SLFRF Program Subrecipient Monitoring (Finding No. 2024-007) - As noted in the previous audit, the OA had not established policies and procedures regarding monitoring subrecipients of the SLFRF program. As a result, the OA did not comply with the Uniform Guidance requirements regarding identifying and monitoring subrecipients of the SLFRF program.

The OA partially agreed with the audit finding. The audit finding and the OA's response and Corrective Action Plan, including explanation and specific reasons for disagreement, are included in the Single Audit Report (Report No. 2025-056).

Scott Fitzpatrick
State Auditor

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
and
Missouri Highways and Transportation Commission
and
Ed Hassinger, Director
Department of Transportation
Jefferson City, Missouri

We completed audit work at the Missouri Department of Transportation (MoDOT) as part of our annual statewide audit of the State of Missouri's federal awards for the fiscal year ended June 30, 2024. We issued the Single Audit Report (Report No. 2025-056), in September 2025.¹ The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the MoDOT during the audit and the audit results.

Statewide Single Audit and Methodology

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended \$21.1 billion in federal funds for 317 programs in fiscal year 2024. We performed risk assessments on each of the state's 36 Type A programs (programs with federal award expenditures more than \$31.6 million) and 33 larger Type B programs (programs with federal award expenditures between \$7.9 million and \$31.6 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2024, our Single Audit included 16 major federal programs with expenditures totaling \$16.2 billion, administered by 10 state agencies.

Single Audit Work at the MoDOT

The MoDOT reported federal award expenditures totaling \$1.5 billion for fiscal year 2024. We audited, as major, 2 programs with expenditures totaling \$1.4 billion: the Highway Planning and Construction (HPC) program and the Airport Improvement Program.

¹ The Single Audit Report is available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

Audit Results and Findings at the MoDOT

Our responsibility for the statewide Single Audit is limited to the previously stated objectives. The Single Audit reported no material noncompliance with direct and material compliance requirements for the major programs audited at the MoDOT.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of federal statutes, regulations, and terms and conditions of federal awards; fraud affecting a federal award; and/or known or likely questioned costs greater than \$25,000.

We reported an audit finding related to the MoDOT's administration of federal awards.

- MoDOT Monitoring of BABA Provisions (Finding No. 2024-015) - The MoDOT did not establish policies and procedures to monitor contractor and subrecipient compliance with Build America, Buy America (BABA) domestic preference provisions for Infrastructure Investment and Jobs Act-funded projects of the HPC program. As a result, the MoDOT did not ensure contractors and subrecipients complied with these provisions.

The audit finding and the MoDOT's response and Corrective Action Plan are included in the Single Audit Report (Report No. 2025-056).

We completed audit work at the Missouri Department of Conservation (MDC) as part of our annual statewide audits of the State of Missouri's financial statements and federal awards for the fiscal year ended June 30, 2024. We issued audit reports (Report Nos. 2025-016 and 2025-030) of the state's Annual Comprehensive Financial Report, in April and May 2025; and issued the Single Audit Report (Report No. 2025-056), in September 2025.¹ The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the MDC during these audits and the audit results.

Statewide Audits and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered \$66 billion in total assets and \$40 billion in total expenses for fiscal year 2024. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2024, our financial statement audit included work at the OA and 13 other state agencies and offices.

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended \$21.1

¹ Audit reports are available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

billion in federal funds for 317 programs in fiscal year 2024. We performed risk assessments on each of the state's 36 Type A programs (programs with federal award expenditures more than \$31.6 million) and 33 larger Type B programs (programs with federal award expenditures between \$7.9 million and \$31.6 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2024, our Single Audit included 16 major federal programs with expenditures totaling \$16.2 billion, administered by 10 state agencies.

Financial Statement Audit Work at the MDC

For the MDC, we audited \$106.7 million in revenue activity and \$273.8 million in expenditure activity for the Conservation Commission Fund.

Single Audit Work at the MDC

The MDC reported federal award expenditures totaling \$49.4 million for fiscal year 2024. No programs at the MDC were assessed as high risk; therefore, no programs were audited as major. We performed limited audit procedures related to risk assessments.

Audit Results and Findings at the MDC

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the MDC. The Single Audit reported no material issues related to the limited work performed at the MDC.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than \$25,000. The reports issued reported no audit findings related to the audit procedures performed at the MDC.

Scott Fitzpatrick
State Auditor

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
and
Jessica Bax, Director
Department of Social Services
Jefferson City, Missouri

We completed audit work at the Department of Social Services (DSS) as part of our annual statewide audits of the State of Missouri's financial statements and federal awards for the fiscal year ended June 30, 2024. We issued audit reports (Report Nos. 2025-016 and 2025-030) of the state's Annual Comprehensive Financial Report, in April and May 2025; and issued the Single Audit Report (Report No. 2025-056), in September 2025.¹ The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the DSS during these audits and the audit results.

Statewide Audits and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered \$66 billion in total assets and \$40 billion in total expenses for fiscal year 2024. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2024, our financial statement audit included work at the OA and 13 other state agencies and offices.

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended \$21.1 billion in federal funds for 317 programs in fiscal year 2024. We performed risk assessments on each of the state's 36 Type A programs (programs with federal award expenditures more than \$31.6 million) and 33

¹ Audit reports are available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

larger Type B programs (programs with federal award expenditures between \$7.9 million and \$31.6 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2024, our Single Audit included 16 major federal programs with expenditures totaling \$16.2 billion, administered by 10 state agencies.

Financial Statement Audit Work at the DSS

For the DSS, we audited financial activities and balances totaling more than \$25.1 billion for the following significant accounts:

General Revenue Fund:

- \$2.5 billion in expenditure activity
- An accounts receivable balance (and related deferred inflows of resources) of \$3 million
- An accounts payable balance of \$26 million

Pharmacy Rebates Fund:

- An accounts receivable balance (and related deferred inflows of resources) of \$66 million

Third Party Liability Collection Fund:

- An accounts receivable balance (and related deferred inflows of resources) of \$4 million

Federal Reimbursement Allowance Fund:

- \$1.6 billion in revenue activity
- \$2.8 billion in expenditure activity

Children's Health Insurance Fund:

- \$377 million in expenditure activity

Title XIX Federal and Other Fund:

- \$5.1 billion in revenue activity
- \$5.1 billion in expenditure activity
- An accounts receivable balance (and related deferred inflows of resources) of \$182 million

Nursing Facility Federal Reimbursement Allowance Fund:

- \$327 million in revenue activity
- \$474 million in expenditure activity

Title XIX Adult Expansion Federal Fund:

- \$2.9 billion in revenue activity
- \$2.9 billion in expenditure activity

Department of Social Services Federal and Other Fund:

- \$688 million in expenditure activity
- An accounts receivable balance of \$24 million
- An accounts payable balance of \$28 million

In addition, we audited Medical Assistance Payments survey data totaling \$15.2 billion for various funds, and food stamps distributions of \$1.6 billion.

Single Audit Work at the DSS

The DSS reported federal award expenditures totaling \$14.5 billion for fiscal year 2024. We audited, as major, 5 programs with expenditures totaling \$12.5 billion: the Temporary Assistance for Needy Families program, the Low-Income Home Energy Assistance program, the Foster Care Title IV-E program, the Children's Health Insurance Program (CHIP), and the Medicaid Cluster.²

Audit Results and Findings at the DSS

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the DSS. The Single Audit reported no material noncompliance with direct and material compliance requirements for the major programs audited at the DSS.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than \$25,000.

We reported an audit finding related to the DSS's internal controls over financial reporting and administration of federal awards.

- Medicaid and CHIP Receipt Controls (Finding No. FS2024-002 and 2024-004) - As previously noted in the State of Missouri Single Audit report for the year ended June 30, 2023, the MO HealthNet Division (MHD) did not have adequate controls to ensure proper management of receipts. The MHD did not adequately restrict user access within the Medicaid Management Information System (MMIS) and did not account for all cash control numbers to ensure all checks and money orders were properly deposited or returned to senders if the payment could not be accepted. During the year ended June 30, 2024, the MHD processed receipts totaling approximately \$1.5 billion.

The audit finding and the DSS's response are included in our Annual Comprehensive Financial Report - Report on Internal Control, Compliance, and Other Matters (Report No. 2025-030) and the DSS's Corrective Action Plan is included in the Single Audit Report (Report No. 2025-056).

We reported 5 additional audit findings related to the DSS's administration of federal awards.

- Medicaid and CHIP MAGI-Based Participant Eligibility Redeterminations (Finding No. 2024-001) - As similarly noted in 5 previous audits, the DSS did not have sufficient controls to ensure compliance with eligibility redetermination requirements of the Medicaid and the CHIP for certain participants whose eligibility is based on their Modified Adjusted Gross Income (MAGI). The DSS did not correct manual system overrides for approximately 10,200 (1 percent) MAGI-based participants, preventing their cases from being closed when necessary. These participants remained enrolled without redetermination of eligibility for up to 10 years.
- Medicaid and CHIP Participant Eligibility Terminations (Finding No. 2024-002) - As noted in the previous audit, the DSS did not have sufficient controls to ensure benefits were terminated for

² The Medicaid Cluster includes the Medical Assistance Program (Medicaid), the State Medicaid Fraud Control Units program, and the State Survey and Certification of Health Care Providers and Suppliers (Title XVIII) Medicare program.

participants no longer eligible for the Medicaid and the CHIP. A review found a death match was not operating in the Medicaid Eligibility Determination and Enrollment System during the year ended June 30, 2024. Additionally, for 1 of 60 participant cases sampled, the DSS received information requiring participant case termination, but did not manually terminate the participant's eligibility in the applicable eligibility system. Questioned costs totaled \$773.

- Medicaid and CHIP Eligibility Determination Timeliness (Finding No. 2024-003) - As noted in 2 previous audits, the DSS did not perform eligibility determinations within required timeframes for participants of the Medicaid and the CHIP. In a test of compliance with eligibility requirements for the year ended June 30, 2024, 29 of 120 eligibility determinations were made 2 to 168 days after the required timeframes and averaged 50 days late.

- Medicaid Management Information System Access (Finding No. 2024-005) - As similarly noted in the previous audit, the MHD needed to strengthen controls to ensure MMIS access rights were removed for users no longer employed in positions needing access. A sample of 60 MMIS users with access as of March 2024 identified 1 terminated user whose access had not been removed for nearly 2 years.

- Department of Social Services Cost Allocation (Finding No. 2024-006) - As similarly noted in 2 previous audits, Division of Finance and Administrative Services (DFAS) controls and procedures to allocate some administrative costs to federal programs were not sufficient to prevent and/or detect errors. The DFAS did not include a type of fringe benefit costs in the AlloCAP system, totaling approximately \$2.66 million during the year ended June 30, 2024, that should have been allocated to 29 federal programs. As a result, allowable costs were paid from state funding, that could have been allocated to federal funding for various federal programs. The DSS estimated such allowable costs to total approximately 30 percent, or \$800,000.

The DSS partially agreed or disagreed with 3 of the audit findings. The audit findings and the DSS's responses and Corrective Action Plans, including explanation and specific reasons for disagreement, are included in the Single Audit Report (Report No. 2025-056).

Scott Fitzpatrick
State Auditor

SCOTT FITZPATRICK MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
and
Trish Vincent, Director
Department of Revenue
Jefferson City, Missouri

We completed audit work at the Department of Revenue (DOR) as part of our annual statewide audit of the State of Missouri's financial statements for the fiscal year ended June 30, 2024. We issued audit reports (Report Nos. 2025-016 and 2025-030) of the state's Annual Comprehensive Financial Report, in April and May 2025.¹ The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the DOR during the audit and the audit results.

Statewide Financial Statement Audit and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered \$66 billion in total assets and \$40 billion in total expenses for fiscal year 2024. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2024, our financial statement audit included work at the OA and 13 other state agencies and offices.

Financial Statement Audit Work at the DOR

For the DOR, we audited financial activities and balances totaling \$39.7 billion for the following significant accounts:

General Revenue Fund:

- \$14.6 billion in revenue activity
- \$1.7 billion in expenditure activity
- An accounts receivable balance (and related deferred inflows of resources) of \$2.8 billion
- An accounts payable balance of \$373 million

¹ Audit reports are available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

Motor Fuel Tax Fund:

- \$1 billion in revenue activity
- \$277 million in expenditure activity

Gaming Proceeds for Education Fund:

- \$355 million in revenue activity

School District Trust Fund:

- \$1.3 billion in revenue activity
- An accounts receivable balance (and related deferred inflows of resources) of \$188 million

Conservation Commission Fund:

- \$171 million in revenue activity

Parks Sales Tax Fund:

- \$69 million in revenue activity

Soil and Water Sales Tax Fund:

- \$69 million in revenue activity

DOR Custodial Funds:

- Asset balances of \$1.6 billion
- \$7.6 billion in revenue activity
- \$7.6 billion in expenditure activity

Audit Results and Findings at the DOR

Our responsibility for the statewide financial statement audit is limited to the previously stated objectives. The audit reports of the state's financial statements reported no uncorrected material misstatements for the DOR. We expressed qualified opinions on the governmental activities and the General Fund because we were not allowed access to tax returns and related source documents for income taxes at the DOR.

We are required by the audit standards to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; and/or fraud.

We reported an audit finding related to the DOR's internal controls over financial reporting.

- Department of Revenue Financial Reporting Controls (Finding No. FS2024-001) - As similarly noted in our 3 previous audits, the DOR did not have adequate controls and procedures over financial reporting of certain governmental and custodial fund activities. As a result, numerous balances submitted for inclusion in the financial statements for the year ended June 30, 2024, were materially misstated. The DOR did not follow current methodology to determine net sales and use tax accounts receivable balances. If this error had not been identified during the audit, Sales and Use Tax Non-State Fund (a custodial fund) net accounts receivable balances would have been understated by approximately \$60.9 million in the financial statements. In addition, the DOR did not include pass-through entity taxes when determining income tax accounts receivable balances. If this error had not been identified during the audit, Government Wide - Governmental Activities and General Fund net accounts receivable balances would have been understated by approximately \$36.2 million in the financial statements. A revised report submitted to the OA to address this error

contained calculation errors, and resulted in net accounts receivable and related liability balances being understated by approximately \$26.7 million. The DOR also made several data entry and calculation errors in the various custodial fund balances and financial activities in the financial statements. If these errors had not been identified during the audit, certain Custodial Funds - Program assets and activity would have been understated in the financial statements by approximately \$166 million and \$1.2 billion, respectively.

The audit finding and the DOR's response are included in our Annual Comprehensive Financial Report - Report on Internal Control, Compliance, and Other Matters (Report No. 2025-030) and the DOR's Corrective Action Plan is included in the Single Audit Report (Report No. 2025-056).

A handwritten signature in black ink, appearing to read "S. Fitzpatrick".

State Auditor

SCOTT FITZPATRICK MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
and
Trevor Foley, Director
Department of Corrections
Jefferson City, Missouri

We completed audit work at the Department of Corrections (DOC) as part of our annual statewide audit of the State of Missouri's financial statements for the fiscal year ended June 30, 2024. We issued audit reports (Report Nos. 2025-016 and 2025-030) of the state's Annual Comprehensive Financial Report, in April and May 2025.¹ The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the DOC during the audit and the audit results.

Statewide Financial Statement Audit and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered \$66 billion in total assets and \$40 billion in total expenses for fiscal year 2024. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2024, our financial statement audit included work at the OA and 13 other state agencies and offices.

Financial Statement Audit Work at the DOC

For the DOC, we audited \$33.1 million in revenue activity and \$24.5 million in expenditure activity for the Working Capital Revolving Fund, and \$819.8 million in expenditure activity for the General Revenue Fund.

Audit Results and Findings at the DOC

Our responsibility for the statewide financial statement audit is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the DOC.

¹ Audit reports are available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

We are required by the audit standards to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; and/or fraud. The reports issued reported no audit findings related to the audit procedures performed at the DOC.

State Auditor

SCOTT FITZPATRICK MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
and
Kurt U. Schaefer, Director
Department of Natural Resources
Jefferson City, Missouri

We completed audit work at the Department of Natural Resources (DNR) as part of our annual statewide audits of the State of Missouri's financial statements and federal awards for the fiscal year ended June 30, 2024. We issued audit reports (Report Nos. 2025-016 and 2025-030) of the state's Annual Comprehensive Financial Report, in April and May 2025; and issued the Single Audit Report (Report No. 2025-056), in September 2025.¹ The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the DNR during these audits and the audit results.

Statewide Audits and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered \$66 billion in total assets and \$40 billion in total expenses for fiscal year 2024. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2024, our financial statement audit included work at the OA and 13 other state agencies and offices.

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended \$21.1 billion in federal funds for 317 programs in fiscal year 2024. We performed risk assessments on each of the state's 36 Type A programs (programs with federal award expenditures more than \$31.6 million) and 33

¹ Audit reports are available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

larger Type B programs (programs with federal award expenditures between \$7.9 million and \$31.6 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2024, our Single Audit included 16 major federal programs with expenditures totaling \$16.2 billion, administered by 10 state agencies.

Financial Statement Audit Work at the DNR

For the DNR, we audited \$121 million in revenue activity, \$160 million in expenditure activity, and a loans receivable balance of \$1.7 billion for the Water & Wastewater Loan Revolving Fund; \$127 million in revenue activity and \$126 million in expenditure activity for the Water & Wastewater Loan Fund; \$67 million in expenditure activity for the Soil and Water Sales Tax Fund; and a capital assets balance of \$99 million for the State Parks Earning Fund.

Single Audit Work at the DNR

The DNR reported federal award expenditures totaling \$184 million for fiscal year 2024. We audited, as major, the Capitalization Grants for Clean Water State Revolving Funds program with expenditures totaling \$120 million.

Audit Results and Findings at the DNR

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the DNR. The Single Audit reported no material noncompliance with direct and material compliance requirements for the major program audited at the DNR.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than \$25,000. The reports issued reported no audit findings related to the audit procedures performed at the DNR.

We completed audit work at the Department of Mental Health (DMH) as part of our annual statewide audits of the State of Missouri's financial statements and federal awards for the fiscal year ended June 30, 2024. We issued audit reports (Report Nos. 2025-016 and 2025-030) of the state's Annual Comprehensive Financial Report, in April and May 2025; and issued the Single Audit Report (Report No. 2025-056), in September 2025.¹ The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the DMH during these audits and the audit results.

Statewide Audits and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered \$66 billion in total assets and \$40 billion in total expenses for fiscal year 2024. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2024, our financial statement audit included work at the OA and 13 other state agencies and offices.

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended \$21.1

¹ Audit reports are available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

billion in federal funds for 317 programs in fiscal year 2024. We performed risk assessments on each of the state's 36 Type A programs (programs with federal award expenditures more than \$31.6 million) and 33 larger Type B programs (programs with federal award expenditures between \$7.9 million and \$31.6 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2024, our Single Audit included 16 major federal programs with expenditures totaling \$16.2 billion, administered by 10 state agencies.

Financial Statement Audit Work at the DMH

For the DMH, we audited \$2.4 billion in revenue activity and \$2.1 billion in expenditure activity for the DMH - Federal Fund, and \$1.4 billion in expenditure activity for the General Revenue Fund.

Single Audit Work at the DMH

The DMH reported federal award expenditures totaling \$119 million for fiscal year 2024. We performed audit procedures related to the DMH's cooperative agreements with the Department of Social Services (DSS) for the Medicaid Cluster, a major program at the DSS.

Audit Results and Findings at the DMH

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the DMH. The Single Audit reported no material noncompliance with direct and material compliance requirements for the portion of the Medicaid Cluster audited at the DMH.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than \$25,000. The reports issued reported no audit findings related to the audit procedures performed at the DMH.

We completed audit work at the Department of Labor and Industrial Relations (DOLIR) as part of our annual statewide audits of the State of Missouri's financial statements and federal awards for the fiscal year ended June 30, 2024. We issued audit reports (Report Nos. 2025-016 and 2025-030) of the state's Annual Comprehensive Financial Report, in April and May 2025; and issued the Single Audit Report (Report No. 2025-056), in September 2025.¹ The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the DOLIR during these audits and the audit results.

Statewide Audits and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered \$66 billion in total assets and \$40 billion in total expenses for fiscal year 2024. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2024, our financial statement audit included work at the OA and 13 other state agencies and offices.

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended \$21.1 billion in federal funds for 317 programs in fiscal year 2024. We performed risk assessments on each of the state's 36 Type A programs (programs with federal award expenditures more than \$31.6 million) and 33

¹ Audit reports are available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

larger Type B programs (programs with federal award expenditures between \$7.9 million and \$31.6 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2024, our Single Audit included 16 major federal programs with expenditures totaling \$16.2 billion, administered by 10 state agencies.

Financial Statement Audit Work at the DOLIR

For the DOLIR, we audited \$356 million in revenue activity, \$232 million in expenditure activity, a cash balance of \$1.1 billion, an accounts receivable balance of \$107 million, and an accounts payable balance of \$50 million for the Unemployment Compensation Fund. In addition, we audited \$63 million in expenditure activity and a long-term liabilities balance of \$2.4 billion for the Workers Compensation - Second Injury Fund, and \$150 million in expenditure activity for the Tort Victims Compensation Fund.

Single Audit Work at the DOLIR

The DOLIR reported federal award expenditures totaling \$278 million for fiscal year 2024. No programs at the DOLIR were assessed as high risk; therefore, no programs were audited as major. We performed limited audit procedures related to risk assessments.

Audit Results and Findings at the DOLIR

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the DOLIR. The Single Audit reported no material issues related to the limited work performed at the DOLIR.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than \$25,000. The reports issued reported no audit findings related to the audit procedures performed at the DOLIR.

Scott Fitzpatrick

Sarah Willson, Director
Department of Health and Senior Services
Jefferson City, Missouri

We completed audit work at the Department of Health and Senior Services (DHSS) as part of our annual statewide audits of the State of Missouri's financial statements and federal awards for the fiscal year ended June 30, 2024. We issued audit reports (Report Nos. 2025-016 and 2025-030) of the state's Annual Comprehensive Financial Report, in April and May 2025; and issued the Single Audit Report (Report No. 2025-056), in September 2025.¹ The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the DHSS during these audits and the audit results.

Statewide Audits and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered \$66 billion in total assets and \$40 billion in total expenses for fiscal year 2024. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2024, our financial statement audit included work at the OA and 13 other state agencies and offices.

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended \$21.1 billion in federal funds for 317 programs in fiscal year 2024. We performed risk assessments on each of the state's 36 Type A programs (programs with federal award expenditures more than \$31.6 million) and 33

¹ Audit reports are available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

larger Type B programs (programs with federal award expenditures between \$7.9 million and \$31.6 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2024, our Single Audit included 16 major federal programs with expenditures totaling \$16.2 billion, administered by 10 state agencies.

Financial Statement Audit Work at the DHSS

For the DHSS, we audited \$1.2 billion in revenue activity, \$1.1 billion in expenditure activity, and an accounts payable balance of \$37 million for the DHSS - Federal and Other Funds Fund; and \$494 million in expenditure activity for the General Revenue Fund.

Single Audit Work at the DHSS

The DHSS reported federal award expenditures totaling \$645 million for fiscal year 2024. We audited, as major, the Child and Adult Care Food Program (CACFP) with expenditures totaling \$69 million. We also performed audit procedures related to the DHSS's cooperative agreements with the Department of Social Services (DSS) for the Medicaid Cluster, a major program at the DSS.

Audit Results and Findings at the DHSS

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the DHSS. The Single Audit reported material noncompliance with direct and material compliance requirements for the CACFP, and no material noncompliance with direct and material compliance requirements for the portion of the Medicaid Cluster audited at the DHSS.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than \$25,000.

We reported 4 audit findings related to the DHSS's administration of federal awards.

- CACFP Subrecipient Reimbursements (Finding No. 2024-008) - As similarly noted in our prior audit report, the Bureau of Community Food and Nutrition Assistance (BCFNA) did not have sufficient controls and procedures to ensure CACFP reimbursements to subrecipients were allowable and supported with sufficient documentation, as required by federal regulations.
- CACFP Subrecipient Monitoring (Finding No. 2024-009) - As similarly noted in our prior audit report, BCFNA subrecipient risk assessment and monitoring procedures were not in compliance with subrecipient monitoring requirements and were not sufficient to ensure CACFP subrecipient compliance with program requirements. BCFNA subrecipient monitoring reviews identified significant errors, noncompliance, disallowances, and overclaims; and continued deficiencies with little improvement from prior reviews. The BCFNA did not use the results of the reviews to strengthen and improve subrecipient monitoring procedures. Questioned costs were unknown.
- Medicaid SPPC Participant Choice Agreements (Finding No. 2024-010) - As similarly noted in our prior audit report, the Division of Senior and Disability Services did not have effective controls in

place to ensure Participant Choice Agreements were completed and retained for participants of the State Plan Personal Care program.

- Medicaid Facility Survey Timeliness (Finding No. 2024-011) - As similarly noted in 3 previous audit reports, the Section for Long-Term Care Regulations did not perform facility survey procedures within timeframes required by the State Operations Manual.

The DHSS partially agreed or disagreed with 3 of the audit findings. The audit findings and the DHSS's responses and Corrective Action Plans, including explanations and specific reasons for disagreement, are included in the Single Audit Report (Report No. 2025-056).

Scott Fitzpatrick
State Auditor

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
and
Coordinating Board for Higher Education
and
Dr. Bennett Boggs, Commissioner
Department of Higher Education and Workforce Development
Jefferson City, Missouri

We completed audit work at the Department of Higher Education and Workforce Development (DHEWD) as part of our annual statewide audits of the State of Missouri's financial statements and federal awards for the fiscal year ended June 30, 2024. We issued audit reports (Report Nos. 2025-016 and 2025-030) of the state's Annual Comprehensive Financial Report, in April and May 2025; and issued the Single Audit Report (Report No. 2025-056), in September 2025.¹ The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the DHEWD during these audits and the audit results.

Statewide Audits and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered \$66 billion in total assets and \$40 billion in total expenses for fiscal year 2024. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2024, our financial statement audit included work at the OA and 13 other state agencies and offices.

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended \$21.1

¹ Audit reports are available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

billion in federal funds for 317 programs in fiscal year 2024. We performed risk assessments on each of the state's 36 Type A programs (programs with federal award expenditures more than \$31.6 million) and 33 larger Type B programs (programs with federal award expenditures between \$7.9 million and \$31.6 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2024, our Single Audit included 16 major federal programs with expenditures totaling \$16.2 billion, administered by 10 state agencies.

Financial Statement Audit Work at the DHEWD

For the DHEWD, we audited \$988.2 million in expenditure activity for the General Revenue Fund.

Single Audit Work at the DHEWD

The DHEWD reported federal award expenditures totaling \$46.7 million for fiscal year 2024. We audited, as major, the Workforce Innovation and Opportunity Act (WIOA) Cluster with expenditures totaling \$33 million.

Audit Results and Findings at the DHEWD

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the DHEWD. The Single Audit reported no material noncompliance with direct and material compliance requirements for the major program audited at the DHEWD.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than \$25,000.

We reported an audit finding related to the DHEWD's administration of federal awards.

- DHEWD FFATA Reporting (Finding No. 2024-017) - The DHEWD needed to strengthen internal controls related to Federal Funding Accountability and Transparency Act (FFATA) reporting for the WIOA Cluster. During state fiscal year 2024, the DHEWD did not comply with FFATA reporting requirements for 4 of 10 subawards reviewed.

The audit finding and the DHEWD's response and Corrective Action Plan are included in the Single Audit Report (Report No. 2025-056).

Scott Fitzpatrick
State Auditor

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
and
State Board of Education
and
Dr. Karla Eslinger, Commissioner
Department of Elementary and Secondary Education
Jefferson City, Missouri

We completed audit work at the Department of Elementary and Secondary Education (DESE) as part of our annual statewide audits of the State of Missouri's financial statements and federal awards for the fiscal year ended June 30, 2024. We issued audit reports (Report Nos. 2025-016 and 2025-030) of the state's Annual Comprehensive Financial Report, in April and May 2025; and issued the Single Audit Report (Report No. 2025-056), in September 2025.¹ The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the DESE during these audits and the audit results.

Statewide Audits and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered \$66 billion in total assets and \$40 billion in total expenses for fiscal year 2024. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2024, our financial statement audit included work at the OA and 13 other state agencies and offices.

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended \$21.1

¹ Audit reports are available at: <<https://auditor.mo.gov/AuditReport/Menu>>.

billion in federal funds for 317 programs in fiscal year 2024. We performed risk assessments on each of the state's 36 Type A programs (programs with federal award expenditures more than \$31.6 million) and 33 larger Type B programs (programs with federal award expenditures between \$7.9 million and \$31.6 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2024, our Single Audit included 16 major federal programs with expenditures totaling \$16.2 billion, administered by 10 state agencies.

Financial Statement Audit Work at the DESE

For the DESE, we audited financial activities and balances totaling more than \$8.9 billion for the following significant accounts:

General Revenue Fund:

- \$2.9 billion in expenditure activity

Department of Elementary and Secondary Education Fund:

- \$1.1 billion in revenue activity
- \$1 billion in expenditure activity
- An accounts payable balance of \$72 million
- An accounts receivable balance of \$72 million

Outstanding Schools Trust Fund:

- \$837 million in expenditure activity

Lottery Proceeds Fund:

- \$350 million in expenditure activity

School District Trust Fund:

- \$1.3 billion in expenditure activity

Classroom Trust Fund:

- \$364 million in expenditure activity

DESE Federal Emergency Relief 2021 Fund:

- \$679 million in expenditure activity
- An accounts payable balance of \$118 million
- An accounts receivable balance of \$118 million

Single Audit Work at the DESE

The DESE reported federal award expenditures totaling \$2.5 billion for fiscal year 2024. We audited, as major, 3 programs with expenditures totaling \$1.2 billion: the Child Nutrition Cluster,² the Special Education Cluster (IDEA), and the Child Care and Development Fund Cluster.³

² The Child Nutrition Cluster is administered by the DESE, the Department of Health and Senior Services, and the Department of Social Services (DSS).

³ The Child Care program transferred from the DSS to the DESE, and the DESE became the lead agency responsible for all Child Care program policies and procedures effective August 28, 2021. Through June 2024, the DSS continued to perform certain agreed-upon responsibilities of the program.

Audit Results and Findings at the DESE

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the DESE. The Single Audit reported no material noncompliance with direct and material compliance requirements for the major programs audited at the DESE.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than \$25,000.

We reported 2 audit findings related to the DESE's administration of federal awards.

- Child Care Payments (Finding No. 2024-013) - As similarly noted in the prior audit report, DESE controls over the Child Care Development Fund (Child Care) program's subsidy payments to child care providers were not sufficient to ensure payments were in accordance with the Child Care program subsidy state plan and costs were allowable. As a result, the DESE overpaid 29 providers and underpaid 8 providers of the 60 payments sampled. Questioned costs totaled \$2,223.
- DESE FFATA Reporting (Finding No. 2024-014) - As similarly noted in 3 prior audit reports, during state fiscal year 2024, the DESE did not comply with Federal Funding Accountability and Transparency Act (FFATA) reporting requirements for any of the 1,398 first-tier subawards, totaling approximately \$330 million, for the Child Nutrition Cluster programs. The DESE needs to strengthen internal controls related to FFATA reporting for the Child Nutrition Cluster to help ensure compliance with the federal reporting requirements.

The audit findings and the DESE's responses and Corrective Action Plans are included in the Single Audit Report (Report No. 2025-056).

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions, other than cities, towns, and villages, required to file a financial report under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office shall notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Due to different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 12 political subdivisions required to file a financial report by August 31, 2025, is presented in summary on page 3 and in detail in Appendix A. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in August 2025, after their filing deadline. The filing status for these 129 entities is presented in summary on page 3 and by individual entity in Appendixes B to E.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is stylized, with the first letters of the first and last names being capitalized and prominent.

August 2025

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

This report includes the filing status for the 12 political subdivisions, other than cities, towns, and villages, with a fiscal year end of February 28, 2025. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 12 political subdivisions, 11 filed an annual financial report timely.

This report also includes the filing status for 129 political subdivisions, other than cities, towns, and villages, that filed their financial report in August 2025, after their filing deadline.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by August 31, 2025, under Section 105.145, RSMo, and 15 CSR 40-3.030 and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) shall notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO shall notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Due to different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 4 cities and 4 villages is presented in summary on page 3 and in detail in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in August 2025, after their filing deadline. The filing status for these 40 cities and 11 villages is presented in summary on page 4 and by individual entity in Appendixes B to H.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive, flowing style.

Scott Fitzpatrick
State Auditor

Monthly Report on Municipal Court and Revenue Filings

August 2025

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedure to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. Rule 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires the SAO to notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359, RSMo, and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and a mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 4 cities and 4 villages with a fiscal year end of February 28, 2025, whose financial report was due by August 31, 2025. Of the 8 municipalities, 6 filed the financial report timely. Of the 4 municipalities required to file an addendum, 2 filed timely. Of the 3 municipalities required to file a certification, 1 filed timely.

Monthly Report on Municipal Court and Revenue Filings
August 2025
Executive Summary

This report includes the filing status for 40 cities and 11 villages that filed at least one of the items (financial report, addendum, or certification) in August 2025, after their filing deadline. Of these municipalities, 41 filed an annual financial report, 14 filed an addendum, and 8 filed a certification.

5.1	Payroll and Related Matters - Payroll Taxes	5

*Includes selected findings

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

To the Honorable Mayor
and
Members of the City Council
City of Malden, Missouri
and
Members of the Board of Directors
Dunklin County Reorganized Common Sewer District 1

We have conducted follow-up work on certain audit report findings contained in Report No. 2023-073, *Dunklin County Sewer District* (rated as Poor), issued in October 2023. The objectives of the follow-up were to:

1. Identify audit report findings for which follow up is considered necessary, and inform the sewer district about the follow-up review on those findings.
2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:
 - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
 - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
 - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
 - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

During the initial audit, the district was in receivership, and was managed by the City of Malden, due to a court order. As of May 2025, the sewer district is no longer in receivership, and the city turned over responsibility for management to a newly created Board of Directors of the Dunklin County Reorganized Common Sewer District 1.

As part of the work conducted during this follow up, we reviewed documentation provided by the City Administrator and the current Board President, held discussions with the City Administrator, and obtained documentation through the Missouri courts system, to verify the status of implementation for the recommendations. Documentation provided by the reorganized sewer district and the city included records of correspondence with the Internal Revenue Service, Missouri Department of Revenue, court records related to the ongoing criminal cases associated with missing and misappropriated money, and other pertinent documents. This report is a summary of the results of this follow-up work, which was substantially completed during July 2025.

A handwritten signature in black ink, appearing to read "S. Fitzpatrick". The signature is stylized with a large, looped "S" and a distinct "F".

Scott Fitzpatrick
State Auditor

Dunklin County Sewer District

Follow-Up Report on Audit Findings

Status of Findings

1. Missing and/or
Misappropriated Money
and Sewer Services

From January 1, 2017, through March 5, 2021, money and sewer services totaling at least \$62,579 were missing and/or misappropriated from the district, and an estimated additional \$98,096 was not deposited during this time and was also likely missing.

The former Bookkeeper overpaid herself \$54,049 from January 1, 2017, through March 5, 2021, using different methods, including issuing herself more than 1 check each month and issuing some checks for more than her monthly gross salary. Additionally, 28 checks totaling \$4,154 were issued to the former Board President, and 3 checks totaling \$413 were issued to the former Bookkeeper that were unsupported and questionable payments. They were recorded as cellular phone allowances, mileage reimbursements, and reimbursement for other expenses. The former Board President and former Bookkeeper also did not pay \$3,063 for sewer services during the 50-month period of January 2017 through February 2021.

The former Bookkeeper did not deposit \$900 in sewer security deposits collected and recorded on deposit slips between January 2017 and October 2019. Additionally, the former Bookkeeper did not deposit an estimated \$1,300 in sewer security deposits collected during the 16 months from November 2019 to February 2021.

The former Bookkeeper may not have deposited an estimated \$96,796 of sewer receipts from January 2017 to February 2021, which may have been cash receipts. Sewer billings and receipts were not prepared/retained by the former Bookkeeper for this 50-month time period. Additionally, a review of the former Bookkeeper's and former Board President's personal bank accounts noted cash deposits totaling \$29,146 from January 2017 to March 2021.

Recommendation

The Malden City Council continue to work with law enforcement officials regarding criminal prosecution of missing and/or misappropriated money and non-payment of sewer services, and take the necessary actions to obtain restitution.

Status

In Progress

Prior to the formation of the reorganized sewer district, the city was working with law enforcement officials and the Prosecuting Attorney's office for the criminal prosecution and was attempting to obtain restitution. The new Board is continuing to work with law enforcement officials and is attempting to obtain restitution. In November 2023, the former Bookkeeper was charged with 3 counts of a class C felony of stealing \$25,000 or more, and 16 counts of a class D felony of stealing \$750 or more. The former Board President was charged with 3 counts of a class C felony of stealing \$25,000 or more, and 14 counts of a class D felony of stealing \$750 or more. The former Bookkeeper's

Dunklin County Sewer District
Follow-up Report on Audit Findings
Status of Findings

case is currently set for trial in March 2026, and the former Board President's case is currently set for trial in November 2025.

**5.1 Payroll and Related
Matters - Payroll taxes**

The former Bookkeeper did not ensure payroll tax forms were filed and payroll taxes were remitted to the Internal Revenue Service (IRS) timely, as required. As a result, the sewer district was assessed \$756 in penalties, \$287 in interest, and \$1,881 in additional taxes. Also, as of July 8, 2022, at least \$10,252 was still due to the IRS and significant interest and penalties were still accruing. Additionally, the former Bookkeeper did not report all of the amounts she paid herself to the accounting firm for inclusion on her W-2 form.

Recommendation

The Malden City Council ensure district payroll tax returns are filed and district payroll taxes are remitted to the IRS timely, and take immediate action to pay amounts due. In addition, the Bookkeeper's W-2 forms should be amended as appropriate.

Status

In progress

We reviewed documentation provided by the city, and noted that while the sewer district was in receivership, no IRS filings were necessary because the sewer district had no employees. The newly formed Board also indicated there are no district employees and it contracts for all work. While the sewer district was in receivership, city officials indicated they attempted repeatedly to obtain information regarding outstanding taxes and pay amounts due. However, they were unable to obtain this information because the IRS stated they did not have the correct IRS registration information so they did not have access to the necessary tax information. Additionally, city officials indicated the city could not amend the former Bookkeeper's W-2 forms because the payroll was completed by an outside accounting firm and the city did not have the necessary IRS information or access to the information to amend the W-2 forms. The new Board indicated it will be working to address and resolve any tax issues related to the sewer district, including amending the former Bookkeeper's W-2 forms.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

To the County Commission
and
Officeholders of St. Clair County, Missouri

The Office of the State Auditor contracted for an audit of St. Clair County's financial statements for the 2 years ended December 31, 2024, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

A handwritten signature in black ink that reads "S. Fitzpatrick". The signature is stylized with a large, flowing "S" and a clear, legible "Fitzpatrick".

Scott Fitzpatrick
State Auditor

October 2025
Report No. 2025-064

Recommendations in the contracted audit of St. Clair County

**Sheriff's Office Bank
Reconciliations**

The Sheriff's office implement procedures to ensure that formal bank reconciliations are performed for all bank accounts each month, and that the reconciliations be reviewed and approved by an individual other than the one performing the reconciliation. The Sheriff's office maintain the outstanding check lists from the Turnkey system with the bank reconciliation each month for the Canteen account.

**Sheriff Shop With A Cop
Account Internal Controls**

To strengthen controls, the deputy with other accounting duties should either be removed as an authorized check signer or, as a compensating control for the otherwise incompatible duties, require two signatures on all checks.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of St. Clair County, Missouri

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of St. Clair County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023 and 2024, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of St. Clair County, Missouri, as of December 31, 2023 and 2024, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of St. Clair County, Missouri, as of December 31, 2023 and 2024, or the changes in financial position thereof for the years then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of St. Clair County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by St. Clair County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about St. Clair County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the

financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about St. Clair County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated August 25, 2025, on our consideration of St. Clair County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of St. Clair County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering St. Clair County, Missouri's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of this statement.

ST. CLAIR COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2023 and 2024

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

St. Clair County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are ten elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff, and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of St. Clair County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County’s custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. The Fennwald Bridge and Federal Lands Access Program Grant Funds had negative actual ending balances in 2024. Both Funds represent grants that are funded on a reimbursement basis with the negative balance representing unreimbursed expenditures at year end.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law. However, the County did not adopt a formal budget for the Federal Lands Access Program Grant Fund in 2023, and the National Opioids and U.S. Marshal Federal Sharing Funds in 2023 and 2024.

10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceed budgeted amounts for the Domestic Violence Fund in 2023. Also, the expenditures of the Federal Lands Access Program Grant Fund in 2023 exceeded budgetary authority to the extent that a formal budget was not adopted.

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property included within the County's boundaries for the calendar years 2024 and 2023 for purposes of taxation were:

	2024	2023
Real Estate	\$ 97,006,100	\$ 93,230,854
Personal Property	38,167,933	38,033,490
Railroad and Utilities	11,446,028	11,155,707
Total	<u>\$ 146,620,061</u>	<u>\$ 142,420,051</u>

For calendar years 2024 and 2023, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

	2024	2023
General Revenue	0.3208	0.2896
Special Road and Bridge	0.2822	0.2822

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest-bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investments balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and

as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2024, the County had the following cash and investment balances:

	Carrying Value	Bank Balance	FDIC Coverage
Cash and Cash Equivalents	\$ 3,720,427	\$ 3,980,893	\$ 250,000
Investments	2,300,000	2,300,000	-
Total Governmental Funds	<u>\$ 6,020,427</u>	<u>\$ 6,280,893</u>	<u>\$ 250,000</u>
 Cash and Cash Equivalents	 \$ 5,901,846	 \$ 5,772,207	 \$ 783,973
Investments	145,000	145,000	-
Total Fiduciary Funds	<u>\$ 6,046,846</u>	<u>\$ 5,917,207</u>	<u>\$ 783,973</u>

At December 31, 2023, the County had the following cash and investment balances:

	Carrying Value	Bank Balance	FDIC Coverage
Cash and Cash Equivalents	\$ 4,250,174	\$ 4,603,806	\$ 250,000
Investments	2,300,000	2,300,000	-
Total Governmental Funds	<u>\$ 6,550,174</u>	<u>\$ 6,903,806</u>	<u>\$ 250,000</u>
 Cash and Cash Equivalents	 \$ 5,211,272	 \$ 5,203,793	 \$ 725,908
Investments	145,000	145,000	-
Total Fiduciary Funds	<u>\$ 5,356,272</u>	<u>\$ 5,348,793</u>	<u>\$ 725,908</u>

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2024 and 2023 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. Missouri Local Government Employees Retirement System (LAGERS)

1) Plan Description

St. Clair County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, Section 70.600-70.755, RSMo. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri 65102 or by calling 1-800-447-4334, or by the following website, www.molagers.org.

2) Pension Benefits

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police), and early retirement is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and amount of credited service time.

3) Funding Policy

Full-time employees of St. Clair County contribute 4% to the pension plan. The June 30th statutorily required contribution rates were .3% (General) for both 2024 and 2023 and 3.2% and 3.4% (Police) of annual covered payroll for 2024 and 2023, respectively. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the years ended December 31, 2024 and 2023, the County contributed \$152,792 and \$138,873 to LAGERS.

B. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires

the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, all participants hired on or after February 24, 2002 are required to contribute an additional 4% of their gross compensation to CERF, starting January 1, 2003. An active LAGERS participant who was employed with the County prior to February 24, 2002 is not required to make contributions. The County has elected not to make contributions on behalf of employees in 2023. Beginning in 2024, the County elected to make the 4% contribution on behalf of employees. During 2024 and 2023, the County collected and remitted to CERF employee withholdings and fees collected of \$226,236 and \$219,731, respectively, for the years then ended.

C. Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$4,488 and \$3,366, respectively, for the years ended December 31, 2024 and 2023.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides regular full-time employees vacation leave after their probation period is met. However, their leave accrues from their hire date. The vacation time accrues at the rate of four hours per completed month for the first year. Then after the first year vacation time accrues at the rate of 8 hours per month from 1 to 10 years. After 10 years, the vacation time will accrue at the rate of 12 hours per month. The employees may accrue vacation leave up to a maximum of 160 hours. For part-time employees with benefits, vacation leave is credited at a percentage based on the hours worked. An employee with benefits that leaves the County for any reason is compensated for any vacation that was unused up until the date of termination.

Full-time employees will earn 8 hours of paid sick leave per month, after the completion of the probationary period. Each part-time employee will earn a percentage of sick leave based on the hours worked with pay credit monthly. Employees may use up to 3 days per year of their accrued sick leave for personal days. Employees with benefits may accumulate sick leave up to a maximum of 30 days. Upon termination of employment, accumulated sick leave is not reimbursable.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG-TERM DEBT

In 2020 the County purchased four John Deere tractors with a total purchase price of \$1,022,320. The County traded in tractors and received a trade-in allowance of \$418,000. The net purchase price of \$604,320 was financed by John Deere Credit Inc. The financing terms were five years with one annual payment in September of each year at a rate of 2.95%.

<u>Fiscal Year Ending</u> <u>December 31,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2025	\$ 103,946	\$ 3,108	\$ 107,054

The following schedule shows changes in long-term debt during the year ended December 31, 2024:

<u>Description</u>	<u>Balance</u> <u>12/31/2023</u>	<u>Additions</u>	<u>Payments</u>	<u>Balance</u> <u>12/31/2024</u>	<u>Interest</u> <u>Paid</u>
John Deere Tractors	\$ 204,870	\$ -	\$ (100,924)	\$ 103,946	\$ 6,126

The following schedule shows changes in long-term debt during the year ended December 31, 2023:

<u>Description</u>	<u>Balance</u> <u>12/31/2022</u>	<u>Additions</u>	<u>Payments</u>	<u>Balance</u> <u>12/31/2023</u>	<u>Interest</u> <u>Paid</u>
John Deere Tractors	\$ 302,864	\$ -	\$ (97,994)	\$ 204,870	\$ 9,056

8. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2024 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through August 25, 2025, the date the financial statements were available to be issued.

COMPLIANCE SECTION

McBRIDE, LOCK & ASSOCIATES, LLC

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission and
Officeholders of St. Clair County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of St. Clair County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023 and 2024, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements, which collectively comprise St. Clair County, Missouri's basic financial statements and have issued our report thereon dated August 25, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered St. Clair County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of St. Clair County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of St. Clair County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses, or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether St. Clair County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

August 25, 2025

To the County Commission
St. Clair County, Missouri

We have audited the regulatory basis financial statements of St. Clair County, Missouri for the years ended December 31, 2023 and 2024. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 5, 2025. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by St. Clair County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2023 and 2024. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated August 25, 2025.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2023 and 2024, we considered St. Clair County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated August 25, 2025. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

Sheriff's Office Bank Reconciliations

For the periods December 2022 through April 2023 we noted that bank reconciliations were not performed on the Sheriff Civil Process account. Since that time, Sheriff's office personnel have manually reconciled the account through the end of December 2024, although it was not clear when the reconciliations were completed. Subsequent to December 2024, the Sheriff's office has automated the accounting for the Civil Process account, using QuickBooks to record transactions and reconcile the monthly bank statements.

We noted the following issues with the bank reconciliations of the Sheriff Canteen account:

- There was a difference of \$1,202 between the bank statement balance and the book balance on the December 2022 bank reconciliation as a result of entering an incorrect bank statement balance into Turnkey. This error was not corrected until the August 2023 bank reconciliation.
- The account was not reconciled for the month of June 2023.
- Outstanding check lists were not available for any of the 24 months of bank reconciliations we reviewed during the audit. Further, these lists could not be retroactively generated from the Turnkey software. Outstanding check lists are a standard part of the reconciliation process and should be maintained with the monthly bank reconciliations.

We recommend that that Sheriff's office implement procedures to ensure that formal bank reconciliations are performed for all bank accounts each month, and that the reconciliations be reviewed and approved by an individual other than the one performing the reconciliation. We also recommend that the Sheriff's office maintain the outstanding check lists from the Turnkey system with the bank reconciliation each month for the Canteen account.

Sheriff Shop With A Cop Account Internal Controls

In reviewing the four Sheriff's office bank accounts, it was noted that for the Shop With A Cop account, check images had only one signature while drafts from the other three bank accounts all had two signatures. It was further noted that one of the four persons who are authorized as a sole signatory on the account is a deputy who also prepares the checks, records the checks in the check register, reconciles the bank account and may be tasked with making purchases. To strengthen controls, the deputy with other accounting duties should either be removed as an authorized check signer or, as a compensating control for the otherwise incompatible duties, require two signatures on all checks.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of St. Clair County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

(Original Signed by McBride, Lock & Associates, LLC)

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

To the County Commission
and
Officeholders of Bollinger County, Missouri

The Office of the State Auditor contracted for an audit of Bollinger County's financial statements for the 2 years ended December 31, 2024, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

A handwritten signature in black ink that reads "S. Fitzpatrick". The signature is stylized, with the first name "S." and the last name "Fitzpatrick" written in a cursive script.

Scott Fitzpatrick
State Auditor

October 2025
Report No. 2025-063

Recommendations in the contracted audit of Bollinger County

2024-001	The county implement procedures to ensure that supervisor approval is documented on employee timesheets and that current pay rate information is maintained in employee personnel files.
2024-002	The Sheriff's office implement procedures and training at the jail to ensure that receipts are issued to payors in sequential order.
Treasurer Bank Reconciliations	The Treasurer resolve the "Other" outstanding items on the bank reconciliations and investigate the reason for the increasing number of such transactions to prevent them from occurring on future reconciliations.
Public Administrator Ward Expense Documentation	The Public Administrator ensure that proper documentation is maintained in the individual ward files to support all disbursements made on behalf of wards.
Sheriff's Office Bank Reconciliations	The Sheriff's office ensure that bank reconciliations are comparing the bank and book balances as of the same date in order to be properly performed. The Sheriff's office implement procedures to ensure that activity recorded in Turnkey matches the actual bank activity and that the bank balance per the Turnkey reconciliations agrees to the actual bank balance.
Prosecuting Attorney Bank Reconciliations	The Prosecuting Attorney's office implement procedures to perform formal reconciliations of the bank and book balances each month.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Bollinger County, Missouri

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Bollinger County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023 and 2024, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Bollinger County, Missouri, as of December 31, 2023 and 2024, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Bollinger County, Missouri, as of December 31, 2023 and 2024, or the changes in financial position thereof for the years then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Bollinger County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Bollinger County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Bollinger County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the

financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Bollinger County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Bollinger County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated August 27, 2025, on our consideration of Bollinger County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Bollinger County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Bollinger County, Missouri's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of this statement.

BOLLINGER COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2023 and 2024

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Bollinger County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are ten elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff, and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Bollinger County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County’s custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law.
10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds:

	2024	2023
Senior Citizens Service Board	✓	N/A
Senate Bill 40 Board	N/A	✓

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar years 2024 and 2023 for purposes of taxation were:

	2024	2023
Real Estate	\$ 125,996,135	\$ 124,473,200
Personal Property	51,844,540	52,504,156
Railroad and Utilities	8,934,874	8,375,382
Total	<u>\$ 186,775,549</u>	<u>\$ 185,352,738</u>

For calendar years 2024 and 2023, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

	2024	2023
General Revenue	\$ 0.2200	\$ 0.2200
Special Road and Bridge	0.2546	0.2527
Senate Bill 40 Board	0.0966	0.0959

F. Cash Deposits and Cash Equivalents

Deposits and cash equivalents are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest-bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and cash equivalent balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been

eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND CASH EQUIVALENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Cash Equivalents" caption. Cash and cash equivalents include deposits and short-term investments with maturities that are less than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2024, the County had the following cash and cash equivalent balances:

	<u>Carrying Value</u>	<u>Bank Balance</u>	<u>FDIC Coverage</u>
Cash and Cash Equivalents - Governmental Funds	<u>\$ 2,268,479</u>	<u>\$ 2,449,558</u>	<u>\$ 500,000</u>
Cash and Cash Equivalents	\$ 6,562,858	\$ 5,866,644	\$ 788,238
Investments	<u>193,858</u>	<u>193,858</u>	<u>193,858</u>
Total Fiduciary Funds	<u>\$ 6,756,716</u>	<u>\$ 6,060,502</u>	<u>\$ 982,096</u>

At December 31, 2023, the County had the following cash and cash equivalent balances:

	<u>Carrying Value</u>	<u>Bank Balance</u>	<u>FDIC Coverage</u>
Cash and Cash Equivalents - Governmental Funds	<u>\$ 2,318,996</u>	<u>\$ 2,364,305</u>	<u>\$ 500,000</u>
Cash and Cash Equivalents	\$ 5,967,995	\$ 4,890,373	\$ 641,233
Investments	<u>323,715</u>	<u>323,715</u>	<u>323,715</u>
Total Fiduciary Funds	<u>\$ 6,291,710</u>	<u>\$ 5,214,088</u>	<u>\$ 964,948</u>

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2024 and 2023 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name, except for \$13,378 and \$104,227 at December 31, 2024 and 2023, respectively, held by the Public Administrator for one ward in one bank in excess of FDIC coverage.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002. During 2024 and 2023, the County collected and remitted to CERF employee withholdings and fees collected of \$144,240 and \$144,807, respectively for the years then ended.

B. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys

and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$4,114 and \$3,647, respectively, for the years ended December 31, 2024 and 2023.

C. Other Retirement Plans

Bollinger County has voluntary 457(b) and 401(a) plans which are paid by a deduction from employee's salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted to the 457(b) plan by the County for the years ended December 31, 2024 and 2023 were \$52,843 and \$54,150, respectively. Employee contributions collected and remitted to the 401(a) plan by the County for the years ended December 31, 2024 and 2023 were \$14,218 and \$12,246, respectively.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full-time employees with up to 20 days of vacation leave based on number of years of service as follows: after one year of service – 5 days; after two years of service – 10 days; after five years of service – 15 days; after 15 years of service – 20 days. Unused vacation time will be forfeited if not used by the employee's anniversary date. Any employee leaving the service of the County will be compensated for any unused vacation time.

Full-time regular employees accrue sick leave at the date of one-half day per month, up to a maximum of 60 days. Accrued sick leave is not paid out upon termination.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

C. Litigation

The County was involved in pending litigation as of the audit report date. The County's management and legal counsel anticipate that potential claims, if any, against the County resulting from such litigation would not have a material effect on the financial position of the County.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation Trust. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG-TERM DEBT

The County had the following long-term debt outstanding as of December 31, 2024:

- A. In 2018, the County entered into a \$104,762 lease purchase agreement with KS State Bank for the purchase of a 6110M John Deere Tractor with a B-22 Tiger Mower, payable in annual installments of \$17,073 with a final payment due March 27, 2024. The lease agreement carried an interest rate of 4.535%. A final payment was made on February 8, 2023 to pay off the lease.
- B. In 2019, the County entered into a \$235,491 lease purchase agreement with National Cooperative Leasing AOIA for the purchase of two 2021 International Trucks, payable in annual installments of \$52,538 with a final payment due July 12, 2023. The lease agreement carried an interest rate of 5.636%. The final payment was made on May 16, 2023.
- C. In 2022, the County entered into a \$169,900 lease purchase agreement with KS State Bank for the purchase of a Mantis 4142 Tractor, payable in annual installments of \$34,309. The lease agreement carries an interest rate of 5.776%. A payment of \$188,122 was made on July 26, 2023 to pay off the lease.

The following schedule shows changes in long-term debt during the year ended December 31, 2023:

Description	Balance 12/31/2022	Additions	Payments	Balance 12/31/2023	Interest Paid
6110M John Deere Tractor	\$ 49,665	\$ -	\$ (49,665)	\$ -	\$2,872
2021 International Trucks	31,760	-	(31,760)	-	1,714
Mantis 4142 Tractor	169,900	-	(169,900)	-	18,222

8. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2024 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through August 27, 2025, the date the financial statements were available to be issued.

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Bollinger County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Bollinger County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023 and 2024, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements, which collectively comprise Bollinger County, Missouri's basic financial statements and have issued our report thereon dated August 27, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Bollinger County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Bollinger County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Bollinger County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as items 2024-001 and 2024-002 that we consider to be significant deficiencies.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Bollinger County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Bollinger County, Missouri's Responses to Findings

Government Auditing Standards requires the auditor to perform limited procedures on Bollinger County, Missouri's responses to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. Bollinger County, Missouri's responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the County Commission and
Officeholders of Bollinger County, Missouri

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Bollinger County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Bollinger County, Missouri's major federal programs for the years ended December 31, 2023 and 2024. Bollinger County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Bollinger County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2023 and 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Bollinger County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Bollinger County, Missouri's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Bollinger County, Missouri's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Bollinger County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Bollinger County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Bollinger County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Bollinger County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Bollinger County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant

deficiencies over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

BOLLINGER COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEARS ENDED DECEMBER 31, 2023 AND 2024

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of Bollinger County, Missouri for the years ended December 31, 2024 and 2023. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

Auditee Qualified as low-risk: Yes X No

SECTION II – FINANCIAL STATEMENTS FINDINGS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

2024-001: Pay Rate and Timesheet Approval and Documentation

Criteria: A proper system of internal controls dictates that timesheets of hourly employees be reviewed and approved by an immediate supervisor, and that rates of pay, and any changes to the rate of pay, be properly documented and approved by an appropriate official.

Condition: It was noted that all timesheets reviewed during the audit did not have evidence of supervisor review and approval to verify the accuracy of the hours worked reported by the employee on the timesheet. All employees of the County, other than elected officials, are paid on an hourly basis. It was also noted that the County did not always maintain documentation to support the current pay rates of hourly employees. The salaries for elected officials are approved through the annual budget documents. Pay rate changes for hourly employees are to be documented in the employee's personnel file, however, there were several instances where the documentation of the most recent pay rate change was not in the file. In our testing of individual payroll transactions, we could not verify the employee's rate of pay to an approved document for 18 out of 25 transactions.

Cause: The County does not have a process in place to ensure that supervisor reviews of timesheets are documented. The County did not maintain documentation of all employees' approved pay rates in the personnel files.

Effect: The lack of approval of hours reported by employees on timesheets by an immediate supervisor with knowledge of hours worked, and the lack of documentation of approved rates of pay could lead to unauthorized or inaccurate payroll expenses.

Recommendation: We recommend that the County implement procedures to ensure that supervisor approval is documented on employee timesheets and that current pay rate information is maintained in employee personnel files.

County's Response: There will be several steps taken to correct this issue. First, it will be enforcing that all elected officials and/or supervisors start to sign off on all timesheets turned in by employees. Each office will be in charge of signing off and approving their own employees time that is being turned in.

Also, I will and have worked hard on getting all the documentation needed in each employee folder and properly document each raise, what the employee was making, and who approved the raise. I know it became a concern when elected officials were also not tracked well through the documentation within the folder, previous administration did track it through Tyler Technologies. We will begin to document it with the folders as well.

Auditor's Evaluation: The response is appropriate to correct the concern.

2024-002: Sheriff's Office Receipts Controls

Criteria: A proper system of internal controls dictates that receipts should be accounted for in sequential order.

Condition: During the audit, it was noted that jail personnel were not issuing receipts to payors in sequential order. The Sheriff's office maintained two separate carbon copy receipt books, one for receipts at the administration building window and one at the jail. One of the transactions selected for testing during the audit was dated October 23, 2024. When locating the receipt in the jail's carbon copy receipt book, it was noted that the receipts on the previous page in the book were from May 2023, and the receipts on the following page were from October and November 2023.

Cause: Employees receiving money at the jail have not placed an emphasis on ensuring that receipts are accounted for in sequential order.

Effect: Accounting for receipts using sequentially ordered prenumbered receipts is an anti-fraud measure that improves the accountability of funds received and helps to ensure that all money received by the jail is recorded and deposited in the bank.

Recommendation: We recommend that the Sheriff's office implement procedures and training at the jail to ensure that receipts are issued to payors in sequential order.

County's Response: In response to this finding, our office has implemented a new system which will streamline and correct the receipt issuing process. Additional receipt books have been removed to avoid confusion and supplemental training has been implemented stressing the importance of sequential integrity in receipt issuance.

Auditor's Evaluation: The response is appropriate to correct the concern.

ITEMS OF NONCOMPLIANCE

None

BOLLINGER COUNTY, MISSOURI SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

In accordance with the Uniform Guidance, this section reports the follow-up on action taken by Bollinger County, Missouri on the applicable findings in the prior audit report issued for the year ended December 31, 2021.

2021-001: During the audit, it was noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. One fund had actual expenditures that exceeded budgeted expenditures. One fund was budgeted with a deficit ending fund balance.

Status: Considered resolved.

2021-002: During the audit, it was noted that the Schedule of Expenditures of Federal Awards (SEFA) contained errors. The County's internal controls over SEFA reporting are not sufficient enough to ensure correct reporting.

Status: Considered resolved.

2021-003: During the audit, it was noted that the County did not prepare or submit the applicable reporting as required in Part 2 Section B of the *Compliance and Reporting Guidance*.

Status: Resolved.

CERTIFIED PUBLIC ACCOUNTANTS

August 27, 2025

To the County Commission
Bollinger County, Missouri

We have audited the regulatory basis financial statements of Bollinger County, Missouri for the years ended December 31, 2024 and 2023. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated April 17, 2025. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Bollinger County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2023 and 2024. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated August 27, 2025.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2023 and 2024, we considered Bollinger County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated August 27, 2025. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

Treasurer Bank Reconciliations

The Treasurer maintains two main county bank accounts, the General County Funds account which houses the activity of the General Revenue, Special Road and Bridge, and Assessment Funds, and a Treasurer Account which houses the activity of all other county Funds. The bank reconciliations of the General County Funds and Treasurer Account bank accounts included as reconciling items several transactions for transfers between the two accounts which did not appear on the bank statements for either account. These transactions were listed as “Other” outstanding items on the bank reconciliations, and the amounts were offset by an equal and opposite reconciling item on the other account. The majority of the transactions were for CERF transfers from the General to the Treasurer account. The number of these “Other” outstanding items increased throughout the audit period. We recommend that the Treasurer resolve the “Other” outstanding items on the bank reconciliations and investigate the reason for the increasing number of such transactions to prevent them from occurring on future reconciliations.

Public Administrator Ward Expense Documentation

During our audit, we selected a sample of 25 disbursements by the Public Administrator out of the accounts of five different wards. We noted eight instances where an invoice could not be provided to support disbursements for items other than ward personal spending. Most of the disbursements were recurring payments for room and board expenses. The current Public Administrator was not in place during the audit period and had to look through the files of the previous Public Administrator for the requested documentation during the audit. Proper documentation, including invoices, court orders, and/or rental agreements, is necessary to support the validity of disbursements made by the Public Administrator out of ward accounts. We recommend that the Public Administrator ensure that proper documentation is maintained in the individual ward files to support all disbursements made on behalf of wards.

Sheriff's Office Bank Reconciliations

When performing the reconciliations of the Office General Account, the bank balance at month end is compared to the book balance on the date of the reconciliation. The reconciliation of the December 2023 bank statement included three outstanding checks that were written between January 8 and January 11, 2024. The reconciliation of the December 2024 bank statement included as outstanding one check that was written on January 15, 2025. We recommend that the Sheriff's office ensure that bank reconciliations are comparing the bank and book balances as of the same date in order to be properly performed.

The bank reconciliations of the Inmate Commissary account are performed using the Turnkey software. However, the bank balances on the reconciliations performed in Turnkey for December 2022, 2023, and 2024 did not agree to the actual bank balances on the bank statements. The actual bank balances exceeded the bank balances per the Turnkey reconciliations by \$2,952, \$3,664, and \$7,951 for the months of December 2022, 2023, and 2024, respectively. We noted transactions involving interest and deposits in both 2023 and 2024 that occurred per the bank statement but were not recorded in Turnkey or vice versa. We recommend that the Sheriff's office implement procedures to ensure that activity recorded in Turnkey matches the actual bank activity and that the bank balance per the Turnkey reconciliations agrees to the actual bank balance.

Prosecuting Attorney Bank Reconciliations

It was noted during the audit that the Prosecuting Attorney's office does not perform formal bank reconciliations each month. We recommend that the Prosecuting Attorney's office implement procedures to perform formal reconciliations of the bank and book balances each month.

Other Matters

We were engaged to report on the Schedule of Expenditures of Federal Awards, which accompany the financial statements but is not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles prescribed or permitted by Missouri law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of Bollinger County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

(Original Signed by McBride, Lock & Associates, LLC)

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Shelby County, Missouri

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Shelby County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023 and 2024, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Shelby County, Missouri, as of December 31, 2023 and 2024, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Shelby County, Missouri, as of December 31, 2023 and 2024, or the changes in financial position thereof for the years then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Shelby County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Shelby County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Shelby County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the

financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Shelby County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Shelby County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 5, 2025, on our consideration of Shelby County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Shelby County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Shelby County, Missouri's internal control over financial reporting and compliance.

SHELBY COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2023 and 2024

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Shelby County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are ten elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff, and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Shelby County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County’s custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law.
10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds:

	2024	2023
911 Fund	✓	N/A
Prosecuting Attorney Income Tax Fund	N/A	✓
Opioid Fund	✓	N/A
Chemical Emergency Preparedness Fund	✓	N/A
Safe Return Fund	✓	N/A

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property included within the County's boundaries for the calendar years 2024 and 2023 for purposes of taxation were:

	2024	2023
Real Estate	\$ 66,507,985	\$ 65,526,883
Personal Property	41,614,673	42,811,013
Railroad and Utilities	46,687,997	43,155,203
Total	<u>\$ 154,810,655</u>	<u>\$ 151,493,099</u>

For calendar years 2024 and 2023, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

	2024	2023
General Revenue	\$ 0.4100	\$ 0.4100
Special Road & Bridge	0.3440	0.3440

F. Cash Deposits and Cash Equivalents

Deposits and cash equivalents are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest-bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and cash equivalent balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND CASH EQUIVALENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Cash Equivalents" caption. Cash and cash equivalents include deposits and short-term investments with maturities that are less than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2024, the County had the following cash and cash equivalent balances:

	<u>Carrying Value</u>	<u>Bank Balance</u>	<u>FDIC Coverage</u>
Cash and Cash Equivalents			
- Governmental Funds	\$ 3,446,805	\$ 3,486,211	\$ 250,000
Cash and Cash Equivalents	\$ 8,730,932	\$ 6,238,259	\$ 463,960
Investments	<u>975,266</u>	<u>975,266</u>	<u>-</u>
Total Fiduciary Funds	<u>\$ 9,706,198</u>	<u>\$ 7,213,525</u>	<u>\$ 463,960</u>

At December 31, 2023, the County had the following cash and cash equivalent balances:

	<u>Carrying Value</u>	<u>Bank Balance</u>	<u>FDIC Coverage</u>
Cash and Cash Equivalents			
- Governmental Funds	\$ 2,761,422	\$ 2,838,351	\$ 250,000
Cash and Cash Equivalents	\$ 8,443,477	\$ 3,253,711	\$ 474,285
Investments	<u>891,051</u>	<u>891,051</u>	<u>-</u>
Total Fiduciary Funds	<u>\$ 9,334,528</u>	<u>\$ 4,144,762</u>	<u>\$ 474,285</u>

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2024 and 2023 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name, except for \$975,266 and \$891,051 as of December 31, 2024 and 2023, respectively. The Public Administrator held the balances in non-FDIC eligible investment accounts on behalf of individual wards.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002. During 2024 and 2023, the County collected and remitted to CERF employee withholdings of \$87,459 and \$76,642, respectively for the years then ended.

B. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$4,488 and \$3,366, respectively, for the years ended December 31, 2024 and 2023.

C. Other Retirement Plan

Shelby County has a voluntary 457(b) plan which is paid by a deduction from employee's salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the years ended December 31, 2024 and 2023 were \$35,788 and \$35,963, respectively.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full-time employees with seven or eight hours of sick leave per month depending on their normal day. The County allows employees to carry forward sick leave from one year to the next, but sick leave may not be accrued beyond sixty days in total. Upon termination, employees will not be compensated for any unused sick leave. Paid vacation is accrued for every employee, and accrues at the rate of five days per year up to twenty-two days per year depending on the length of employment. However, employees may not carry over unused vacation from one year to the next. Employees are not compensated for forfeited vacation. Upon termination, employees are compensated for unused vacation.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation Trust. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG-TERM DEBT

The County had the following long-term debt outstanding as of December 31, 2024:

- A. In July 2022, the County entered into a \$333,270 lease purchase agreement with John Deere Financial for a 2022 772G Motor Grade. The agreement calls for seven annual payments of \$52,368 ending in 2028.

Fiscal Year Ending December 31,	Principal	Interest	Total
2025	\$ 45,993	\$ 6,375	\$ 52,368
2026	47,510	4,858	52,368
2027	49,077	3,291	52,368
2028	50,696	1,672	52,368
Totals	<u>\$ 193,276</u>	<u>\$ 16,196</u>	<u>\$ 209,472</u>

- B. In July 2024, the County entered into a \$97,434 lease purchase agreement with John Deere Financial for a 2014 444K 4WD Loader. The agreement calls for 5 annual payments of \$21,743 ending in 2028. The County made an additional payment in December 2024, equal to the 2025 and 2026 annual payments combined.

Fiscal Year Ending December 31,	Principal	Interest	Total
2025	\$ -	\$ -	\$ -
2026	-	-	-
2027	19,425	2,318	21,743
2028	20,552	1,191	21,743
Totals	<u>\$ 39,977</u>	<u>\$ 3,509</u>	<u>\$ 43,486</u>

The following schedule shows changes in long-term debt during the year ended December 31, 2024:

Description	Balance 12/31/2023	Additions	Payments	Balance 12/31/2024	Interest Paid
2022 John Deere Motor Grader	\$ 237,800	\$ -	\$ (44,524)	\$ 193,276	\$7,844
2014 John Deere 444K Loader	-	97,434	(57,457)	39,977	7,772

The following schedule shows changes in long-term debt during the year ended December 31, 2023:

Description	Balance 12/31/2022	Additions	Payments	Balance 12/31/2023	Interest Paid
2022 John Deere Motor Grader	\$ 280,902	\$ -	\$ (43,102)	\$ 237,800	\$ 9,266

8. OPERATING LEASES

At December 31, 2024, the County Clerk's office has one non-cancellable 60-month lease for a postage machine through February 23, 2027 with monthly payments of \$136.

Fiscal Year Ending December 31,	Amount
2025	\$ 1,636
2026	1,636
2027	136

9. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2024 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through September 5, 2025, the date the financial statements were available to be issued.

In May 2025, the County entered into a \$7,500,000, 19-year Capital Lease Certificates of Participation to build a jail. The lease includes semi-annual interest payments on October 1 and April 1, and annual principal payments due October 1 beginning in 2026. The interest rate varies from 4.00% to 5.00%, with variable payments through the final maturity date of October 1, 2043.

COMPLIANCE SECTION

McBRIDE, LOCK & ASSOCIATES, LLC

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Shelby County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Shelby County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023 and 2024, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements, which collectively comprise Shelby County, Missouri's basic financial statements and have issued our report thereon dated September 5, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Shelby County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Shelby County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Shelby County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses, or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Shelby County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the County Commission and
Officeholders of Shelby County, Missouri

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Shelby County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Shelby County, Missouri's major federal programs for the years ended December 31, 2023 and 2024. Shelby County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Shelby County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2023 and 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Shelby County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Shelby County, Missouri's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Shelby County, Missouri's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Shelby County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Shelby County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Shelby County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Shelby County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Shelby County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant

deficiencies over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

SHELBY COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEARS ENDED DECEMBER 31, 2023 AND 2024

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of Shelby County, Missouri for the years ended December 31, 2024 and 2023. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE C – SUBRECIPIENTS

The County did not pass any federal awards through to subrecipients during the years ended December 31, 2024 and 2023.

CERTIFIED PUBLIC ACCOUNTANTS

September 5, 2025

To the County Commission
Shelby County, Missouri

We have audited the regulatory basis financial statements of Shelby County, Missouri for the years ended December 31, 2023 and 2024. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 14, 2025. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Shelby County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2023 and 2024. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no misstatements detected during the audit.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated September 5, 2025.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We were engaged to report on the Schedule of Expenditures of Federal Awards, which accompanies the financial statements but is not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles prescribed or permitted by Missouri law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of Shelby County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

(Original Signed by McBride, Lock & Associates, LLC)

McBride, Lock & Associates, LLC

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

To the County Commission
and
Officeholders of Pike County, Missouri

The Office of the State Auditor contracted for an audit of Pike County's financial statements for the year ended December 31, 2024, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

A handwritten signature in black ink that reads "S. Fitzpatrick". The signature is stylized, with the first letters of the first and last names being capitalized and prominent.

Scott Fitzpatrick
State Auditor

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Pike County, Missouri

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Pike County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2024, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Pike County, Missouri, as of December 31, 2024, and their respective cash receipts and disbursements, and budgetary results for the year then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Pike County, Missouri, as of December 31, 2024, or the changes in financial position thereof for the year then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Pike County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Pike County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Pike County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the

financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Pike County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Pike County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 29, 2025, on our consideration of Pike County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Pike County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Pike County, Missouri's internal control over financial reporting and compliance.

PIKE COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2024

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Pike County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are eleven elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff, Surveyor, and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Pike County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control. The Senate Bill 40 Board is separately audited by an independent certified public accountant and is therefore not included in this report in accordance with the regulatory basis of accounting.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County’s custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law. However, the County did not adopt a formal budget for the Prosecuting Attorney Bad Check, ARPA, Sheriff Revolving, Inmate Security, Civil Fees, DARE, LATCF, Opioid, or Tax Maintenance Funds in 2024.
10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the Law Enforcement, Special Election, and

Domestic Violence Funds. Also, the expenditures of the Prosecuting Attorney Bad Check, ARPA, Sheriff Revolving, Inmate Security, Civil Fees, DARE, and Tax Maintenance Funds exceeded budgeted to the extent that formal budgets were not adopted.

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property included within the County's boundaries for the calendar year 2024 for purposes of taxation were:

Real Estate	\$ 202,675,991
Personal Property	84,320,561
Railroad and Utilities	79,736,039
Total	<u>\$ 366,732,591</u>

For calendar year 2024, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

General Revenue	\$ 0.3024
Special Road and Bridge	0.3249

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2024, the County had the following cash and investment balances:

	<u>Carrying Value</u>	<u>Bank Balance</u>	<u>FDIC Coverage</u>
Cash and Cash Equivalents	\$ 5,869,156	\$ 5,916,446	\$ 250,000
Investments	<u>3,001,142</u>	<u>3,001,142</u>	<u>-</u>
Total Governmental Funds	<u>\$ 8,870,298</u>	<u>\$ 8,917,588</u>	<u>\$ 250,000</u>
Cash and Cash Equivalents			
- Fiduciary Funds	<u>\$ 18,145,040</u>	<u>\$ 12,449,555</u>	<u>\$ 460,392</u>

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2024 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. Missouri Local Government Employees Retirement System (LAGERS)

1) Plan Description

Pike County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, Section 70.600-70.755, RSMo. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri 65102 or by calling 1-800-447-4334, or by the following website, www.molagers.org.

2) Pension Benefits

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police), and early retirement is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and amount of credited service time.

3) Funding Policy

Full-time employees of Pike County do not contribute to the pension plan. The January 1st statutorily required contribution rates were 8.5% (General), and 1.8% (Police) of annual covered payroll for 2024. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the year ended December 31, 2024, the County contributed \$218,541 to LAGERS.

B. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with

less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, all participants hired on or after February 24, 2002 are required to contribute an additional 4% of their gross compensation to CERF, starting January 1, 2003. An active LAGERS participant who was employed with the County prior to February 24, 2002, is not required to make contributions. During 2024, the County contributed to CERF \$76,208 for the year then ended.

C. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$15,504 for the year ended December 31, 2024.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

Full-time regular employees of the County accrue between 3 to 7 hours of vacation leave per pay period based on the number of years of services. The maximum number of hours of vacation leave an employee may carry or accrue at any time shall be 200 hours. Upon termination from county employment, an employee shall be compensated for unused vacation if they have completed their 60-day introductory period. Full-time regular employees accrue 4 hours of sick leave per pay period up to a maximum of 960 hours of sick leave. Employees may use up to 24 hours of sick leave each year as personal leave. Upon termination from county employment, the employee shall not be compensated for unused sick leave.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management

believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

C. Litigation

The County was involved in pending litigation as of the audit report date. The County's management and legal counsel anticipate that potential claims, if any, against the County resulting from such litigation would not have a material effect on the financial position of the County.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. CHANGE IN REPORTING ENTITY

The County has changed the definition of the reporting entity at January 1, 2024 to include the DARE, LATCF, Opioid, and Tax Maintenance Funds. This change had the effect of increasing the County's cash balances at January 1, 2024 by \$165,208.

8. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2024 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through August 29, 2025, the date the financial statements were available to be issued.

COMPLIANCE SECTION

McBRIDE, LOCK & ASSOCIATES, LLC

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Pike County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Pike County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2024, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements, which collectively comprise Pike County, Missouri's basic financial statements and have issued our report thereon dated August 29, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Pike County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Pike County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Pike County, Missouri's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses, or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Pike County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and questioned costs as item 2024-001.

Pike County, Missouri's Response to Finding

Government Auditing Standards requires the auditor to perform limited procedures on Pike County, Missouri's responses to the finding identified in our audit and described in the accompanying schedule of findings and questioned costs. Pike County, Missouri's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the County Commission and
Officeholders of Pike County, Missouri

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Pike County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Pike County, Missouri's major federal programs for the year ended December 31, 2024. Pike County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Pike County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Pike County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Pike County, Missouri's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Pike County, Missouri's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Pike County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Pike County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Pike County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Pike County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Pike County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant

deficiencies over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

PIKE COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEAR ENDED DECEMBER 31, 2024

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of Pike County, Missouri for the year ended December 31, 2024. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE C – SUBRECIPIENTS

The County did not pass any federal awards through to subrecipients during the year ended December 31, 2024.

SECTION II – FINANCIAL STATEMENTS FINDINGS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

None reported

ITEMS OF NONCOMPLIANCE

2024-001: Budgetary Compliance

Criteria: State statutes prohibit expenditures in excess of approved budgets and require the preparation of a formal budget for all County funds.

Condition: The County did not prepare formal budgets for the Prosecuting Attorney Bad Check, ARPA, Sheriff Revolving, Inmate Security, Civil Fees, DARE, LATCF, Opioid, and Tax Maintenance Funds. Actual expenditures exceeded budgeted expenditures for the Law Enforcement, Special Election, and Domestic Violence funds in 2024.

Cause: The County did not prepare formal budgets for all County funds and did not adequately review and amend budgeted expenditures of each fund to ensure actual expenditures did not exceed the budget amounts.

Effect: Budgetary controls are significant to the proper management and custodianship of county funds. Compliance with statutory requirements related to budgets will improve controls over county funds and help maintain the integrity of the budget process.

Recommendation: We recommend the County adhere to the authorized spending limits as documented in the adopted County budget or follow the appropriate procedures to amend the budget. We recommend that the County ensure compliance with state statutes by adopting a budget for each County fund.

County's Response: The County will adhere to the authorized spending limits as documented in the adopted County budget or amend the budget to reflect the updated financial requirements and the operational priorities. All revisions will be made in accordance with established policies and procedures, with appropriate approvals obtained. The amendments ensure resources are aligned with organizational objectives while maintaining fiscal accountability.

Auditor's Evaluation: The County should also ensure that budgets are adopted for all County funds.

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

None

MANAGEMENT'S RESPONSE TO AUDITOR'S FINDINGS:

CERTIFIED PUBLIC ACCOUNTANTS

August 29, 2025

To the County Commission
Pike County, Missouri

We have audited the regulatory basis financial statements of Pike County, Missouri for the year ended December 31, 2024. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated July 7, 2025. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Pike County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2024. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated August 29, 2025.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the year ended December 31, 2024, we considered Pike County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated August 29, 2025. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

Absence of Investment Policy

The County has not adopted an investment policy as required by state statute. Section 30.950, RSMo, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. The County was unaware of the requirement to adopt a written investment policy. Adoption of a written investment policy commits a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. We recommend that the County adopt an investment policy and review compliance with this policy at least annually as required by state statute.

Other Matters

We were engaged to report on the Schedule of Expenditures of Federal Awards, which accompanies the financial statements but is not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles prescribed or permitted by Missouri law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of Pike County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

(Original Signed by McBride, Lock & Associates, LLC)

*Includes selected findings

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Holland, Missouri

We have conducted follow-up work on certain audit report findings contained in Report No. 2023-026, *City of Holland*, (rated as Poor), issued in June 2023. The objectives of the follow-up were to:

1. Identify audit report findings for which follow up is considered necessary, and inform the city about the follow-up review on those findings.
2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:
 - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
 - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
 - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
 - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

As part of the work conducted, we reviewed documentation provided by the City Clerk and held discussions with the City Clerk, Mayor, and former Mayor, and obtained documentation through the Missouri Courts system, to verify the status of implementation for the recommendations. Documentation provided by the city included timesheets, tax documents, bank records, invoices, utility records, and other pertinent documents. This report is a summary of the results of this follow-up work, which was substantially completed during July and August 2025.

Scott Fitzpatrick
State Auditor

City of Holland

Follow-Up Report on Audit Findings

Status of Findings

1. Missing Money, Misappropriated Money and Services, and Nepotism	From January 1, 2018, through April 19, 2021, at least \$69,029 of money and utility services was not deposited and/or was misappropriated from the city. In addition, the former Acting Mayor Jessica Roach ¹ hired and paid her daughter to serve as the City Clerk, in violation of the Missouri Constitution.
1.1 Missing and misappropriated money and utility services	Between January 1, 2018, and April 19, 2021, the Acting Mayor did not deposit \$14,344 of recorded utility receipts into the city's bank account, and did not deposit an estimated additional \$48,749 of utility receipts from February 2018 through April 2021. The Acting Mayor did not deposit \$528 of recorded property tax payments for the 2020 property tax year, and did not deposit an estimated additional \$2,859 in property tax receipts for tax years 2018 and 2019. The Acting Mayor also did not pay for her utility services totaling \$808 from January 1, 2020, to April 30, 2021, and did not pay an estimated additional \$1,228 for her utility services from January 1, 2018, to December 31, 2019. Additionally, she did not pay her city property taxes totaling \$213 for the 2020, 2019, and 2018 tax years, and in March 2021, she made an improper payment of \$300 to herself.
Recommendation	The Board of Aldermen work with law enforcement officials regarding criminal prosecution of the undeposited receipts, utility services and property taxes not paid, and the improper payment; and take the necessary actions to obtain restitution.
Status	In Progress The Board is working with law enforcement officials and the Prosecuting Attorney regarding the criminal prosecution and attempting to obtain restitution. In October 2023, the Acting Mayor was charged with 8 counts of a class D felony of stealing \$750 or more. The Acting Mayor's case is currently set for trial in November 2025.
1.2 Nepotism	The Acting Mayor hired and paid her daughter \$800 to serve as the City Clerk from February 2021 through April 2021 in violation of the Missouri Constitution. Additionally, the former Mayor, who replaced the Acting Mayor, hired his sister on July 22, 2021, to be the City Clerk after the former City Clerk resigned.

¹ Former Acting Mayor Jessica Roach is referred to as the Acting Mayor throughout this report.

City of Holland
Follow-up Report on Audit Findings
Status of Findings

Recommendation	The Board of Aldermen ensure compliance with the Missouri Constitution related to the hiring or appointment of relatives and approve and document hiring decisions.
Status	Implemented The former Mayor and his sister no longer work for the city as of our review in July 2025. Also, no current city employees are related to any city officials.
2. Oversight, Annual Audits, Bonding, and City Ordinances	A Board of Aldermen was not established to provide oversight; annual audits of the city's utility system were not obtained as required by state law; city officials with access to city money were not bonded; and city codes and ordinances were incomplete, not indexed, not enforced as written, and not up to date.
2.1 Oversight and segregation of duties	From January 1, 2018, to April 19, 2021, the city did not have a Board of Aldermen to govern the city. A Board was subsequently established, but did not provide sufficient oversight because it did not review bank statements and continued to allow related parties to work at the city without proper controls.
Recommendation	The Board of Aldermen segregate accounting duties to the extent possible and implement appropriate reviews and monitoring procedures.
Status	Implemented The city has segregated accounting duties to the extent possible and implemented review and monitoring procedures. The City Clerk prepares a deposit report daily. The Mayor reviews a copy of the report along with the bank deposit receipt slip and compares the amounts receipted to the amounts deposited. The Mayor also reviews and approves all expenditures prior to disbursement. Employees complete time sheets and the Mayor notes the period ending date and the check date on the related timesheet to document his review in addition to signing off on the weekly payroll reconciliation report. The Mayor indicated the Board reviews and approves all city financial decisions and we noted instances of the Board approving such decisions when reviewing meeting minutes.
2.2 Annual audits	The city did not obtain an annual audit of its utility system for at least the years ended December 31, 2022, 2021, 2020, 2019, and 2018, as required by state law.
Recommendation	The Board of Aldermen obtain annual audits of the utility system as required by state law.
Status	Not Implemented

City of Holland
Follow-up Report on Audit Findings
Status of Findings

The city did not obtain annual audits of the utility system for the years ended December 31, 2024 or 2023, as required by state law.

2.3 Bonding

The Acting Mayor, who signed checks and had access to money held in bank accounts, was not covered by a bond.

Recommendation

The Board of Aldermen obtain and maintain bond coverage for all city personnel with access to city money and other assets.

Status

Not Implemented

The former Mayor indicated the city obtained bond coverage for the City Clerk at one point. However, it was not maintained and, as of July 31, 2025, the city does not have bond coverage for any city personnel who have access to city money and other assets.

2.4 City codes and ordinances

City codes and ordinances were not complete and had not been updated. The city does not have ordinances establishing the compensation of city officials and employees as required by Section 21.150 of city code. Additionally, city codes were poorly maintained and the index of city codes and ordinances was not maintained. Many city codes and ordinances were out of date. City codes and ordinances authorizing utility rates charged to customers, the amount of utility deposits required for service, and connection and reconnection fees have not been updated and do not reflect the current amounts charged for utility services.

Recommendation

The Board of Aldermen establish the compensation of all city officials and employees by ordinance, ensure city codes and ordinances are maintained in a complete and well-organized manner, establish an index of all city codes and ordinances passed and rescinded, and update city codes and ordinances for amounts charged related to utility services.

Status

Not Implemented

The Board has not established the compensation of city officials and employees by ordinance, nor have they ensured city codes and ordinances are maintained in a complete and well-organized manner. Additionally, the Board has not established an up-to-date index and has not updated the city codes and ordinances for amounts charged related to utility services.

3. Accounting Controls and Procedures

Accounting controls and procedures needed improvement.

3.1 Receipting, recording, transmitting, and depositing

City procedures for receipting, recording, transmitting, and depositing money needed improvement. City personnel did not issue official prenumbered receipt slips for all money received, or retain all statements for paid utility

City of Holland
Follow-up Report on Audit Findings
Status of Findings

and property taxes. Additionally, city personnel did not record the method of payment consistently and correctly. The Acting Mayor did not reconcile the composition of receipts to the composition of deposits, and did not always deposit receipts intact and timely. In addition, the Acting Mayor sometimes used cash receipts to pay city invoices, and did not maintain the change fund at a constant amount.

Recommendation

The Board of Aldermen ensure prenumbered receipt slips are issued for all payments received; the method of payment is indicated on all receipt slips; the transmittal of receipts is documented and reviewed; the composition of receipts is reconciled to the composition of deposits; all payments received are deposited intact and timely; and the change fund is maintained at a constant amount. The Board should also discontinue paying city expenses from city cash receipts.

Status

Implemented

We reviewed documentation provided by the city and noted the city issues prenumbered receipt slips in numerical order. City personnel indicate the method of payment on the receipt slips as well as enter the method of payment in the utility system. Receipts are no longer transmitted. Instead, the City Clerk prepares the deposit and deposits the money and the Mayor compares a system-generated deposit report to the deposit documentation. The City Clerk agrees the composition of receipts to the composition of the deposits, which we noted when we compared the receipt slips to the composition of the deposit. In addition, when we compared the daily deposit report to the bank deposit and bank statement, we noted that payments received are deposited intact and timely. Additionally, the city currently only pays bills by check, e-check, or ACH and does not maintain a change fund.

3.2 Bank reconciliations and accounting records

The Acting Mayor and former City Clerks did not prepare bank reconciliations for any of the city's 8 bank accounts, maintain checkbook registers or book balances, account for all checks and issue checks in numerical order, or monitor the city's cash balances.

Recommendation

The Board of Aldermen ensure monthly bank reconciliations are prepared for all bank accounts; checkbook registers, book balances, and lists of disbursements are maintained; and checks are issued in numerical sequence with the sequence properly accounted for.

Status

Partially Implemented

City personnel could not provide records showing they prepared bank reconciliations or maintained checkbook registers and book balances. Additionally, checks were not issued in numerical order. We reviewed documentation provided by the city, and noted checks 1161-1180 were

City of Holland
Follow-up Report on Audit Findings
Status of Findings

	written in late May and June 2025, and checks 1181-1200 were written in April and early May 2025. We reviewed two months of bank statements for the general and water accounts, and did not note any overdraft charges indicating city personnel monitor the account.
3.3 Supporting documentation and record retention	The city did not retain or could not locate numerous financial records, including manual receipt slips, utility and property tax statements, and supporting documentation for disbursements. City officials could not provide supporting documentation for over \$150,000 in disbursements, including payments for utilities, insurance, and postage.
Recommendation	The Board of Aldermen ensure adequate supporting documentation is maintained for all disbursements, and all records are retained in accordance with state law.
Status	Implemented We requested and reviewed supporting documentation from the city, and noted all documents requested were retained by the city, which included receipt slips and invoices to support disbursements.
4. Utility System Controls and Procedures	Utility system controls and procedures needed improvement.
4.1 Adjustments	The Acting Mayor and former City Clerks made adjustments to customer utility statements, including writing off charges caused by water leaks or incorrect meter readings, without obtaining independent approval or maintaining adequate documentation to support the reasons for the adjustments. In addition, a list of adjustments was not prepared and approved, so no comparison of adjustments to actual changes could be conducted.
Recommendation	The Board of Aldermen prepare a list of adjustments and ensure all adjustments to utility accounts are properly approved and compared to actual changes, and documentation of all adjustments is retained.
Status	Partially Implemented We reviewed all adjustments made between January 1, 2025, through July 1, 2025, and noted there was only 1 adjustment during that time, due to a meter being hit, causing a leak. City personnel retained documentation of the adjustment and noted the reason for the adjustment in the utility system. However, city personnel could not provide documentation showing the Board approved the adjustment.
4.2 Utility reconciliations	City personnel did not prepare reconciliations related to utility services, including monthly reconciliations of amounts billed, payments received, and amounts unpaid for utility services. Additionally, city personnel did not

City of Holland
Follow-up Report on Audit Findings
Status of Findings

perform monthly reconciliations of total gallons of water billed to gallons of water pumped.

Recommendation

The Board of Aldermen ensure monthly reconciliations are performed of amounts billed to amounts collected and delinquent accounts, and of gallons of water billed to gallons pumped, and investigate significant differences.

Status

Not Implemented

City personnel do not reconcile amounts billed to payments received and amounts unpaid, nor do they reconcile total gallons of water billed to gallons of water pumped, and investigate significant differences.

4.3 Customer utility
deposits

City personnel did not prepare a list of customer utility deposits to periodically reconcile to balances in the city's meter bank account, where utility deposits were typically deposited and disbursed (refunded and applied).

Recommendation

The Board of Aldermen periodically reconcile a list of customer utility deposits to the meter bank account balance, and promptly investigate any differences.

Status

Not Implemented

City personnel provided a report listing the utility deposit customer names and amounts; however, they do not reconcile the balances on this report to the meter bank account or any other account. As a result, they are unable to ensure there is enough money to satisfy the liability. The prior administration closed all the bank accounts and opened new bank accounts. No separate meter bank account was opened to deposit the restricted funds into. The city is currently comingling the utility deposit money with the General Fund money, making it hard to identify which money is restricted. Additionally, city personnel do not reconcile the restricted funds to the utility deposit report amounts owed.

4.4 Sales taxes

The city did not file or remit sales taxes collected related to the utility services for the periods January to March 2018, July to September 2019, and July 2020 to June 2021, and still owed \$16 for the period of April 2020 to June 2020, as of April 2023.

Recommendation

The Board of Aldermen ensure sales taxes collected are reported and remitted.

Status

Not Implemented

The city is not filing or remitting sales taxes collected related to the utility services billed.

City of Holland
Follow-up Report on Audit Findings
Status of Findings

5.1 Contracted Workers -
Employment
classifications

The city classified former city clerks, maintenance workers, and the water/sewer operator as independent contractors rather than employees of the city. The Acting Mayor did not document the basis for this classification, and these employees were misclassified as independent contractors.

Recommendation

The Board of Aldermen determine the proper classification for the City Clerk, maintenance workers, and water/sewer operator to ensure compliance with state and federal laws and regulations.

Status

Implemented

The Board members voted on August 12, 2025, to change the city clerk, maintenance worker, and water/sewer operator positions from the classification of independent contractor to city employee.

5.2 Contracted Workers -
Timesheets

Former City Clerks did not prepare timesheets, and text messages documenting hours worked by a former City Clerk were not retained. In addition, the former maintenance workers and water/sewer operator did not prepare timesheets or other documentation of work performed to support payments made.

Recommendation

The Board of Aldermen ensure timesheets or other records of work performed are prepared, retained, signed, and approved.

Status

Implemented

We reviewed timesheets provided by the city, and noted the timesheets were prepared, retained, and signed by the city employees. While none of the timesheets had the Mayor's signature, the Mayor and the City Clerk sign the weekly payroll reconciliation report, which shows all the payroll information, to indicate their review and approval.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

To the County Commission
and
Officeholders of Gentry County, Missouri

The Office of the State Auditor contracted for an audit of Gentry County's financial statements for the 2 years ended December 31, 2024, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

A handwritten signature in black ink that reads "S. Fitzpatrick". The signature is stylized, with the first name "S." and the last name "Fitzpatrick" written in a cursive script.

Scott Fitzpatrick
State Auditor

October 2025
Report No. 2025-059

Scott Fitzpatrick
Missouri State Auditor

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Gentry County

2024-001	The county implement internal controls to ensure that the Schedule of Expenditures of Federal Awards (SEFA) completely and accurately states the expenditures of federal awards of the county each year.
Budgetary Compliance	The County Commission adopt a formal budget for all county funds each year. Further, we recommend that the county refrain from approving expenditures in excess of budgeted amounts. In the event that the originally adopted budget is inadequate to fund the current year unforeseen expenditures, budgetary amendments should be discussed in a public meeting and formally adopted by the County Commission.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Gentry County, Missouri

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Gentry County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023 and 2024, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Gentry County, Missouri, as of December 31, 2023 and 2024, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Gentry County, Missouri, as of December 31, 2023 and 2024, or the changes in financial position thereof for the years then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Gentry County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Gentry County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Gentry County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Gentry County, Missouri’s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Gentry County, Missouri’s basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 28, 2025, on our consideration of Gentry County, Missouri’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Gentry County, Missouri’s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Gentry County, Missouri’s internal control over financial reporting and compliance.

GENTRY COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2023 and 2024

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Gentry County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are eight elected Constitutional Officers: Assessor, Circuit Clerk/Recorder of Deeds, Collector/Treasurer, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, and Sheriff.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Gentry County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County’s custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law. However, the County did not adopt a budget for the LATF Fund in 2023.
10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds:

	2024	2023
Special Road & Bridge	✓	N/A
Levee Restoration	N/A	✓
Community Development Block Grant	N/A	✓
CARES/ARPA	✓	N/A

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property included within the County's boundaries for the calendar years 2024 and 2023 for purposes of taxation were:

	2024	2023
Real Estate	\$ 80,482,810	\$ 77,091,100
Personal Property	35,484,993	36,338,371
Railroad and Utilities	6,954,241	6,522,120
Total	<u>\$ 122,922,044</u>	<u>\$ 119,951,591</u>

For calendar years 2024 and 2023, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

	2024	2023
General Revenue	0.5552	0.5552
Senior Citizens Services	0.0500	0.0500

Additionally, the Special Road & Bridge Fund receives a portion of property tax amounts collected on behalf of township road districts within the County

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest-bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2024, the County had the following cash and investment balances:

	<u>Carrying Value</u>	<u>Bank Balance</u>	<u>FDIC Coverage</u>
Cash and Cash Equivalents	\$ 4,646,846	\$ 4,771,960	\$ 328,079
Investments	713,513	713,513	703,854
Total Governmental Funds	<u>\$ 5,360,359</u>	<u>\$ 5,485,473</u>	<u>\$ 1,031,933</u>
Cash and Cash Equivalents	\$ 7,473,376	\$ 4,695,842	\$ 703,367
Investments	1,661	1,661	1,661
Total Fiduciary Funds	<u>\$ 7,475,037</u>	<u>\$ 4,697,503</u>	<u>\$ 705,028</u>

At December 31, 2023, the County had the following cash and investment balances:

	<u>Carrying Value</u>	<u>Bank Balance</u>	<u>FDIC Coverage</u>
Cash and Cash Equivalents	\$ 4,704,654	\$ 4,889,170	\$ 331,369
Investments	496,929	496,929	496,929
Total Governmental Funds	<u>\$ 5,201,583</u>	<u>\$ 5,386,099</u>	<u>\$ 828,298</u>
Cash and Cash Equivalents	\$ 6,861,805	\$ 4,952,934	\$ 702,810
Investments	1,638	1,638	1,638
Total Fiduciary Funds	<u>\$ 6,863,443</u>	<u>\$ 4,954,572</u>	<u>\$ 704,448</u>

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2024 and 2023 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping

bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a

contribution of 6% of annual salary is required of employees hired after February 2002. During 2024 and 2023, the County collected and remitted to CERF employee withholdings and fees collected of \$131,869 and \$125,539, respectively, for the years then ended

B. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$4,488 and \$3,459, respectively, for the years ended December 31, 2024 and 2023.

C. Other Retirement Plan

Gentry County has a voluntary 457(b) plan which is paid by a deduction from employee's salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the years ended December 31, 2024 and 2023 were \$20,775 and \$20,182, respectively.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full-time employees with one and one-half days of sick leave for each completed calendar month of employment, up to a maximum of 90 days. Upon termination, employees will not be compensated for any unused sick time.

Full-time employees shall earn and accrue paid vacation time at the rate of two weeks per year. After an employee has been employed for 10 years, they will receive an additional day each year up to a maximum of five days. Vacation time should be used within one year of accrual or it will be lost. Upon termination of employment, no more than two weeks of unused vacation shall be paid to an employee.

Overtime is hours worked in excess of an employee's budgeted work hours, which consists of 40 hours per week or 171 hours or more during any one 28 day pay period for law enforcement personnel. Compensatory time is overtime that is accrued and may be taken off at a later date in lieu of monetary payment. Employees should take compensatory time off during the same month in which the overtime hours occurred or no later than two pay periods after the overtime was earned. The maximum balance of compensatory time allowed to accrue is 240 hours or 480 hours for law enforcement personnel. Compensatory time is not paid out upon termination.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation Trust. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LEASES

On January 17, 2023, the County signed a three-year contract, expiring on February 28, 2026, with an individual to lease 83.7 acres of tillable agricultural land receivable in annual payments of \$17,200. The schedule of future minimum payments to be received under this contract is listed below:

Fiscal Year Ending	Amount
December 31,	
2025	\$ 17,200

8. OPERATING LEASES

At December 31, 2024, the County has one non-cancellable 60-month lease for a copier located in the Sheriff's office. The lease requires monthly payments of \$175 through February 28, 2025.

<u>Fiscal Year Ending December 31,</u>	<u>Amount</u>
2025	\$ 350

9. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2024 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through August 28, 2025, the date the financial statements were available to be issued.

COMPLIANCE SECTION

McBRIDE, LOCK & ASSOCIATES, LLC

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Gentry County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Gentry County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023 and 2024, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements, which collectively comprise Gentry County, Missouri's basic financial statements and have issued our report thereon dated August 28, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Gentry County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Gentry County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Gentry County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses, or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Gentry County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the County Commission and
Officeholders of Gentry County, Missouri

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Gentry County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Gentry County, Missouri's major federal programs for the years ended December 31, 2023 and 2024. Gentry County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Gentry County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2023 and 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Gentry County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Gentry County, Missouri's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Gentry County, Missouri's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Gentry County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Gentry County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Gentry County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Gentry County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Gentry County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

Our consideration of internal control over compliance was for the limited purposes described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, as discussed below, we did identify a certain deficiency in internal control over compliance that we consider to be a significant deficiency.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance

requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2024-001 to be a significant deficiency.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on Gentry County, Missouri's response to the internal control over compliance finding identified in our compliance audit described in the accompanying schedule of findings and questioned costs. Gentry County, Missouri's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

See accompanying Notes to the Schedule of Expenditures of Federal Awards

GENTRY COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEARS ENDED DECEMBER 31, 2023 AND 2024

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of Gentry County, Missouri for the years ended December 31, 2024 and 2023. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE C – SUBRECIPIENTS

The County did not pass any federal awards through to subrecipients during the years ended December 31, 2024 and 2023.

GENTRY COUNTY, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2023 AND 2024

SECTION I – SUMMARY OF AUDITOR’S RESULTS

Financial Statements:

Type of auditor’s report issued on whether the financial statements audited were prepared in accordance with GAAP: Adverse

Type of auditor’s report issued on whether the financial statements were prepared in accordance with the regulatory basis: Unmodified

The special purpose framework used as a basis of accounting was not required by state law.

Internal Control Over Financial Reporting:

- Material weakness(es) identified? Yes X No
- Significant deficiencies identified that are not considered to be material weaknesses? Yes X None Reported
- Noncompliance material to financial statements noted? Yes X No

Federal Awards:

Internal Control Over Major Programs:

- Material weakness(es) identified? Yes X No
- Significant deficiencies identified that are not considered to be material weaknesses? X Yes None Reported

Type of Auditor’s Report Issued on Compliance For Major Programs: Unmodified

Any audit findings disclosed that are required to be reported in accordance with Uniform Guidance section 200.516? X Yes No

Identification of Major Programs:

<u>Assistance Listing Number(s)</u>	<u>Name of Federal Program or Cluster</u>
20.205	Highway, Planning, and Construction
21.027	Coronavirus State and Local Fiscal Recovery Funds

Dollar Threshold Used to Distinguish Between Type A and Type B Programs: \$750,000

Auditee Qualified as low-risk: Yes X No

SECTION II – FINANCIAL STATEMENTS FINDINGS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

None reported

ITEMS OF NONCOMPLIANCE

None

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2024-001: Internal Control Over Schedule of Expenditures of Federal Awards

Federal Grantor: U.S. Department of the Treasury

Federal Assistance Listing Number: 21.027

Program Title: Coronavirus State and Local Fiscal Recovery Funds

Pass-through Entity Identifying Number: N/A

Award Year: 2024

Questioned Costs: None

Criteria: 2 CFR 200.510(b) requires auditees to prepare a schedule of expenditures of federal awards (SEFA) which must report total federal awards expended during the audit period. At a minimum, the schedule must include: expenditures by individual federal program, name of the pass-through entity and identifying number for awards not received directly from the federal government, and the total amount provided to subrecipients from each federal program. The County has not implemented proper internal controls to ensure the completeness and accuracy of the SEFA.

Condition: The 2024 SEFA reported by the County in the 2025 annual budget document did not report expenditures of \$840,028 for the Coronavirus State and Local Fiscal Recovery Funds program.

Cause: The County has not implemented a proper system of internal control over SEFA preparation, such as a reconciliation to underlying accounting records or having a separate individual review of the SEFA for clerical accuracy after it has been prepared. The discrepancy occurred due to management's oversight.

Effect: The SEFA presented for audit did not accurately reflect the County's actual expenditures of federal awards for the year ended December 31, 2024.

Recommendation: We recommend that the County implement internal controls to ensure that the SEFA completely and accurately states the expenditures of federal awards of the County each year.

County's Response: Mrs. Clark (the County Clerk) didn't realize she hadn't included the number of monies in the SEFA report from ARPA monies. The correction was made when auditors were here.

Auditor's Evaluation: The County should implement procedures to ensure future SEFAs are complete and accurate.

MANAGEMENT'S RESPONSE TO AUDITOR'S FINDINGS:

GENTRY COUNTY, MISSOURI SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

In accordance with the Uniform Guidance, this section reports the follow-up on action taken by Gentry County, Missouri on the applicable findings in the prior audit report issued for the two years ended December 31, 2022 and 2021.

2022-001: It was noted that two of the tested payroll periods contained a total of four timesheets that were not appropriately approved by a supervisor or superior. Additionally, the March 2021 payroll register did not contain documented approval from the Commissioners, although the payroll checks were properly approved by the required personnel. Also, one of the employees' files did not contain proper documentation to indicate their approved pay rate.

Status: Resolved.

CERTIFIED PUBLIC ACCOUNTANTS

August 28, 2025

To the County Commission
Gentry County, Missouri

We have audited the regulatory basis financial statements of Gentry County, Missouri for the years ended December 31, 2024 and 2023. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated June 16, 2025. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Gentry County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2023 and 2024. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. The following material misstatements detected as a result of our audit were corrected by management:

- Disbursements of the General Revenue and Emergency Funds were reduced by \$100,000 each in 2024 for amounts moved out of the Treasurer's main account into new certificates of deposit which were recorded as expenses.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated August 28, 2025.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2023 and 2024, we considered Gentry County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated August 28, 2025. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

Budgetary Compliance

The County did not adopt a formal budget for the LATF Fund. Additionally, the County's actual expenditures exceeded budgeted amounts for the Levee Restoration and Community Development Block Grant Funds in 2023 and the Special Road & Bridge and CARES/ARPA Funds in 2024. State statutes prohibit expenditures in excess of approved budgets and require the preparation of a formal budget for all County funds. We recommend that the County Commission adopt a formal budget for all County funds each year. Further, we recommend that the County refrain from approving expenditures in excess of budgeted amounts. In the event that the originally adopted budget is inadequate to fund the current year unforeseen expenditures, budgetary amendments should be discussed in a public meeting and formally adopted by the County Commission.

Other Matters

We were engaged to report on the Schedule of Expenditures of Federal Awards, which accompany the financial statements but is not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles prescribed or permitted by Missouri law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of Gentry County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

(Original Signed by McBride, Lock & Associates, LLC)

Report No. 2025-058

October 2025

auditor.mo.gov

Scott Fitzpatrick
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of City of Joplin

Emergency Ordinances	The City Council limited opportunities for public comment and reduced transparency by presenting 80% of ordinances as emergency ordinances. The city Home Rule Charter over legislative proceedings allows almost any ordinance to be an emergency ordinance. During the fiscal year ended October 31, 2023, 130 of the 162 ordinances discussed in City Council meetings were emergency ordinances. When an ordinance is classified as an emergency, the amount of time it takes to pass the bill is reduced and the Home Rule Charter does not require allowance for public comment, limiting the transparency of the action.
Finance Department Controls and Procedures	User activity for users with complete access to the financial and budgeting accounting system is not adequately reviewed. Finance Department personnel do not account for all receipt slip numbers issued by the accounting system or reconcile the credit card payments received in person or online to the deposits on the bank statement. Finance Department personnel do not have adequate procedures to collect outstanding accounts receivable balances. As of October 31, 2023, there were 1,485 customers with outstanding balances due totaling approximately \$2.7 million, of which 710 accounts, totaling \$745,628, were over a year old. Finance Department personnel do not reconcile utility records monthly, including total billings, payments received, and amounts remaining unpaid for utility services.
Budgeting Procedures	The City Council did not include the amount of encumbrances not yet paid at the end of the prior year in the adopted city budget for the fiscal year ended October 31, 2023. In total, approximately \$12,769,000 in planned expenditures from encumbrances were not included in the approved fiscal year 2023 budget and only added in late November 2022. The City Council did not disclose the additional expenditures to the public. The Finance Director did not timely prepare, and the City Council did not timely approve, the final budget amendments for the fiscal year.
Payroll and Allowance Procedures	The city does not have a process to ensure the leave balances of department directors and employees appointed by the City Council are accurate. As exempt employees, they are only required to track leave taken, and not all time worked. The city has no documentation supporting vehicle allowance amounts are reasonable or necessary. The city pays vehicle allowances ranging from \$1,800 to \$6,000 annually to 17 employees for using their personal vehicles to conduct city business. In total, the city paid approximately \$74,000 in vehicle allowances for the fiscal year ended October 31, 2023. Using the federal reimbursement rate of \$0.655 per mile, the employees would have to travel approximately 379 to 826 miles per month or 12 to 27 miles per day to equal the allowance.
Building Department Procedures	Building Department personnel do not report all dangerous buildings to the Building Board of Appeals as required by city code, which could prevent the impartial handling of some building cases and limits the effectiveness of city code intended to ensure the safety of city buildings.

Internal Audit Function	The city lacks an internal audit function. Such a function could have helped identify and/or resolve many of the accounting and procedural control weaknesses, and policy and compliance issues addressed in this report.
Joplin Sports Authority Oversight	The City Council does not perform adequate oversight of the Joplin Sports Authority (JSA). During fiscal year 2023, the city paid the JSA \$443,000, or 30% of the actual receipts from the 4% lodging tax, for the purpose of sports marketing for the city. One City Council member and two city staff are on the JSA board. JSA personnel provide the JSA Board and Finance Department monthly financial reports and receive an annual audit; however, neither the City Council, JSA Board, nor Finance Department personnel review any supporting documentation.
City Council Closed Meetings	The City Council does not review and approve closed meeting minutes. Meeting minutes, including closed meeting minutes, signed by the preparer and subsequently approved by the Council are necessary to provide an independent attestation that the minutes are a correct record of matters discussed and actions taken during meetings.
Convention and Visitors Bureau Bidding Procedures	The Convention and Visitors Bureau (CVB) did not bid some purchases as required. There were 56 disbursements from the CVB Fund during the fiscal year ended October 31, 2023. During our review of 8 haphazardly selected test items, we noted 3 for which CVB personnel did not follow city bidding policies. CVB personnel should have obtained informal written quotations from at least 3 vendors for 2 disbursements for \$3,748 and \$4,569. In addition, personnel should have obtained informal telephone quotations from at least 3 vendors for 1 disbursement for \$2,400.
Electronic Communication Policy	The city has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.

In the areas audited, the overall performance of this entity was **Fair**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

SCOTT FITZPATRICK MISSOURI STATE AUDITOR

To the Honorable Mayor
and
Members of the City Council
City of Joplin, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the City of Joplin. We have audited certain operations of the city in fulfillment of our duties. The city engaged Allen, Gibbs, & Houlik, L.C., Certified Public Accountants (CPAs), to audit the city's financial statements for the year ended October 31, 2023. To minimize duplication of effort, we reviewed the CPA firm's audit report. The scope of our audit included, but was not necessarily limited to, the year ended October 31, 2023. The objectives of our audit were to:

1. Evaluate the city's internal controls over significant management and financial functions.
2. Evaluate the city's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We also obtained an understanding of city operations as they relate to citizen concerns significant to our objectives including open records (Sunshine) law compliance, budgets and financial statements, payroll, receipts, expenditures, and oversight of boards and commissions. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Joplin.

Scott Fitzpatrick
State Auditor

City of Joplin

Management Advisory Report

State Auditor's Findings

1. Emergency Ordinances

The City Council limited opportunities for public comment and reduced transparency by presenting 80% of ordinances as emergency ordinances. The city Home Rule Charter over legislative proceedings allows almost any ordinance to be an emergency ordinance. During the fiscal year ended October 31, 2023, 130 of the 162 ordinances discussed in City Council meetings were emergency ordinances.

According to the Home Rule Charter, Section 2.12, the city may classify an ordinance as an emergency for the following 6 reasons:

- For the immediate preservation of the public peace.
- For an election or to submit a proposal to the citizens.
- To make an appropriation for the payment of public debt, current expenses, or payment of damage claims.
- To make a general appropriation.
- To change a tax rate or assessment.
- To make any public improvement.

When an ordinance is classified as an emergency, the amount of time it takes to pass the bill is reduced and the Home Rule Charter does not require allowance for public comment, limiting the transparency of the action. The Home Rule Charter provides "... all bills must be read 3 times before final passage, not more than 2 of which readings shall be in the same legislative session; and at least 1 week shall elapse between the introduction and final passage of the bill ..." with the exception of emergency measures which do not require 1 week to elapse and may be voted on at the same meeting where they are heard. In addition, the Home Rule Charter requires "... prior to the final passage of any bill, other than an emergency bill, all persons interested therein may be heard before the council..."

The City Manager and City Attorney indicated that items are often classified as an "Emergency" when the issue must be expedited for one reason or another. They also stated the Home Rule Charter allows them to pass issues as "Emergencies" as currently defined. While this may be true, not all of the ordinances appeared to require emergency status. For example, on September 18, 2023, the City Council was presented a bill for an emergency ordinance to renew the annual agreement for the Women, Infant, and Children (WIC) program. Since this is an annual agreement, it does not appear to need to be handled as an emergency.

According to the Government Finance Officers Association, "The underlying reason for transparency is to help create trust among citizens, government

City of Joplin
Management Advisory Report - State Auditor's Findings

administrators, and elected officials¹" and when "... citizens believe that decisions are fact based and take all concerns into consideration, they are more likely to support those decisions."² Passing ordinances in the regular process with all required public input would help ensure citizens the City Council is taking their concerns into consideration, provide additional assurance the City Council is fulfilling its fiduciary responsibilities, and could increase public support for Council decisions.

Recommendation

The City Council should refrain from using emergency ordinances unless necessary.

Auditee's Response

Emergency, or expedited ordinances, which may be a better description of what they are, are authorized by the Joplin City Charter, Section 2.12. The city Home Rule Charter is voted on and approved by the citizens of Joplin, and as such, is the law for the city. The State Auditor's Office has determined in their review of 162 ordinances that the city has fully complied with its charter in passing all of these ordinances. There were no violations of the City Charter or any other ordinance or state statute identified.

The State Auditor's Office has incorrectly concluded that the city does not allow public comment on emergency ordinances, and because of this the city lacks transparency. The fact is, the city has always allowed public comment on all agenda items at its council meetings. This includes public hearings, emergency ordinances, consent agenda items and first, second, and third reading ordinances. Complete transparency is given to the citizens on all ordinances the council considers. Agendas are posted on Thursday prior to the Monday night meeting along with all of the ordinances and supporting documentation, which gives the public ample time to review all agenda items. The public can sign up until the start of the council meeting to speak on any agenda item, including emergency ordinances.

The policy and reasoning behind the use of emergency/expedited ordinances is well established. Many cities across the State of Missouri use emergency ordinances and the State Legislature also has an emergency/expedited process for legislation. Across Missouri, emergency ordinances are used for general purchases, approving contracts and

¹ Government Finance Officers Association, *Transparency: A Means to Improving Citizen Trust in Government*, January 2018, <<https://www.gfoa.org/materials/transparency-a-means-to-improving-citizen-trust>>, accessed April 28, 2025.

² Government Finance Officers Association, *Code of Ethics*, <<https://www.gfoa.org/code-of-ethics>>, accessed April 28, 2025.

City of Joplin
Management Advisory Report - State Auditor's Findings

abating dangerous conditions. The city uses expedited ordinances in such cases as:

- (a) approving contracts with demolition contractors to tear down dangerous buildings in the city that are a danger to the health, safety and welfare of citizens.*
- (b) passing construction contracts on projects that are budgeted, discussed at budget work sessions and public meetings, publicly bid, that have undergone a bid review and scoring process, and then the contracts are taken to council for approval. Many of these contracts have time sensitive bid pricing items and also need to be completed during the prime construction season.*
- (c) Federal Government and State of Missouri grant and funding agreements with specific deadlines where the city is an award recipient.*
- (d) General purchase orders and other appropriations that are budgeted.*

With this said, the city strives for transparency and following the election in April of 2024, the City Council asked city staff to limit the use of emergency/expedited ordinances and since then, the city has substantially reduced the number of emergency/expedited ordinances. As noted during the 2023 audit review period, approximately 80% of ordinances were passed on an expedited basis. Since April of 2024, emergency ordinances have decreased to 40%. Since the city allows citizens to review and address any agenda item, along with the noted reduction in emergency ordinances during 2024 and 2025, the city believes we have implemented the recommendation of the auditor.

Auditor's Comment

The city's response states the report "... concluded that the city does not allow public comment on emergency ordinances...." However, the report only notes that the Home Rule Charter does not require public comment when passing emergency ordinances, not that the city restricts comment. Without the requirement, there is increased opportunity for ordinances to be passed without public input and in a less transparent manner. Additionally, while the city's response identifies some examples of reasonable uses of the emergency ordinance process, the report does not state the use of the process was inappropriate in every instance reviewed, and the examples provided do not justify all 130 instances of its use during the audit period.

2. Finance Department Controls and Procedures

Accounting controls and procedures need improvement. During the fiscal year ended October 31, 2023, the city had annual revenues and expenditures of approximately \$92 million and \$85 million, respectively.

2.1 User access

User activity for users with complete access to the financial and budgeting accounting system is not adequately reviewed. The Finance Director and Assistant Finance Director are system administrators and have complete access to the system. This includes the ability to record receipts and change receipt records in the system; update or close accounts receivable records; create and print checks; and update budgets. The Finance Director indicated the department had adequate controls in place to mitigate risk, such as department head review of department expenditures, Finance Department personnel preparation of monthly bank reconciliations and check processing, and other financial reviews. However, these reviews do not include reviewing voided transactions, so errors or fraudulent activity could still go unnoticed. Not adequately reviewing all activities of employees with full access to the system increases the risks of misappropriation and undetected errors.

The risk of erroneous changes or improper activity within the financial and budgeting systems increases with the excessive user access rights. Correcting financial and budgeting data is necessary to ensure accuracy of the city's financial data. However, review and approval of all changes is necessary to ensure reliability of the data. Additionally, without limiting user access, the city cannot ensure proper segregation of duties is in place over the functions of handling and recording receipts from the duties of accounts receivable, depositing, and disbursing money. Good internal controls require that users be allocated the minimum access rights necessary to perform their assigned job functions, and that access to security functions be explicitly assigned.

2.2 Receipting

Finance Department personnel do not account for all receipt slip numbers issued by the accounting system or reconcile the credit card payments received in person or online to the deposits on the bank statement.

- The city's accounting system uses one numerical receipt slip sequence for multiple cash collection locations. Therefore, receipt slips at each cash collection point are not issued in numerical sequence. Finance Department personnel, who have access to receipt reports for all locations, do not access the reports to account for the numerical sequence of receipt slips and ensure all receipts are properly deposited. Finance Department personnel review batch reports that could identify a missing batch; however this would not identify individual missing receipts.

City of Joplin Management Advisory Report - State Auditor's Findings

- Parks and Recreation Department personnel do not have a method to ensure all receipts are posted and deposited. Department personnel record receipts in a different accounting system than is used by the other city cash collection locations. This accounting system is web-based, with 1 set of receipt slip numbers shared by all other municipalities using the same system. Therefore, personnel cannot use the sequential order of receipt numbers to ensure all receipts are included in the deposit. Parks and Recreation Department personnel compare total collected by composition on the accounting report to the money collected. However, they do not perform any other review of the receipt slips to account for any missing receipts. As a result there is no assurance all money receipted is accounted for and properly deposited.
- Finance Department personnel do not reconcile credit card and online payments receipted in the accounting system to the deposits on the bank statement. The Finance Department Director stated due to timing it is nearly impossible to reconcile the credit card transactions to the bank deposits. However, after we requested the reconciliation the Assistant Finance Director was able to obtain deposit reports from the credit card company and online payment company so we could reconcile the payments in the system to the deposits on the bank statement.

Failure to implement adequate receipting and reconciling procedures increases the risk that errors, loss, theft, or misuse of money will occur and go undetected.

2.3 Accounts receivable

Finance Department personnel do not have adequate procedures to collect outstanding accounts receivable balances. The city bills and collects fees such as building permits, code enforcement, security system false alarm calls, and cemetery fees. Finance Department personnel enter amounts due into the accounting system and mail out monthly billings; however, there are no procedures to resolve outstanding bills. As of October 31, 2023, there were 1,485 customers with outstanding balances due totaling approximately \$2.7 million, of which 710 accounts, totaling \$745,628, were over a year old. The Finance Director indicated department personnel were not following up on outstanding account balances due to understaffing.

Good business practices require adequate billing and collection procedures to ensure accounts are collected timely and bad debts are kept to a minimum.

2.4 Utility reconciliations

Finance Department personnel do not reconcile utility records monthly, including total billings, payments received, and amounts remaining unpaid for utility services. The Finance Director indicated she was unaware of a specific report in the system designed to perform this reconciliation; however, after we requested the reconciliation she worked with the system provider to create one.

City of Joplin Management Advisory Report - State Auditor's Findings

Monthly reconciliations are necessary to ensure that all accounting records balance, transactions have been properly recorded, and any errors or discrepancies are detected timely.

Recommendations

The City Council:

- 2.1 Restrict user access within the financial and budgeting system and ensure adequate segregation of receipt recording duties from accounts receivable and disbursement duties, or ensure documented supervisory reviews of system entries and changes that lack proper segregation of duties.
- 2.2 Ensure Finance Department personnel account for the numerical sequence of receipt slip numbers for all money received. In addition, ensure credit card and online payments are reconciled to the credit card and online transaction records and deposits.
- 2.3 Ensure adequate procedures to monitor and collect accounts receivable balances timely.
- 2.4 Ensure monthly reconciliations are performed of utility amounts billed to amounts collected and delinquent accounts, and investigate significant differences.

Auditee's Response

- 2.1 *The city has three administrators of the financial system, the Information Technology Director, the Finance Director and the Assistant Finance Director. The organization is required to have system administrators with access to the system in order for the system to work. The auditor found no erroneous changes or improper activity within the financial system. The city has restricted access to the system to the extent possible while still ensuring the ability to use and maintain the system.*

The city also has the proper segregation of duties, oversight approval and internal controls in place. Furthermore, nothing in the financial system can be deleted. A record is created for all system transactions. The Finance Department segregates the following duties as set forth in the best practices of the Government Finance Officers Association:

- *Accounts receivable (billing) function from cash collection function.*
- *Vendor maintenance function from accounts payable function.*
- *Accounts payable function from purchasing function.*
- *Check printing and distribution function from accounts payable function.*
- *Daily deposit function from cash collection function.*

City of Joplin Management Advisory Report - State Auditor's Findings

- *Payroll processing function from employee payroll maintenance function.*
- *Bank reconciliation function from transactional duties, cash collection duties and wire payment functions.*

In addition to the proper segregation of duties, there are multiple layers of oversight and approval for all transactions and processes. All transactions, including any made by any of the system administrators, are reviewed at multiple steps by multiple positions. Bank reconciliations are reviewed and approved by a separate person than the person reconciling the bank statements. All entries in the system that are modified in any manner, such as voids, adjustments or write-offs, are approved by a separate person other than the person making the change. However, with this said, the Finance Department understands the need for independent oversight of any modified system transactions. As such, the Finance Department has assigned a staff person who does not perform any of these transactional functions to review all modified system transactions on a monthly basis. This best practice has been implemented and is ongoing.

- 2.2 *The city's financial system automatically numbers cash receipts. The city uses nationally recognized government accounting software, Central Square, which is programmed so that no cash receipt numbers can be deleted or altered as if they never existed. They can only be voided, which creates a record. Therefore, if a cash receipt is entered into the system, there is a record of that receipt, even if it is voided. Furthermore, if a cash receipt is entered into the financial system, it must be entered into a batch. The city's central cashier accounts for all cash receipt batches, which means all cash receipts are accounted for and monitored. Prior to computerized cash receipts, organizations used manual receipts. With manual receipts, it was imperative that all receipt numbers be accounted for separately from the cash collection function, because a receipt could be written that could then be altered in some manner without creating a record. However, using computerized cash receipt systems such as Central Square, the focus is on ensuring that all batches are accounted for and that voided cash receipts are reviewed. As a best practice, in addition to the current oversight in place, the city has now assigned an independent review of voided cash receipts and cash receipt batch monitoring to the Financial Analyst, which has been implemented and is ongoing.*

The Parks Department accepts online payments through their registration software, CivicRec, as well as in-person payments at various parks locations across the city. All locations create batches

City of Joplin Management Advisory Report - State Auditor's Findings

in their software, accept payments and issue receipts. A separate parks employee runs the daily batch summary report and balances the cash, checks and credit cards to this summary report. This employee then prepares the daily deposit for the bank. A separate parks employee verifies the CivicRec batch reconciles to the daily deposit. Like Central Square, CivicRec automatically numbers cash receipts. These cash receipt numbers cannot be deleted nor can these be altered without creating a record. They can only be voided or credited as a refund back to the original customer. Therefore, if a cash receipt is entered into the system, there is a record of that receipt, even if it is voided or credited. In addition to this oversight and segregation of duties, the city has now assigned an independent review of voided and refunded CivicRec cash receipts. Furthermore, the Parks Department is currently reviewing new registration software systems with the financial capability being one important evaluation factor.

The city receives 10,000 to 15,000 online credit card payments per month. Reconciling online credit card payments is a challenge, mainly due to the timing of when payments are posted versus when the cash receipt batch is closed. Online payments can be made 24 hours a day. If the cutoff for payments doesn't occur at the same time as the batch closing, it creates timing issues which are difficult to truly reconcile when dealing with this volume of payments. The Assistant Finance Director was able to reconcile the credit card payments requested by the auditor; however, it took an extended amount of time due to these timing issues. The city is currently working to resolve these timing issues, so that online credit card payments can be properly reconciled. The city will implement the improvements needed to reconcile the payments to the deposits to the extent possible.

- 2.3 *It should be noted that accounts receivable is separate from the utility billing function. The city currently has one staff member dedicated to both the accounts receivable function and the finance purchasing function. The types of receivables for the city are difficult to collect, because in most cases there are little means to enforce the collection side outside of sending monthly invoices and statements, which has been the city's process.*

However, since the audit period, much improvement has been made in the accounts receivable function. In 2024, the Legal Department began a focused enforcement process for some of the largest accounts in the special tax bill area. Additionally, the city has implemented new processes to ensure any outstanding balances are collected prior to issuing business licenses or building permits, as an example. Also,

City of Joplin Management Advisory Report - State Auditor's Findings

with the implementation of online building permits in 2025, some building permit related accounts receivable will end. A separate finance staff person has been assigned to review outstanding accounts receivable accounts and work with the various departments on the collections of those balances on an ongoing basis. Finally, the city will also be receiving additional accounts receivable training during the upcoming months to help address this recommendation.

2.4 *The city was already reconciling utility billing on a monthly basis. However, our reconciliation process previously required multiple steps and reports rather than one step in a single, simplified report, as recommended by the auditor. During the audit, the city obtained the requested simplified report from Central Square which allows for the reconciliation to occur as one step in a single report. It should be noted that the new, simplified utility billing report did reconcile to the penny. During the audit in 2024, the city added this new, simplified report to our monthly balancing process that was being performed already, and continues to use this report for the monthly reconciliation of utility billing.*

Auditor's Comment

- 2.2 The city's response indicates personnel account for all cash receipt batches; however, as noted in the finding, this review of batch reports could identify a missing batch, but would not identify individual missing receipts.
- 2.4 While the city's response indicates personnel previously reconciled utility billings, the city did not provide documentation to demonstrate personnel fully reconciled the utility billings to ensure all transactions were properly recorded.

3. Budgeting Procedures

3.1 Budgets

The City Council did not prepare complete budgets as required by state law or properly amend the budget prior to fiscal year end.

The City Council did not include the amount of encumbrances³ not yet paid at the end of the prior year in the adopted city budget for the fiscal year ended October 31, 2023. On October 17, 2022, the City Council approved the fiscal year ended October 31, 2023, budget without including estimated encumbrances. Instead, the ordinance approving the budget only included a statement authorizing the Finance Director to increase the budget by the amount of outstanding and valid encumbrances without specifying the

³ In budget management, an encumbrance is a reservation of funds for a future expenditure. It essentially acts as a placeholder in the budget, indicating that a portion of the available funds has been committed to a specific purpose but not yet spent.

City of Joplin Management Advisory Report - State Auditor's Findings

amount. For example, the approved 2023 published budgeted expenditures for the Public Safety Sales Tax Fund were \$9,173,229. However, this did not include \$4,604,498 in planned expenditures from prior year encumbrances. In total, approximately \$12,769,000 in planned expenditures from encumbrances were not included in the approved fiscal year 2023 budget and only added in late November 2022. The City Council did not disclose the additional expenditures to the public.

The Finance Director stated the encumbrance amounts are not included in the initial budget since the actual amounts are not known until late November. However, without the encumbrances included in the budget, the public is not aware of the city's complete financial condition.

Section 67.010, RSMo, requires the budget present a complete financial plan for the ensuing budget year and sets specific guidelines for the information to be included. Adopting an initial budget without estimated encumbrances is misleading and prevents an accurate estimate of the city's financial condition. A complete, timely, and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific financial expectations for each area of city operations. It also assists in informing the public about city operations and current finances. Realistic projections of the city's revenues and expenditures are essential for the efficient management of finances and for communicating accurate financial data to city residents.

3.2 Budget amendments

The Finance Director did not timely prepare, and the City Council did not timely approve, the final budget amendments for the fiscal year. The Finance Director prepared an amended budget for the year ended October 31, 2023, that was approved by the City Council on February 5, 2024, and prepared an amended budget for the year ended October 31, 2022, that was approved by the City Council on February 6, 2023. The Finance Director indicated budget amendments are typically done after the city's fiscal year end to adjust budgeted amounts to agree to actual disbursements after year end entries. However, we noted most of the February amendments were for depreciation and transfers. The following table includes the February 2024, amendments.

Fund	Department	Budget Amendment
		February 5, 2024
General	Transfers	\$ 185,100
Public Safety Sales Tax	Fire	445,000
	Transfers	83,000
Solid Waste Management	Special Programs	17,000
	Trash Services	171,000
Parks/Stormwater Sales Tax	Transfers	45,000
Transportation Tax	Transfers	60,000

City of Joplin
Management Advisory Report - State Auditor's Findings

Capital Improvement	Transfers	50,000
Sales Tax		
Airport	Regional Airport	405,000
Golf Course	Grounds Maintenance	17,000
Sanitary Sewer	Sewer Treatment	145,000
	Sewer Maintenance	240,000
Grand Total		\$ 1,863,100

The city's Home Rule Charter Sections 4.14 and 4.17, require the city keep disbursements within amounts budgeted by department within each fund. In addition, Section 67.040, RSMo, requires political subdivisions keep disbursements within amounts budgeted and allows for budget increases, after the governing body officially adopts a resolution setting forth the facts and reasons. Proper monitoring and amending prior to disbursing funds is necessary for the budget to be an effective management tool and to comply with state law.

Recommendations

The City Council:

- 3.1 Timely adopt complete budgets that reflect realistic estimates for the ensuing year's activities.
- 3.2 Prepare necessary budget amendments timely to ensure actual expenditures do not exceed budgeted amounts.

Auditee's Response

- 3.1 *At the end of each fiscal year, the city has outstanding obligations through the issuance of valid encumbrances, also known as purchase orders. The city has many large projects underway at any given time that are not completed until the following fiscal year as well as equipment on order. As an example, the current average build time for a new fire truck is 3 years. Under the Home Rule Charter, the city is allowed to roll these obligations to the next fiscal year through the ordinance adopting the next year's budget. When an obligation is carried to the next year, the budget is increased by this amount while a simultaneous obligation is recorded, which results in the same original total budget impact. As an example:*

*Original Police Department Budget \$1,000,000
Budget increase for carry forward purchase order \$1,000
Encumbrance obligation (\$1,000)
Total Budget Impact \$1,000,000*

Outstanding encumbrances are also recorded in the city's annual comprehensive financial report, as required by generally accepted accounting principles. At issue is that as set forth in the Home Rule Charter, the budget for the next fiscal year must be adopted the last

City of Joplin Management Advisory Report - State Auditor's Findings

Monday preceding the first month of the new fiscal year. Final, valid outstanding encumbrances are unknown while the current fiscal year is still underway. Therefore, the ordinance allowing the budget to be increased and the encumbrance obligation to be recorded doesn't include the amount or details of those encumbrances. In order to address this recommendation, an ordinance including the amounts and details of the encumbrances will be presented to City Council when they are finalized.

- 3.2 *Staff present the City Council with a mid-year and year-end budget amendment prior to the fiscal year end, in addition to budget amendments throughout the year. The city takes seriously and strives to ensure actual expenditures do not exceed budgeted amounts throughout the year. However, due to the timing of some revenue and invoices received following the fiscal year-end, certain accrual entries are required to be made several months after year-end under generally accepted accounting principles. By law, the city is not allowed to have an expenditure budget violation. Therefore, in order to be in compliance, sometimes a budget amendment after the fiscal year has ended is required. As noted by the auditor, typically these amendments are for depreciation expense and some transfers. Depreciation expense and transfers are not a disbursement of funds for ongoing expenditures.*

The city agrees that proper monitoring and amending budgets prior to disbursing funds is necessary for the budget to be an effective management tool. The city also recognizes that amending the budget at year-end by large amounts to avoid an amendment after year-end is not an effective management tool either. The city will continue to present budget amendments throughout the year, at mid-year and at year-end, if required, and try to avoid amendments after year-end, while continuing to prioritize the avoidance of any budget violations.

4. Payroll and Allowance Procedures

4.1 Leave balances

Payroll and allowance procedures need improvement. The City's payroll expenditures totaled approximately \$40 million for the fiscal year ended October 31, 2023.

The City does not have a process to ensure the leave balances of department directors and employees appointed by the City Council are accurate. As exempt employees, they are only required to track leave taken, and not all time worked.

Department directors request leave through the City Manager who records this on his calendar but does not otherwise track the leave. Department directors also record leave taken on their timesheets. However, there is no reconciliation or review by the City Manager to ensure the leave requested

City of Joplin Management Advisory Report - State Auditor's Findings

and approved, actually taken, and recorded on employee timesheets agrees. City Council employees do not have supervisory oversight of any leave used. The City Manager also stated City Council employees are only required to notify the City Council when they will be on leave and there is no verification of leave taken and approved when preparing payroll.

Without adequate records of leave taken, the city cannot ensure hours worked and leave earned and taken by employees are properly documented. The Fair Labor Standards Act (FLSA) under 29 CFR Section 516.2(a) requires employers to maintain accurate records of actual time worked by employees.

4.2 Vehicle allowances

The city has no documentation supporting vehicle allowance amounts are reasonable or necessary. The city pays vehicle allowances ranging from \$1,800 to \$6,000 annually to 17 employees for using their personal vehicles to conduct city business. In total, the city paid approximately \$74,000 in vehicle allowances for the fiscal year ended October 31, 2023. The City Manager stated he wanted all department heads to receive the same amount, so he increased all department heads' vehicle allowances to the highest amount. Using the federal reimbursement rate of \$0.655 per mile, the employees would have to travel approximately 379 to 826 miles per month or 12 to 27 miles per day to equal the allowance.

A review of vehicle allowances paid to actual expenses incurred by the employees would help the city ensure the amount paid is necessary and reasonable.

A similar condition was noted in our prior audit report.

Recommendations

The City Council:

- 4.1 Ensure controls are in place to maintain accurate leave records and balances.
- 4.2 Review the necessity of vehicle allowances and set the allowances to reasonably reflect the actual expenses incurred by the applicable employees.

Auditee's Response

- 4.1 *Department Directors request their leave time through the City Manager, while council employees notify the City Council of their leave requests. All employees, including Department Directors and City Council employees, maintain a record of their actual time worked through a signed timesheet, which is how all employees are paid and is properly retained. Thus, the city does maintain accurate records of time worked for all city employees. However, the recommendation is to reconcile the leave requests reported for Department Directors and City Council employees to the timesheet.*

City of Joplin Management Advisory Report - State Auditor's Findings

The city is currently implementing an electronic time and attendance system, which automatically uploads into the electronic payroll system. With the implementation of this new system, all city employees, including Department Directors and council employees, submit their leave requests electronically. All leave requests require approval by a designated supervisor or representative. The city currently has transitioned approximately half of the employees to the new system, with the remaining employees onboarding in the near future. With the upgrade to this system, this recommendation is currently being implemented.

- 4.2 *In November of 2020, the city revised which positions receive a vehicle allowance to only Department Directors and certain council employees, resulting in a reduction in the number of auto allowances granted across the city. At the same time, the city equalized the annual amount of the auto allowance across all Department Directors to ensure all directors are being treated equitably and fairly. The equalization process for Department Directors did not result in an overall compensation increase for those employees, but rather was a re-distribution between base pay and auto allowance.*

The city believes the allowance amount for Department Directors is representative of the average number of miles traveled annually by these employees. Directors make frequent trips in town, as well as traveling out-of-town to conferences, classes and required meetings. Auto allowance save city staff time and additional costs of tracking, calculating and paying actual mileage monthly to these employees. Many cities across Missouri provide auto allowance to upper management to compensate for their travel, instead of tracking, calculating and paying actual mileage.

However, in an effort to address this recommendation, the city will perform an annual evaluation of the average mileage traveled by Department Directors to ensure the auto allowance amount is a reasonable amount reflective of the actual expenses incurred.

5. Building Department Procedures

Building Department personnel do not report all dangerous buildings to the Building Board of Appeals as required. The Building Department Chief Building Official stated it is not the intent of the city code to report all dangerous buildings, but to report dangerous buildings to the Board when citizens are not working with the department. However, this could prevent the impartial handling of some building cases and limits the effectiveness of city code intended to ensure the safety of city buildings.

City Code Section 26-615 (2) states, the building inspector should "...report to the building board all buildings, structures or portions thereof deemed to

City of Joplin
Management Advisory Report - State Auditor's Findings

be an emergency...." and 26-615 (3) states, the building inspector should "Except in emergency cases, report buildings to the building board and notify in writing all parties of any building or structure which, in the opinion of the inspector, is considered to be a dangerous building..." City Code Section 26-616 establishes the duties of the Building Board to ensure dangerous buildings are handled within specific timeframes. Reporting all dangerous buildings to the Building Board, regardless of citizen cooperation, ensures equitable treatment of citizens.

Recommendation

The City Council ensure Building Department personnel report dangerous buildings to the Building Board of Appeals as required by City Code.

Auditee's Response

The Building Department posts all dangerous buildings and notifies all interested parties in writing in compliance with City Code and 67.400, RSMo. Properties that are escalated to the Building Board of Appeals are vacant or include instances where the owner has not shown acceptable improvement of dangerous conditions. In order to keep the agenda items manageable and board meetings to roughly three (3) hours in length, properties that are poised for demolition or that present an imminent danger to the public are prioritized and listed as agenda items before the Building Board of Appeals. In cases of inhabited properties where the property owners are taking the initiative to improve dangerous conditions at the request of the Building Department, the Building Department monitors progress until the property is no longer considered dangerous and these cases have not been taken to the Building Board.

In an effort to address this finding, the city has changed its ordinance to reflect that property owners who are working with the city's Building Official to correct the dangerous conditions of their property will not be reported to the Building Board of Appeals while the property is brought into compliance.

6. Internal Audit Function

The city lacks an internal audit function. Such a function could have helped identify and/or resolve many of the accounting and procedural control weaknesses, and policy and compliance issues addressed in this report.

During the 2023 fiscal year, the city had annual revenues and expenditures of approximately \$90 million each, numerous cash collection points, and various compliance and policy requirements. These all increase the risks of error, loss, theft, or misuse of public funds, but the city does not have an internal audit function or similar arrangements for audits of these various processes. City officials indicated the Financial Analyst is tasked with performing internal audits. However, audit is the tenth listed job function in the job description and this individual reports to the Finance Department so is not independent of the functions audited. Additionally, no audits have been performed since at least October 2022.

City of Joplin Management Advisory Report - State Auditor's Findings

If used properly, the internal audit function can assist management in performing its duties more efficiently and effectively, and the savings could potentially exceed the cost. In addition, an internal audit function can enhance the city's annual external financial statement audit by providing valuable information to those auditors and ensuring the city has strong internal controls and accounting procedures in place.

A similar condition was noted in our prior audit report.

Recommendation

The City Council consider appointing an internal auditor or contracting with an independent audit firm to conduct audits of specific city operations and activities.

Auditee's Response

While there are always risks of error, loss, theft or misuse of public funds in any governmental operation, it should be noted that the auditor found no instance of fraud, theft, or misappropriation. In the city's response to the previous audit recommendation in 2015, the city indicated that we would consider our ability to implement this recommendation given the financial constraints of the city. We further replied that if the city were unable to implement the recommendation as outlined, we would strive to achieve the same outcome by other means within the current city staffing levels or on a contract basis.

To address the prior audit recommendation within the financial constraints of the city, the city added an internal auditing function to the Financial Analyst position, as noted. Additionally, the city's internal control functions are reviewed annually by the independent auditing firm performing the city's annual comprehensive financial audit as required by auditing standards. The city is also the recipient of millions of dollars of federal and state grants. The city is audited by many different grant agencies, who also perform a review of the city's internal controls. Finally, the city performs outside, independent department assessments to help the city operate as efficiently and effectively as possible. The most recent assessments completed cover police, fire, community planning and public works, with the health department currently under way. These assessments make recommendations to improve policies, procedures and processes.

While the city respects the State Auditor's recommendation as a best practice, there are many demands for the city's scarce resources, such as additional public safety personnel. The auditor has indicated that a part-time internal audit function would be appropriate. The city believes that we are complying with this recommendation through the duties of the Financial Analyst, the independent audits and the comprehensive department assessments. However, we will continue to strive to review internal processes for improvement and accountability. The city supports and strives for continuous improvement.

City of Joplin
Management Advisory Report - State Auditor's Findings

Auditor's Comment

The city's response indicates they believe this recommendation has already been met through the duties of the Financial Analyst. However, as noted in the finding, this duty has not been performed since October 2022. In addition, this position is within the Finance Department so it is not independent and does not report to the City Council directly.

7. Joplin Sports Authority Oversight

The City Council does not perform adequate oversight of the Joplin Sports Authority (JSA). During fiscal year 2023, the city paid the JSA \$443,000, or 30% of the actual receipts from the 4% lodging tax, for the purpose of sports marketing for the city. One City Council member and two city staff are on the JSA board. JSA personnel provide the JSA Board and Finance Department monthly financial reports and receive an annual audit; however, neither the City Council, JSA Board, nor Finance Department personnel review any supporting documentation. The City Council Board member JSA representative indicated the same documents provided to the city were what the JSA Board received for approval. These documents were summaries of expenditures, not detailed transactions. Without detailed transactions, board members' review of the board activities are limited.

The agreement between the City and the JSA indicates the JSA shall provide monthly financial reports to the city within 30 days, submit biannual reports of its sports development activities to the city, keep appropriate books and records, and make those records available to the city. The Finance Director indicated the City Council is not an oversight board and is not responsible for reviewing detailed information of the JSA. With no detailed review of the JSA's financial reports of sports development activities, use of city funds for purposes other than those intended by the agreement could go undetected.

Recommendation

The City Council monitor and review Joplin Sports Authority reports to ensure it is spending the lodging tax receipts as intended.

Auditee's Response

The Joplin Sports Authority is considered a discretely presented component unit of the government, as defined by the Government Accounting Standards Board (GASB). As such, they are legally separate from the primary government, the City. The Joplin Sports Authority is governed by an eleven-person Board of Trustees. Of the eleven-person Board, the City Council appoints seven members, with four members being permanent appointments set by their position held. One permanent member is the Missouri Southern State University (MSSU) Athletic Director, one is the Joplin R-VIII School District Athletic Director and two are city staff, specifically the Parks Director and the Convention and Visitors Bureau (CVB) Director. Furthermore, a City Council member serves as a liaison to the board.

The Joplin Sports Authority operates in accordance with its articles of incorporation and currently receives a portion of the hotel/motel tax for sports marketing purposes. When the hotel/motel tax was increased by the

City of Joplin Management Advisory Report - State Auditor's Findings

voters of Joplin in 2000, sports marketing was one of the specific purposes set forth in the ballot language. The Sports Authority maintains its own accounting records and obtains an annual independent audit, which is included in the city's Annual Comprehensive Financial Report and is publicly presented by the Finance Director to the City Council and citizens annually. All expenditures of the Sports Authority are presented to the board for approval every month. All sporting events, marketing efforts and sports development activities are also reviewed at the monthly board meetings. The city has three representatives at the Board meetings, with two staff serving as voting members. Finally, as noted, the Sports Authority sends monthly financial statements to the city, which are reviewed by finance staff.

The City of Joplin is the hub for the entire Southwest Missouri region, specifically where the hotels, restaurants and major retailers are located. It has long been acknowledged that for certain events, facilities outside of Joplin city limits have to be used in conjunction with Joplin facilities in order to host these large events. However, even though some facilities located outside of Joplin are sometimes required to be used, the economic benefit of the events is being captured by the City of Joplin through our hotels, restaurants and major retailers that aren't available outside of Joplin.

The city believes that there is proper oversight over the expenditures and revenues of the Joplin Sports Authority and that Joplin is the beneficiary of the economic impact of their sports marketing efforts.

Auditor's Comment

As noted in the city's response, sports marketing was a specific goal of the lodging tax passed by the voters in 2000. With this, it is imperative that the City Council provide sufficient oversight of the JSA's use of that money including reviewing detailed reports of JSA expenditures.

8. City Council Closed Minutes

The City Council does not review and approve closed meeting minutes. Closed meeting minutes are only signed by the City Attorney, who prepares them. The City Attorney indicated it had always been the city's practice to have only the City Attorney sign the closed minutes. The City Council generally meets twice a month in both regular and work sessions and holds special meetings when necessary. The Council held 20 closed meetings from November 1, 2022, to April 15, 2024.

Meeting minutes, including closed meeting minutes, signed by the preparer and subsequently approved by the Council are necessary to provide an independent attestation that the minutes are a correct record of matters discussed and actions taken during meetings.

Recommendation

The City Council review and approve closed meeting minutes.

City of Joplin
Management Advisory Report - State Auditor's Findings

Auditee's Response

While there is no legal requirement to approve closed session minutes, and the city's practice in keeping closed session minutes is and has always been in full compliance with the Missouri Sunshine Law and Chapter 610 RSMo, the city does see value in having the City Council approve its closed meeting minutes at subsequent meetings. This best practice was implemented by the City Council in 2024 and remains ongoing.

9. Convention and Visitors Bureau Bidding Procedures

The Convention and Visitors Bureau (CVB) did not bid some purchases as required. There were 56 disbursements from the CVB Fund during the fiscal year ended October 31, 2023. During our review of 8 haphazardly selected test items, we noted 3 for which CVB personnel did not follow city bidding policies. CVB personnel should have obtained informal written quotations from at least 3 vendors for 2 disbursements for \$3,748 and \$4,569. In addition, personnel should have obtained informal telephone quotations from at least 3 vendors for 1 disbursement for \$2,400. The CVB Director indicated informal quotations were obtained for 2 of the purchases, but they did not retain the documentation and the other item was purchased based on quotations obtained for a prior purchase. CVB personnel could not provide any support for the informal quotations.

The purchasing and procurement policy states "... informal written quotation from at least three (3) vendors is required for all purchases with an estimated price of less than \$15,000 but more than \$3,000 ... informal telephone quotation from at least three (3) vendors is required for all purchases with an estimated price of less than \$3,000 but more than \$1,000." Documentation of informal bids, the selection process, and criteria are necessary to demonstrate compliance with city policy and support decisions made.

Recommendation

The City Council ensure the CVB Department follows city bidding policies.

Auditee's Response

Departments are required to follow the city's Purchasing and Procurement Policy, which sets forth the bidding requirements. The CVB Department did obtain bids for the 2023 purchases, but they were unable to produce those records during the audit period.

Since the audit period, the purchasing system has been updated by adding the ability to allow departments to attach scanned bid documents electronically in the system for improved bid retention purposes. During 2024, departments began including the required bidding information in the electronic purchasing system. Purchase requisitions are only processed when the appropriate bid information has been attached electronically. This has improved the city's ability to produce the proof of bids obtained and helped ensure the departments are following city policy. Therefore, the city believes this recommendation has been implemented.

10. Electronic Communication Policy

The city has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages and other third party platforms. The only guidance the city maintains is a 2004 resolution regarding electronic communications that is not included in its policies or employee handbook to ensure employees are aware of requirements.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.⁴

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the city is retained as required by state law. The City Council indicated they thought they had a sufficient policy in place.

Recommendation

The City Council develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response

In addition to the city following the Missouri Secretary of State's record retention policy, the city adopted Resolution 2004-038 in August of 2004. Section 13, Electronic Records, of this resolution reads:

"Upon written request, the custodian shall make available for copying a public record kept in an electronic format if that record is kept on a system capable of allowing the copying of electronic documents into other electronic documents. In all circumstances, the custodian shall supply the disk or tape used for the duplication. Any fees for providing such records shall be in accordance with Section 14.

Any member of a public governmental body who transmits any message relating to public business by electronic means shall also concurrently transmit that message to the custodian of records in the same format. This

⁴ Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <<https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>>, accessed June 4, 2025.

City of Joplin
Management Advisory Report - State Auditor's Findings

provision shall only apply to messages sent to two or more members of that body so that, when counting the sender, a majority of the body's members are copied. Any such message received by the custodian of records shall be a public record subject to the exceptions of Section 610.021 and Section 2 hereinabove."

The city receives many open records requests each year. The city has always produced the requested records in compliance with the Sunshine Law and has never received a negative judgment or finding of fault regarding compliance with the Sunshine Law.

While the city believes that we properly retain electronic records, this resolution is over twenty years old and electronic communications have changed over this time period. Therefore, to address this finding, the city will review the Missouri Secretary of State Records Division's publication, Electronic Communications Guidelines for Missouri Government, to determine if the current resolution requires any updates for compliance and adopt any such said revisions, accordingly.

Auditor's Comment

The city's response indicates they believe this recommendation has already been met through the resolution 2004-038. However, the language from this resolution is not included in the city's policies or employee handbook provided to city employees.

City of Joplin

Organization and Statistical Information

The City of Joplin is located in Jasper and Newton Counties. The city was incorporated in 1873 and is currently a home rule-charter class city. The city employed 548 full-time employees and 81 part-time employees on October 31, 2023. The city's population was 51,762 in 2020, according to the U.S. Census Bureau.

City operations include police and fire protection services, sewer service, low-income health care services, convention and tourism promotional activities, airport services, economic development, street maintenance, and recreational facilities (aquatic centers, golf course, museum, and parks).

Mayor and Councilmembers

The city government consists of a nine-member Council, elected at-large for 4-year terms, with four members required to be residents of specific geographic zones. Every 2 years the Council selects one of its members to serve as mayor and another as mayor pro tem, who assumes mayoral responsibilities in the mayor's absence. Zone I covers North Joplin, Zone II covers West Joplin, Zone III covers the Center and East Joplin, and Zone IV covers South Joplin. The Councilmembers (including the mayor) are paid \$5 for each meeting attended, but not exceeding \$120 a year. The compensation of these officials is established by city charter. The Mayor and Councilmembers as of October 31, 2023, are listed below.

Doug Lawson, Mayor

Gary Shaw, Zone I Councilmember

Charles Copple, Zone II Councilmember

Phil Stinnett, Zone III Councilmember

Mark Farnham, Zone IV

Kate Spencer, General

Christina Williams, General

Josh DeTar, General

Keenan Cortez, General Councilmember and Mayor Pro Tem

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

To the County Commission
and
Officeholders of Dade County, Missouri

The Office of the State Auditor contracted for an audit of Dade County's financial statements for the 2 years ended December 31, 2024, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive style with a large, stylized "S" and "F".

Scott Fitzpatrick
State Auditor

October 2025
Report No. 2025-057

Recommendations in the contracted audit of Dade County

Recorder Bank Reconciliations	The Recorder implement procedures to perform formal bank reconciliations on a monthly basis, including the maintenance of an accounting record of cash transactions to compare to the monthly bank statement balances.
Budgetary Controls	The County Commission adopt a formal budget for all county funds each year and ensure that expenditures are within approved budgets. We also recommend that the county separate the Tax Maintenance Fund from funds that are held in a fiduciary capacity and separately track the receipts and disbursements of the fund for financial reporting and budgeting purposes.
Hourly Employee Pay Rate Documentation	The county implement procedures to formally document the approved pay rates for hourly employees.
Investment Policy	The county adopt an investment policy and review compliance with this policy at least annually as required by state statute.

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Dade County, Missouri

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Dade County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023 and 2024, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Dade County, Missouri, as of December 31, 2023 and 2024, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Dade County, Missouri, as of December 31, 2023 and 2024, or the changes in financial position thereof for the years then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Dade County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Dade County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Dade County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the

financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Dade County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Dade County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 11, 2025, on our consideration of Dade County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Dade County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Dade County, Missouri's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of this statement.

DADE COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2023 and 2024

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Dade County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are ten elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff, and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Dade County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County’s custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. However, the Law Enforcement Fund had actual expenditures that exceeded actual revenues plus beginning fund balance in 2023 and 2024.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law. However, the County did not adopt a formal budget for the Special Elections and Tax Maintenance Funds in 2023 and 2024, and the Nursing Home Fund in 2023.

10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds:

	2024	2023
Law Enforcement	✓	✓
Prosecuting Attorney Bad Check	N/A	✓
Law Enforcement Training	N/A	✓
Sheriff Revolving	✓	N/A
Nursing Home	✓	N/A

Also, the Special Elections and Tax Maintenance Funds in 2023 and 2024 and the Nursing Home Fund in 2023 had expenditures exceeding budgetary authority to the extent that formal budgets were not adopted for these Funds.

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property included within the County's boundaries for the calendar years 2024 and 2023 for purposes of taxation were:

	2024	2023
Real Estate	\$ 89,355,291	\$ 89,141,896
Personal Property	43,679,457	44,756,277
Railroad and Utilities	27,671,990	27,085,698
Total	<u>\$ 160,706,738</u>	<u>\$ 160,983,871</u>

For calendar years 2024 and 2023, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

	2024	2023
General Revenue	\$ 0.2400	\$ 0.2200
Road and Bridge	0.5000	0.4948

- F. Cash Deposits

Deposits are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest-bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of

deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash" caption.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2024, the County had the following cash balances:

	<u>Carrying Value</u>	<u>Bank Balance</u>	<u>FDIC Coverage</u>
Cash - Governmental Funds	\$ 3,417,611	\$ 3,849,489	\$ 250,181
Cash - Fiduciary Funds	\$ 7,620,893	\$ 6,045,511	\$ 510,422

At December 31, 2023, the County had the following cash balances:

	<u>Carrying Value</u>	<u>Bank Balance</u>	<u>FDIC Coverage</u>
Cash - Governmental Funds	\$ 3,725,488	\$ 4,007,967	\$ 250,751
Cash - Fiduciary Funds	\$ 6,379,953	\$ 4,358,602	\$ 463,955

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2024 and 2023 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002. During 2024 and 2023, the County collected and remitted to CERF employee

withholdings and fees collected of \$105,392 and \$77,755, respectively for the years then ended.

B. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$4,488 and \$2,805, respectively, for the years ended December 31, 2024 and 2023.

C. Other Retirement Plans

- 1) Dade County has a voluntary 457(b) plan which is paid by a deduction from employee's salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the years ended December 31, 2024 and 2023 were \$12,700 and \$17,186, respectively.
- 2) Dade County has a voluntary 401(a) plan which is paid by a .7% contribution from the employee's salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the years ended December 31, 2024 and 2023 were \$7,909 and \$8,510, respectively.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full-time employees with .5 days of sick leave for each completed calendar month of employment, up to a maximum of 1,392 hours. Upon termination, employees will not be compensated for any unused sick time.

Vacation time is made available in whole on the employee's anniversary date. Vacation time is one week for employees with one or two years of service and two weeks after three years of service. Employees are allowed to carry over vacation into the following year as long as the accrued vacation time is below the 240-hour threshold. Any vacation leave time above the maximum threshold will not be compensated and would be considered forfeited. Unused vacation time is payable upon separation.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management

believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation Trust. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2024 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through August 11, 2025, the date the financial statements were available to be issued.

COMPLIANCE SECTION

McBRIDE, LOCK & ASSOCIATES, LLC

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Dade County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Dade County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023 and 2024, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements, which collectively comprise Dade County, Missouri's basic financial statements and have issued our report thereon dated August 11, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Dade County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Dade County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Dade County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified a certain

deficiency in internal control, described in the accompanying schedule of findings and questioned costs as item 2024-001 that we consider to be a significant deficiency.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Dade County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and questioned costs as item 2024-002.

Dade County, Missouri's Responses to Findings

Government Auditing Standards requires the auditor to perform limited procedures on Dade County, Missouri's responses to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. Dade County, Missouri's responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the County Commission and
Officeholders of Dade County, Missouri

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Dade County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Dade County, Missouri's major federal programs for the years ended December 31, 2023 and 2024. Dade County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Dade County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2023 and 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Dade County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Dade County, Missouri's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Dade County, Missouri's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Dade County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Dade County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Dade County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Dade County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Dade County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal

program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

DADE COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEARS ENDED DECEMBER 31, 2023 AND 2024

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of Dade County, Missouri for the years ended December 31, 2024 and 2023. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

DADE COUNTY, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2023 AND 2024

SECTION I – SUMMARY OF AUDITOR’S RESULTS

Financial Statements:

Type of auditor’s report issued on whether the financial statements
audited were prepared in accordance with GAAP: Adverse

Type of auditor’s report issued on whether the financial statements
were prepared in accordance with the regulatory basis: Unmodified

The special purpose framework used as a basis of accounting was not required by state law.

Internal Control Over Financial Reporting:

- Material weakness(es) identified? Yes X No
- Significant deficiencies identified that are
not considered to be material weaknesses? X Yes None Reported
- Noncompliance material to financial
statements noted? X Yes No

Federal Awards:

Internal Control Over Major Programs:

- Material weakness(es) identified? Yes X No
- Significant deficiencies identified that are
not considered to be material weaknesses? Yes X None Reported

Type of Auditor’s Report Issued on Compliance
For Major Programs: Unmodified

Any audit findings disclosed that are required to be
reported in accordance with Uniform Guidance
section 200.516? Yes X No

Identification of Major Programs:

<u>Assistance Listing Number(s)</u>	<u>Name of Federal Program or Cluster</u>
21.027	Coronavirus State and Local Fiscal Recovery Funds

Dollar Threshold Used to Distinguish Between
Type A and Type B Programs: \$750,000

Auditee Qualified as low-risk: Yes X No

SECTION II – FINANCIAL STATEMENTS FINDINGS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

2024-001: Recorder Bank Reconciliations

Criteria: A proper system of internal controls requires a reconciliation between the accounting and bank records to be accurately completed in a timely manner.

Condition: The Recorder does not perform formal bank reconciliations and does not maintain a ledger balance of cash transactions to compare to the bank balances each month.

Cause: The Recorder's office has not implemented a procedure to perform monthly bank reconciliations and does not maintain accounting records of cash transactions.

Effect: Misstatements, whether due to fraud or error, may not be detected in a timely manner if proper bank reconciliation and bookkeeping procedures are not performed.

Recommendation: We recommend the Recorder implement procedures to perform formal bank reconciliations on a monthly basis, including the maintenance of an accounting record of cash transactions to compare to the monthly bank statement balances.

County's Response: I will try to keep up with balancing statements in the future. The program that I have shows whether each transaction in cash or check. My bank statements do not show cash deposits because all deposits are done remotely. The cash taken in is given to the Collector who writes me a check to deposit remotely.

Auditor's Evaluation: The Recorder should track all monetary transactions in a ledger that maintains a running bank balance, and should reconcile the balance to the bank statement balance each month.

ITEMS OF NONCOMPLIANCE

2024-002: Budgetary Controls

Criteria: State statutes prohibit expenditures in excess of approved budgets and require the preparation of a formal budget for all County funds. Section 52.312, RSMo requires the County to establish a "Tax Maintenance Fund" to be used solely as a depository for funds collected for the purpose of additional costs and expenses incurred in the office of the Collector.

Condition: The County did not adopt a formal budget for the Special Elections, Tax Maintenance, and Nursing Home Funds in 2023 and the Special Elections and Tax Maintenance Funds in 2024. Additionally, the County incurred expenditures in excess of the approved budgets for the Law Enforcement, Prosecuting Attorney Bad Check, and Law Enforcement Training Funds in 2023 and the Law Enforcement, Sheriff Revolving, and Nursing Home Funds in 2024. The actual expenditures that were approved in excess of the budgeted amounts in the Law Enforcement Fund caused the fund

balance to be negative at December 31, 2023 and 2024. Furthermore, the County has not created a separate Tax Maintenance Fund.

Cause: The Special Elections Fund is a separate bank account maintained by the County Clerk and a budget has not been adopted. The Nursing Home Fund was created to report the closing and sale of the nursing home. The fees taken by the Collector for the Tax Maintenance Fund are maintained in a bank account with other fiduciary Collector funds and the transactions pertaining to Tax Maintenance are not separately tracked. Expenditures were approved in excess of budgeted amounts and the budgets were not amended.

Effect: Budgetary controls are significant to the proper management and custodianship of county funds. Compliance with statutory requirements related to budgets improves control over county funds and helps to maintain the integrity of the budget process. Tax Maintenance funds should be kept separate from funds held by the Collector in a fiduciary manner to decrease the risk of inappropriate use of funds held in a fiduciary capacity.

Recommendation: We recommend that the County Commission adopt a formal budget for all County funds each year and ensure that expenditures are within approved budgets. We also recommend that the County separate the Tax Maintenance Fund from funds that are held in a fiduciary capacity and separately track the receipts and disbursements of the fund for financial reporting and budgeting purposes.

County's Response: The County Commission will work to properly handle these recommendations.

Auditor's Evaluation: The County should implement procedures to ensure compliance with budgetary requirements in future years.

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

None

IN SESSION MONDAY OF EACH WEEK

DADE COUNTY, MISSOURI SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

In accordance with the Uniform Guidance, this section reports the follow-up on action taken by Dade County, Missouri on the applicable findings in the prior audit report issued for the two years ended December 31, 2020 and 2019.

2020-001: The schedule of expenditures of federal awards (SEFA) reported by the County in the 2020 and 2021 annual budget documents contained errors in amounts of federal expenditures reported.

Status: Resolved.

2020-002: It was noted that transactions are not posted timely to the accounting system ledger prior to the fiscal year end cutoff. Additionally, the County's certificates of deposit are not included in the fund balances on the Treasurer's settlements and interest earned on the certificates is not recorded to the funds until the certificate is redeemed.

Status: Resolved.

2020-003: The County does not have a procedure in place for disbursements to be reviewed and approved for payment by the County Commission. Additionally, instances were noted in which invoices were not properly cancelled in order to prevent duplicate payment in accordance with stated County procedures.

Status: Resolved.

2020-004: It was noted there is no process in place for supervisor review and approval of Road and Bridge Department employee timesheets. All employees of the Road and Bridge Department are paid on an hourly basis. Additionally, annual salaries of salaried employees are approved in the annual budget document. However, there is no formal documentation of the approved rates of pay to support the pay rates of hourly employees.

Status: Considered resolved.

2020-005: The Recorder does not perform formal bank reconciliations on a monthly basis. Also, the reconciliations of the December 2018 and 2019 bank statements for the Sheriff's inmate security account were not performed timely.

Status: Partially resolved. See Finding 2024-001.

2020-006: The County had a total bank balance of \$7,450,511 as of December 31, 2019, \$740,453 of which was covered by FDIC deposit insurance, leaving an uninsured balance of \$6,710,058. The bank provided a report showing that the market value of pledged collateral securities was only \$6,633,978, leaving \$76,080 of unsecured deposits at December 31, 2019.

Status: Resolved.

2020-007: The County did not adopt a formal budget for the Election Services, Special Elections, and Tax Maintenance Funds in 2019 and 2020. Additionally, the County has not created a separate Tax Maintenance Fund.

Status: Not Resolved. See Finding 2024-002.

2020-008: We noted two purchases of Road and Bridge equipment for \$52,935 and \$48,845 for which there was no evidence of competitive bidding being performed.

Status: Resolved.

CERTIFIED PUBLIC ACCOUNTANTS

August 11, 2025

To the County Commission
Dade County, Missouri

We have audited the regulatory basis financial statements of Dade County, Missouri for the years ended December 31, 2023 and 2024. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 19, 2025. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Dade County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2023 and 2024. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no misstatements detected during the audit.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated August 11, 2025.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2023 and 2024, we considered Dade County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated August 11, 2025. However, during our audit we became aware of a matter that provides an opportunity for strengthening internal controls and ensuring compliance.

Hourly Employee Pay Rate Documentation

During the audit, we selected a sample of payroll transactions during the audit period for testing. As part of that testing, we attempted to agree the employee's rate of pay for the pay period to supporting documentation to ensure that they were paid the proper authorized rate. It was noted that the annual salaries of salaried employees are approved through the annual budget process. Hourly employees are included in the budgeted salary amounts, however, there is no formal documentation of the approved hourly pay rates for hourly employees. Any changes in the rate of pay for employees in the payroll system should be supported by documentation approved by a supervisor and/or the County Commissioners as evidence that the change was properly authorized. We recommend that the County implement procedures to formally document the approved pay rates for hourly employees.

Investment Policy

The County has not adopted a formal investment policy. Section 30.950, RSMo requires political subdivisions that manage public funds and have the authority to invest in instruments other than depository accounts at financial institutions to adopt an investment policy. Adoption of a formal investment policy commits the County to the principles of safety, liquidity, and yield when managing public funds. We recommend the County adopt an investment policy and review compliance with this policy at least annually as required by state statute.

Other Matters

We were engaged to report on the Schedule of Expenditures of Federal Awards, which accompanies the financial statements but is not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles prescribed or permitted by Missouri law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of Dade County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

(Original Signed by McBride, Lock & Associates, LLC)

Missouri State Auditor

State of Missouri
Single Audit
Year Ended June 30, 2024

Report No. 2025-056

September 2025

auditor.mo.gov

CITIZENS SUMMARY

Findings in the Fiscal Year 2024 State of Missouri Single Audit

Background	The United States Congress passed the Single Audit Act Amendments of 1996 to establish uniform requirements for audits of federal awards. A single audit requires an audit of the State of Missouri's financial statements and expenditures of federal awards. The state expended approximately \$21.1 billion in federal awards during the fiscal year ended June 30, 2024. The Single Audit involved audit work on 16 major federal programs with expenditures totaling approximately \$16.2 billion, administered by 10 state agencies.
Medicaid and CHIP MAGI-Based Participant Eligibility Redeterminations	As similarly noted in 5 previous audits, the Department of Social Services (DSS) does not have sufficient controls to ensure compliance with eligibility redetermination requirements of the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP) for certain participants whose eligibility is based on their Modified Adjusted Gross Income (MAGI). The DSS did not correct manual system overrides for approximately 10,200 (1 percent) MAGI-based participants, preventing their cases from being closed when necessary. These participants remained enrolled without redetermination of eligibility for up to 10 years.
Medicaid and CHIP Participant Eligibility Terminations	As noted in the previous audit, the DSS does not have sufficient controls to ensure benefits are terminated for participants no longer eligible for the Medicaid and the CHIP. A review found a death match was not operating in the Medicaid Eligibility Determination and Enrollment System during the year ended June 30, 2024. Additionally, for 1 of 60 participant cases sampled, the DSS received information requiring participant case termination, but did not manually terminate the participants' eligibility in the applicable eligibility system.
Medicaid and CHIP Eligibility Determination Timeliness	As noted in 2 previous audits, the DSS did not perform eligibility determinations within required timeframes for participants of the Medicaid and the CHIP. In a test of compliance with eligibility requirements for the year ended June 30, 2024, 29 of 120 eligibility determinations were made 2 to 168 days after the required timeframes and averaged 50 days late.
Medicaid and CHIP Receipt Controls	As noted in the previous audit, the DSS - MO HealthNet Division (MHD) does not have adequate controls to ensure proper management of receipts. The MHD does not adequately restrict user access within the Medicaid Management Information System (MMIS) and does not account for all cash control numbers to ensure all checks and money orders received are properly deposited or returned to senders if the payment cannot be accepted.
Medicaid Management Information System Access	As similarly noted in the previous audit, the MHD needs to strengthen controls to ensure MMIS access rights are removed for users no longer employed in positions needing access. A sample of 60 MMIS users with access as of March 2024 identified 1 terminated user whose access had not been removed for nearly 2 years.

Department of Social Services Cost Allocation	As similarly noted in 2 previous audits, DSS - Division of Finance and Administrative Services (DFAS) controls and procedures to allocate some administrative costs to federal programs were not sufficient to prevent and/or detect errors. The DFAS did not include a type of fringe benefit costs in the AlloCAP system, totaling approximately \$2.66 million during the year ended June 30, 2024, that should have been allocated to 29 federal programs. As a result, allowable costs were paid from state funding, that could have been allocated to federal funding for various federal programs. The DSS estimated such allowable costs to total approximately 30 percent, or \$800,000. If this cost allocation issue had not been identified during the audit, based on the errors during the 9-month period ended March 31, 2024, at least \$1 million could have continued to be spent each year from state taxpayer funds instead of being claimed to federal funding sources.
SLFRF Program Subrecipient Monitoring	As noted in the previous audit, the Office of Administration (OA) has not established policies and procedures regarding monitoring subrecipients of the Coronavirus State and Local Fiscal Recovery Funds (SLFRF) program. As a result, the OA did not comply with the Uniform Guidance requirements regarding identifying and monitoring subrecipients of the SLFRF program. The OA failed to fulfill its comprehensive subrecipient monitoring responsibilities, which include performing risk assessments; monitoring for compliance with federal requirements and subaward terms and conditions, and ensuring subaward performance goals are achieved; and reviewing subrecipient single audit reports.
CACFP Subrecipient Reimbursements	As noted in the previous audit, the Department of Health and Senior Services (DHSS) - Bureau of Community Food and Nutrition Assistance (BCFNA) does not have sufficient controls and procedures to ensure Child and Adult Care Food Program (CACFP) reimbursements to subrecipients are allowable and supported with sufficient documentation, as required by federal regulations. As a result, significant unallowable and unsupported reimbursements are made without being prevented or detected on a timely basis. A randomly-selected sample of 60 BCFNA monitoring reviews conducted for 60 CACFP facilities/sponsors during the year ended June 30, 2024, noted BCFNA disallowances (overclaims/underclaims) in 43 of 59 (73 percent) reviews for which meal reimbursement claims were tested. Overclaims totaled \$48,508 (40 reviews) and underclaims totaled \$10,144 (3 reviews), with a net overclaim of \$38,364, or at least 7 percent of claims tested by the BCFNA. While the BCFNA adjusted subsequent claims to recoup or reimburse for the identified overclaims/underclaims, unallowable costs could be significant if similar errors were made on the remaining population of CACFP meal reimbursements totaling approximately \$67 million.
CACFP Subrecipient Monitoring	As noted in the previous audit, BCFNA subrecipient risk assessment and monitoring procedures are not in compliance with subrecipient monitoring requirements and were not sufficient to ensure CACFP subrecipient compliance with program requirements. Review and analysis of 60 sampled monitoring reviews noted the monitoring reviews identified significant errors, noncompliance, disallowances, and overclaims; and continued deficiencies and little improvement from prior reviews. The BCFNA needs to strengthen and improve subrecipient monitoring procedures to provide for identification and recoupment of overclaims associated with all errors identified during monitoring reviews, as required by federal regulations; expand testing when significant errors are identified; and continue to verify CAP information.

Medicaid SPPC Participant Choice Agreements	As similarly noted in the prior audit report, the Department of Health and Senior Services (DHSS) - Division of Senior and Disability Services does not have effective controls in place to ensure Participant Choice Agreements are completed and retained for participants of the State Plan Personal Care (SPPC) program. Required documentation was not on file for 10 of 60 participants reviewed.
Medicaid Facility Survey Timeliness	As similarly noted in 3 previous audit reports, the Section for Long-Term Care Regulations within the DHSS did not perform facility survey procedures within required timeframes. For the year ended June 30, 2024, some Statements of Deficiencies and Plan of Corrections were sent 11 to 20 days after the survey exit instead of within 10 days, and 1 facility revisit was completed in 64 days instead of within 60 days of the initial survey date.
SEMA Subrecipient Monitoring	The State Emergency Management Agency (SEMA) did not perform subrecipient monitoring reviews or review subrecipient single audit reports for the Disaster Grants - Public Assistance (Presidentially Declared Disasters) (DGPA) as required. The SEMA's Monitoring Specialist performed risk assessments for all 890 subrecipients of open projects; however, the SEMA did not perform the 190 monitoring reviews of these subrecipients as required by the monitoring policy. The SEMA did not conduct the required review of single audit reports for applicable DGPA program subrecipients as required by SEMA policies and federal regulations.
Child Care Payments	As similarly noted in the prior audit report, Department of Elementary and Secondary Education (DESE) controls over the Child Care Development Fund (Child Care) program's subsidy payments to child care providers are not sufficient to ensure payments are in accordance with the Child Care program subsidy state plan and costs are allowable. As a result, the DESE overpaid 29 providers and underpaid 8 providers of the 60 payments sampled.
DESE FFATA Reporting	As similarly noted in 3 previous audits, during state fiscal year 2024, the DESE did not comply with Federal Funding Accountability and Transparency Act (FFATA) reporting requirements for any of the 1,398 first-tier subawards, totaling approximately \$330 million, for the Child Nutrition Cluster programs. The DESE needs to strengthen internal controls related to FFATA reporting for the Child Nutrition Cluster to help ensure compliance with the reporting requirements.
MoDOT Monitoring of BABA Provisions	The Missouri Department of Transportation (MoDOT) did not establish policies and procedures to monitor contractor and subrecipient compliance with Build America, Buy America (BABA) domestic preference provisions for Infrastructure Investment and Jobs Act-funded projects of the Highway Planning and Construction program. As a result, the MoDOT did not ensure contractors and subrecipients complied with these provisions.
DED FFATA Reporting	During state fiscal year 2024, the Department of Economic Development (DED) did not comply with FFATA reporting requirements for any of the 47 first-tier subawards, totaling approximately \$196.7 million, for the Coronavirus Capital Projects Fund (CPF) program. The DED has not established internal controls over FFATA reporting for the CPF program.

DHEWD FFATA Reporting

The Department of Higher Education and Workforce Development (DHEWD) needs to strengthen internal controls related to FFATA reporting for the Workforce Innovation and Opportunity Act (WIOA) Cluster. During state fiscal year 2024, the DHEWD did not comply with FFATA reporting requirements for 4 of 10 subawards reviewed.

Because of the nature of this audit, no rating is provided.

State of Missouri - Single Audit

Introduction and Summary

Year Ended June 30, 2024

Introduction

The United States Congress passed the Single Audit Act Amendments of 1996 to establish uniform requirements for audits of federal awards. The Office of Management and Budget (OMB) issued Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) to set forth uniform cost principles and audit requirements for federal awards to nonfederal entities and administrative requirements for all federal grants and cooperative agreements.

A single audit under the Uniform Guidance requires an audit of the State of Missouri's financial statements and expenditures of federal awards. The audit is required to determine whether:

- The state's basic financial statements are presented fairly in all material respects in conformity with generally accepted accounting principles.
- The state's schedule of expenditures of federal awards is stated fairly in all material respects in relation to the financial statements as a whole.
- The state has adequate internal controls to ensure compliance with federal award requirements.
- The state has complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs.
- The state's summary schedule of prior audit findings materially represents the status of the prior audit findings.

The Single Audit report includes the federal awards expended by all state agencies and offices that are part of the primary government. The report does not include the public universities and other component units, which are legally separate from the state and audited by other auditors. The state expended approximately \$21.1 billion in federal awards during the state fiscal year ended June 30, 2024.

State of Missouri - Single Audit
Introduction and Summary
Year Ended June 30, 2024

Summary of Single Audit Results

Financial Statements

The following is the summary of our Single Audit results for the state fiscal year ended June 30, 2024.

We issued our audit report (Report No. 2025-016¹) of the state's Annual Comprehensive Financial Report (ACFR), as of and for the year ended June 30, 2024, in April 2025. In addition, we issued our Annual Comprehensive Financial Report - Report on Internal Control, Compliance, and Other Matters (Report No. 2025-030²) in May 2025. In that report, we reported 2 findings related to internal control deficiencies at 2 state agencies. The state agencies' responses to the audit findings are included in that report. The agencies prepared a Corrective Action Plan (CAP) for each finding. The CAPs were submitted to the Office of Administration (OA) and are in the Corrective Action Plans section of this report. State agencies and an office prepared and submitted to the OA the status of the prior financial statement audit findings. These are presented in the Summary Schedule of Prior Audit Findings section of this report.

Federal Awards

We issued our report on the accompanying Schedule of Expenditures of Federal Awards (SEFA). The state's SEFA, which does not include federal award expenditures of the public universities and other component units, reported the state expended approximately \$21.1 billion in federal funds in state fiscal year 2024. Our report expressed the opinion that the SEFA is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

We audited 16 major federal programs with expenditures totaling approximately \$16.2 billion, administered by 10 state agencies.

We issued a qualified opinion on 3 major federal programs and an unmodified opinion on 13 major federal programs. A qualified opinion is issued when the audit of a major federal program detects material noncompliance with direct and material compliance requirements. A qualified opinion was issued on the following major programs administered by the Department of Health and Senior Services, the Office of Administration, and the Department of Public Safety - State Emergency Management Agency:

- Child and Adult Care Food Program, modified for Activities Allowed or Unallowed, Allowable Costs/Cost Principles, and Subrecipient Monitoring
- Coronavirus State and Local Fiscal Recovery Funds program, modified for Subrecipient Monitoring

¹ The ACFR is available online at: <<https://oa.mo.gov/accounting/reports/annual-reports/annual-comprehensive-financial-reports>>.

State of Missouri - Single Audit
Introduction and Summary
Year Ended June 30, 2024

- Disaster Grants - Public Assistance (Presidentially Declared Disasters) program, modified for Subrecipient Monitoring

In total, we reported 17 audit findings related to 13 major federal programs at 8 state agencies. We identified at least \$3,000 in known questioned costs related to federal awards. Of the 17 audit findings, 13 were repeated from prior Single Audits. These findings have been reported in the 1 to 5 prior years.

Of the 17 federal award audit findings, 16 related to internal control deficiencies. We consider 6 findings of internal control deficiencies to be material weaknesses and 10 to be significant deficiencies.

The state agencies' responses to the audit findings are included in this report. The state agencies prepared a CAP for each audit finding and submitted them to the OA. These are presented in the Corrective Action Plans section of this report.

In addition, the state agencies prepared and submitted to the OA the status of the prior audit findings. These are presented in the Summary Schedule of Prior Audit Findings section of this report.

Expenditures of federal awards have increased significantly and have remained elevated since state fiscal year 2020 due to additional federal funding made available to state agencies to help with the state's emergency response to the Coronavirus Disease 2019 (COVID-19) and the Medicaid expansion effective in state fiscal year 2022.

**Total Expenditures of Federal Awards
6 Year Comparison**

State of Missouri - Single Audit
Introduction and Summary
Year Ended June 30, 2024

Of the 22 state agencies and offices that expended federal awards, 5 agencies spent the majority of the awards (94 percent) during state fiscal year 2024.

Expenditures of Federal Awards by State Agency

The state expended federal awards received from 24 federal agencies. Most of the federal award expenditures (94 percent) were from programs of 5 federal agencies.

Expenditures of Federal Awards by Federal Agency

Overall, the state expended federal awards in 317 programs. These programs are listed in the accompanying Schedule of Expenditures of Federal Awards.

State of Missouri - Single Audit
Introduction and Summary
Year Ended June 30, 2024

The Uniform Guidance requires federal programs to be labeled Type A programs or Type B programs based on a dollar threshold. For the State of Missouri, the Uniform Guidance defines the dollar threshold as \$31.58 million (total expenditures of \$21,051,144,270 times 0.0015) since the federal award expenditures exceeded \$20 billion during state fiscal year 2024.

Programs with federal award expenditures of \$31.58 million or more are Type A programs and programs with federal award expenditures under \$31.58 million are Type B programs. Of the 317 federal award programs, 36, or 11 percent of the programs, were Type A programs and 281, or 89 percent of the programs, were Type B programs.

**Type A and Type B Programs
Number of Programs**

The 36 Type A programs had expenditures totaling approximately \$20.21 billion, or 96 percent of total expenditures. The 281 Type B programs had expenditures totaling approximately \$843 million, or 4 percent of total expenditures.

**Type A and Type B Programs
Expenditures of Federal Awards**

State of Missouri - Single Audit
Introduction and Summary
Year Ended June 30, 2024

The Uniform Guidance requires the auditor to perform risk assessments on Type A programs and to audit as major each Type A program assessed as high risk based on specified risk factors. We performed a risk assessment on each Type A program and determined 21 of the 36 Type A programs were low risk and did not need to be audited as major. In accordance with the Uniform Guidance, we audited as major the 15 Type A programs assessed as high risk.

The Uniform Guidance also requires the auditor to perform risk assessments on larger Type B programs to determine which are high risk and need to be audited as major. The dollar threshold to determine the larger Type B programs is 25 percent of the Type A threshold, or \$7.9 million. Of the 281 Type B programs, 33 were larger Type B programs. We performed risk assessments on the 33 larger Type B programs and determined 1 program was high risk. In accordance with the Uniform Guidance, we audited the program as major.

The programs audited as major are listed in the summary of auditor's results section of the Schedule of Findings and Questioned Costs section of this report. We audited 77 percent of total state fiscal year 2024 federal expenditures based on the risk assessments on Type A and larger Type B programs.

Major and Non-major Federal Programs

Type of Programs	Number of Programs	Expenditures	Percentage of Expenditures
<u>Programs Audited</u>			
Type A major programs	15	\$ 16,207,509,556

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE
FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER
COMPLIANCE; AND REPORT ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
REQUIRED BY THE UNIFORM GUIDANCE

Honorable Mike Kehoe, Governor
and
Members of the General Assembly

Report on Compliance for Each Major Federal Program

Qualified and Unmodified Opinions

We have audited the State of Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the State of Missouri's major federal programs for the year ended June 30, 2024. The State of Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

Qualified Opinion on the Child and Adult Care Food Program, the Coronavirus State and Local Fiscal Recovery Funds program, and the Disaster Grants - Public Assistance (Presidentially Declared Disasters) program

In our opinion, except for the noncompliance described in the Basis for Qualified and Unmodified Opinions section of our report, the State of Missouri complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on the Child and Adult Care Food Program, the Coronavirus State and Local Fiscal Recovery Funds program, and the Disaster Grants - Public Assistance (Presidentially Declared Disasters) program for the year ended June 30, 2024.

Unmodified Opinion on Each of the Other Major Federal Programs

In our opinion, the State of Missouri complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs for the year ended June 30, 2024.

Basis for Qualified and Unmodified Opinions

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the State of Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that audit evidence we have obtained is sufficient and appropriate to provide a reasonable basis for our qualified and unmodified opinions on compliance for each major federal program. Our audit does not provide a legal determination of the State of Missouri's compliance with the compliance requirements referred to above.

Matters Giving Rise to Qualified Opinion on the Child and Adult Care Food Program, the Coronavirus State and Local Fiscal Recovery Funds program, and the Disaster Grants - Public Assistance (Presidentially Declared Disasters) program

As described in the accompanying Schedule of Findings and Questioned Costs, the State of Missouri did not comply with requirements regarding the following:

Finding Number	AL Number(s)	Program (or Cluster) Name	Compliance Requirement(s)
2024-007	21.027	Coronavirus State and Local Fiscal Recovery Funds	Subrecipient Monitoring
2024-008	10.558	Child and Adult Care Food Program	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Subrecipient Monitoring
2024-009	10.558	Child and Adult Care Food Program	Subrecipient Monitoring
2024-012	97.036	Disaster Grants - Public Assistance (Presidentially Declared Disasters)	Subrecipient Monitoring

Compliance with such requirements is necessary, in our opinion, for the State of Missouri to comply with the requirements applicable to those programs.

Other Matter - Federal Expenditures Not Included in the Compliance Audit

The State of Missouri's basic financial statements include the operations of certain public universities and other component units, which expended federal awards that are not included in the State of Missouri's Schedule of Expenditures of Federal Awards for the year ended June 30, 2024. Our compliance audit, described in the Qualified and Unmodified Opinions section of our report, does not include the operations of these component units because they engaged other auditors to perform an audit of compliance, if required.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the State of Missouri's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the State of Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance, and therefore, is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material

noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the State of Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the State of Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the State of Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the State of Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures disclosed other instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 2024-001 through 2024-003, 2024-005, 2024-010, and 2024-013 through 2024-017. Our opinion on each major federal program is not modified with respect to these matters.

Government Auditing Standards requires the auditor to perform limited procedures on the State of Missouri's responses to the noncompliance findings identified in our compliance audit described in the accompanying Schedule of Findings and Questioned Costs. The State of Missouri's response to each noncompliance finding consists of both the response and the corrective action plan. The state of Missouri's responses and corrective action plans were not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on them.

Report on Internal Control over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance, and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we did identify certain

deficiencies in internal control over compliance that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 2024-004, 2024-007 through 2024-009, 2024-012, and 2024-013 to be material weaknesses.

A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 2024-001 through 2024-003, 2024-005, 2024-006, 2024-010, and 2024-014 through 2024-017 to be significant deficiencies.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on the State of Missouri's responses to the internal control over compliance findings identified in our compliance audit described in the accompanying Schedule of Findings and Questioned Costs. The State of Missouri's response to each internal control over compliance finding consists of both the response and the corrective action plan. The State of Missouri's responses and corrective action plans were not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on them.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose. However, pursuant to Section 29.200, RSMo, this report is a matter of public record and its distribution is not limited.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Missouri, as of and for the year ended June 30, 2024, and the related notes to financial statements, which collectively comprise the State of Missouri's basic financial statements. We issued our report thereon dated April 2, 2025, which contained qualified opinions on the governmental activities and the General Fund, a major fund, and unmodified opinions on all remaining opinion units.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Missouri's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility

of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

State of Missouri - Single Audit

Notes to the Schedule of Expenditures of Federal Awards

Year Ended June 30, 2024

1. Significant Accounting Policies

The following is a summary of the significant accounting policies used by the State of Missouri.

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards (Schedule) of the State of Missouri is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and the U.S. Office of Management and Budget (OMB) 2024 Compliance Supplement. The Schedule is not a required part of the State's basic financial statements. The Uniform Guidance requires a schedule that shows total federal awards expended for each federal financial assistance program, the Assistance Listing, and the total amount provided to subrecipients from each federal program. Federal financial assistance programs that have not been assigned an Assistance Listing are identified as Assistance Listing Number XX.Uxx, where XX represents the federal grantor agency and Uxx represents an unknown extension number. Appendix VII of the supplement states that expenditures of federal awards made under the Coronavirus Preparedness and Response Supplemental Appropriations Act, the Families First Coronavirus Response Act, the Coronavirus Aid, Relief and Economic Security Act (CARES Act), the Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA), and the American Rescue Plan Act (ARPA) should be identified separately on the schedule with the inclusion of the prefix "COVID-19-" in the name of the federal program.

The Schedule includes all federal awards expended by the State during the year ended June 30, 2024, except for those programs administered by public universities and other component units, which are legally separate from the State and audited by other auditors. They are responsible for engaging other auditors to perform audits in accordance with the Uniform Guidance, if required.

To compile the Schedule, the Office of Administration required each department, agency, and office that expended direct and/or indirect federal funding during the state fiscal year to prepare a schedule of expenditures of federal awards. The schedules for the departments, agencies, and offices were combined to form the Schedule of Expenditures of Federal Awards for the State of Missouri.

B. Basis of Presentation

The accompanying Schedule includes the federal award activity of the State of Missouri for the year ended June 30, 2024. The information in this Schedule is presented in accordance with the requirements of the Uniform Guidance, which defines federal awards as federal financial assistance and cost-reimbursement contracts that non-federal entities receive or administer in the form of grants, loans, loan guarantees, non-cash assistance, property (including donated surplus property), cooperative agreements, interest

State of Missouri - Single Audit
Notes to the Schedule of Expenditures of Federal Awards
Year Ended June 30, 2024

subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include other contracts that a federal agency uses to buy goods or services from a contractor. Because the Schedule presents only a selected portion of the operations of the State, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the State.

C. Basis of Accounting

Most expenditures presented in the Schedule are reported on the cash basis of accounting, while some are presented on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance; wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

D. Indirect Cost Rate

For the fiscal year ending June 30, 2024, one agency, the Department of Agriculture, elected to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

2. Unemployment Insurance Expenditures

The Unemployment Insurance program (Assistance Listing No. 17.225) is administered by the Department of Labor and Industrial Relations through a unique federal-state partnership that was founded upon federal law but implemented through state law. Benefits are paid from federal funds and state unemployment taxes that are deposited into the state's account in the Federal Unemployment Trust Fund. The state's administrative expenditures incurred under this program are funded by federal grants. For the purposes of presenting the expenditures of this program in the Schedule, both state and federal funds have been considered federal awards expended. The breakdown of the state and federal portions of the total program expenditures for the fiscal year ended June 30, 2024, is as follows:

State Portion (Benefits Paid)	\$ 226,568,509
Federal Portion (Benefits Paid)	887,940
Federal Portion (Administrative Costs)	54,391,691
Federal Portion (Benefits Paid) - CARES Act Related	(11,195,802)
Federal Portion (Administrative Costs) - CARES and Families First Act Related	4,874,549
Total Program Expenditures	\$ 275,526,887

3. Special Supplemental Nutrition Program for Women, Infants and Children (WIC) Rebates

The State received cash rebates from an infant formula manufacturer totaling \$26,797,172 on sales of formula to participants in the WIC program

State of Missouri - Single Audit
Notes to the Schedule of Expenditures of Federal Awards
Year Ended June 30, 2024

(Assistance Listing No. 10.557) administered by the Department of Health and Senior Services (DHSS). This amount was excluded from total program expenditures. Rebate contracts with infant formula manufacturers are authorized by 7 CFR Section 246.16a as a cost containment measure. Rebates represent a reduction of expenditures previously incurred for WIC food benefit costs. The state was able to extend program benefits to more persons than could have been served this fiscal year in the absence of the rebate contract.

4. Medical Assistance Program (Medicaid) and Children's Health Insurance Program (CHIP) Prescription Drug Rebates

The state received cash rebates from drug manufacturers totaling \$1,005,319,211 (federal share) on purchases of covered outpatient drugs for participants in the Medicaid and the CHIP (Assistance Listing Nos. 93.778 and 93.767) administered by the Department of Social Services - MO HealthNet Division. This amount was excluded from total program expenditures. Rebate contracts with drug manufacturers are authorized by 42 USC Section 1396r-8 as a cost containment measure. Rebates represent a reduction of expenditures previously incurred for medical assistance costs.

5. HIV Care Formula Grants Prescription Drug Rebates

The State received cash rebates from drug manufacturers totaling \$11,890,090 on purchases of covered drugs for participants in the HIV Care Formula Grants program (Assistance Listing No. 93.917) administered by the DHSS. If program expenditures are available, the rebates will offset the program expenditures resulting in a reduction in expenditures incurred by the program. Of the amount of rebates received, \$11,890,090 reduced total program expenditures and these expenditures were not reported on the SEFA. The allowable use of drug rebates is restricted by 42 USC Section 300ff-26(g).

6. Federal Loan Guarantees

The State of Missouri has no Federal Loan Guarantees outstanding as of June 30, 2024.

7. Non-cash Assistance

The Schedule contains values for non-cash assistance for several programs.

Supplemental Nutrition Assistance Program and Pandemic EBT Food Benefits Program expenditures totaling \$1,606,143,282 (\$1,508,653,901 for Assistance Listing No. 10.551 and \$97,489,381 for Assistance Listing No. 10.542) represent actual disbursements for client purchases of authorized food products through the use of the electronic benefits card program

State of Missouri - Single Audit
Notes to the Schedule of Expenditures of Federal Awards
Year Ended June 30, 2024

administered by the Department of Social Services - Family Support Division (DSS-FSD).

The Department of Elementary and Secondary Education distributes food commodities to school districts under the National School Lunch Program (Assistance Listing No. 10.555). Distributions are valued at the cost of the food paid by the federal government and totaled \$44,115,465.

The DSS-FSD, through the Summer Food Service Program for Children (Assistance Listing No. 10.559), provides United States Department of Agriculture (USDA)-donated foods to providers who serve free healthy meals to children and teens in low-income areas during the summer months when school is not in session. The DSS-FSD, through the Emergency Food Assistance Program (Food Commodities) (Assistance Listing No. 10.569), provides USDA-donated foods for disaster relief and to six non-profit food banks for distribution to food pantries and community groups for feeding those in need. Distributions are valued at the federally assigned value of the product distributed and totaled \$30,093 for the Summer Food Service Program for Children and \$39,037,173 for the Emergency Food Assistance Program and Commodity Credit Corporation (CCC).

The DHSS distributes food commodities to low-income persons under the Commodity Supplemental Food Program (Assistance Listing No. 10.565). Distributions are valued at the cost of the food paid by the federal government and totaled \$7,621,691.

The Department of Public Safety distributes excess federal Department of Defense (DOD) equipment to state and local law enforcement agencies under the DOD Excess Property Program (Assistance Listing No. 12.U01). Property distributions totaled \$319,305 when valued at the historical cost assigned by the federal government. Distributions are presented at the estimated fair market value of the property at the time of distribution, calculated as 23.34 percent of the historical cost, or \$74,526.

The State Agency for Surplus Property distributes federal surplus property to eligible donees under the Donation of Federal Surplus Personal Property program (Assistance Listing No. 39.003). Property distributions totaled \$6,761,475 when valued at the historical cost assigned by the federal government. Distributions are presented at the estimated fair market value of the property at the time of distribution, calculated as 23.34 percent of the historical cost, or \$1,578,128.

The DHSS distributes vaccines to local health agencies and other health care professionals under the Immunization Cooperative Agreements program (Assistance Listing No. 93.268). Distributions are valued at the cost of the vaccines paid by the federal government and totaled \$95,033,505.

State Agency:	Department of Social Services (DSS) - MO HealthNet Division (MHD) and Family Support Division (FSD)
Type of Finding:	Internal Control (Significant Deficiency) and Nonmaterial Noncompliance
Compliance Requirements:	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, and Eligibility

As similarly noted in our 5 previous audits,⁴ the DSS does not have sufficient controls to ensure compliance with the eligibility requirements of the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP) for certain participants whose eligibility is based on the Modified Adjusted Gross Income (MAGI). As of June 30, 2024, the DSS had not corrected manual system overrides for approximately 10,200 (1 percent) of MAGI-based participants, preventing their cases from being identified as needing a redetermination and closed when necessary. These participants remained enrolled without redetermination of eligibility for up to 10 years. Of the approximately 1.3 million Medicaid and CHIP participants as of June 30, 2024, approximately 1.1 million were MAGI-based participants.

To ensure MAGI-based participants continue to be eligible for benefits, 42 CFR Section 435.916 requires a redetermination of eligibility once every 12 months, or when circumstances affecting a participant's eligibility change. The regulation requires termination of benefits when a participant no longer meets eligibility requirements. During the period March 19, 2020, to March 31, 2023, the eligibility redetermination and most termination requirements were temporarily suspended in response to the COVID-19 Public Health Emergency (PHE). During that period all validly enrolled participants on March 19, 2020, were to remain continuously enrolled, except for participants who requested removal, moved out of state, or died. Effective April 1, 2023,

⁴ See single audit reports at <<https://auditor.mo.gov/AuditReport/Reports?SearchLocalState=35>>, finding numbers 2023-005, 2022-002, 2021-005, 2020-003, and 2019-005.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

under the COVID-19/Annual Renewals Unwinding User Acceptance Test Plan, submitted to the DHHS - Centers for Medicare and Medicaid Services (DHHS-CMS), the DSS was to resume and complete redeterminations for all participants over a 14-month period, which ended June 30, 2024. In August 2024, the DSS received an extension of this deadline from the DHHS-CMS. Under the extension, the DSS is required to complete redeterminations for all participants, and terminate benefits for participants who no longer meet eligibility requirements, by December 31, 2025.

The Medicaid Eligibility Determination and Enrollment System (MEDES) tracks eligibility information from MAGI-based participants, including redetermination due dates; and in some cases, performs redeterminations. Non-automatic redeterminations for MAGI-based participants are performed manually by FSD eligibility benefit technicians. Eligibility information is transferred from the MEDES into the Medicaid Management Information System (MMIS), the Medicaid claims payment system, nightly. To ensure continuous enrollment during the PHE and the extended unwinding period, the DSS programmed the MEDES to continue coverage effective March 18, 2020, except in the case of a participant's death, out-of-state move, or voluntary closure.⁵

MEDES operations have been problematic since implementation in January 2014, and manual overrides have been made to individual cases to compensate for various system errors and limitations. DSS officials explained that for a period of time prior to June 2017, manual overrides were needed because the MEDES was incorrectly closing some eligible cases before a redetermination could be performed. To prevent the system from closing affected cases, DSS personnel manually overrode system controls. However, once these system limitations were corrected in June 2017, the DSS did not remove the previously established manual overrides. DSS officials explained in recent years, manual overrides are needed to correct MEDES errors related to initial eligibility determinations, which have substantially increased with the Medicaid expansion beginning in 2021.

Until corrected, the manual overrides prevent the MEDES from taking automatic actions such as identifying cases needing redetermination and closing cases. Participants with uncorrected manual overrides have remained enrolled, without a redetermination, since the override was created up to 10 years ago. As a result, cases for participants with manual overrides that did not meet eligibility requirements may not have been closed. In response to our prior year audit findings, in August 2023, the DSS developed a report

⁵ For some exceptions, the MEDES automatically closed the case. For other exceptions, an FSD eligibility benefit technician manually recorded the reason for closure and initiated closure of the participant's case in the MEDES.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

identifying the cases with manual overrides and began correcting the cases by removing overrides and performing redeterminations. The report of cases with manual overrides as of June 30, 2024, showed approximately 10,200 cases with overrides dating back to 2014. A comparison of the override report to the prior year override report showed during the year ended June 30, 2024, the DSS corrected the overrides for approximately 3,500 participants, and added overrides to an additional approximately 2,500 cases as shown in the following table (rounded to the nearest hundred).

Cases with overrides

Override Fiscal Year(s)	Balance June 30, 2023	Corrected	Balance June 30, 2024	Continuous Enrollment at June 30, 2024
2014 - 2017	8,500	(1,800)	6,700 ¹	7 - 10 years
2018 - 2023	2,700	(1,700)	1,000	1 - 6 years
2024	0	0	2,500	< 1 year
Totals	11,200	(3,500)	10,200	

¹ The Fiscal Year 2014-2017 group includes 38 cases with overrides in fiscal year 2014, 84 in fiscal year 2015, 435 in fiscal year 2016, and 6,129 in fiscal year 2017.

The failure to perform redeterminations for these participants, especially those who have not had redeterminations for many years, increases the risk of unallowable and/or unnecessary costs being paid from state and federal funds. The magnitude of this risk was increased by the waivers and extensions granted due to the PHE. For example, the 6,129 participants with overrides made in 2017, remained enrolled for over 7 years as of June 30, 2024, without any review for continued eligibility. When the PHE began on March 19, 2020, these participants had been enrolled without redetermination for over 2 years. During the PHE and extended unwinding period, these participants remained enrolled for at least another 5 years.

DSS officials estimate the process of removing overrides and correcting cases will be completed by July 2025. However, they also stated that the number of cases with system overrides will never be zero, because they will continue to bypass system controls to address system errors. Because our random sample of 60 (of approximately 1.3 million) MAGI-based participants enrolled during the year ended June 30, 2024, did not identify any participants with previously established overrides, no questioned costs were identified.

The failure to implement adequate internal controls to ensure ineligible participant cases are closed and redeterminations are performed as required can result in Medicaid and CHIP payments being made on behalf of ineligible individuals, which would be unallowable costs of the federal programs. Regulation 45 CFR Section 75.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Recommendation

The DSS through the MHD and the FSD continue to review and correct cases for participants with manual overrides in the MEDES, ensure redeterminations are completed for these participants as required, and close the cases of any ineligible participants. In addition, the DSS should ensure system controls are functioning as designed for these participants.

Auditee's Response

We disagree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement.

Auditor's Comment

The DSS Corrective Action Plan (CAP) states the DSS disagrees there is a significant deficiency in internal controls because no participants with manual overrides were identified in the audit sample. However, as noted in the finding, the DSS identified approximately 10,200 participants with manual overrides, or 1 percent of the MAGI-based participant population. The significant internal control weaknesses associated with these participants, who have remained continuously enrolled for up to 10 years, remain regardless of whether any of these participants were selected in the audit sample. The CAP states the DSS had processes in place to terminate eligibility for individuals who were deceased, voluntarily requested closure, or reported they have moved out of state. However, as noted in the finding, these processes were not applied to all participant cases with manual overrides; and instead of proactively reviewing cases as recommended in the past 5 audits, the DSS merely reacted when participants voluntarily submitted information.

Also in the CAP, the DSS argues they have received an extension to perform redeterminations for all participants, including the participants with manual overrides, through December 31, 2025. However, as noted in the finding, the extension does not exempt the DSS from the responsibility to terminate eligibility for participants who requested removal, moved out of state, or died. As shown in the table in the finding, at least 6,700 participants have remained continuously enrolled without a redetermination since we began recommending these cases be addressed. Until the manual overrides are corrected and/or applicable participants are reviewed, there will be continued circumvention of established internal controls and risk of improper payments on these cases.

State Agency:	Department of Social Services (DSS) - MO HealthNet Division (MHD) and Family Support Division (FSD)
Type of Finding:	Internal Control (Significant Deficiency) and Nonmaterial Noncompliance
Questioned Costs:	\$773
Compliance Requirements:	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, and Eligibility

As noted in our previous audit,⁶ the DSS does not have sufficient controls to ensure benefits are terminated for participants no longer eligible for the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP). A death match was not operating in the Medicaid Eligibility Determination and Enrollment System (MEDES) during the year ended June 30, 2024. Additionally, the DSS does not have adequate procedures to ensure cases are terminated when information requiring participant case termination is received. For 1 of 60 participant cases sampled, the DSS received information requiring participant case termination, but did not manually terminate the participant's eligibility in the applicable eligibility system. There were approximately 1.3 million Medicaid and CHIP participants as of June 30, 2024.

To ensure participants continue to be eligible for benefits, 42 CFR Sections 435.916(d) and 435.952(a) require the agency to redetermine eligibility whenever it receives information about a change in a participant's circumstances that may affect eligibility. The regulation requires termination of benefits when a participant no longer meets eligibility requirements.

During the period March 19, 2020, to March 31, 2023, the eligibility redetermination and most termination requirements were temporarily suspended in response to the COVID-19 Public Health Emergency (PHE), except for participants who requested removal, moved out of state, or died. Effective April 1, 2023, under the COVID-19/Annual Renewals Unwinding User Acceptance Test Plan, submitted to the DHHS - Centers for Medicare and Medicaid Services (DHHS-CMS), the DSS was to resume and complete redeterminations for all participants over a 14-month period, which ended June 30, 2024. In August 2024, the DSS received an extension of this deadline from the DHHS-CMS. Under the extension, the DSS is required to complete redeterminations for all participants, and terminate benefits for participants

⁶ See single audit report at <<https://auditor.mo.gov/AuditReport/ViewReport?report=2024063>>, finding number 2023-006.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

who no longer meet eligibility requirements, by December 31, 2025. Similar to the PHE period, during the extended unwinding period, the DSS is to terminate benefits for participants who requested removal, moved out of state, or died.

Termination of benefits originate from various sources including redeterminations, periodic matches against external records, or information voluntarily provided by the participant and/or their relatives. Certain match results automatically update participant eligibility in the eligibility systems.⁷ When other information is received, such as voluntarily-provided information or certain external match reports, a manual entry in the applicable eligibility system is generally required to initiate the termination and close the case.

Vital records death match As noted in the prior audit, the DSS monthly death match against Department of Health and Senior Services (DHSS) vital records information was not operating during the audit period. DSS officials indicated the death match, which automatically terminates eligibility for participants upon their death, was eliminated from the MEDES due to system problems sometime before July 2022. The DSS indicated they plan to resume use of the DHSS vital records death match in the MEDES in the future, but the anticipated resumption date is unknown. When operating, the monthly DHSS vital records death match serves as a key internal control to identify and terminate participants.

The DSS Corrective Action Plan (CAP) and Summary Schedule of Prior Audit Findings for prior audit finding number 2023-006 state although the DHSS vital records death match is not functional, the FAMIS death match with state records is functional for participants of the Supplemental Nutrition Assistance Program, Temporary Assistance for Needy Families, and/or Medicaid Aged, Blind and Disabled program. However, not all MEDES participants are subject to the death match in the FAMIS. If the participant does not receive other benefits from the DSS they are not in the FAMIS where the death match process occurs.

Information received As noted in the prior audit, the DSS does not have adequate procedures to ensure cases are terminated when information requiring participant case termination is received.

To test compliance with eligibility requirements, we reviewed eligibility documentation for a randomly-selected sample of 60 Medicaid and CHIP participants enrolled prior to the year ended June 30, 2024. Of the 60 participants, 1 qualified for one of the PHE/extended unwinding period

⁷ The MEDES is used for participants whose eligibility is based on their Modified Adjusted Gross Income, and the Family Assistance Management Information System (FAMIS) is used for Aged, Blind and Disabled program participants.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

exceptions requiring termination; however, the participant's case was not terminated in the MEDES. DSS personnel did not manually close the case when the contracted call center received 2 calls in March 2024 from the participant's head of household requesting voluntary closure of the case. Call center personnel documented both calls in the MEDES case notes; however, the case was not closed at that time. When a redetermination was subsequently performed in October 2024, during the extended unwinding period, DSS officials closed the case because the participant had moved out of state. Medicaid payments made on behalf of the participant after the request for voluntary closure totaled \$1,170 during the year ended June 30, 2024. We question the federal share, or \$773 (66.05 percent). Medicaid payments made during the period from the date of the first request for voluntary closure to the date of case closure, totaled \$1,374 (\$906 federal share and \$468 in state funding).

DSS officials indicated their procedures for terminating cases when relevant information is received by the call center are not automated and may not be adequate to ensure cases are terminated in these situations. DSS officials said they plan to develop new procedures to process information received from participants; however, implementation has been delayed due to competing priorities.

Conclusions

The failure to implement and enforce adequate internal controls to ensure ineligible participant cases are closed as required can result in Medicaid and CHIP payments being made on behalf of ineligible individuals, which would be unallowable costs of the federal programs and result in payments from state funds that should not have occurred. Regulation 45 CFR Section 75.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Recommendation

The DSS through the MHD and the FSD continue to review, strengthen, and enforce internal controls to ensure ineligible participant cases are closed when necessary and resume the DHSS vital records death match in the MEDES.

Auditee's Response

We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.

Auditor's Comment

The CAP states the DSS partially agrees with the finding because there was a procedure in place for contracted staff to submit a form instructing DSS staff to terminate and close a case; however, the CAP acknowledges the procedure was not followed for the case cited in the finding and there are no controls when instructions are documented in the case notes instead of the

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

form. This procedure is not truly "...in place..." when it is not being followed and there is no monitoring to ensure the procedure is being followed. Without a monitoring component, the internal control system is not properly designed to prevent, detect, or correct errors.

The CAP also states the FAMIS eligibility system death match with state records is functional and the annual review process in MEDES includes a death match with federal records. However, as noted in the finding, not all MEDES participants are in the FAMIS, and subject to the FAMIS death match, because they do not receive other DSS benefits. Additionally, the MEDES annual review process was not fully functional during the PHE/extended unwinding period.

2024-003.
Medicaid and CHIP
Eligibility Determination
Timeliness

Federal Agency:	Department of Health and Human Services
Federal Program:	93.767 COVID-19 - Children's Health Insurance Program

	2023 - 2305MO3002 and 2305MO5021
	2024 - 2405MO5021
	93.778 COVID-19 - Medical Assistance Program
	93.778 Medical Assistance Program
	2023 - 2305MO5MAP and 2305MO5ADM
	2024 - 2405MO5MAP and 2405MO5ADM
State Agency:	Department of Social Services (DSS) - MO
	HealthNet Division (MHD) and Family Support Division (FSD)
Type of Finding:	Internal Control (Significant Deficiency) and Nonmaterial Noncompliance
Compliance Requirement:	Eligibility

The DSS does not have sufficient controls to ensure eligibility determinations are performed within required timeframes for participants of the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP). Significant application processing delays noted in our two previous audits,⁸ continued and increased during the year ended June 30, 2024. In our test of compliance with eligibility requirements for the year ended June 30, 2024, we noted 29 of 120 eligibility determinations were made 2 to 168 days after the required timeframes and averaged 50 days late.

The FSD is responsible for determining the eligibility of Medicaid and CHIP participants. FSD eligibility benefit technicians perform the majority of eligibility determinations using participants' Modified Adjusted Gross

⁸ See single audit reports at <<https://auditor.mo.gov/AuditReport/Reports?SearchLocalState=35>>, finding numbers 2023-007 and 2022-003.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

Income (MAGI). For the remaining non-MAGI participants, including participants in the MO HealthNet Aged, Blind, and Disabled programs, eligibility is not based on their MAGI. As of June 30, 2024, there were approximately 988,000 MAGI-based participants and approximately 304,000 non-MAGI-based participants.

To ensure applicants are able to receive necessary medical care timely, 42 CFR Section 435.912(c)(3) requires new Medicaid eligibility determinations be made within 45 days of application and within 90 days of application for applicants who apply for benefits on the basis of disability. Regulation 42 CFR Section 435.912(e) allows exceptions to these timeframes in certain unusual circumstances, such as a doctor's delay. Regulation 42 CFR Section 457.340(d) requires the same timeliness standards for CHIP participants.

To test compliance with eligibility requirements, we reviewed randomly-selected samples of 60 MAGI-based participants, and 60 non-MAGI-based participants, all of which were new enrollments, subject to the timeliness requirements. The DSS did not meet timeliness requirements for 17 of the 60 MAGI-based eligibility determinations (28 percent) and 12 of the 60 non-MAGI-based determinations (20 percent). The 29 late determinations were made 2 to 168 days after the required 45-day or 90-day requirement, and averaged 50 days late.

DSS officials indicated the FSD was not able to process applications in a timely manner due to a number of continued workload and staffing challenges, including a backlog of new applications created by the expansion of Medicaid, increases in annual federal Health Insurance Marketplace open enrollment applications, unwinding of eligibility redetermination COVID-19 waivers, staffing shortages, and temporary reassignment of staff to work on other tasks.

In addition to noncompliance with federal requirements, the failure to ensure eligibility determinations are performed timely can result in potentially eligible participants not receiving necessary medical care. To ensure compliance with federal requirements, the DSS should implement and enforce adequate internal controls to ensure eligibility determinations are performed within required timeframes. Regulation 45 CFR Section 75.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Recommendation

The DSS through the MHD and the FSD review, strengthen, and enforce internal controls to ensure participant eligibility is determined within the required timeframes.

Type of Finding: Internal Control (Material Weakness)
Compliance Requirement: Other

As noted in our previous audit,⁹ the MHD does not have adequate controls to ensure proper management of receipts. The MHD does not adequately restrict user access within the Medicaid Management Information System and does not account for all cash control numbers to ensure all checks and money orders are properly deposited or returned to senders if the payment cannot be accepted.

During the year ended June 30, 2024, the MHD Financial Operations and Reporting Unit processed Medical Assistance Program (Medicaid) and Children's Health Insurance Program (CHIP) receipts totaling approximately \$1.5 billion. These receipts included checks and money orders received from participants, providers, and insurance companies for items such as premiums, reimbursements, and taxes. See Financial Statement Finding number FS2024-002 in the Annual Comprehensive Financial Report - Report on Internal Control, Compliance, and Other Matters (Report No. 2025-030¹⁰), issued in May 2025.

	2024 - 2405MO5MAP and 2405MO5ADM
State Agency:	Department of Social Services (DSS) - MO HealthNet Division (MHD)
Type of Finding:	Internal Control (Significant Deficiency) and Nonmaterial Noncompliance
Compliance Requirement:	Other

As similarly noted in our previous audit,¹¹ the MHD needs to strengthen controls to ensure Medicaid Management Information System (MMIS) access rights are removed for users no longer employed in positions needing access. Our sample of 60 MMIS users with access as of March 2024 identified 1 terminated user whose access was not removed for nearly 2 years. Approximately 1,500 various DSS employees and employees of DSS contractors have access to the MMIS.

The MMIS is the benefit claims processing and information retrieval system used by the MHD for the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP). DSS and contractor supervisors are instructed to notify MHD security officers of employee terminations so the MMIS access can be removed. The MHD Annual MMIS Security Review Procedures also require MHD security staff review all user account access annually to ensure access is still appropriate.

We randomly selected a sample of 60 active user accounts as of March 2024, when the DSS initiated the 2024 annual review. We identified 1 account (2 percent) for an individual terminated from the DSS in April and November 2022,¹² whose system access was not removed until May 2024. The individual had access to the MMIS for nearly 2 years while not employed by the DSS. DSS officials indicated in the 2023 annual review, personnel took no action when the supervisor did not respond to an inquiry regarding access for this individual. The individual was identified as terminated in the 2024 annual review and system access removed on May 31, 2024.

The Health Insurance Portability and Accountability Act (HIPAA) requires the state to follow 45 CFR Section 164.308(a)(3)(ii)(C), which requires implementation of procedures for terminating access to electronic protected

¹¹ See single audit report at <<https://auditor.mo.gov/AuditReport/ViewReport?report=2024063>>, finding number 2023-002.

¹² The individual was employed from October 1, 2018, to April 16, 2022, and July 11, 2022, to November 5, 2022. In total, the individual had access to the MMIS while not employed by the DSS, for more than 1 year and 9 months.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

health information when the employment of a workforce member ends. The failure to remove all terminated employees' and contractors' access on a timely basis increases the risk of unauthorized access and may compromise the confidentiality and integrity of MMIS data. Further, reviews of user access rights serve as an internal control over the administration of the Medicaid and the CHIP. Regulation 45 CFR Section 75.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Recommendation

The DSS through the MHD continue to strengthen internal controls to ensure inappropriate access to the MMIS, including that of terminated users, is removed in a timely manner.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

	93.778 Medical Assistance Program
State Agency:	Department of Social Services (DSS) - Division of Finance and Administrative Services (DFAS)
Type of Finding:	Internal Control (Significant Deficiency)
Compliance Requirements:	Activities Allowed or Unallowed and Allowable Costs/Cost Principles

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

As similarly noted in our 2 previous audits,¹³ DFAS controls and procedures to allocate some administrative costs to federal programs were not sufficient to prevent and/or detect errors. The DFAS did not include a type of fringe benefit costs in the AlloCAP system, totaling approximately \$2.66 million during the year ended June 30, 2024. As a result, allowable costs were paid from state funding, that could have been allocated to federal funding for various federal programs. The DSS estimated such allowable costs to total approximately 30 percent, or \$800,000.

The DFAS Grants Unit uses the AlloCAP system to identify, measure, and allocate costs to state and federal programs in accordance with its Public Assistance Cost Allocation Plan (PACAP). The PACAP, which is governed by Regulation 45 CFR Section 95 Subpart E, is updated by the DFAS quarterly and periodically reviewed and approved by the DHHS - Division of Cost Allocation Services and various federal grantor agencies. Each quarter, DFAS personnel import expenditure data from SAM II, the state's accounting system, into the AlloCAP system, which allocates costs to programs through allocation methodologies outlined in the department's PACAP. Payroll and fringe benefit expenditure data is imported from quarterly SAM II system reports generated by the Office of Administration (OA).

The quarterly OA payroll and fringe benefit expenditure reports for the 21-month period from July 2022 to March 2024, did not include expenditures associated with a retirement savings match fringe benefit offered to state employees beginning in July 2022. As a result, fringe benefit expenditures totaling approximately \$2.66 million during the 9 months ended March 31, 2024, were not included in the AlloCAP system and allocated to various federal programs. DSS officials estimated the \$2.66 million in costs not allocated during the year ended June 30, 2024, should have been allocated to 29 federal programs.¹⁴ DSS officials estimated the federal share of this amount to be approximately 30 percent, or approximately \$800,000. Therefore, for the year ended June 30, 2024, an estimated \$800,000 was paid from state funds that should have been paid from federal funds.

These errors were not detected because DFAS cost allocation procedures do not include procedures, such as a reconciliation between the quarterly OA payroll and fringe benefit reports and the SAM II system, to ensure completeness and accuracy of the information imported to the AlloCAP

¹³ See single audit reports at <<https://auditor.mo.gov/AuditReport/Reports?SearchLocalState=35>>, finding numbers 2023-008 and 2022-004.

¹⁴ The 29 programs include the 11 large programs listed at the beginning of the finding, plus 18 smaller programs. DSS officials indicated federal funding for some of the 29 federal programs was not affected because the DSS had already exhausted the block grant or administrative limits of those programs.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

system. After we notified the DSS of the errors, the DFAS worked with the OA to update the quarterly payroll and fringe benefit expenditure report to include previously unreported fringe benefit expenditures, and began allocating the costs to programs effective with the quarter ended June 30, 2024. The DFAS also revised the reports for the 9-month period ended March 31, 2024, and the year ended June 30, 2023, to allocate costs totaling approximately \$2.66 million, and approximately \$3.06 million, respectively, to the various programs.

We do not question any federal costs associated with the errors identified in this finding because there were no resulting over-allocations. If this cost allocation issue had not been identified during the audit, the DSS could have continued to spend allowable costs from state taxpayer funds instead of claiming to federal funding sources.

Without adequate internal controls and procedures over the allocation of administrative costs, there is increased risk that DFAS staff will not properly allocate an appropriate share of costs to federal programs, and that errors will not be detected timely. In addition, cost allocation errors could result in over-allocation of costs and potentially unallowable costs. Regulation 45 CFR Section 75.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Recommendation

The DSS through the DFAS continue to strengthen internal controls and procedures over the PACAP and the AlloCAP system to ensure costs are properly allocated to federal programs.

Auditee's Response

We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.

Auditor's Comment

The DSS Corrective Action Plan (CAP) states the DSS disagrees the finding should be reported as an internal control finding and the DSS believes the data integrity error is not indicative of the strength of current internal controls for cost allocation. The CAP further states oversight or reconciliation of source data provided by business units outside the DFAS Grants Unit is not an internal control function or within the objectives of the DSS Internal Control Plan (ICP) for cost allocation or the DFAS Grants Unit. The CAP states this is because "[i]mplementation of appropriate separation of duties and other internal control processes ensure SAM II data is not entered or maintained by the DFAS Grants Unit." The CAP argues "internal control findings for cost allocation should be relative to the approved objectives, data elements and processes outlined in the ICP for cost allocation or for which there is functional control."

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

While the DFAS Grants Unit is not responsible for source data prepared by other business units, it is responsible for adhering to the approved PACAP. Therefore, it is responsible for ensuring the reliability and validity of the source data and ensuring costs are properly allocated to federal programs. This is clearly stated in the DSS ICP, which states a DFAS Grants Unit objective is to "timely and accurately prepare and reconcile AlloCAP expenditures, payrolls and timesheets," and a related control activity is to "verify all source data documentation has been received timely and accurately for cost allocation processing and federal financial reporting." While segregation of duties is an important control activity within a strong internal control system, it does not replace or eliminate the need to implement control activities designed to ensure imported data is complete and accurate. The absence or insufficiency of such procedures increases the risk of reliance on inaccurate source data and continued cost allocation errors.

If this cost allocation issue had not been identified during the audit, based on the errors during the 9-month period ended March 31, 2024, we estimate at least \$1 million could have continued to be spent each year from state taxpayer funds instead of being claimed to federal funding sources.

2024-007
SLFRF Program
Subrecipient Monitoring

Federal Agency: Department of the Treasury (Treasury)
Federal Program: 21.027 COVID-19 - Coronavirus State and Local
Fiscal Recovery Funds
SLFRP4542
State Agency: Office of Administration (OA)
Type of Finding: A - Internal Control (Material Weakness) and
Material Noncompliance
B - Internal Control (Material Weakness) and
Material Noncompliance
Compliance Requirement: Subrecipient Monitoring

As noted in our previous audit,¹⁵ the OA has not established policies and procedures regarding monitoring subrecipients of the Coronavirus State and Local Fiscal Recovery Funds (SLFRF) program. As a result, the OA did not comply with the Uniform Guidance (UG) requirements regarding identifying and monitoring subrecipients of the SLFRF program.

The OA is the lead agency responsible for administering the SLFRF program. The purpose of the SLFRF program is to provide funding to respond to the COVID-19 public health emergency (PHE) or its negative impacts; respond to workers performing essential work during the PHE; provide government services, to the extent of the reduction in revenue due to the PHE (revenue

¹⁵ See single audit report at <<https://auditor.mo.gov/AuditReport/ViewReport?report=2024063>>, finding number 2023-010.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

replacement); make necessary investments in water, sewer, or broadband infrastructure; provide emergency relief from natural disasters or the negative economic impacts of natural disasters; and finance certain surface transportation and housing projects. The OA and various state agencies designed projects within the various allowable SLFRF program categories, and are responsible for administering the projects. The OA developed the American Rescue Plan Act Grant Management Portal (portal) to serve as the official repository of information and documentation supporting each SLFRF program project. The state agencies upload supporting documentation to the portal, including contracts, payment requests, and other supporting documentation. Most payments are made on a reimbursement basis. The OA reviews each payment request and processes the payments.

Some SLFRF program projects are administered through subawards. The OA establishes contracts with each subrecipient that outline various SLFRF program requirements, terms, and conditions. In the Schedule of Expenditures of Federal Awards (SEFA), the OA reported approximately \$186 million was passed through to subrecipients of the SLFRF program during the year ended June 30, 2024. This amount represents approximately 30 percent of the SLFRF program expenditures. These awards were administered through the OA and 7 other state agencies. However, as noted in finding point A., the amounts are not accurate due to subrecipient determination errors.

In response to our prior audit finding, the OA held a training for state agency personnel in August 2024 and sent a letter to state agencies in January 2025 (after the current audit period), covering agency responsibilities related to certain SLFRF program subrecipient monitoring requirements, such as subrecipient determinations and single audits.

Of the 7 state agencies that administered subawards reported in the SEFA during the year ended June 30, 2024, 4 administered the majority of the subawards, with payments totaling approximately \$181 million, or 97 percent of the total subrecipient payments reported in the SEFA. These 4 state agencies were the Department of Mental Health (DMH), Department of Higher Education and Workforce Development (DHEWD), Department of Natural Resources (DNR), and the Department of Economic Development (DED). Our review and testing of subrecipient monitoring procedures focused on the OA and the 4 state agencies. For the 4 state agencies, a total of 212 recipients were identified as subrecipients in the SEFA. However, as noted in finding point A., this count is not accurate due to subrecipient determination errors.

To understand the OA and state agency procedures, and to test compliance with subrecipient monitoring requirements, we randomly selected a sample of payments to 21 subrecipients for the 4 state agencies. In addition, we judgmentally selected an additional subrecipient at one of the agencies

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

because we had received citizen concerns regarding the administration of the subrecipient project.¹⁶ The 22 subrecipients were awarded a total of approximately \$230 million in SLFRF program funding and were paid a total of approximately \$77.9 million during the year ended June 30, 2024. We reviewed records in the portal supporting the subawards and 1 payment for each of the 22 subrecipients. We reviewed payments totaling approximately \$5.9 million.

For the judgmentally-selected subrecipient,¹⁷ we reviewed documentation of the state agency's monitoring of the subrecipient, including documentation of decisions to terminate (June 2024), not reinstate (December 2024), and reinstate (June 2025) the project. No significant issues were identified in this review.

A. Subrecipient Determination

The OA has not established policies and procedures to determine whether recipients¹⁸ of the SLFRF program funds are subrecipients or contractors. As a result, some recipients were incorrectly classified, and the OA lacks a complete and accurate listing of subrecipients.

Subrecipient monitoring requirements are outlined in the UG. Regulation 2 CFR Section 200.331 states a pass-through entity must make case-by-case determinations whether each agreement it makes for the disbursement of federal program funds casts the party receiving the funds in the role of a subrecipient or a contractor. The classification of a subrecipient¹⁹ is dependent on whether the entity is responsible for making eligibility determinations for assistance, has its performance measured in relation to whether the objectives of the federal program were met, has responsibility for programmatic decision-making, is responsible for adherence to federal program requirements, and uses the federal funds to carry out a program for its public purpose.

The OA did not evaluate each SLFRF program recipient for the UG criteria, and did not make a determination of whether the entity was a subrecipient or contractor. OA officials assigned responsibility for making these determinations and identifying subrecipients to the applicable state agencies, but did not provide clear guidance to the state agencies or ensure the state agencies properly performed and documented the determinations. One of the 4 state agencies had not documented their determinations for any of their

¹⁶ Of these 22 subrecipients, we tested 4, 5, 6, or 7 from each of the 4 state agencies selected.

¹⁷ This subrecipient was the Greater Lake of the Ozarks Convention and Visitor's Bureau for the Ballparks National Field Expansion project. The subaward, administered by the DED, was \$2,752,750, and fiscal year 2024 payments totaled \$878,645.

¹⁸ SLFRF program recipients can also be classified as "beneficiaries" when they receive funding as end users.

¹⁹ As defined by 2 CFR Section 200.331(a).

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

sampled subrecipients and another state agency had not documented its determinations for 2 of 4 sampled subrecipients.

Our analysis and review of the population of 212 subrecipients identified in the SEFA for the 4 state agencies revealed 1 state agency incorrectly recorded 2 contractors (office supply and electrical supply companies), with payments totaling \$6,509, as subrecipients.

The OA is the lead agency responsible for administering the SLFRF program. Without adequate procedures over subrecipient or contractor determinations, the OA lacks assurance that its subrecipients have been identified for subrecipient monitoring purposes.

The OA Corrective Action Plan and Summary Schedule of Prior Audit Findings for prior audit finding number 2023-010 state the OA disagrees that it needs to develop policies and procedures regarding subrecipient determinations since the requirements are already stated in the Uniform Guidance and SLFRF program regulations. However, documented policies and procedures are necessary to clearly communicate responsibilities to the state agencies, prevent misunderstandings, and demonstrate adequate internal controls over compliance with subrecipient monitoring requirements. Regulation 2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should be in compliance with guidance in *Standards for Internal Control in the Federal Government*, issued by the Comptroller General of the United States or the *Internal Control Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission." Paragraph 3.10 of the *Standards for Internal Control in the Federal Government*, also known as the Green Book, states, "[e]ffective documentation assists in management's design of internal control by establishing and communicating the who, what, when, where, and why of internal control execution to personnel. Documentation also provides a means to retain organizational knowledge and mitigate the risk of having that knowledge limited to a few personnel, as well as a means to communicate that knowledge as needed to external parties, such as external auditors." Paragraph 12.01 states, "[m]anagement should implement control activities through policies."

B. Subrecipient Monitoring

The OA did not implement an effective subrecipient monitoring program to monitor the SLFRF subrecipients. As a result, some subrecipient monitoring procedures were not performed as required by the UG.

Regulation 2 CFR Section 200.332(b) states that pass-through entities must evaluate each subrecipient's risk of noncompliance with federal statutes,

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

regulations, and the terms and conditions of the subaward for purposes of determining the appropriate subrecipient monitoring. Risk assessments may consider factors such as the subrecipient's prior experience with the same or similar subawards, the results of previous audits, whether the subrecipient has new personnel or new or substantially-changed systems, and the extent and results of federal awarding agency monitoring. Regulation 2 CFR Section 200.332(d) requires pass-through entities to monitor the activities of the subrecipient as necessary to ensure the subrecipient is in compliance with federal statutes, regulations, and the terms and conditions of the subaward; and that subaward performance goals are achieved. Pass-through entity monitoring of the subrecipient must include: (1) Reviewing financial and performance reports required by the pass-through entity; (2) following up and ensuring the subrecipient takes timely and appropriate action on all deficiencies pertaining to the federal award provided to the subrecipient from the pass-through entity detected through audits, on-site reviews, and written confirmation from the subrecipient, highlighting the status of actions planned or taken to address single audit findings related to the particular subaward; and (3) issuing a management decision for applicable findings pertaining only to the federal award provided to the subrecipient from the pass-through entity. Regulation 2 CFR Section 200.332(f) requires pass-through entities to verify that every subrecipient had a single audit when it is expected that the subrecipient spent \$750,000 or more during the subrecipient's fiscal year.

To monitor subrecipients of the SLFRF program, the OA relies on its pre-payment monitoring process. The OA does not perform any post-payment monitoring procedures, and relies on the state agencies to perform these procedures. The OA did not establish policies and procedures over the pre-payment review process and these reviews were not always clearly documented. In addition, the OA did not sufficiently communicate with the state agencies regarding subrecipient monitoring responsibilities or ensure the state agencies performed monitoring reviews. The information communicated to the state agencies in memos, emails, and periodic meetings and trainings with state agency personnel were not formalized in a policy and did not cover all relevant compliance requirements. In addition, the OA did not ensure risk assessments were performed or that subrecipients received single audits as required by the UG.

Risk assessments

The OA did not ensure required risk assessments for subrecipients of the SLFRF program were performed to determine the nature, timing, and extent of monitoring procedures necessary. Two of the 4 state agencies did not perform any risk assessments for the sampled subrecipients.

OA officials indicated risk assessment procedures are the responsibility of the state agencies; however, the OA did not provide clear guidance to the state agencies or ensure the state agencies performed and used risk assessments as required. In addition to complying with federal requirements, risk

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

OA pre-payment
monitoring procedures

assessments are necessary to ensure monitoring reviews are conducted with adequate frequency to help ensure subrecipient compliance with program requirements.

The OA has not developed policies and procedures outlining its pre-payment monitoring procedures and did not always clearly document monitoring performed prior to making payments.

In their review and approval of each SLFRF subrecipient payment request, OA officials stated they thoroughly review supporting documentation uploaded to the portal by the state agencies, including contracts, bid documentation, invoices, and other supporting documentation. OA officials further stated they review for compliance with certain types of SLFRF program compliance requirements, including allowable activities and allowable costs, procurement, and period of performance. However, the OA does not clearly document review procedures performed. For each of the 22 subrecipients sampled, the portal included documentation pertaining to some, but not all of the applicable compliance requirements. For example, for 5 subrecipient payments reviewed (for 2 state agencies), the portal included summary invoices, but did not include sufficiently detailed documentation showing compliance with the allowable activities and allowable costs and period of performance compliance requirements.

Without documented policies and procedures and documentation of prepayment monitoring procedures performed, the OA cannot demonstrate subrecipient monitoring procedures were performed.

Additional monitoring
procedures

The OA does not monitor subrecipients beyond the pre-payment monitoring process previously described. OA officials stated post-payment monitoring procedures are the responsibility of the state agencies; however, the OA did not sufficiently communicate with the agencies regarding subrecipient monitoring responsibilities or ensure the agencies performed monitoring reviews.

Our review of subrecipient monitoring procedures at the 4 state agencies noted 3 agencies had developed written policies or procedures regarding subrecipient monitoring. We also noted state agency review procedures varied significantly, did not cover all significant compliance requirements, and were not always documented. While officials of some state agencies indicated they perform detailed pre-payment reviews for compliance with allowable activities and allowable costs, period of performance, and/or local match requirements, officials of some agencies explained they and the OA sometimes review only summary invoices of expenditures from the subrecipients prior to payment. Additionally, officials of all state agencies described various post-payment review procedures such as reviews for compliance with certain requirements, reviews of documentation supporting

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

expenditures of funds advanced to the subrecipient, billing reviews of documentation supporting summary invoices, and/or reviews of the final work product; however, none of the agencies performed all of these procedures. In addition, the agencies could not always provide documentation such reviews had been performed for the sampled items.

In addition to noncompliance with subrecipient monitoring requirements, the failure to ensure sufficient monitoring procedures were performed and documented increases the risk that subrecipient noncompliance will not be prevented or detected timely.

Subrecipient audits

The OA did not ensure the required reviews of single audit reports for applicable SLFRF program subrecipients were conducted.

OA officials indicated the state agencies are responsible for ensuring subrecipients had a single audit, and reviewing and following up on the audit reports; however, the OA did not ensure the state agencies performed these procedures. All 4 agencies described procedures to monitor and follow up on single audit reports.

Each subrecipient that spent in excess of \$750,000 in federal awards during its fiscal year must obtain a single audit in accordance with the UG within 9 months after the end of the fiscal year. In addition to noncompliance with subrecipient monitoring requirements, the failure to ensure subrecipients received required audits and to review and follow up on the related audit reports, increases the risk that subrecipient noncompliance will not be identified and addressed.

Conclusions

The following table summarizes the results of our sampling at the 4 state agencies, presented in finding points A. and B. Instances in which a criterion was partially met are shown as the applicable number of items sampled.

Criteria	DMH	DHEWD	DNR	DED
Documented Subrecipient Determinations	2 of 4 sampled	N	Y	Y
Accurate Subrecipient Determinations	Y	N	Y	Y
Documented Risk Assessments	N	N	Y	Y
Detailed Invoices	0 of 4 sampled	Y	Y	6 of 7 sampled
Written Monitoring Procedures	N	Y	Y	Y

Y - Yes

N - No

N/A - Not applicable

The OA is the lead agency responsible for administering the SLFRF program. OA officials indicated the state agencies were responsible for some of the

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

subrecipient monitoring requirements. However, without clear communication and monitoring of these responsibilities, the OA lacks assurance of compliance with all subrecipient monitoring requirements.

Without an established subrecipient monitoring program, the OA cannot provide assurance subrecipients are complying with SLFRF program requirements and there is increased risk that noncompliance with program requirements or subaward terms and conditions will go undetected, or that subaward performance goals will not be achieved. In addition, a subrecipient monitoring program is necessary to demonstrate adequate internal controls over compliance with subrecipient monitoring requirements. Regulation 2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-federal entity is managing that Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should be in compliance with guidance in *Standards for Internal Control in the Federal Government*, issued by the Comptroller General of the United States or the *Internal Control Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission." Paragraph 3.10 of the *Standards for Internal Control in the Federal Government*, also known as the Green Book, states, "[e]ffective documentation assists in management's design of internal control by establishing and communicating the who, what, when, where, and why of internal control execution to personnel. Documentation also provides a means to retain organizational knowledge and mitigate the risk of having that knowledge limited to a few personnel, as well as a means to communicate that knowledge as needed to external parties, such as external auditors." Paragraph 12.01 states, "[m]anagement should implement control activities through policies."

Recommendations

The OA:

- A. Develop policies and procedures to determine whether recipients of SLFRF program funds are subrecipients or contractors. Continue to work with the state agencies to ensure accurate and documented determinations are prepared for all recipients, and modify subrecipient records as needed.
- B. Develop a subrecipient monitoring program in accordance with the Uniform Guidance that includes performing risk assessments for each subrecipient for the purposes of determining the appropriate subrecipient monitoring procedures; monitoring for compliance with federal requirements and subaward terms and conditions, and ensuring subaward performance goals are achieved; and reviewing subrecipient single audit reports. Ensure tasks delegated to state agencies are adequately communicated and establish procedures to ensure those tasks are appropriately completed.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

Auditee's Response

- A. *We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.*
- B. *We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.*

Auditor's Comment

The OA Corrective Action Plan states the OA partially agrees with Finding point A. because the OA completed training for all agencies regarding agency subrecipient monitoring responsibilities and distributed a memo instructing the agencies to develop subrecipient monitoring policies and procedures. However, as noted in the audit finding, the training was held and letter was sent to state agencies after the current audit period. Because the OA took no corrective action prior to or during the audit period, the internal control weaknesses and noncompliance occurred again in the current audit period.

2024-008.
CACFP Subrecipient
Reimbursements

Federal Agency:	United States Department of Agriculture (USDA)
Federal Program:	10.558 Child and Adult Care Food Program (CACFP) 2022, 2023, 2024 - CACFP 2022, 2023, 2024 - CACFP-CIL 2023 and 2024 - CACFP-SPON
State Agency:	Department of Health and Senior Services (DHSS) - Bureau of Community Food and Nutrition Assistance (BCFNA)
Type of Finding:	Internal Control (Material Weakness) and Material Noncompliance
Questioned Costs:	\$0
Compliance Requirements:	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, and Subrecipient Monitoring

As noted in our previous audit,²⁰ during the year ended June 30, 2024, the BCFNA did not have sufficient controls and procedures to ensure CACFP reimbursements to subrecipients were allowable and supported with sufficient documentation, as required by federal regulations. As a result, significant unallowable and unsupported reimbursements were made without being prevented or detected timely.

The BCFNA administers the CACFP through contracts with child and adult care centers and sponsors of centers (subrecipients) that provide meals to

²⁰ See single audit report at <<https://auditor.mo.gov/AuditReport/ViewReport?report=2024063>>, finding number 2023-012.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

eligible children and adults under their care. The facilities/sponsors determine eligibility of each participant for free or reduced price meals, and are reimbursed at fixed rates for the number and type of meals served. During the year ended June 30, 2024, the BCFNA paid over 780 facilities/sponsors approximately \$67.6 million for meal services. Disbursements to facilities/sponsors represented approximately 98 percent of the program's expenditures.

To receive reimbursement for meals provided to eligible participants, CACFP facilities/sponsors submit monthly claims through the CNPWeb (CNP) claim system. The CNP system has edit checks to prevent and detect certain claim errors, such as meal claims that exceed facility/sponsor total enrollment and/or license capacity, or claims for types of meals the facility/sponsor was not approved to serve. Claims that pass the edit checks are reviewed by a BCFNA Public Health Program Associate, while claims that do not pass the edit checks are returned to the facility/sponsor for revision. Facilities/sponsors are not required to provide supporting documentation with their claim but are required to maintain and retain detailed records, including meal count, attendance, enrollment and eligibility determination records, receipt slips, menus, and other documentation to support meals claimed. Facility/sponsor records are maintained on a monthly basis, thus reviews or verifications of those records generally cover the entire month as opposed to a shorter period of time. BCFNA nutritionists perform periodic monitoring reviews of the facilities/sponsors and disallow costs associated with claim errors identified. These reviews have identified significant issues and claim errors, including some potentially fraudulent activity, and led to over 15 contract terminations in recent years.²¹

Since meal reimbursements are made without any supporting documentation, the BCFNA relies on system edit checks and subrecipient monitoring procedures to prevent and detect meal reimbursement claim errors. However, these edits and procedures alone were not sufficient to prevent and detect unallowable and unsupported meal reimbursement claims on a timely basis. The BCFNA has not implemented procedures to review supporting documentation, on a test basis, except for testing performed during routine monitoring reviews generally conducted once every 1 to 3 years for each facility/sponsor, and technical assistance reviews performed at the request of the facility/sponsor. Additionally, as noted in finding number 2024-009, weaknesses in the BCFNA monitoring procedures and noncompliance with subrecipient monitoring requirements were identified.

²¹ See DHSS Child and Adult Care Food Program and Summer Food Service Program audit report at <<https://auditor.mo.gov/AuditReport/ViewReport?report=2025032>>.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

Our review of documentation supporting a randomly-selected sample of 60 BCFNA monitoring reviews conducted for 60 CACFP facilities/sponsors during the year ended June 30, 2024, noted BCFNA disallowances (overclaims/underclaims) in 43 of 59 (73 percent) reviews for which meal reimbursement claims were tested.²² Overclaims totaled \$48,508 (40 reviews) and underclaims totaled \$10,144 (3 reviews), with a net overclaim of \$38,364, or at least 7 percent of claims tested by the BCFNA.²³ Disallowances resulted from various errors including incorrect or unsupported eligibility determinations, meal counts, attendance records, or noncompliance associated with menus and food purchases. The BCFNA adjusted subsequent claims to recoup or reimburse for the identified overclaims/underclaims.^{24, 25} Erroneous and unsupported reimbursements represent at least 7 percent of meal reimbursements tested. If similar errors were made on the remaining population of CACFP meal reimbursements totaling approximately \$67 million, unallowable costs could be significant.

Without sufficient controls to ensure the accuracy of facility/sponsor meal reimbursement claims, the BCFNA cannot demonstrate adequate internal controls to ensure CACFP costs are allowable and supported, and the risk of paying unsupported and unallowable claims will continue. Regulation 7 CFR Section 226.7(k) requires the BCFNA to establish procedures for institutions to properly submit claims for reimbursement. Such procedures must include edit checks, including but not limited to, ensuring payments are made only for approved meal types and that the number of meals for which reimbursement is provided does not exceed the product of the total enrollment times operating days times approved meal types. Regulation 2 CFR Section 200.403 (within 2 CFR Part 200, known as the Uniform Guidance), provides that costs charged to federal programs should be necessary and reasonable for the performance of the federal award and adequately documented. Furthermore, 2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-federal entity is managing that Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should be in compliance with guidance in *Standards for Internal Control in the Federal*

²² The BCFNA did not quantify overclaim amounts for 1 review that resulted in termination. See finding number 2024-009.

²³ For each facility/sponsor reviewed, the BCFNA tested claims within a test month, and claims totaled \$537,466 during the test months.

²⁴ For overclaims, the BCFNA recoups amounts in excess of a \$600 threshold, established in accordance with 7 CFR Section 226.8(f) which states in conducting management evaluations, reviews, or audits, the state agency or the USDA may disregard an overpayment if the overpayment does not exceed \$600. No overpayment is to be disregarded where there is substantial evidence of violations of criminal law or civil fraud statutes.

²⁵ If overpayments of \$600 or less are excluded, the error rate is at least 6 percent.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

Government, issued by the Comptroller General of the United States or the *Internal Control Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission."

The DHSS Summary Schedule of Prior Audit Findings for prior audit finding number 2023-012, submitted in July 2025, states the DHSS disagreed with the finding and did not take corrective action. However, an April 2025 email from a USDA - Food and Nutrition Service (USDA-FNS) official to the DHSS regarding the prior audit finding, provided to auditors by DHSS officials, indicates some corrective action was taken. The email states to prevent overclaims, the USDA-FNS expects the BCFNA to have internal controls that focus on the areas of subrecipient screening during the application process and training; and the USDA-FNS validated the DHSS's actions to improve internal control processes in these specific areas.

The April 2025, USDA-FNS email also states the prior audit finding was not sustained by the FNS because (1) the FNS does not require or expect the BCFNA to validate claims at the time of claim submission, and (2) the BCFNA was in compliance with edit check requirements. While the prior audit finding neither recommended the BCFNA validate claims at the time of submission nor noted noncompliance with edit check requirements, it did recommend the BCFNA strengthen internal controls over meal reimbursements, such as those recommended and validated by the USDA-FNS.

Finding classification

This finding is classified as a material weakness in internal control and material noncompliance with the federal activities allowed, allowable costs, and subrecipient monitoring requirements.

The noncompliance identified in the finding is material based on the results of our audit sample, which identified at least 7 percent of subrecipient meal reimbursements tested by the BCFNA were not in compliance with federal requirements. The 7 percent error rate exceeds our audit materiality threshold of 4 percent. While the errors identified in the finding were corrected, similar material noncompliance in the remainder of the payments not tested is likely.

Our decisions regarding the classification of the internal control deficiencies were made in accordance with AU-C Section 935, Compliance Audits, and the *AICPA Audit Guide: Government Auditing Standards and Single Audits* (Audit Guide). The Audit Guide provides the following definitions regarding internal control deficiencies: "A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis." "A *material weakness in internal control over compliance* is a

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis." "A reasonable possibility exists when the likelihood of the event is either *reasonably possible* or *probable* ..." *Reasonably possible* is "[t]he chance of the future event or events occurring is more than remote but less than likely." *Probable* means "[t]he future event or events are likely to occur."

The failure to design and implement adequate controls and procedures to ensure CACFP reimbursements to subrecipients are allowable and supported led to material noncompliance with the applicable requirements. The BCFNA's controls failed to prevent the material noncompliance identified. While the BCFNA's controls detected and corrected the payment errors identified, the detection and correction was not timely, occurring up to 3 years after the payments were made. Also, the detection and correction was limited to only 1 test month per subrecipient without any attempt to identify and correct noncompliance that occurred beyond the test month because, as noted at finding number 2024-009, the BCFNA's controls do not provide for expanded testing when significant errors are identified. Therefore, similar, material noncompliance in the remainder of the payments not tested is likely. Further, because the internal control deficiencies have not been corrected, similar, material noncompliance in future payments is likely. For these reasons, the deficiencies are considered a material weakness.

Recommendation

The DHSS through the BCNFA continue to strengthen internal controls over meal reimbursements to CACFP facilities/sponsors to ensure costs are allowable and supported.

Auditee's Response

We disagree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement.

Auditor's Comment

The DHSS Corrective Action Plan (CAP) states the DHSS disagrees with the finding and believes no corrective action is required because the prior year finding (finding number 2023-012) was not sustained by the USDA-FNS. However, as noted in the finding, an April 2025 email from a USDA-FNS official to the DHSS regarding the prior audit finding indicates some corrective action was made and validated by the USDA-FNS. Such corrective action was made after the current (fiscal year 2024) audit period.

As noted in the finding, the prior audit finding recommended the BCFNA strengthen internal controls over meal reimbursements, such as those recommended and validated by the USDA-FNS. While the DHSS did not provide the State Auditor's Office information regarding the corrective action taken, any new procedures would have been implemented after the audit period, and will be subject to subsequent audits. Because the DHSS took no corrective action prior to or during the audit period, this finding is valid.

2023 and 2024 - CACFP-SPON
State Agency: Department of Health and Senior Services (DHSS) -
Bureau of Community Food and Nutrition Assistance
(BCFNA)
Type of Finding: A - Internal Control (Significant Deficiency) and
Nonmaterial Noncompliance
B - Internal Control (Material Weakness) and
Material Noncompliance
Questioned Costs: Unknown
Compliance Requirement: Subrecipient Monitoring

As noted in our previous audit,²⁶ during the year ended June 30, 2024, BCFNA subrecipient risk assessment and monitoring procedures were not in compliance with subrecipient monitoring requirements and were not sufficient to ensure CACFP subrecipient compliance with program requirements. During the year ended June 30, 2024, the BCFNA disbursed approximately \$67.6 million to over 780 CACFP subrecipients, which consist of child and adult care centers and sponsors of centers. Disbursements to subrecipients represented approximately 98 percent of the program's expenditures.

As part of its pass-through responsibilities, 7 CFR Section 226.6(a)(5), the BCFNA is required to ensure subrecipients effectively operate the program. Regulation 2 CFR Section 200.332(b) requires pass-through entities to evaluate each subrecipient's risk of noncompliance with federal statutes, regulations, and the terms and conditions of the subaward for purposes of determining the appropriate subrecipient monitoring. Regulation 2 CFR Section 200.332(d) requires pass-through entities to monitor the activities of the subrecipient as necessary to ensure the subaward is used for authorized purposes, complies with the terms and conditions of the subaward, and achieves performance goals.

The BCFNA's subrecipient monitoring process, outlined in the Internal Nutritionist Manual, provides the requirements for monitoring the CACFP facilities/sponsors. The manual provides the planned frequency and type of monitoring activities, monitoring methods, and corrective action

²⁶ See single audit report at <<https://auditor.mo.gov/AuditReport/ViewReport?report=2024063>>, finding number 2023-013.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

requirements. The manual requires the preparation of a risk assessment at the end of each monitoring review that assigns a grade of A, B, B-, or C to the facility/sponsor based on the number and severity of deficiencies and findings. Facilities/sponsors that receive a C grade are determined to be "seriously deficient." The assigned grade determines the required timing of future monitoring reviews of the facility/sponsor. Facilities/sponsors with an A grade will be next monitored in 3 years, a B grade within 2 years, a B-grade within 6 months to 1 year, and a C grade within 90 days.

During each monitoring review, BCFNA personnel review documentation supporting a sample of claims during a test month. Any identified errors and associated overclaims/underclaims exceeding established thresholds²⁷ are recouped/reimbursed in the facility's/sponsor's future claims. When reviews identify noncompliance, facilities/sponsors are required to prepare and submit a Corrective Action Plan (CAP) to the BCFNA. In addition, as noted at finding number 2024-008, the BCFNA relies on these subrecipient monitoring procedures to prevent and detect meal reimbursement claim errors. Monitoring reviews have identified significant issues and claim errors, including some potentially fraudulent activity, and led to over 15 contract terminations in recent years.²⁸

To test compliance with subrecipient monitoring requirements, and to evaluate the effectiveness of BCFNA monitoring procedures, we reviewed and analyzed a randomly-selected sample of 60 BCFNA monitoring reviews conducted for 60 CACFP facilities/sponsors during the year ended June 30, 2024. While our review found the sample monitoring reviews were performed in accordance with the policies and procedures outlined in the Internal Nutritionist Manual, we identified areas in which these policies and procedures could be strengthened and improved to ensure facilities/sponsors comply with program requirements and submit proper claims.

Our review and analysis of the 60 sampled monitoring reviews noted the monitoring reviews identified significant errors, noncompliance, disallowances, and overclaims. Our comparison of the sampled reviews to prior reviews noted deficient facilities/sponsors generally had continued deficiencies and little improvement from prior reviews, as follows:

²⁷ For overclaims, the BCFNA recoups amounts in excess of a \$600 threshold, established in accordance with 7 CFR Section 226.8(f) which states in conducting management evaluations, reviews, or audits, the state agency or the USDA may disregard an overpayment if the overpayment does not exceed \$600. No overpayment is to be disregarded where there is substantial evidence of violations of criminal law or civil fraud statutes.

²⁸ See DHSS Child and Adult Care Food Program and Summer Food Service Program audit report at <<https://auditor.mo.gov/AuditReport/ViewReport?report=2025032>>.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

- Of the 60 sampled, 32 facilities/sponsors received an A grade, while 28 received grades of B, B-, or C.
- Of the 24 facilities/sponsors that received grades of B, B-, or C, and had a prior review,²⁹ 21 (88 percent)³⁰ received the same or lower grade than the prior review.
- Of the 4 facilities/sponsors that received a C grade and had a prior review, 2 (50 percent) received the same grade as the prior review, and 2 (50 percent) received a lower grade.
- Of the 7 facilities/sponsors that received a C grade, 4 were terminated as a result of the review or as a result of a subsequent 90-day follow-up review.
- For 43 of 59 (73 percent) monitoring reviews for which the BCFNA tested claims³¹ (with claims totaling \$537,466 during the test months), the BCFNA identified overclaims totaling \$48,508 and underclaims totaling \$10,144, netting to \$38,364, or at least 7 percent of the reimbursements tested.³²

A. Risk Assessments

The BCFNA prepares and uses risk assessments to determine the extent of monitoring necessary for each facility/sponsor. However, the risk assessments prepared during the year ended June 30, 2024, considered only the previous monitoring review grade (conducted up to 3 years previously), and did not consider other pertinent risk factors outlined in federal regulations. Regulation 2 CFR Section 200.332(b) suggests risk assessments should consider the subrecipient's prior experience with the same or similar subawards, the results of previous audits, whether the subrecipient has new personnel or new or substantially-changed systems, and the extent and results of federal awarding agency monitoring.

While federal regulations provide the BCFNA discretion in selecting risk factors to consider, limiting risk assessments to only one risk factor and ignoring other relevant factors hinders the BCFNA's ability to identify red flags and fraud risk factors and properly assess facility/sponsor risk of noncompliance. Sufficient risk assessments are necessary to ensure

²⁹ There were no prior reviews for 3 facilities/sponsors that received a C grade and for 1 that received a B grade.

³⁰ Of the 24 facilities/sponsors, 3 (13 percent) received a higher grade than the prior review, 7 (29 percent) received the same grade, and 14 (58 percent) received a lower grade.

³¹ The BCFNA did not quantify overclaim amounts for 1 review that resulted in termination, as subsequently discussed in this finding.

³² If overpayments of \$600 or less are excluded, the error rate is at least 6 percent.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

monitoring reviews are conducted with adequate frequency to help ensure subrecipient compliance with program requirements.

Finding classification

This finding is classified as a significant deficiency in internal control and nonmaterial noncompliance with the federal subrecipient monitoring requirements regarding risk assessments.

As noted in the finding, BCFNA risk assessments prepared during the year ended June 30, 2024, do not meet the spirit of the federal regulation, which suggests the extent and level of monitoring for each subrecipient be based on various risk factors. As a result, there is a risk that monitoring reviews will not be performed as frequently and thoroughly as needed to identify and address subrecipient noncompliance. Because the BCFNA does perform risk assessments for each subrecipient and does monitor the subrecipients with lower grades with more frequency, the finding did not rise to a level of material noncompliance, and was therefore considered nonmaterial noncompliance.

Our decisions regarding the classification of the internal control deficiencies were made in accordance with AU-C Section 935, Compliance Audits and the *AICPA Audit Guide: Government Auditing Standards and Single Audits* (Audit Guide). In addition to the definitions outlined in part B of this finding, the Audit Guide states "[a] *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance." Our evaluation of the deficiencies for the possibility and magnitude of potential noncompliance determined the deficiencies are considered a significant deficiency.

B. Subrecipient Monitoring
Procedures

Our review of BCFNA subrecipient monitoring procedures during the year ended June 30, 2024, noted areas that should be strengthened and improved.

Corrective action plans

BCFNA CAP review procedures were not adequate to ensure facilities/sponsors made and/or planned sufficient corrective actions to address noncompliance, as required by federal regulations.

The Internal Nutritionist Manual requires nutritionists to review subrecipient CAPs outlining corrective actions taken or planned for completeness and to ensure the required action items are adequately addressed. However, during the year ended June 30, 2024, this review was generally performed without verifying the accuracy of the CAP information through review of supporting documentation, testing, or other methods. The BCFNA did not require submission of supporting documentation of corrective actions taken or planned. BCFNA officials indicated they may request supporting

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

documentation on occasion depending on the complexity of the finding, and they verify the CAP during 90-day follow-up reviews of "seriously deficient" facilities/sponsors.

Of the 60 monitoring reviews in our sample, 49 required a CAP. The monitoring review documentation indicated the CAP was verified during 7 of the 90-day follow-up reviews, but there was no documentation that the nutritionist verified the CAP information for any of the remaining 42 reviews (86 percent of the 49 reviews that required a CAP). Furthermore, our review of monitoring review documentation noted numerous instances in which the prior year CAP indicated a specific deficiency was addressed, but the same deficiency was again noted in the subsequent review.

Regulation 2 CFR Section 200.332(d) provides that monitoring must include following up and ensuring the subrecipient takes timely and appropriate action on all deficiencies identified. The USDA CACFP handbook, *Monitoring Handbook for State Agencies* (USDA Monitoring Handbook), provides that follow-up reviews (on-site or desk reviews of paperwork) may be conducted any time corrective action is required to ensure the facility/sponsor has completely corrected the review findings, according to its approved corrective action response. Example CAP forms included in the USDA Handbook require facilities/sponsors to submit supporting documentation along with the CAP to verify corrections were made or will be implemented. The USDA CACFP handbook, *Serious Deficiency, Suspension, & Appeals for State Agencies & Sponsoring Organizations*, provides that facilities/sponsors deemed "seriously deficient," must submit additional supporting documentation with the CAP to document that corrective actions have occurred; this might include copies of income eligibility forms, enrollment rosters, staff training documentation, site monitoring reports, menus, child nutrition labels or manufacturers' product analysis sheets or recipes, attendance records, meal count forms, and itemized food receipts.

Without verifying information in CAPs submitted, the BCFNA cannot demonstrate compliance with federal regulations and it lacks assurance the facilities/sponsors took timely and appropriate action on all deficiencies identified during monitoring reviews. In addition, there is increased risk that deficiencies will not be corrected and will continue without detection.

In August 2024, the BCFNA implemented an electronic system for facilities/sponsors to upload documentation supporting their CAPs. In May 2025, the BCFNA updated the Internal Nutritionist Manual to provide for reviews of the supporting documentation to verify facilities/sponsors implemented corrective action.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

Claims testing

The Internal Nutritionist Manual and monitoring practices provide for testing of a sample of claims within only 1 test month during each monitoring review, and do not provide for expanded testing when significant errors are identified.

BCFNA personnel indicated monitoring reviews are limited to only 1 test month because the USDA Monitoring Handbook does not require expanded testing of records beyond 1 month. While the BCFNA performs additional testing during 90-day follow-up reviews for facilities/sponsors deemed "seriously deficient," additional testing is not performed in any other situation. For example, one facility had a 33 percent overpayment rate and received a B grade while another facility had a 100 percent overpayment rate and received a B- grade; however, additional testing was not performed for either facility.

The USDA Monitoring Handbook suggests testing activities during 1 test month, and also suggests the state agency may determine additional review is warranted and review records beyond the test month to determine the extent of the noncompliance. When significant errors are identified, additional testing would help BCFNA nutritionists determine the extent that instances of noncompliance are isolated versus pervasive. Such information would be valuable to the overall conclusions and grade assigned to the review, and in decisions regarding subsequent monitoring.

Overclaim recoupment

BCFNA subrecipient monitoring procedures do not provide for identification and pursuit of recoupment of all overpayments associated with errors identified during monitoring reviews.

When overclaims due to noncompliance with eligibility requirements are identified during monitoring reviews, the BCFNA only identifies and seeks recoupment for the overclaims made during the test month. Overclaims associated with eligibility errors begin at the time the eligibility determination was made and continue until the error is discovered. Although the BCFNA is aware noncompliance occurred during the month(s) before the test month, the BCFNA does not attempt to identify those overclaims.

In addition, when a facility/sponsor is terminated, the BCFNA does not always identify or seek recoupment of overclaim amounts. In our sample of 60 monitoring reviews, the contract for 1 sponsor was terminated as a result of a 90-day follow-up review. For this sponsor, in the review prior to the 90-day follow-up review, the BCFNA identified and recouped overclaims totaling \$2,278, or 100 percent of total claims tested. In the subsequent 90-day follow-up review significant claim errors were identified in the test month claims, which totaled \$1,961; however, the test month claims were not fully tested, and overclaims were not identified or recouped. Any overclaims not identified and recouped from this terminated sponsor would be considered questioned costs; however, those questioned costs are unknown.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

BCFNA officials indicated they do not pursue recoupment of overclaims beyond the test month because this practice is allowed by the USDA. They indicated they pursue recoupment of overclaims for facilities/sponsors with terminated contracts on a case-by-case basis, considering various factors. However, 7 CFR Section 226.14 provides that state agencies shall disallow and recover any portion of a claim for reimbursement not properly payable, including claims not made in accordance with recordkeeping requirements. Pursuing full recoupment would hold facilities/sponsors accountable for all overclaims and would serve as a deterrent to future errors, noncompliance, and overclaims. Furthermore, without procedures to identify and recoup all overclaims, there is a risk that significant overclaims will go undetected and unrecouped, and questioned costs could be significant.

Conclusions

In addition to complying with federal requirements, strong subrecipient monitoring procedures are necessary to ensure facilities/sponsors comply with program requirements, submit proper claims, and address deficiencies identified. Without strong internal controls, there is increased risk of noncompliance, errors, fraud, waste, and abuse of federal funds. Strong monitoring procedures would ensure facilities/sponsors are held accountable for, and correct, errors and noncompliance identified.

Regulation 2 CFR Section 200.332(g) requires pass-through entities to consider whether the results of the subrecipient's audits, on-site reviews, or other monitoring indicate conditions that necessitate adjustments to the pass-through entity's own records. Furthermore, 2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-federal entity is managing that Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should be in compliance with guidance in *Standards for Internal Control in the Federal Government*, issued by the Comptroller General of the United States or the *Internal Control Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission."

Finding classification

This finding is classified as a material weakness in internal control and material noncompliance with the federal subrecipient monitoring requirements.

Our audit of the BCFNA's compliance with federal subrecipient monitoring requirements concluded the BCFNA did not materially comply with federal requirements to ensure subrecipients effectively operate the CACFP and to monitor the activities of the subrecipient as necessary to ensure the subaward is used for authorized purposes, complies with the terms and conditions of the subaward, and achieves performance goals. This conclusion is based on the

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

facts, deficiencies, and noncompliance stated in the finding, including the following:

- (1) Disbursements to subrecipients represented approximately 98 percent of the CACFP expenditures.
- (2) BCFNA subrecipient monitoring reviews identified significant errors, noncompliance, disallowances, and overclaims; and deficiencies identified often continued for years with little improvement from review to review. The 7 percent subrecipient payment error rate identified by the BCFNA, which exceeds our audit materiality threshold of 4 percent, along with the high rate of continued noncompliance, serve as indicators of the ineffectiveness of the BCFNA monitoring process.
- (3) The BCFNA did not comply with specific components of federal subrecipient monitoring requirements, including properly following up and ensuring subrecipients take timely and appropriate action on all deficiencies identified and disallowing and recovering improper payments.
- (4) Multiple deficiencies in monitoring procedures were identified, including the previously-listed deficiencies and inadequate payment testing.

In conducting a single audit in accordance with 2 CFR Part 200 (Uniform Guidance), auditors are required by 2 CFR Section 200.514(d)(1)(2), to determine whether the auditee has complied with federal statutes, regulations, and the terms and conditions of federal awards that may have a direct and material effect on each of its major programs, as outlined in the OMB *Compliance Supplement*. While compliance with the USDA CACFP handbooks was considered in the our audit, our conclusion on compliance is based on the BCFNA's compliance with the federal statutes and regulations, as required.

Our decisions regarding the classification of the internal control deficiencies were made in accordance with AU-C Section 935, Compliance Audits and the Audit Guide. The Audit Guide provides the following definitions regarding internal control deficiencies:

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

"A reasonable possibility exists when the likelihood of the event is either *reasonably possible* or *probable*..." *Reasonably possible* is "[t]he chance of the future event or events occurring is more than remote but less than likely." *Probable* means "[t]he future event or events are likely to occur."

The failure to design and implement adequate controls and procedures over subrecipient monitoring led to material noncompliance with the subrecipient monitoring requirements. The BCFNA's controls failed to develop an effective subrecipient monitoring process that ensures subrecipients use subawards for authorized purposes, comply with the terms and conditions of the subawards, and achieve performance goals. Because the internal control deficiencies have not been corrected, it is probable that the material noncompliance will continue. For these reasons, the deficiencies are considered a material weakness.

Recommendations

The DHSS through the BCFNA:

- A. Implement a CACFP subrecipient risk assessment process that is consistent with federal regulations.
- B. Review, strengthen, and enforce subrecipient monitoring procedures to ensure CACFP facilities/sponsors comply with program requirements, submit proper claims, and address deficiencies identified. The BCFNA should enhance procedures to provide for identification and recoupment of overclaims associated with all errors identified during monitoring reviews, as required by federal regulations; expand testing when significant errors are identified; and continue to verify CAP information. The DHSS should identify and recoup the overclaims for the terminated sponsor noted in this finding.

Auditee's Response

- A. *We disagree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement.*
- B. *We disagree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement.*

Auditor's Comment

The DHSS Corrective Action Plan (CAP) states the DHSS disagrees with the finding because, while the prior year finding (finding number 2023-013) was partially sustained by the USDA - Food and Nutrition Service (USDA-FNS),

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

a corrective action plan was accepted and deemed adequate by the USDA-FNS. The CAP also states in April 2025, the USDA-FNS recommended final action to close the prior year finding. These statements are not accurate. April and June 2025 emails from USDA-FNS officials to the DHSS regarding the prior audit finding, provided to auditors by DHSS officials, indicate the finding was sustained; corrective action was required, taken, and validated by the USFA-FNS; and final action was approved by the USDA-FNS on June 10, 2025. It is unclear why the DHSS considers the prior year finding to be only partially sustained when the Summary Schedule of Prior Audit Findings, which was also prepared by the DHSS, states the finding was sustained.

Except for the information mentioned in the audit finding regarding subrecipient corrective action plans, the DHSS did not provide the State Auditor's Office information regarding corrective action taken. Any new procedures would have been implemented after the audit period, and will be subject to subsequent audits. Because the DHSS took no corrective action prior to or during the audit period, this finding is valid.

2024-010.
Medicaid SPPC Participant
Choice Agreements

Federal Agency:	Department of Health and Human Services (DHHS)
Federal Program:	93.778 COVID-19 - Medical Assistance Program
	93.778 Medical Assistance Program
	2023 - 2305MO5MAP and 2305MO5ADM
	2024 - 2405MO5MAP and 2405MO5ADM
State Agency:	Department of Health and Senior Services (DHSS) - Division of Senior and Disability Services (DSDS)
Type of Finding:	Internal Control (Significant Deficiency) and Nonmaterial Noncompliance
Compliance Requirements:	Activities Allowed or Unallowed and Allowable Costs/Cost Principles

As similarly noted in our prior audit report,³³ the DSDS does not have effective controls to ensure Participant Choice Agreements are completed and retained for participants of the State Plan Personal Care (SPPC) program. Required documentation was not on file for 10 of 60 participants reviewed.

The DSDS is responsible for the direct administration of various Medical Assistance Program (Medicaid) funded Home and Community Based Services (HCBS) programs for seniors and adults with disabilities, including the SPPC. During the year ended June 30, 2024, the DHSS made payments totaling approximately \$1 billion on behalf of approximately 72,100 participants of the SPPC.

³³ See single audit report at <<https://auditor.mo.gov/AuditReport/ViewReport?report=2024063>>, finding number 2023-014.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

As part of the initial assessment and annual reassessment process, DSDS personnel are required to ensure a Participant Choice Agreement (DA-3 form) was signed by the participant and the assessor, and uploaded to the CyberAccess web tool. The DSDS uses Participant Choice Agreements to comply with 42 CFR Section 441.725 that requires participants be provided information and given choices regarding their care and that written consent be obtained from the individual. Due to the COVID-19 Public Health Emergency (PHE), the DHHS - Centers for Medicare and Medicaid Services (DHHS-CMS) approved various requested temporary flexibilities to Medicaid requirements, effective March 2020 to May 11, 2023, including waiver of the written consent requirement and permitting documented verbal consent as an alternative.

Assessments and reassessments are completed by either DSDS personnel or provider personnel. DSDS personnel perform quality assurance reviews of assessments and reassessments completed by provider personnel, and are required to ensure a signed Participant Choice Agreement was uploaded or (prior to May 11, 2023) verbal consent was documented. Once the Participant Choice Agreement is uploaded to the CyberAccess web tool by the assessor, the original agreement is not retained to prevent Health Insurance Portability and Accountability Act (HIPAA) breaches. The DSDS identified a weakness in the upload process that has prevented successful upload of some Participant Choice Agreements, and because the original agreements are not retained, there is no record of those agreements. To address this weakness, a DHSS special projects team was created in 2024 to identify and resolve missing agreements on a sample basis. These efforts are ongoing.

To test compliance with federal requirements, we reviewed CyberAccess web tool records for 60 randomly-selected participants enrolled in the SPPC program during the year ended June 30, 2024. Of the 60 participants, 1 had a reassessment prior to May 11, 2023 (when documented verbal consent was permitted in lieu of the Participant Choice Agreement), and 59 had assessments/reassessments on or after that date. For the 59 participants with assessments/reassessments completed on or after May 11, 2023, a participant Choice Agreement was not retained in the CyberAccess web tool records for 10 (17 percent). Five of those assessments/reassessments were completed by DSDS personnel and 5 were completed by providers. Neither the DSDS quality assurance reviews nor the special projects team identified the missing agreements. DHSS officials were unable to determine whether Participant Choice Agreements were completed but not uploaded to the CyberAccess web tool due to the system upload problem, or never completed for these participants.

DHSS officials indicated in addition to the CyberAccess web tool upload problem, the missing forms can be attributed to turnover during the PHE, the large number of new staff, and returning to pre-PHE processes. DHSS officials also stated the DSDS worked with a vendor to develop a new case

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

management system to replace the CyberAccess web tool. The DSDS began using the system in May 2025.

Without ensuring Participant Choice Agreements are completed and retained, the DSDS cannot demonstrate the participants were provided the proper choices in care services as required. Regulation 45 CFR Section 75.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Recommendation

The DHSS through the DSDS continue to implement procedures to ensure a signed Participant Choice Agreement is completed and retained for all participants of the State Plan Personal Care program. The DSDS should identify and replace all missing Participant Choice Agreements with newly completed agreements.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

2024-011. Medicaid Facility Survey Timeliness

Federal Agency:	Department of Health and Human Services (DHHS)
Federal Program:	93.777 COVID-19 - State Survey and Certification of Health Care Providers and Suppliers (Title XVIII) Medicare
	93.777 State Survey and Certification of Health Care Providers and Suppliers (Title XVIII) Medicare
	2023 and 2024 - TITLEXVIII
	2023 and 2024 - TITLEXIXSS
	2023 and 2024 - CLIA
	2023 and 2024 - XVIIIIMPAC
	2023 - TITLE18CRS (COVID)
State Agency:	Department of Health and Senior Services (DHSS) - Section for Long-Term Care Regulation (SLCR)
Type of Finding:	Nonmaterial Noncompliance
Compliance Requirement:	Special Tests and Provisions

As similarly noted in our 3 prior audit reports,³⁴ the SLCR did not perform facility survey procedures within required timeframes. In our test of compliance with facility survey requirements for 60 surveys performed during the year ended June 30, 2024, we noted 10 Statements of Deficiencies

³⁴ See single audit reports at <<https://auditor.mo.gov/AuditReport/Reports?SearchLocalState=35>>, finding numbers 2023-015, 2022-007, and 2021-013.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

and Plan of Corrections were sent 11 to 20 days after the survey exit instead of within 10 days, and 1 facility revisit was completed in 64 days instead of within 60 days of the initial survey date.

The DHSS is the state survey agency charged with inspecting providers of the Medical Assistance Program (Medicaid), including hospitals, nursing facilities, and other long-term care facilities. Under 42 CFR Section 431.108, as a basis for participation in Medicaid, providers are subject to survey and certification by the DHHS - Centers for Medicare and Medicaid Services (DHHS-CMS) or the DHSS to ensure providers and suppliers are in compliance with regulatory health and safety standards and conditions of participation. During the year ended June 30, 2024, the DHSS through the SLCR surveyed 523 providers, including 483 long-term care nursing facilities, 9 intermediate care facilities for individuals with intellectual disabilities, and 31 non-deemed hospitals.³⁵

The DHHS-CMS provides the State Operations Manual (SOM) to state agencies as guidelines for the survey and certification of providers. SOM Chapter 2, Section 2728, requires the state agency to mail to the provider a copy of Form CMS-2567 (Statement of Deficiencies and Plan of Correction) within 10 working days after the survey exit. In addition, SOM Chapter 7, Section 7317.2, requires onsite revisits for long-term care nursing facilities to occur any time between the last correction date on the plan of correction and the 60th day from the survey date to confirm the facility is in substantial compliance, and in certain cases, has the ability to remain in substantial compliance.

To test compliance with survey and certification requirements, we randomly selected 60 surveys including 44 long-term care nursing facility surveys, 5 intermediate care facility for individuals with intellectual disabilities surveys, and 11 non-deemed hospital surveys, performed between July 1, 2023, and June 30, 2024. Of the 58 surveys that required a Statement of Deficiencies and Plan of Correction, 10 statements (17 percent) were sent to facilities between 11 and 20 working days after the survey exit instead of within 10 working days as required. In addition, of the 27 long-term care nursing facilities that required a revisit, the revisit to 1 facility (4 percent) was completed 64 days after the initial survey date instead of within 60 days as required.

DHSS officials indicated there were multiple contributing factors for these delays including DHSS staffing shortages, industry labor shortages, insufficient state and federal funding, increased workloads due to increased

³⁵ Non-deemed hospitals are approved for participation in the Medicaid program by the DHSS. Deemed hospitals are approved by the DHHS-CMS.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

volume and severity of complaints received and violations identified, and the backlog of surveys due. DHSS officials stated they hired part-time retired surveyors and contracted with outside survey companies to help with the increased workload and backlog. They further indicated they are working with the DHHS-CMS to minimize the delays.

Conducting survey procedures within required timeframes helps to ensure providers are timely notified of deficiencies requiring correction so that timely follow up on those deficiencies can occur to provide assurance facilities are providing services to their clients that are in compliance with health and safety standards and conditions of participation.

Recommendation

The DHSS through the SLCR ensure survey procedures are conducted within required timeframes.

Auditee's Response

We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.

Auditor's Comment

The DHSS Corrective Action Plan states the DHSS disagrees that the revisit error should be a finding and that corrective action is needed because the error rate identified in the audit sample was less than the performance criteria (70 percent) used to measure compliance and require corrective action in the DHHS-CMS State Performance Standards System. However, the performance criteria is intended to measure the DHSS's level of compliance and identify when corrective action is needed to address deficiencies, and does not remove the DHSS's responsibility to comply with the timeframes required by the SOM.

2024-012.
SEMA Subrecipient
Monitoring

Federal Agency:	Department of Homeland Security - Federal Emergency Management Agency (FEMA)
Federal Program:	97.036 Disaster Grants - Public Assistance (Presidentially Declared Disasters) 2017 - FEMA-4317-DR-MO 2019 - FEMA-4435-DR-MO and FEMA-4551-DR-MO 2020 - FEMA-4490-DR-MO and FEMA-4452-DR-MO 2021 - FEMA-4612-DR-MO and FEMA-4636-DR-MO 2022 - FEMA-4665-DR-MO 2023 - FEMA-4741-DR-MO 2024 - FEMA-4803-DR-MO
State Agency:	Department of Public Safety - State Emergency Management Agency (SEMA)

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

Type of Finding: Internal Control (Material Weakness) and Material Noncompliance

Compliance Requirement: Subrecipient Monitoring

During state fiscal year 2024, the SEMA did not perform subrecipient monitoring reviews or review subrecipient single audit reports for the Disaster Grants - Public Assistance (Presidentially Declared Disasters) (DGPA) as required. The SEMA disbursed approximately \$180 million to 320 DGPA program subrecipients during the year ended June 30, 2024.

Regulation 2 CFR Section 200.332(b) requires pass-through entities to evaluate each subrecipient's risk of noncompliance with federal statutes, regulations, and the terms and conditions of the subaward for purposes of determining the appropriate subrecipient monitoring. Regulation 2 CFR section 200.332(d) requires pass-through entities to monitor the activities of the subrecipient as necessary to ensure the subaward is used for authorized purposes, complies with the terms and conditions of the subaward, and achieves performance goals. Pass-through entities are required to follow up and ensure the subrecipient takes timely and appropriate action on all deficiencies detected through audits, on-site reviews, and other means. Regulation 2 CFR Section 200.332(f) requires pass-through entities to verify that every subrecipient has a single audit when it is expected that the subrecipient spent \$750,000 or more during the subrecipient's fiscal year.

The SEMA's tiered monitoring process, outlined in the SEMA's Risk Assessment Form and Recovery Division Monitoring Policy, requires risk assessments be performed 24 months after the disaster declaration for each subrecipient. Risk assessments are to evaluate various risk indicators and categorize each subrecipient as high, medium, or low risk. The risk category determines the required type and nature of monitoring required for the subrecipient. The policy requires on-site monitoring reviews for all high-risk subrecipients and desk reviews of 20 percent of medium-risk subrecipients. No additional action is required for low-risk subrecipients.

The monitoring policy requires the SEMA to generate reports listing any deficiencies noted during on-site and desk monitoring reviews. The Monitoring Report will, if applicable, reflect any notice given to the subrecipient about delinquent reports, failure to submit proper documentation, and any issues noted during the review. The monitoring report also identifies the SEMA's and subrecipient's actions and plans to resolve the issue(s), by documenting a brief written plan and timeline for the resolution of the issues identified. When all issues have been resolved, the policy requires a follow-up letter and updated review report to be provided to the subrecipient.

The monitoring policy further requires the SEMA during both the desk and on-site monitoring to review the subrecipient's financial and compliance audit

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

reports. The SEMA's single audit compliance policy requires the SEMA to verify every subrecipient had a single audit when required. Once the single audit is reviewed and additional documentation is obtained, the SEMA will issue a Management Decision Letter.

Monitoring reviews

During state fiscal year 2024, the SEMA's Monitoring Specialist performed risk assessments for all 890 subrecipients of open projects; however, the SEMA did not perform the 190 monitoring reviews of these subrecipients as required by the monitoring policy. The following table shows the results of the risk assessments performed for that fiscal year, and the supervisory monitoring reviews required by federal regulation and SEMA policy.

Risk Assessment	High	Medium	Low
Number of Subrecipients	83	536	271
Type of Monitoring Required	On-Site Monitoring	Desk Monitoring	None
Number of Monitoring Reviews Required	83	107	0

When subrecipient monitoring reviews are not performed as required by federal regulation and SEMA policy, there is increased risk that noncompliance with program requirements will go undetected.

Subrecipient audits

During state fiscal year 2024, the SEMA did not conduct the required review of single audit reports for applicable DGPA program subrecipients as required by SEMA policies and federal regulations. During September 2023, the SEMA sent letters to all subrecipients asking if they were required to have a single audit; but performed no further procedures such as ensuring subrecipients obtained the audits or reviewing and following up on audit reports.

Each subrecipient that spent in excess of \$750,000 in federal awards during its fiscal year must obtain a single audit in accordance with federal regulations within 9 months after the end of the fiscal year. In addition to noncompliance with subrecipient monitoring requirements, the failure to ensure subrecipients received required audits and to review and follow up on the related audit reports, increases the risk that subrecipient noncompliance will not be identified and addressed.

Conclusions

SEMA personnel indicated the monitoring reviews and single audit reviews were not performed due to turnover and shortages in staff. Adherence to policies and procedures is necessary to ensure compliance with subrecipient monitoring requirements. Regulation 2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-federal

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

entity is managing the Federal award in compliance with Federal regulations, SEMA policies and the terms and conditions of the Federal award."

Recommendation

The SEMA strengthen controls and procedures to ensure subrecipients of the DGPA are monitored in accordance with the monitoring policies and ensure policies are followed to ensure compliance with the monitoring requirements.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

2024-013.
Child Care Payments

Federal Agency: Department of Health and Human Services (DHHS)
Federal Program: 93.575 COVID-19 - Child Care and Development Block Grant
2022 - 2102MOCCC5
2022 - 2102MOCSC6
2022 - 2102MOCCDC6
93.575 Child Care and Development Block Grant
2022 - 2202MOCCDD
2023 - 2302MOCCDD
93.596 Child Care Mandatory and Matching Funds of the Child Care and Development Fund
2022 - 2202MOCCDF
2023 - 2302MOCCDF
2024 - 2402MOCCDF
2024 - 2402MOCCDM
State Agency: Department of Elementary and Secondary Education (DESE)
Type of Finding: Internal Control (Material Weakness) and Nonmaterial Noncompliance
Questioned Costs: \$2,223
Compliance Requirements: Activities Allowed or Unallowed and Allowable Costs/Cost Principles

As similarly noted in our prior audit report,³⁶ DESE controls over the Child Care Development Fund (Child Care) program's subsidy payments to child care providers are not sufficient to ensure payments are in accordance with the Child Care program subsidy state plan and costs are allowable. As a result, the DESE overpaid 29 providers and underpaid 8 providers of the 60 payments sampled. The Child Care program transferred from the Department of Social Services (DSS) to the DESE, and the DESE became the lead agency responsible for all Child Care program policies and procedures effective

³⁶ See single audit report at<<https://auditor.mo.gov/AuditReport/ViewReport?report=2024063>>, finding number 2023-016.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

August 28, 2021. Through June 2024, the DSS continued to perform certain agreed-upon responsibilities of the program.

The DESE provides subsidy funds to child care providers who serve eligible clients (parents/caregivers). Prior to January 2024, clients applied to the DSS for participation in the Child Care subsidy program. In January 2024, the DESE implemented the Child Care Data System (CCDS), and the application and eligibility process transferred from the DSS to the DESE. During the year ended June 30, 2024, the DESE's electronic time and attendance reporting system, the Child Care Business Information Solution (CCBIS), interfaced with the CCDS and the DSS's Family Assistance Management Information System (FAMIS), to process payments to child care providers.

DESE personnel (previously DSS personnel) enter maximum authorized service units into the CCDS (previously FAMIS) for the amount and type of care that best meets the client's need. Child care providers receive monthly payments based on authorized services and attendance information they submit in the CCBIS and the CCDS. Providers are paid daily rates referenced in the Child Care program subsidy state plan for each child based on the child's age, type of facility, location of facility, daytime versus evening or weekend care, part-time versus half-time versus full-time care, the client's income-based sliding fee, and protective services/income maintenance status. Child care providers receive rate enhancements for various items such as accreditation, providing weekend and evening care, serving a disproportionate share of subsidy children, and serving special needs children.

Providers are paid for up to 23 days of attendance per child per month, and up to 3 or 5 absences and/or holidays per child per month depending on the number of units of care authorized per month. Providers may bill up to 11 holidays in a state fiscal year. As of June 30, 2024, the DESE contracted with 2,360 providers and had approved services for 33,110 children. During the year ended June 30, 2024, the DESE paid about \$170 million to providers that served children of eligible clients. Approximately \$94 million of the \$170 million was processed from the CCDS and approximately \$76 million was processed from the FAMIS.

CCDS operations have been problematic since implementation as various programming and data migration errors have caused overpayments and underpayments to providers. In June 2024, the DESE awarded a contract with a consultant to review payments made from the CCDS from January 1 to May 31, 2024. The consultant identified numerous instances of overpayments and underpayments and reported, with all overpayments and underpayments combined (netted) per provider, 70 percent of providers were overpaid and 25 percent were underpaid (5 percent were correctly paid). The consultant reported for providers with net overpayments, the overpayments ranged from

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

6 cents to \$80,410 per provider; and for providers with net underpayments, the underpayments ranged from 16 cents to \$195,446 per provider.

The consultant found the overpayments were most commonly related to paying rates of the incorrect age category and duplicate payments for attendance, and the underpayments were most commonly related to not paying enhancement rates and the full market rate for protective services children. DESE personnel indicated, between January and October 2024, they corrected the programing and migration issues that led to the provider overpayments and underpayments. As of June 30, 2025, DESE personnel indicated they had compensated those providers with net underpayments identified by the consultant, and they were working with the DHHS - Administration for Children and Families (DHHS-ACF) to resolve the remaining amounts to providers with net overpayments identified. They further stated they were working with a second consultant to identify and address additional underpayments and overpayments that occurred from June to October 2024, the period between the end of the first consultant's review period and when all system programming and migration issues were resolved.

To test compliance with program requirements, we randomly selected a sample of 60 payments totaling \$33,814 to 60 child care providers. Each payment was for 1 child for 1 month of care. Of the 60 payments tested, 45 payments totaling \$25,902 were from the CCDS and 15 payments totaling \$7,912 were from the FAMIS.

Of the 60 payments tested, 37 (62 percent) contained 1 or more types of overpayments, totaling \$3,225, and/or 1 or more types of underpayments totaling \$838. Of the 37 payments with errors, 35 payments were CCDS errors and 2 payments were FAMIS errors. When overpayments and underpayments were combined for each for the 37 payments with errors, 29 payments (all CCDS errors) were net overpayments of \$3,063, and 8 payments (6 CCDS and 2 FAMIS) were net underpayments of \$674. We question the federal share, or \$2,223 (72.56 percent) of the net overpayments.

CCDS payment errors

Our review of 45 CCDS payments totaling \$25,902, identified 35 (78 percent) that contained 1 or more types of errors. The following table shows the absolute counts and amounts by error type, prior to being combined (netted) with other types of errors within each payment.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

Error Type	Payments with		Underpaid	Net Overpaid/ Underpaid
	Error Type	Overpaid		
Duplicate payments - child accounts	3	\$ 1,104	0	1,104
Absence and holiday maximums exceeded	3	592	0	592
Duplicate payments - absences and holidays	3	385	0	385
Attendance day maximum exceeded	2	332	0	332
Unsupported attendance days	7	361	(47)	314
Erroneous sliding fee absence and holiday rates	24	235	0	235
Erroneous sliding fee rates	6	193	(88)	105
Erroneous enhancement rates	5	20	(185)	(165)
Erroneous rates - child's age and county	1	0	(85)	(85)
Unknown	2	3	(12)	(9)
Totals ¹		\$ 3,225	(417)	2,808

¹ The table only includes CCDS payment errors. When combined with the FAMIS underpayments totaling \$421 (see subsequent explanation), overpayments total \$3,225 and underpayments total \$838.

The 7 error types with net overpayments were as follows:

- Duplicate payments were made because duplicate child accounts were created in the migration of cases from the FAMIS to the CCDS.
- Overpayments occurred because child care providers were paid for 10 absences and holidays instead of the maximum of 3 or 5 absences and holidays for the month. This error affected payments made in January and February 2024.
- Duplicate payments were made for absences and holidays. Providers were incorrectly paid twice the number of reported absences and holidays, up to the maximums.
- Overpayments occurred because providers were paid for more than the maximum 23 days of attendance for the month.
- Overpayments and underpayments occurred because more or less attendance days were paid than recorded in the CCBIS.
- Overpayments occurred because absences and holidays were paid at the sliding fee rate for part-time instead of full-time care.³⁷
- Overpayments and underpayments occurred due to various other sliding fee rate errors. For example, underpayments occurred since the sliding

³⁷ Payments are reduced by the client's sliding fees. Since the part-time rate is less than the full-time rate, the payment was not adequately reduced, and providers were overpaid.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

fee rate was set at \$1 per child per day for children of clients with very low income instead of \$0.

Deficiencies in the design and testing of the CCDS led to the significant issues noted above. DESE officials indicated all of the errors identified in the audit occurred due to CCDS programming errors as well as data migration errors from the FAMIS to the CCDS. DESE officials stated the errors identified in the audit were also identified by the first consultant, all related system errors had been corrected, and the child care providers with net underpayments had been compensated; but the child care providers with net overpayments had not been resolved. Net overpayments identified in the sample represent about 12 percent of the CCDS payments tested. Due to the systemic nature of the errors, similar errors on the remaining population of CCDS payments totaling \$94 million are likely, and unallowable costs could be significant.

FAMIS payment errors

Our review of 15 FAMIS payments totaling \$7,912, identified 2 payments (13 percent) that contained underpayments totaling \$421 (5 percent) due to incorrect enhancement rate calculations. DESE officials were unable to explain why or how these errors occurred.

Conclusions

The failure to design and implement adequate internal controls to ensure payments are made in accordance with the Child Care program subsidy state plan led to overpayments to child care providers, which are unallowable costs of the Child Care program.

Regulation 45 CFR Section 75.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should be in compliance with guidance in *Standards for Internal Control in the Federal Government*, issued by the Comptroller General of the United States or the *Internal Control Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission." Paragraph 16.01 of the *Standards for Internal Control in the Federal Government*, also known as the Green Book, provides that "[m]anagement should establish and operate monitoring activities to monitor the internal control system and evaluate the results." In addition, 45 CFR Section 98.68(a) requires the lead agency to document in its Child Care program subsidy state plan that it has effective controls to ensure integrity and accountability in the program.

Recommendation

The DESE continue to review, strengthen, and enforce internal controls to ensure payments are made in accordance with the Child Care program subsidy state plan. The DESE should review and correct the uncorrected child care provider overpayments and underpayments identified in this finding as well as other reviews of CCDS payments.

2022 - 223MO375L1903
2023 - 233MO375L1903
2024 - 243MO375L1903
State Agency: Department of Elementary and Secondary Education (DESE)
Type of Finding: Internal Control (Significant Deficiency) and Nonmaterial Noncompliance
Compliance Requirement: Reporting

As similarly noted in our 3 previous audits,³⁸ during state fiscal year 2024, the DESE did not comply with Federal Funding Accountability and Transparency Act (FFATA) reporting requirements for any of the 1,398 first-tier subawards,³⁹ totaling approximately \$330 million, for the Child Nutrition Cluster programs administered by the DESE.⁴⁰ First-tier subaward payments accounted for 84 percent of the DESE Child Nutrition Cluster expenditures. The DESE needs to strengthen internal controls related to FFATA reporting

³⁸ See single audit reports at <<https://auditor.mo.gov/AuditReport/Reports?SearchLocalState=35>>, finding numbers 2023-017, 2022-009, and 2021-016.

³⁹ First-tier subawards are federal awards made to non-federal entities by the prime award recipient, in this case the DESE, on behalf of the federal awarding agency, the USDA.

⁴⁰ The Child Nutrition Cluster is administered by the DESE, the Department of Health and Senior Services, and the Department of Social Services. During state fiscal year 2024, approximately 96 percent of the total cluster expenditures were made by the DESE for the School Breakfast Program, the National School Lunch Program, the Special Milk Program for Children, and the Fresh Fruit and Vegetable Program.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

for the Child Nutrition Cluster to help ensure compliance with the reporting requirements.

The FFATA requires comprehensive reporting for certain federal awards to promote transparency and accountability over the use of the federal funds. Regulation 2 CFR Part 170, Appendix A, requires the DESE to report first-tier subawards of \$30,000 or more to the FFATA Subaward Reporting System (FSRS) no later than the end of the month following the month in which the subaward was made. Information entered into the FSRS is publicly available at USASpending.gov.

FFATA reporting

The DESE did not comply with FFATA reporting requirements for the Child Nutrition Cluster. DESE personnel did not report any of the 1,398 first-tier subawards, totaling approximately \$330 million, requiring FFATA reporting during state fiscal year 2024, in the FSRS. After we brought this to their attention, DESE personnel began the process of preparing and submitting the FFATA reports.

DESE personnel indicated the FFATA reporting errors occurred due to an oversight. In addition to noncompliance with federal requirements, not reporting subawards to the FSRS accurately and timely increases the risk that those using the reports could rely on incomplete information.

Internal controls

During state fiscal year 2024, DESE personnel did not ensure the Child Nutrition Cluster FFATA information was prepared and uploaded to the FSRS.

The DESE's FFATA reporting policies and procedures require the Chief Operating Officer (COO) to verify information is accurately uploaded to the FSRS. The COO delegated these duties for some programs to various program liaisons within the DESE. For state fiscal year 2024, the Child Nutrition Cluster FFATA reporting responsibilities were delegated to the Nutrition Finance Manager and the Food and Nutrition Services Coordinator. The Nutrition Finance Manager was responsible for preparing the FFATA reporting information and the Food and Nutrition Services Coordinator was responsible for reviewing and uploading the information to the FSRS. However, as previously noted, the required FFATA reporting was not performed for the Child Nutrition Cluster programs administered by the DESE during the state fiscal year 2024. None of the individuals responsible ensured this information was prepared and uploaded to the FSRS.

Adherence to policies and procedures is necessary to ensure FFATA reporting is completed accurately and timely. Regulation 2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Recommendation

The DESE complete FFATA reporting in accordance with the applicable requirements and strengthen internal controls to ensure information is accurately uploaded to the FSRS for the Child Nutrition Cluster.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

2024-015. MoDOT Monitoring of BABA Provisions

Federal Agency: Department of Transportation
Federal Program: 20.205 Highway Planning and Construction (HPC)
Various awards
State Agency: Missouri Department of Transportation (MoDOT)
Type of Finding: Internal Control (Significant Deficiency) and
Nonmaterial Noncompliance
Compliance Requirement: Procurement and Suspension and Debarment

The MoDOT did not establish policies and procedures to monitor contractor and subrecipient compliance with Build America, Buy America (BABA) domestic preference provisions for Infrastructure Investment and Jobs Act (IIJA)-funded projects of the HPC program. As a result, the MoDOT did not ensure contractors and subrecipients complied with these provisions. During the year ended June 30, 2024, the MoDOT expended approximately \$922 million in IIJA funding for the HPC program, which represents approximately 68 percent of total program spending.

The MoDOT is responsible for ensuring compliance with BABA domestic preference provisions for all IIJA-funded infrastructure projects. Section 70914(a) of the BABA Act, enacted as part of the IIJA, requires all iron, steel, manufactured products, and construction materials used in IIJA-funded infrastructure projects to be produced in the United States. Regulation 2 CFR Section 200.318(a) requires the MoDOT to maintain documented procurement procedures, and 2 CFR Section 200.318(b) requires the MoDOT to monitor contractor and subrecipient compliance with the terms and conditions of project agreements, including BABA provisions.

The MoDOT includes BABA provisions in every contractor and subrecipient project agreement, including IIJA-funded projects. However, the MoDOT did not develop monitoring policies and procedures and did not verify contractors and subrecipients complied with these provisions. MoDOT officials stated specific monitoring procedures had not yet been developed because the requirements were relatively new and took effect in May 2022.

In addition to noncompliance with federal requirements, without adequate monitoring policies and procedures, the MoDOT lacks assurance its

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

contractors and subrecipients are in compliance with BABA requirements. Regulation 2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Recommendation

The MoDOT implement and enforce policies and procedures to monitor HPC program IIJA-funded projects to ensure contractor and subrecipient compliance with BABA domestic preference provisions, as required.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

2024-016.
DED FFATA Reporting

Federal Agency: Department of the Treasury (Treasury)
Federal Program: 21.029 COVID-19 - Coronavirus Capital Projects
Fund
CPFFN0151
State Agency: Department of Economic Development (DED)
Type of Finding: Internal Control (Significant Deficiency) and
Nonmaterial Noncompliance
Compliance Requirement: Reporting

During state fiscal year 2024, the DED did not comply with Federal Funding Accountability and Transparency Act (FFATA) reporting requirements for any of the 47 first-tier subawards,⁴¹ totaling approximately \$196.7 million, for the Coronavirus Capital Projects Fund (CPF) program. First-tier subaward payments accounted for 100 percent of the program's expenditures. In addition, the DED has not established internal controls over FFATA reporting for the CPF program.

The FFATA requires comprehensive reporting for certain federal awards to promote transparency and accountability over the use of the federal funds. Regulation 2 CFR Part 170, Appendix A, requires the DED to report first-tier subawards of \$30,000 or more to the FFATA Subaward Reporting System (FSRS) no later than the end of the month following the month in which the subaward was made. Information entered into the FSRS is publicly available at USASpending.gov. Due to initial technical difficulties with the FSRS, the Treasury requested CPF program recipients to complete their outstanding FFATA reports by no later than June 30, 2024.

⁴¹ First-tier subawards are federal awards made to non-federal entities by the prime award recipient, in this case the DED, on behalf of the federal awarding agency, the Treasury.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

The DED is responsible for administering the CPF program. The CPF program grant was initially awarded to the Office of Administration (OA). The DED was authorized under an interagency spending delegation agreement with the OA to access and expend CPF program funds.

FFATA reporting

The DED did not comply with FFATA reporting requirements for the CPF program. DED personnel did not report any of the 47 subawards, totaling approximately \$196.7 million, that required FFATA reporting by June 30, 2024, as required by the Treasury. DED officials indicated they did not complete FFATA reporting because they initially believed the OA would complete FFATA reporting for the DED. Once the DED realized they were responsible for FFATA reporting, in November 2024, DED personnel prepared and uploaded information for these subawards in the FSRS.

In addition to noncompliance with federal requirements, not reporting subawards to the FSRS accurately and timely increases the risk that those using the reports could rely on inaccurate information.

Internal controls

The DED has not established internal controls over FFATA reporting for the CPF program. As a result, the required FFATA reporting was not performed for the CPF program during the year ended June 30, 2024.

Without internal controls over the FFATA reporting process, there is less assurance the reporting will be completed accurately and timely. Regulation 2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Recommendation

The DED complete FFATA reporting in accordance with the applicable requirements, and establish internal controls related to FFATA reporting for the CPF program.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

2024-017.
DHEWD FFATA Reporting

Federal Agency:	Department of Labor (DOL)
Federal Program:	17.258 WIOA Adult Program 2023 - 23A55AT000005
	17.259 WIOA Youth Activities 2023 - 23A55AY000048
	17.278 WIOA Dislocated Worker Formula Grants 2023 - 23A55AW000007
State Agency:	Department of Higher Education and Workforce Development (DHEWD)

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

Type of Finding: Internal Control (Significant Deficiency) and
Nonmaterial Noncompliance

Compliance Requirement: Reporting

The DHEWD needs to strengthen internal controls related to Federal Funding Accountability and Transparency Act (FFATA) reporting for the Workforce Innovation and Opportunity Act (WIOA) Cluster. During state fiscal year 2024, the DHEWD did not comply with FFATA reporting requirements for 4 of 10 subawards reviewed. During state fiscal year 2024, the DHEWD disbursed approximately \$26.3 million in first-tier subawards⁴² to 13 subrecipients (local workforce development boards) of the WIOA Cluster. First-tier subaward payments accounted for approximately 80 percent of the program's expenditures.

The FFATA requires comprehensive reporting for certain federal awards to promote transparency and accountability over the use of the federal funds. Regulation 2 CFR Part 170, Appendix A, requires the DHEWD to report first-tier subawards of \$30,000 or more to the FFATA Subaward Reporting System (FSRS) no later than the end of the month following the month in which the subaward was made. Information entered into the FSRS is publicly available at USASpending.gov.

On a monthly basis, DHEWD procedures provide that DHEWD personnel download information pertaining to subrecipient awards from the DHEWD document system, filter the information to identify subawards that require FFATA reporting, enter the information into a spreadsheet, upload the data to the FSRS, notify the supervisor, and subsequently verify the entry appears at USASpending.gov. Various subaward data is uploaded to the FSRS, including the entity name, award amount, and the date issued. DHEWD procedures also require DHEWD personnel record on the spreadsheet the date of FSRS entry and the date the entry was verified at USASpending.gov.

Internal controls

The DHEWD's policies and procedures over the FFATA reporting process do not require a documented supervisory review of the information uploaded to the FSRS. Procedures require that the supervisor be notified of the FSRS entry, but do not require that a review be documented.

Without adequate supervisory review over FFATA reporting, the DHEWD has less assurance the information included in the FFATA reporting for the WIOA Cluster is complete and accurate. Procedures, at a minimum, should define the responsibilities of various program personnel and include procedures for ensuring the accuracy and completeness of all FFATA

⁴² First-tier subawards are federal awards made to non-federal entities by the prime award recipient, in this case the DHEWD, on behalf of the federal awarding agency, the DOL.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

reporting elements. Regulation 2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

FFATA reporting

The DHEWD did not comply with FFATA reporting requirements for the WIOA Cluster. To test compliance with FFATA reporting requirements, we haphazardly selected for review 2 of the 13 subrecipients, and reviewed the 10 subawards to those 2 subrecipients, totaling approximately \$2.2 million, awarded during state fiscal year 2024. Of the 10 subawards reviewed, the DHEWD did not upload to the FSRS 4 subawards totaling approximately \$987,000. After we brought this to their attention, DHEWD personnel prepared and uploaded information for these subawards in the FSRS.

DHEWD personnel indicated the FFATA reporting errors occurred because personnel newly assigned to the process were unfamiliar with the FFATA reporting requirements. In addition to noncompliance with federal requirements, not reporting subawards to the FSRS accurately and timely increases the risk that those using the reports could rely on incomplete information.

Recommendation

The DHEWD strengthen internal controls related to FFATA reporting to require documented supervisory reviews of the information reported to the FSRS and complete FFATA reporting timely and accurately for the WIOA Cluster, as required.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

Additional State Auditor's Reports

The Missouri State Auditor's Office regularly issues audit reports on various programs, agencies, and divisions of the state. Audit reports may include issues related to the administration of federal programs. We reviewed the reports issued from June 2024 to June 2025 and the following reports relate to federal programs.

Report Number	Report Name
2025-032	Department of Health and Senior Services - Child and Adult Care Food Program and Summer Food Service Program

All reports are available on the Missouri State Auditor's Office website: <http://auditor.mo.gov>.

State of Missouri - Single Audit

Summary Schedule of Prior Audit Findings

Year Ended June 30, 2024

The Uniform Guidance requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all audit findings included in the prior audit's Schedule of Findings and Questioned Costs. The schedule is also to report the status of findings included in the prior audit's Summary Schedule of Prior Audit Findings, except those that were corrected, no longer valid, or not warranting further action.

The Uniform Guidance requires the auditor to follow up on prior audit findings; perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and report, as a current year audit finding, when the auditor concludes the schedule materially misrepresents the status of any prior audit finding.

State of Missouri - Single Audit

acctmail@oa.mo.gov

SUMMARY SCHEDULE OF PRIOR YEAR AUDIT FINDINGS

The Uniform Guidance requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all audit findings included in the prior audit's Schedule of Findings and Questioned Costs. The Schedule is also to report the status of findings included in the prior audit's Summary Schedule of Prior Audit Findings, except those that were corrected, no longer valid, or not warranting further action.

The attached documents are the Summary Schedule of Prior Audit Findings for the year ended June 30, 2024, and includes all findings from the audit for the Fiscal Year ended June 30, 2023, and certain findings from the audits for the Fiscal Years ended June 30, 2022, 2021, 2020, and 2019.

These documents were prepared by the applicable State agencies as noted with each prior year finding.

State of Missouri - Single Audit
Summary Schedule of Prior Audit Findings
Year Ended June 30, 2024

2023-001. Medicaid National Correct Coding Initiative

Federal Agency: Department of Health and Human Services
Federal Program: 93.767 Children's Health Insurance Program
 93.778 COVID-19 - Medical Assistance Program
 93.778 Medical Assistance Program
State Agency: Department of Social Services (DSS) - MO HealthNet Division (MHD)
Similar Findings: 2022-001, 2021-004, and 2020-002

The MHD had not fully implemented the Medicaid National Correct Coding Initiative (NCCI) edit requirements. The MHD through the Medicaid Management Information System contractor, did not reprocess claims when edit files were implemented late. As a result, the claims processed during 103 of the days, or 28 percent, during the year ended June 30, 2023, were processed using outdated edits.

Recommendation:

The DSS through the MHD continue to strengthen controls over the NCCI requirements to ensure claims are reprocessed when NCCI edits are not implemented timely, as required.

Status of Finding:

The corrective action plan has been implemented and the issue is resolved. The DSS through the MHD will continue to update the NCCI edits quarterly, within the Centers for Medicare & Medicaid Services (CMS) requirement that the files must be implemented by the beginning of the second month of the calendar quarter. All adjustments have been completed on prior quarters. Moving forward, claims will be reprocessed when changes are not in the system, as required by CMS.

Phone Number: 573-751-7988

State of Missouri - Single Audit
Summary Schedule of Prior Audit Findings
Year Ended June 30, 2024

2023-002. Medicaid Management Information System Access

Federal Agency: Department of Health and Human Services
Federal Program: 93.767 Children's Health Insurance Program
 93.778 COVID-19 - Medical Assistance Program
 93.778 Medical Assistance Program
State Agency: Department of Social Services (DSS) - MO HealthNet Division (MHD)

The MHD did not timely review Medicaid Management Information System (MMIS) access rights and remove user accounts for users no longer employed in positions needing access.

Recommendation:

The DSS through the MHD review user access to the MMIS annually and ensure inappropriate access, including that of terminated users, is removed in a timely manner.

Status of Finding:

The corrective action plan has been implemented and the issue is resolved. The MO HealthNet MMIS Unit has implemented several strategies to complete the audit within the fiscal year. The MHD Security team reviewed and discussed the audit requirements regarding due dates, and subsequently updated our plan of action. Team member roles to complete the audit were identified and assigned. A calendar event was built to automatically alert the Security team to request the users report. Monthly meetings were scheduled to make sure the team was making adequate progress. For the month of June, two meetings were scheduled to ensure the audit would be complete. This plan of action was implemented for the FY24 audit, and the audit was completed prior to the deadline.

State of Missouri - Single Audit
Summary Schedule of Prior Audit Findings
Year Ended June 30, 2024

2023-003. Medicaid and CHIP New Provider Eligibility

Federal Agency: Department of Health and Human Services
Federal Program: 93.767 Children's Health Insurance Program
 93.778 COVID-19 - Medical Assistance Program
 93.778 Medical Assistance Program
State Agency: Department of Social Services (DSS) - MO HealthNet Division (MHD) and
 Missouri Medicaid Audit and Compliance (MMAC)

The DSS needed to improve internal control to ensure new provider applications for participation in the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP) are properly reviewed and screened as required by federal regulations and state procedures. MMAC Provider Enrollment Unit staff did not fully complete and/or retain new provider enrollment application checklists for 3 of 40 (8 percent) new providers sampled

Recommendation:

The DSS through the MHD and the MMAC review, strengthen, and enforce internal controls to ensure complete new provider enrollment application checklists are prepared and retained documenting that new Medicaid and CHIP provider applications were reviewed and screened as required.

Status of Finding:

Missouri Medicaid Audit and Compliance is following the Corrective Action Plan agreed upon after the SFY 23 audit by doing the following steps:

1. The MMAC Provider Enrollment Unit (PEU) added a new final check box at the bottom of all the provider enrollment verification forms where the PEU Specialist verifies each required step to enroll a new or re-enrolling provider was completed properly.
2. The Provider Enrollment Unit has increased the number of quality control reviews of completed provider enrollment verification checklists by supervisors and managers.
3. The Provider Enrollment Unit supervisor trained staff that scan the completed enrollment files into FileNet to look at the verification checklist and make sure it has all required initials and checks. If the scanning staff determines there are deficiencies, the enrollment file will be returned to the PEU Supervisor for corrections.
4. Provider Enrollment Unit staff working new or re-enrolling applications received additional training on the importance of checking each step on the verification checklist to indicate whether each step was completed or "not applicable".

Contact Person: Richard Ferrari
Phone Number: 573-751-5296

Year Ended June 30, 2024

2023-004. Medicaid and CHIP Receipt Controls

Federal Agency: Department of Health and Human Services
Federal Program: 93.767 Children's Health Insurance Program
 93.778 COVID-19 - Medical Assistance Program
 93.778 Medical Assistance Program
State Agency: Department of Social Services (DSS)- MO HealthNet Division (MHD)

The MHD did not have adequate controls in place to ensure the proper management of receipts. The MHD did not adequately restrict user access within the Medicaid Management Information System (MMIS) for Financial Operations and Reporting Unit (FORU) accounting personnel, and did not account for all cash control numbers to ensure all checks and money orders received were properly deposited or returned to senders if the payment could not be accepted.

Recommendation:

The DSS through the MHD review, strengthen, and enforce internal controls over Medicaid and CHIP receipts. The MHD should restrict user access within the MMIS for FORU accounting personnel and adequately segregate asset custody and receipt recording duties from accounts receivable duties, or perform documented supervisory reviews of MMIS entries and changes made by employees whose duties are not segregated. In addition, the MHD should establish procedures to account for all cash control numbers to ensure all receipts are deposited or returned to senders.

Status of Findings:

This corrective action plan has been partially implemented. MHD, as a result of the FY23 finding, has implemented a process to document supervisory reviews of the Finance Manual Checks Quarterly report to ensure segregation of duties in HealthTrack/AHS. This process began in August 2024. As a result of clarification on the finding during the FY24 audit, there is additional information added to the Finance Manual Check Quarterly report to include transactions the FORU Manager performed in the AHS system. This change was requested beginning in March 2025 and will be in use as soon as the report is available for review. MHD will continue to perform the audit of clerk ID ad hoc reports to review any segregation of duties within the MMIS.

As a result of the FY23 audit, MHD implemented a process to ensure all cash control numbers in Healthtrack/AHS are accounted for by establishing a new cash control number (CCN) sequence, exclusive to manual checks logged within the FORU. This resolved the issue of cash control numbers for participant checks occurring out of sequence due to AHS running files in the background at the same time checks are being logged. This portion of the implementation occurred in August 2024. During the FY24 audit, MHD received further clarification and is implementing a review of a monthly report containing missing and unused cash control numbers for provider checks in eMMIS. This will be compared to a file updated by the Accounts Assistant with the daily cash control numbers used. FORU will use the monthly report to document reasons for any unused or skipped CCNs. This process is being completed monthly beginning March 2025.

State of Missouri - Single Audit
Summary Schedule of Prior Audit Findings
Year Ended June 30, 2024

2023-005. Medicaid and CHIP MAGI-Based Participant Eligibility Redeterminations

Federal Agency: Department of Health and Human Services
Federal Program: 93.767 Children's Health Insurance Program
93.778 COVID-19 - Medical Assistance Program
93.778 Medical Assistance Program
State Agency: Department of Social Services (DSS) - MO HealthNet Division (MHD) and
Family Support Division (FSD)
Similar Findings: 2022-002, 2021-005, 2020-003, and 2019-005

The DSS did not have sufficient controls to ensure compliance with eligibility redetermination requirements of the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP) for certain participants whose eligibility is based on their Modified Adjusted Gross Income (MAGI). The DSS did not correct manual system overrides in the Medicaid Eligibility Determination and Enrollment System (MEDES) for approximately 11,500 (1 percent) MAGI-based participants, preventing their cases from being closed when necessary, and did not perform redeterminations for those participants requiring redeterminations once previously-suspended requirements resumed.

Recommendation:

The DSS through the MHD and the FSD review and correct cases for participants with manual overrides in the MEDES, ensure redeterminations are completed for these participants as required, and close the cases of any ineligible participants. In addition, the DSS should ensure system controls are functioning as designed for these participants.

Status of Findings:

Missouri DSS began the process of "unwinding" in April 2023. At this time the participants who are no longer eligible for MO HealthNet coverage based on the approved renewal process had their coverage terminated. DSS anticipated the renewals would be completed by August 2024, but were unable to complete them in that timeframe. Per updated guidelines provided in the Informational Bulletin released August 29, 2024, Missouri expects that all remaining renewals will be completed by December 2025.

A bypass list has been created as of August 2023 to ensure that individuals with determinations created outside of the MEDES system are being renewed timely. The DSS continues to work this report monthly. Program and policy staff are working with MEDES staff to systematically complete renewals on participants included on the bypass listing that require an annual renewal. DSS estimates that the bypass renewals will be completed by July 2025.

DSS will continue to use this report to ensure that all individuals that receive coverage outside of the MEDES system will receive their annual renewal as required by CFR 435.916.

State of Missouri - Single Audit
Summary Schedule of Prior Audit Findings
Year Ended June 30, 2024

2023-006. Medicaid and CHIP Participant Eligibility Terminations

Federal Agency: Department of Health and Human Services
Federal Program: 93.767 Children's Health Insurance Program
93.778 COVID-19 - Medical Assistance Program
93.778 Medical Assistance Program
State Agency: Department of Social Services (DSS) - MO HealthNet Division (MHD) and
Family Support Division (FSD)
Questioned Costs: \$1,555

The DSS did not have sufficient controls to ensure benefits were terminated for participants no longer eligible for the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP). Our review found a death match against Department of Health and Senior Services (DHSS) vital records information was not operating in the Medicaid Eligibility Determination and Enrollment System (MEDES) during the year ended June 30, 2023. Additionally, for 2 of 60 participant cases sampled, the DSS received information requiring participant case termination, but did not manually terminate the participants' eligibility in the applicable eligibility system.

Recommendation:

The DSS through the MHD and the FSD review, strengthen, and enforce internal controls to ensure ineligible participant cases are closed when necessary and resume the DHSS vital records death match in the MEDES.

Status of Finding:

The death match with Department of Health and Senior Services (DHSS) vital records is still not functional in MEDES. The death match is functional in the Family Assistance Management Information System (FAMIS) eligibility system currently used for SNAP, TANF, and MO HealthNet for Aged, Blind, and Disabled individuals. When the match is received into FAMIS from DHSS, that information is included on the eligibility file submitted to MMIS to ensure that the death date is captured in MMIS to prohibit any payments after the death of the individual. This control ensures that no improper payments are made on a beneficiary's behalf after the date of death. DSS intends to resume use of the DHSS vital statistics match in MEDES in the future but does not have an anticipated resumption date.

The DSS is strengthening internal controls by developing technology to receive changes from participants using technology that will populate the changes reported into MEDES and will create a task for DSS staff to review and authorize the change in the case. Additionally, participants can also report changes, including voluntary case closure on the FSD Portal at <https://mydss.mo.gov/>. Changes reported through the FSD Portal are uploaded and tasks are generated for DSS staff to review and complete the determination. In June of 2024 the IVR was anticipated to be updated to accept reports of household changes for Medicaid on IVR and Chat; however, due to competing priorities, those changes are now expected to be complete December 2024.

State of Missouri - Single Audit
Summary Schedule of Prior Audit Findings
Year Ended June 30, 2024

2023-007. Medicaid and CHIP Eligibility Determination Timeliness

Federal Agency: Department of Health and Human Services
Federal Program: 93.767 Children's Health Insurance Program
 93.778 COVID-19 - Medical Assistance Program
 93.778 Medical Assistance Program
State Agency: Department of Social Services (DSS) - MO HealthNet Division (MHD) and
 Family Support Division (FSD)
Similar Finding: 2022-003

The DSS did not perform eligibility determinations within required timeframes for participants of the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP).

Recommendation:

The DSS through the MHD and the FSD ensure participant eligibility is determined within the required timeframes.

Status of Findings:

During SFY 2022, DSS experienced significant delays in completing determinations of eligibility at application, resulting in sizable backlogs and applications pending beyond the timeframes permitted in regulation. Due to this, Missouri collaborated with CMS to mitigate the backlog. As of September 30, 2022, DSS completed processing of all overdue applications.

Missouri has continued to experience increases in applications since completing the mitigation plan in September 2022. Available staff are being used for new and additional duties and due to competing priorities, sometimes staff are interrupted during their ordinary duties to move to another necessary task. While diversifying functions of the workforce help to improve efficiency for FSD functions overall, they can be disruptive to staff production.

DSS is currently under a mitigation plan with CMS for timeliness of MAGI and Non-MAGI application processing. The Family Support Division (FSD) meets with CMS bi-weekly to review policies and procedures and provide guidance and develop strategies to meet eligibility timeframes.

The DSS continues to work on all pending eligibility determinations and is working to meet processing deadlines as outlined in 42 CFR 435.912(c)(3) and 42 CFR 457.340(d).

State of Missouri - Single Audit
Summary Schedule of Prior Audit Findings
Year Ended June 30, 2024

2023-008. Department of Social Services Cost Allocation

Federal Agency: Department of Health and Human Services
Federal Program: 93.090 Guardianship Assistance
93.558 Temporary Assistance for Needy Families
93.658 Foster Care Title IV-E
93.659 Adoption Assistance
93.667 Social Services Block Grant
93.778 COVID-19 - Medicaid Assistance Program
93.778 Medical Assistance Program
State Agency: Department of Social Services (DSS) - Division of Finance and Administrative Services (DFAS) and Children's Division
Similar Finding: 2022-004

DSS controls and procedures over the Public Assistance Cost Allocation Plan (PACAP), the AlloCAP system, the random moment time studies (RMTS) process, were not sufficient to ensure some administrative costs were allocated to federal programs in an equitable and consistent manner. RMTS containing over 200 invalid staff surveys were used to allocate administrative costs. For the year ended June 30, 2023, costs totaling approximately \$1.08 million were incorrectly allocated to 6 programs. As a result, approximately \$546,000 (federal share) was allocated to state funding, that could have been allocated to federal funding for 4 programs.

Recommendation:

The DSS continue to strengthen internal controls and procedures over the PACAP, the AlloCAP system, the RMTS process, and the RMTS allocation to ensure costs are properly allocated to federal programs. In addition, the DSS should revise the PACAP to reflect updates to the RMTS process.

Status of Findings:

The logic provided to ITSD to create the sample universe was corrected and employed effective January 1, 2024 and the CD RMTS Sampling Plan and PACAP have been updated to reflect the revised logic accordingly. The Children's Division has further strengthened internal controls by assigning a staff to review the monthly CD RMTS detailed results to ensure all responses received are from personnel in alignment with the logic criteria. Since the implementation of the CAP and additional internal control measures, there have not been any staff selected that did not fit the criteria.

2023-009.

Adoption Savings

Federal Agency: Department of Health and Human Services
Federal Program: 93.659 Adoption Assistance
State Agency: Department of Social Services (DSS) - Division of Finance and Administrative Services (DFAS)

The DFAS did not have adequate internal controls and procedures related to adoption savings requirements. As a result, the amount of adoption savings reported in the federal fiscal year 2022 Annual Adoption Savings Calculation and Accounting Report was overstated by approximately \$1 million.

Recommendation:

The DSS through the DFAS strengthen internal controls and procedures to ensure Annual Adoption Savings Calculation and Accounting Reports are accurately prepared and submitted to ensure compliance with federal adoption savings requirements.

Status of Finding:

The DSS agreed with this finding. The DSS implemented the SAO's recommendations to further strengthen internal controls and actively works to ensure staff familiarity with federal workbook instructions and any applicable updates. The DSS continues to adhere to these processes to ensure the federal report is accurate and compliant.

No further corrective action was required, and the status remains unchanged.

2023-010A. SLFRF Program Subrecipient Monitoring

Federal Agency: Department of the Treasury
Federal Program: 21.027 - COVID-19 - Coronavirus State and Local Fiscal Recovery Funds
State Agency: Office of Administration (OA)

Summary of Finding:

The OA had not established policies and procedures to determine whether recipients of the Coronavirus State and Local Fiscal Recovery Funds (SLFRF) program funds were subrecipients or contractors. As a result, some recipients were incorrectly classified as subrecipients, and the OA lacked a complete and accurate listing of subrecipients.

Recommendation:

The OA develop policies and procedures to determine whether recipients of SLFRF program funds are subrecipients or contractors. Work with the state agencies to ensure accurate and documented determinations are prepared for all recipients and modify subrecipient records as needed.

Status of Finding:

Our response to this finding was OA believes there are opportunities to improve the classification of subrecipient vs contractor to ensure compliance with federal regulations. We concur that OA, as the responsible party, should modify a department determination of subrecipient when there is a conflict with the regulation. Finally, we agree that clear communication on roles and responsibilities of OA vs departments related to compliance is essential and can be improved. Given this position, we disagree that OA needs to issue procedures that restate the rules the uniform guidance and SLFRF regulations already state. We will continue to have discussions with agencies and ensure compliance with federal regulations.

As stated in 07_COVID_19 Questionnaire during the FY23 audit it was recommended to develop additional policies and procedures to identify subrecipients or contractors and to determine appropriate subrecipient monitoring procedures. OA provided a training in August 2024 to educate agencies to clarify identification of subrecipients and/or contractors and the roles and responsibilities of subrecipient monitoring to the agencies. This will be posted online for those who will need access to the training. OA Accounting will send out additional information on subrecipient monitoring requirements and expectations to agencies. However, due to the timing of the FY23 audit coming after FY24 was closed, these corrections were not made during FY24, but the corrective actions are actively being pursued. This includes a defining memo but may not be limited to directing agencies to the subrecipient monitoring requirements.

2023-010B. SLFRF Program Subrecipient Monitoring

Federal Agency: Department of the Treasury
Federal Program: 21.027 - COVID-19 - Coronavirus State and Local Fiscal Recovery Funds
State Agency: Office of Administration (OA)

The OA had not implemented an effective subrecipient monitoring program to monitor the SLFRF program subrecipients. As a result, some subrecipient monitoring procedures were not performed as required by the Uniform Guidance. The OA did not perform required risk assessments for subrecipients of the SLFRF program to determine the nature, timing, and extent of monitoring procedures necessary. The OA had not developed policies and procedures outlining its pre-payment monitoring procedures, did not always clearly document monitoring performed prior to making payments, and did not monitor subrecipients beyond the pre-payment monitoring process. The OA did not conduct the required review of single audit reports for applicable SLFRF program subrecipients.

Recommendation:

The OA develop a subrecipient monitoring program in accordance with the Uniform Guidance, that includes performing risk assessments for each subrecipient for the purposes of determining the appropriate subrecipient monitoring procedures; monitoring for compliance with federal requirements and subaward terms and conditions and ensuring subaward performance goals are achieved; and reviewing subrecipient single audit reports. Ensure tasks delegated to state agencies are adequately communicated and establish procedures to ensure those tasks are appropriately completed.

Status of Finding:

The OA has currently instructed agencies through training provided in August to the Financial Management Advisory Committee (FMAC) to follow the Uniform Guidance which would include the information above. The OA will disseminate additional information once all the Expenditure Categories are finalized. The Expenditure Categories will be finalized after the obligation deadline of December 31, 2024. The Revenue Replacement category does not require subrecipient monitoring. The OA wants to be clear with agencies regarding their responsibilities.

2023-011. OA Statewide SEFA

Federal Agency: Department of Housing and Urban Development
 Department of the Treasury
 Department of Labor
 Department of Health and Human Services

Federal Program: 14.231 Emergency Solutions Grant Program
 21.023 COVID-19 - Emergency Rental Assistance Program
 17.225 Unemployment Insurance
 93.575 COVID-19 - Child Care and Development Block Grant
 93.575 Child Care and Development Block Grant

State Agency: Office of Administration (OA) - Division of Accounting (DOA)

DOA controls and procedures related to the preparation of the statewide Schedule of Expenditures of Federal Awards (SEFA) were not sufficient; and as a result, a complete and accurate SEFA was not prepared timely for the year ended June 30, 2023.

Recommendation:

The OA through the DOA strengthen controls and procedures to prepare a timely and accurate statewide SEFA. Such procedures should provide for proper reporting of subrecipient amounts.

Status of Finding:

On October 31, 2024, OA filed the SEFA as we indicated.

DHSS CACFP Subrecipient Reimbursements

Federal Agency: United States Department of Agriculture
Federal Program: 10.558 - Child and Adult Care Food Program
State Agency: Department of Health and Senior Services (DHSS) - Bureau of Community Food and Nutrition Assistance (BCFNA)
Questioned Costs: \$0

The BCFNA did not have sufficient controls and procedures to ensure Child and Adult Care Food Program (CACFP) reimbursements to subrecipients were allowable and supported with sufficient documentation. As a result, significant unallowable and unsupported reimbursements were made without being prevented or detected on a timely basis.

Recommendation:

The DHSS through the BCFNA strengthen internal controls over meal reimbursements to CACFP facilities/sponsors to ensure costs are allowable and supported.

Status of Finding:

The DHSS disagreed with this finding therefore no corrective action has been taken. The DHSS through BCFNA maintains a strong system of internal controls over meal reimbursements to CACFP facilities/sponsors to ensure costs are allowable and supported. The system is in compliance with Uniform Guidance and USDA program requirements. The system includes subrecipient monitoring based on risk assessments per the substance and spirit of Uniform Guidance, initial and ongoing training and technical assistance opportunities, and reviews of invoices. In the U.S. Department of Agriculture's Management Decision of April 17, 2025, the finding was not sustained and therefore this audit finding should be closed.

CACFP Subrecipient Monitoring

Federal Agency: United States Department of Agriculture
Federal Program: 10.558 - Child and Adult Care Food Program
State Agency: Department of Health and Senior Services (DHSS) - Bureau of Community Food and Nutrition Assistance (BCFNA)

BCFNA subrecipient risk assessments were not sufficient to ensure Child and Adult Care Food Program (CACFP) subrecipient compliance with program requirements. The risk assessments considered only the previous monitoring review grade (conducted up to 3 years previously) and did not consider other pertinent risk factors outlined in federal regulations.

Recommendation:

The DHSS through the BCFNA implement a CACFP subrecipient risk assessment process that is consistent with federal regulations.

Status of Finding:

In the U.S. Department of Agriculture's Management Decision of April 17, 2025, the finding was sustained and notification that the CAP was accepted was received June 12, 2025. Therefore, this audit finding should be closed.

2023-013B

CACFP Subrecipient Monitoring

Federal Agency: United States Department of Agriculture
Federal Program: 10.558 - Child and Adult Care Food Program
State Agency: Department of Health and Senior Services (DHSS) - Bureau of Community Food and Nutrition Assistance (BCFNA)
Questioned Costs: Unknown

BCFNA subrecipient monitoring procedures were not sufficient to ensure Child and Adult Care Food Program (CACFP) subrecipient compliance with program requirements. BCFNA Corrective Action Plan (CAP) review procedures were not adequate to ensure facilities/sponsors made or planned sufficient corrective actions to address noncompliance, as required by federal regulations. BCFNA monitoring procedures and practices did not provide for expanded testing when significant errors were identified. BCFNA subrecipient monitoring procedures did not provide for identification and pursuit of recoupment of all overpayments associated with errors identified during monitoring reviews as required by federal regulations. We noted 2 terminated sponsors for which the BCFNA monitoring reviews identified significant claim errors, but the test month claims were not fully tested, and overclaims were not identified or recouped.

Recommendation:

The DHSS through the BCFNA review, strengthen, and enforce subrecipient monitoring procedures to ensure CACFP facilities/sponsors comply with program requirements, submit proper claims, and address deficiencies identified. The BCFNA should enhance procedures to provide for verification of CAP information and identification and recoupment of overclaims associated with all errors identified during monitoring reviews, as required by federal regulations; and expand testing when significant errors are identified. The DHSS should identify and recoup the overclaims for the 2 terminated sponsors noted in this finding.

Status of Finding:

In the U.S. Department of Agriculture's Management Decision of April 17, 2025, the finding was sustained and notification that the CAP was accepted was received June 12, 2025. Therefore, this audit finding should be closed.

Medicaid SPPC Participant Choice Agreements

Federal Agency: Department of Health and Human Services
Federal Program: 93.778 COVID-19 - Medical Assistance Program
93.778 Medical Assistance Program
State Agency: Department of Health and Senior Services (DHSS) - Division of Senior and Disability Services (DSDS)

The DSDS did not have effective controls in place to ensure Participant Choice Agreements were completed and retained for participants of the State Plan Personal Care (SPPC) program. Required documentation was not on file for 3 of 60 participants reviewed. DHSS officials indicated the Participant Choice Agreements were completed but not uploaded to the CyberAccess web tool due to the system upload problem. However, without any documentation, we could not determine whether the Participant Choice Agreements were completed.

Recommendation:

The DHSS through the DSDS implement procedures to ensure a signed Participant Choice Agreement is completed and retained for all participants of the State Plan Personal Care program. The DSDS should resolve the CyberAccess web tool upload weakness and identify and replace all missing Participant Choice Agreements with newly completed agreements.

Status of Finding:

DSDS continues to work with the CyberAccess vendor to eliminate document upload weaknesses. DSDS is developing a replacement case management system with a new vendor. The work on the new system began in June 2023 and is set to go live in early 2025.

DSDS also worked to remediate the missing Participant Choice Agreements using special project teams. These teams have conducted significant outreach to address the missing forms. Additionally, missing choice agreements are identified and remediated during the monthly case record review process.

State of Missouri - Single Audit
Summary Schedule of Prior Audit Findings
Year Ended June 30, 2024

2023-015 Medicaid Facility Survey Timeliness

Federal Agency: Department of Health and Human Services
Federal Program: 93.777 COVID-19 - State Survey and Certification of Health Care Providers and Suppliers (Title XVIII) Medicare
93.777 State Survey and Certification of Health Care Providers and Suppliers (Title XVIII) Medicare
State Agency: Department of Health and Senior Services (DHSS) - Section for Long-Term Care Regulation (SLCR)
Similar Findings: 2022-007 and 2021-013

The SLCR did not perform facility survey procedures within required timeframes.

Recommendation:

The DHSS through the SLCR ensure survey procedures are conducted within required timeframes.

Status of Findings:

DHSS through the SLCR will continue its efforts to conduct survey procedures within required timeframes. The Centers for Medicare and Medicaid Services (CMS) has not provided an increase in funding to support survey and certification work since FY2015, although the number of mandatory survey tasks, training requirements for surveyors, and complaint investigations have dramatically increased. Since 2019, DHSS has seen increases in the number and severity of complaints, and the severity of violations found in long term care facilities. Complaints increased overall by thirty-six percent (36%) from 9,011 complaints in FY2019 to 12,236 complaints in FY2023. The largest increase was in severe complaints, including a 125% increase in immediate jeopardy complaints (require an onsite investigation within 24 hours-2 days) and a twenty-five percent (25%) increase in non-immediate jeopardy, high priority complaints (which require onsite investigation within 10 working days) within the same timeframe. Because of the seriousness of these complaints, surveyors were often reassigned to investigate these complaints, which results in a delay in conducting revisits or sending a statement of deficiencies timely.

In addition to frequency and severity of complaints, DHSS has seen an increase in the number of citations issued per recertification survey and complaint investigations. Between 2019 and 2023, the average number of health citations issued to a facility during a recertification survey increased by 25% and the number of citations issued from stand-alone complaint findings increased 100% during the same timeframe. The number of citations issued at an immediate jeopardy level scope and severity increased from 2021 to 2023 by almost 38%.

These increases require additional time devoted to investigating often complex violations, increased time spent with write up activities, including the creation of the Statement of Deficiency, plan of correction review, onsite and offsite revisit activity and communication with complainants and facilities. Increases in this workload often requires team members to begin investigating new high priority complaints, prior to fully writing up activities or revisits to other processes being completed. Additionally, subsequent complaint investigations often cause revisits to be delayed due to open enforcement cases and substantial compliance dates conflicting.

During FY23, DHSS experienced staffing shortages, particularly in the Registered Nurse job classification, which impacted the ability to complete work consistently within the prescribed time frames. Each recertification survey requires at least one team member to be Registered Nurse and due to the nature of many complaints, a Registered Nurse often must complete these

State of Missouri - Single Audit
Summary Schedule of Prior Audit Findings
Year Ended June 30, 2024

investigations. No meaningful increase in the federal budget since 2015 further impacted the ability of the state survey agency to hire and retain Registered Nurses. In addition, as CMS is aware, there is an ongoing shortage in the labor market for these professionals. DHSS has experienced turnover among surveyors leaving for other opportunities at a much higher salary. DHSS invests at least one calendar year into training new surveyors. This is CMS required training, in order to meet the stringent surveyor qualifications. In 2015, the number of RN vacancies the Section for Long-Term Care had averaged around 14 positions. In 2023, the average was 27 positions.

In order to attempt to meet these time frames, DHSS requested increased funding from both federal and state sources to increase across the board salaries for Registered Nurse and other survey staff. That request was not successful in FY2023.

DHSS has hired retired, federally qualified surveyors part-time to help with survey and complaint backlog. DHSS continually works toward identifying inefficiencies and implementing measures to address them, such as bundling complaint investigations with other regulatory processes.

As a short-term, time-limited solution possible through one-time additional funding from the Centers for Medicare and Medicaid Services and state ELC funding, DHSS contracted with three third-party contractors to complete recertification surveys, to assist in the overdue workload and better meet CMS requirements. Unfortunately, those contractors are unable to perform more than five surveys total per month, due to the demand on their services across the nation with other states experiencing similar challenges.

CMS acknowledged the overdue workload many states were experiencing due to the resumption of ongoing activities as a result of survey work prioritization by CMS during the Public Health Emergency in the FY 2022 and FY2023 Mission and Priority Document.

CMS reviews state performance through measures that are evaluated each federal fiscal year. In FY2023, MO was evaluated to determine if the past-due standard recertification surveys from October 2022 to October 2023 was at least 50% less. Missouri met CMS' requirement for percent of change at 57.6%. CMS also evaluated timeliness of revisits and Missouri met CMS' threshold of 70%, accomplishing 76.3%.

Child Care Payments

Federal Agency: Department of Health and Human Services
Federal Program: 93.575 COVID-19 - Child Care and Development Block Grant
93.575 Child Care and Development Block Grant
93.596 Child Care Mandatory and Matching Funds of the Child Care and Development Fund
State Agency: Department of Elementary and Secondary Education (DESE)
Questioned Costs: \$439

DESE controls over the Child Care Development Fund (Child Care) program's subsidy payments to child care providers were not sufficient to ensure correct rates are paid. As a result, the DESE overpaid providers for 2 of 60 payments sampled.

Recommendation:

The DESE review, strengthen, and enforce internal controls to ensure the correct Child Care subsidy rates are paid for protective services children who are adopted. The DESE should review payments on behalf of protective services children who were adopted and correct any overpayments identified.

Status of Finding:

DESE has implemented several measures to strengthen and enforce internal control to ensure correct Child Care subsidy rates are paid for protective services children who are adopted and overpayments have been corrected.

2023-017. DESE FFATA Reporting

Federal Agency: Department of Health and Human Services
Federal Program: 93.596 Child Care Mandatory and Matching Funds of the Child Care and
 Development Fund
State Agency: Department of Elementary and Secondary Education (DESE)
Similar Findings: 2022-009 and 2021-016

The DESE needed to strengthen internal controls related to Federal Funding Accountability and Transparency Act (FFATA) reporting for the Child Care Mandatory and Matching Funds of the Child Care and Development Fund (Child Care) program. The DESE did not ensure supervisory reviews of FFATA reporting were performed. The DESE did not report any of the 15 first-tier subawards, totaling approximately \$1.2 million, requiring FFATA reporting during state fiscal year 2023, in the FFATA Subaward Reporting System (FSRS).

Recommendation:

The DESE ensure supervisory reviews of FFATA reporting are performed to verify that information is accurately uploaded to the FSRS. In addition, the DESE should complete FFATA reporting in accordance with the applicable requirements for the Child Care program.

Status of Findings:

DESE has strengthened internal controls for FFATA reporting and uploaded all information into FSRS.

2023-018. Missouri National Guard Cooperative Agreement Extensions and Final Accounting

Federal Agency: Department of Defense
Federal Program: 12.401 National Guard Military Operations and Maintenance (O&M) Projects
State Agency: Missouri National Guard (MONG)

The MONG did not have adequate controls and procedures to ensure a final accounting and/or a written request(s) for extension was timely filed for each National Guard Military O&M Projects program cooperative agreement (CA) appendix as required. A sample of 9 CA appendixes identified 6 CA appendixes for which the MONG did not complete some extension requests as required and/or did not complete some final accounting and/or extension requests within required timeframes.

Recommendation:

The MONG establish controls and procedures to ensure a final accounting of all funding and disbursements and/or a written request(s) for extension is filed for each CA appendix in compliance with National Guard regulations.

Status of Finding:

Corrective action was taken.

FS2023-001. Office of Administration Financial Reporting Controls - ACFR Preparation

State Agency: Office of Administration (OA) - Division of Accounting (DOA)

The DOA did not have adequate controls and procedures over preparation of the State of Missouri Annual Comprehensive Financial Report (ACFR). If various errors had not been corrected, the Notes to the Financial Statements and the Required Supplementary Information would have been materially misstated in the ACFR for the year ended June 30, 2023.

Recommendation:

The DOA strengthen controls and procedures to ensure proper disclosure of information in the Notes to the Financial Statements and the Required Supplementary Information in the ACFR.

Status of Finding:

Corrective action was taken.

FS2023-002. Department of Revenue Financial Reporting Controls

State Agency: Department of Revenue (DOR)
Similar Findings: FS2022-001 and FS2021-001

The DOR did not have adequate controls and procedures over financial reporting of certain governmental and custodial fund activities. As a result, numerous balances submitted to the Office of Administration - Division of Accounting (DOA) for inclusion in the State of Missouri Annual Comprehensive Financial Report for the year ended June 30, 2023, were materially misstated. In addition, the financial reports were not submitted timely to the DOA.

Recommendation:

The DOR strengthen controls and procedures to prepare and submit accurate and timely financial reports to the DOA.

Status of Finding:

Corrective actions were taken as stated in the State Auditor's Office Report 2024-036 titled State of Missouri Annual Comprehensive Financial Report on Internal Control, Compliance, and Other Matters Year Ended June 30, 2023.

FS2023-003. Department of Social Services Financial Reporting Controls

State Agency: Department of Social Services

The Department of Social Services (DSS) - Division of Finance and Administrative Services (DFAS) did not have adequate controls and procedures over financial reporting of federal grant accounts receivable. As a result, the accounts receivable data submitted to the Office of Administration - Division of Accounting (DOA) for inclusion in the State of Missouri Annual Comprehensive Financial Report (ACFR) for the year ended June 30, 2023, was misstated.

Recommendation:

The DSS through the DFAS strengthen controls and procedures to prepare and submit accurate federal grant accounts receivable reports to the DOA

Status of Finding:

The Accounts Receivable Financial Reporting processes have been documented along with the overall process for submitting financial reports to the DOA. Additionally, these processes were implemented during the preparation of the SFY 2024 ACFR surveys.

FS2023-004. Office of Secretary of State Financial Reporting Controls

State Agency: Office of Secretary of State (SOS)

Finding: FS2023-004

The SOS did not have adequate controls and procedures over financial reporting of accounts receivable. As a result, civil penalty accounts receivable data submitted to the Office of Administration - Division of Accounting (DOA) for inclusion in the State of Missouri Annual Comprehensive Financial Report for the year ended June 30, 2023, was misstated.

Recommendation:

The SOS continue to implement newly established controls and procedures to prepare and submit accurate accounts receivable reports to the DOA.

Status of Findings:

The SOS has established a methodology regarding the 616 financial reporting of the account estimated receivables of outstanding civil penalties.

CORRECTIVE ACTION PLANS

The State of Missouri's Office of Administration, Division of Accounting respectfully submits the following Corrective Action Plans for the findings related to the Statewide Single Audit for fiscal year ended June 30, 2024. Each Corrective Action Plan was prepared by the State agency noted.

State of Missouri - Single Audit
Corrective Action Plans
Year Ended June 30, 2024

**State of Missouri
Single Audit
Corrective Action Plan
Year Ended June 30, 2024**

State Agency: Department of Revenue (DOR)

Audit Finding Number: FS2024-001 - Department of Revenue Financial Reporting Controls

Name of the contact person responsible for corrective action: Amanda Bolin

Anticipated completion date for corrective action: May 6, 2025

Corrective action planned is as follows:

The Department of Revenue is aware of the concerns noted in the State Auditor's Office (SAO) finding regarding controls and procedures over the financial reporting of certain governmental and custodial fund financial activities. The Department of Revenue continues to evaluate and improve our two-step review process of financial reports submitted to the Office of Administration – Division of Accounting (DOA) and SAO to ensure our financial reports are accurate. Upon notification of the financial reports being inaccurate, the Department of Revenue took immediate corrective action by resubmitting the financial reports to the DOA, continuing to use our two-step review process, providing additional cross-training to employees, and maintaining adequate supporting documentation for all financial reports being submitted to the DOA and the SAO. The Department of Revenue will ensure all financial reports are submitted accurately to the DOA and SAO in the future.

State of Missouri - Single Audit
Corrective Action Plans
Year Ended June 30, 2024

**State of Missouri
Single Audit
Corrective Action Plan
Year Ended June 30, 2024**

State Agency: Department of Social Services – MO HealthNet Division

Audit Finding Number: FS2024-002 - Medicaid and CHIP Receipt Controls

Name of the contact person responsible for corrective action: Andrea Smith

Anticipated completion date for corrective action: June 30, 2025

Recommendation: The DSS through the MHD continue to review, strengthen, and enforce internal controls over Medicaid and CHIP receipts. The MHD should restrict user access within the MMIS for FORU accounting personnel and adequately segregate asset custody and receipt recording duties from accounts receivable duties, or perform documented supervisory reviews of MMIS entries and changes made by employees whose duties are not segregated. In addition, the MHD should establish procedures to account for all cash control numbers to ensure all receipts are deposited or returned to senders.

DSS Response: DSS agrees with the auditor's recommendation. The Corrective Action Plan includes the department's planned actions to address the finding.

Corrective action planned is as follows: MHD has implemented a process to document supervisory reviews of the Finance Manual Checks Quarterly report to ensure segregation of duties in HealthTrack/AHS. This process began in August 2024. As a result of clarification on the finding during the FY24 audit, additional information has been added to the Finance Manual Check Quarterly report to include transactions the FORU Manager performed in the AHS system. This change was requested beginning in March 2025 and will be in use as soon as the report is available for review. MHD will continue to perform the audit of clerk ID ad hoc reports to review any segregation of duties within the MMIS.

MHD implemented a process to ensure all cash control numbers in HealthTrack/AHS are accounted for by establishing a new cash control number (CCN) sequence, exclusive to manual checks logged within the FORU. This resolved the issue of cash control numbers for participant checks occurring out of sequence due to AHS running files in the background at the same time checks are being logged. This portion of the implementation occurred in August 2024. During the FY24 audit, MHD received further clarification and is implementing a review of a monthly report containing missing and unused cash control numbers for provider checks in eMMIS. This will be compared to a file updated by the

State of Missouri - Single Audit
Corrective Action Plans
Year Ended June 30, 2024

Accounts Assistant with the daily cash control numbers used. FORU will use the monthly report to document reasons for any unused or skipped CCNs. This process is being completed monthly beginning March 2025.

State of Missouri - Single Audit
Corrective Action Plans
Year Ended June 30, 2024

**State of Missouri
Single Audit
Corrective Action Plan
Year Ended June 30, 2024**

State Agency: Department of Social Services – Family Support Division

Audit Finding Number: 2024-001 – Medicaid and CHIP MAGI-Based Participant Eligibility Redeterminations

Name of the contact person responsible for corrective action: Stacy Kaylor

Anticipated completion date for corrective action: N/A

Recommendation: The DSS through the MHD and the FSD continue to review and correct cases for participants with manual overrides in the MEDES, ensure redeterminations are completed for these participants as required, and close the cases of any ineligible participants. In addition, the DSS should ensure system controls are functioning as designed for these participants.

DSS Response: The DSS disagrees with this finding. The DSS disagrees there is a significant deficiency in internal controls. As noted in the finding, from the 60 participants selected, the SAO did not identify any participants with previously-established overrides; therefore, no incorrect payments were cited.

Section 6008 of the Families First Coronavirus Response Act (FFCRA) required states to provide continuous coverage, through the end of the month in which the PHE period ends, to all Medicaid beneficiaries who were enrolled in Medicaid on or after March 18, 2020, regardless of any changes in eligibility unless the individual voluntarily terminated eligibility, is deceased, or moved out of state. As required by the Centers for Medicaid and Medicare Services (CMS) during the PHE, the DSS had processes in place to terminate eligibility for individuals who were deceased, voluntarily requested closure, or reported they have moved out of state when a current change was reported.

The Consolidated Appropriations Act, 2023, signed on December 29, 2022, amended section 6008 of the FFCRA such that the continuous enrollment condition ended on March 31, 2023.

During the PHE, the DSS did not conduct reviews of cases that did not report current changes.

State of Missouri - Single Audit
Corrective Action Plans
Year Ended June 30, 2024

DSS resumed initiating renewals starting in April 2023 under the unwinding plan submitted to CMS with the goal to complete all unwinding related renewals prior to the deadline of August 31, 2024. However, DSS encountered challenges in completing all unwinding renewals by the established deadline. On August 29, 2024, CMS released guidance recognizing the challenges that many states faced impacting the ability to complete unwinding related renewals and restore routine operations within the original timelines established, extending the allowance for states to continue to use the exception under 42 CFR 435.912(e) through December 31, 2025.

A report identifying all individuals with manual overrides was created in August 2023 to ensure that individuals with determinations created outside of the MEDES system are being renewed timely. The DSS continues to work this report monthly. DSS staff are working to complete renewals on participants included on the report that require an annual renewal. DSS will complete redeterminations on all cases with manual overrides that have had continuous coverage for over one year by July 31, 2025. DSS notes that not all cases with manual overrides have had continuous coverage for more than one year and therefore do not currently require a redetermination. DSS will complete redeterminations on these cases when they become due.

DSS will continue to use this report to ensure that all individuals that receive coverage outside of the MEDES system will receive their annual renewal as required by CFR 435.916.

State of Missouri - Single Audit
Corrective Action Plans
Year Ended June 30, 2024

**State of Missouri
Single Audit
Corrective Action Plan
Year Ended June 30, 2024**

State Agency: Department of Social Services (DSS) – MO HealthNet Division (MHD) and Family Support Division (FSD)

Audit Finding Number: 2024-002 - Medicaid and CHIP Participant Eligibility Terminations

Name of the contact person responsible for corrective action: Stacy Kaylor

Anticipated completion date for corrective action: September 1, 2025

Recommendation: The DSS through the MHD and the FSD continue to review, strengthen, and enforce internal controls to ensure ineligible participant cases are closed when necessary and resume the DHSS vital records death match in the MEDES.

DSS Response: The DSS partially agrees with this finding. DSS has controls in place to close coverage when a customer requests closure; however, the procedures were not followed.

During the audit period, the FSD Call Center had processes in place to accept calls for applications, renewals, change in circumstance, enter evidence and inquiries. However, contracted staff are unable to authorize any action that results in a case closing and that authorization must be completed by a DSS employee. There were procedures in place for contracted staff to submit a form that will create a task for DSS staff to finalize the actions. For the case cited in the finding, the task was not created, resulting in DSS staff not receiving the request to voluntarily close the case. Although call center staff noted in the electronic case file the purpose of the call, there are not systematic controls in place to take action or create tasks for DSS employees from the case notes.

Currently, a death match with Department of Health and Senior Services (DHSS) vital records is functional in the Family Assistance Management Information System (FAMIS) eligibility system currently used for Supplemental Nutrition Assistance Program (SNAP), Temporary Assistance for Needy Families (TANF), and MO HealthNet for Aged, Blind, and Disabled (MHABD) individuals. When the match is received into FAMIS from DHSS, that information is included on the eligibility file submitted to the Medicaid Management Information System (MMIS)

State of Missouri - Single Audit
Corrective Action Plans
Year Ended June 30, 2024

to ensure that the death date is captured in MMIS to prohibit any payments after the death of the individual. This control ensures that no improper payments are made on a beneficiary's behalf after the date of death. DSS has processes in place to close eligibility when death information is received from family members and providers during the certification period. Additionally, in compliance with 42 CFR 435.949, DSS administers an electronic verification match with the federal hub at application and during the annual review process to inquire about death. DSS is continuing to evaluate necessary steps to reinstate the death match with DHSS vital records, but do not have an anticipated completion date.

Regarding the questioned costs, eligibility errors are governed by section 1903(u) of the Social Security Act. Therefore, questioned costs identified in the single statewide audit should not be subject to recoupment.

Corrective action planned is as follows: DSS is strengthening controls by revising the procedures of the contracted FSD Call Center to ensure case actions are completed timely. DSS will use a system action to close cases with out of state address evidence in the Missouri Eligibility and Enrollment System (MEDES).

State of Missouri - Single Audit
Corrective Action Plans
Year Ended June 30, 2024

**State of Missouri
Single Audit
Corrective Action Plan
Year Ended June 30, 2024**

State Agency: Department of Social Services (DSS) – MO HealthNet Division (MHD) and Family Support Division (FSD)

Audit Finding Number: 2024-003 - Medicaid and CHIP Eligibility Determination Timeliness

Name of the contact person responsible for corrective action: Stacy Kaylor

Anticipated completion date for corrective action: December 2025

Recommendation: The DSS through the MHD and the FSD review, strengthen, and enforce internal controls to ensure participant eligibility is determined within the required timeframes.

DSS Response: The DSS agrees with this finding.

DSS is currently working with Centers for Medicare and Medicaid Services (CMS) to create a plan to mitigate the backlog of applications and ensure eligibility determinations are completed timely according to 42 CFR 435.912(c)(3) and 457.340(d). The backlog plan was sent to CMS February 13, 2025. DSS estimates the backlog to be complete by the end of December, 2025.

To address the continued increase in applications, DSS is leveraging new and available technologies. These technologies are intended to assist the department and participants with necessary actions such as submitting applications, verifying income and resources, and providing required information. DSS is completing an analysis of policies and procedures to determine areas in which changes can be made to improve efficiencies.

Corrective action planned is as follows: The DSS will continue to work towards completing applications within the established timeframes outlined in 42 CFR 435.912(c)(3) and 42 CFR 457.340(d).

State of Missouri - Single Audit
Corrective Action Plans
Year Ended June 30, 2024

State of Missouri - Single Audit
Corrective Action Plans
Year Ended June 30, 2024

**State of Missouri
Single Audit
Corrective Action Plan
Year Ended June 30, 2024**

State Agency: Department of Social Services – MO HealthNet Division

Audit Finding Number: 2024-005 – Medicaid Management Information System Access

Name of the contact person responsible for corrective action: Christopher Boyle

Anticipated completion date for corrective action: March 10, 2024

Recommendation: The DSS through the MHD continue to strengthen internal controls to ensure inappropriate access to the MMIS, including that of terminated users, is removed in a timely manner.

DSS Response: DSS agrees with the auditor's recommendation. The Corrective Action Plan includes the department's planned actions to address the finding.

Corrective action planned is as follows: MHD will continue to perform the annual review, but to ensure that the annual review is completed timely, monthly meetings have been scheduled.

In addition to the annual review, instead of relying on supervisors to inform MHD of terminations, MHD staff have updated the off-boarding process to identify additional eMOMED and eMMIS users who no longer require access. MHD staff are comparing the MMIS active user lists with lists of terminated users. When an active user is located on a termination list, a request to disable the MMIS account is submitted.

Since these new processes have already been implemented, no further corrective action is required.

State of Missouri - Single Audit
Corrective Action Plans
Year Ended June 30, 2024

**State of Missouri
Single Audit
Corrective Action Plan
Year Ended June 30, 2024**

State Agency: Department of Social Services (DSS) – Division of Finance and Administrative Services (DFAS)

Audit Finding Number: 2024-006 - Department of Social Services Cost Allocation

Name of the contact person responsible for corrective action: Sheena Frazer

Anticipated completion date for corrective action: N/A

Recommendation: The DSS through the DFAS continue to strengthen internal controls and procedures over the PACAP and the AlloCAP system to ensure costs are properly allocated to federal programs.

DSS Response: The DSS partially agrees with this finding.

The DSS agrees the logic used by OA-ITSD to generate the payroll extract report provided to DSS DFAS for import into the AlloCAP system did not include expenditures associated with Deferred Compensation Match Fringe (PDEFC) offered to state employees beginning in July 2022. It should be noted the PDEFC is not automatic or guaranteed and must be authorized and funded each year by the legislature during the budget process. FY23 was the first year in relative history the legislature authorized funding for PDEFC. The reason for the unchanged logic is unknown as staff transition occurred in both DSS and OA-ITSD during this time.

The DSS respectfully disagrees with the finding and recommendation as represented and reported as an internal control finding related to cost allocation. The Internal Control Plan (ICP) clearly states the objectives related to the cost allocation plan and does not include oversight or reconciliation of source data provided to verify accuracy. Implementation of appropriate separation of duties and other internal control processes ensure SAMII data is not entered or maintained by the DFAS Grants Unit. As such, data integrity of SAMII and other source data provided by business units is not an internal control function within the ICP for cost allocation or the DFAS Grants Unit. Internal control findings for cost allocation should be relative to the approved objectives, data elements and processes outlined within the ICP for cost allocation or for which there is functional control.

State of Missouri - Single Audit
Corrective Action Plans
Year Ended June 30, 2024

DSS DFAS continues to review internal control processes over the PACAP and AlloCap to ensure compliance with requirements and contends both were operating correctly as designed. This is evidenced as the finding did not result in any changes being required of the written PACAP or the programmed logic in AlloCap, only the raw data source provided which is not overseen or controlled by DFAS Grants Unit. It is for this reason the DSS partially agrees with the finding as the error is related to data integrity and not indicative of the strength of current internal controls for cost allocation.

Corrective action planned is as follows:

The DSS HRC and OA-ITSD have already identified the payroll tables and fields needed and revised the logic used to generate the payroll extract report to include Deferred Compensation Match Fringe (PDEFC). The DFAS Grants Unit utilized the revised payroll extract reports generated and provided to re-process the cost allocation system for the affected quarters in September and October 2024. As the DSS has already implemented the change, no further corrective action is required.

State of Missouri - Single Audit
Corrective Action Plans
Year Ended June 30, 2024

**State of Missouri
Single Audit
Corrective Action Plan
Year Ended June 30, 2024**

State Agency: Office of Administration

Audit Finding Number: 2024-007, SLFRF Program Subrecipient Monitoring

Name of the contact person responsible for corrective action: Stacy Neal

Anticipated completion date for corrective action: November 1, 2025

Recommendation A.: Develop policies and procedures to determine whether recipients of SLFRF program funds are subrecipients or contractors. Continue to work with the state agencies to ensure accurate and documented determinations are prepared for all recipients and modify subrecipient records as needed.

OA partially agrees with the auditor's finding.

Corrective action planned is as follows: OA did complete a training for all agencies regarding subrecipient monitoring and the agencies responsibilities. OA also distributed a memo instructing agencies where to find information regarding subrecipient monitoring and instructing agencies to develop policies and procedures for their agency. To avoid confusion, OA will pursue Memorandums of Understandings (MOU) with agencies to ensure agencies understand their responsibilities for sub-recipient monitoring including sub-recipient specific risk assessments and monitoring. Finally, OA will implement random reviews of the sub-recipient monitoring compliance.

Recommendation B.: The OA did not implement an effective subrecipient monitoring program to monitor the SLFRF subrecipients. As a result, some subrecipient monitoring procedures were not performed as required by the UG.

OA agrees with the auditor's finding.

Corrective action planned is as follows: OA will pursue Memorandums of Understandings (MOU) with agencies to ensure agencies understand their responsibilities for sub-recipient monitoring including sub-recipient specific risk assessments and monitoring. Finally, OA will implement random reviews of the sub-recipient monitoring compliance.

State Agency: Department of Health and Senior Services (DHSS)

Audit Finding Number: 2024-009 - CACFP Subrecipient Monitoring

Name of the contact person responsible for corrective action:
Sarah Walker, Bureau Chief

Anticipated completion date for corrective action:

Corrective action planned is as follows:

The agency does not agree with the audit findings and therefore no corrective action is required.

Explanation and specific reasons are as follows:

DHSS disagrees with this finding. While the USDA partially sustained the previous finding in the FY2023 SWSA, the corrective action plan and supporting documentation submitted by DHSS was accepted by USDA and deemed adequate. On April 17, 2025, the USDA recommended final action to close the FY2023 audit finding.

State Agency: Department of Health and Senior Services, Division of Senior and Disability Services

Audit Finding Number: 2024-010 - Medicaid SPPC Participant Choice Agreements

Name of the contact person responsible for corrective action: Kim Toeppen, Deputy Director, Division of Senior and Disability Services

Anticipated completion date for corrective action: May 2027

Missouri Department of Health and Senior Services agrees with the auditor's recommendation. Corrective action planned is as follows:

Division of Senior and Disability Services (DSDS) implemented a new electronic case management system, Fusion, in May 2025. As part of the upgraded efforts, the system will help to ensure more consistency with form retainment. This, however, will take some time due to challenges with data migration and staff adapting to the new workflow of the system. DSDS looks forward to improved compliance following the first full year of system implementation with a goal of full compliance by year 2 of system implementation.

State of Missouri - Single Audit
Corrective Action Plans
Year Ended June 30, 2024

**State of Missouri
Single Audit
Corrective Action Plan
Year Ended June 30, 2024**

State Agency: Department of Health and Senior Services

Audit Finding Number: 2024-011 – Medicaid Facility Survey Timeliness

Name of the contact person responsible for corrective action: Tracy Niekamp, Administrator, Section for Long Term Care Regulation, Division of Regulation and Licensure

Anticipated completion date for corrective action: December 31, 2026

Corrective action planned is as follows: Missouri Department of Health and Senior Services (DHSS) partially agrees with the audit finding.

Regarding the timeliness of revisits DHSS does not agree with the finding or that corrective action is needed. The reasons for disagreement are stated below.

Related to timely mailing of Statements of Deficiencies, DHSS agrees with the finding and the corrective action plan is stated below.

As previously stated, since 2019, DHSS has seen increases in the number and severity of complaints, and the severity of violations found in long term care facilities. Complaints increased overall by thirty-six percent (36%) from 9,011 complaints in FY2019 to 12,236 in FY2023. In FY2024, DHSS investigated 12,237 complaints. The largest increase has been in severe complaints, including immediate jeopardy complaints (which require an onsite investigation within 24 hours to seven days) and non-immediate jeopardy, high priority complaints (which require onsite investigation within 15 working days). Because of the seriousness of these complaints, often surveyors have to be reassigned to investigate these complaints, which results in a delay in conducting revisits or sending a statement of deficiencies timely.

In addition to frequency and severity of complaints, changes to the survey process, and increased regulatory requirements, DHSS continues to see increases in the number of citations issued per recertification survey and in complaint investigations. Since 2019, the average number of health citations issued to a facility during a recertification survey has increased by 25% and the number of citations issued from stand-alone complaint findings has increased 100% during the same timeframe.

State of Missouri - Single Audit
Corrective Action Plans
Year Ended June 30, 2024

These increases require additional time devoted to investigating often complex violations, increase time spent with write up activities, including the creation of the Statement of Deficiency, plan of correction review, onsite and offsite revisit activity and communication with complainants and facilities. Increases in this workload often require team members to begin investigating new complaints prior to the write up activities or revisits related to other processes being completed. Additionally, subsequent complaint investigations often cause revisits to be delayed due to open enforcement cases and substantial compliance date conflicts.

DHSS continues to experience staffing shortages, particularly in the Registered Nurse job classification, which impacts the ability to complete work consistently within the prescribed time frames. Each recertification survey requires at least one team member to be Registered Nurse and due to the nature of many complaints, a Registered Nurse must also complete these investigations. There has been no meaningful increase in the federal budget since 2015, which further impacts the ability to hire and retain Registered Nurses. In addition, there is an ongoing labor shortage in the labor market for these professionals. The shortage has driven salaries well beyond the surveyor salary structure. DHSS has experienced turnover among surveyors leaving for other opportunities at a much higher salary. DHSS invests at least one calendar year into training new surveyors. This is training required by CMS in order to meet the stringent surveyor qualifications. In 2015, the number of RN vacancies the Section for Long-Term Care had averaged around 14 positions. In 2023, the average vacancy was 27 positions. In 2024 SLCR was able to hire several Registered Nurse positions statewide. Given the required training to independently conduct complaint investigations takes 12 months, SLCR hopes to see continued improvement in meeting deadlines in FY2025 due to a greater number of trained and qualified team members.

DHSS has seen significant progress in meeting expectations since FY2023. During the FFY23 audit, 19 of the sampled statements of deficiency did not meet the 10-day timeframe for release to the facility and 9 of the sampled revisits did not occur within 60 calendar days of the exit date. Results of the FFY24 audit shows improvement in DHSS performance: 10 of the sampled statements of deficiency did not meet the 10-day timeframe for release to the facility and only one of the sampled revisits did not occur within 60 calendar days of the exit date.

DHSS has and will continue to request increased funding from both federal and state sources to support competitive salaries for Registered Nurses and other survey staff.

DHSS will continue to hire retired, federally qualified surveyors part-time to help with survey and complaint backlog, as able. DHSS continually works toward identifying inefficiencies and implementing measures to address them, such as bundling complaint investigations with other regulatory processes.

State of Missouri - Single Audit
Corrective Action Plans
Year Ended June 30, 2024

As a short-term, time-limited solution possible through one-time additional funding from the Centers for Medicare and Medicaid Services and Centers for Disease Control and Prevention Epidemiology and Laboratory Capacity (CDC-ELC), DHSS contracted with three third-party contractors to assist with workload completion. However, this funding was terminated on March 24, 2025.

DHSS will continue to track timeframes for completion of Statements of Deficiencies and revisits and make every effort to meet those timeframes.

DHSS will continue to assign workload based on CMS' stated priorities in the Mission and Priority Document, taking into account the potential for direct impact on residents.

The agency does not agree with the audit findings and believes that corrective action is not required for timely revisits within 60 days. Explanation and specific reasons are as follows:

The Centers for Medicare and Medicaid Services (CMS) completes performance standard reviews of states each federal fiscal year. The CMS expectation provided in the Fiscal Year (FY) 2024 State Performance Standards System (SPSS) Guidance is that the state meets the requirement for revisits within 60 days 70% of the time. States are not required to submit a corrective action plan to the CMS unless they fall below the 70% threshold. During the FFY24 audit, only one of the sampled revisits did not occur within 60 calendar days of the exit date, which means DHSS did meet the timeframe requirement 96.3% of the time. This percentage is well above the CMS's acceptable rate of 70% and, therefore, should not require a finding or corrective action plan.

State Agency: State Emergency Management Agency

Audit Finding Number: 2024-012 - SEMA Subrecipient Monitoring

Name of the contact person responsible for corrective action: Nikol Enyart

Anticipated completion date for corrective action: Implemented

Corrective action planned is as follows:

Since the discovery of the shortfall in the monitoring of subrecipients, SEMA has taken action to get the program back on track. SEMA has maintained forward momentum on completing the risk assessments during the time dictated by the policy. SEMA has also completed 46 out of 107 desk monitoring reports for the medium risk subrecipients, and SEMA has completed 17 out of 83 site visits for high risk subrecipients. SEMA has also cross trained multiple employees in the steps and processes to achieve high outputs for this process. SEMA has created a separate tracker to focus directly on the desk monitoring and site visits that have been completed or still need to be completed. This tracker is monitored by the Deputy Recovery Division Manager. SEMA also generates reports on the 15th and 30th of each month outlining any progress made during those two weeks, and those reports are submitted to the Recovery Division Manager. This report was first created and submitted on January 31, 2025.

In relation to the A-133 audits, SEMA has implemented cross training for staff that will ensure should one employee leave, the task will continue without disruption. Two staff are now trained and will submit a report each quarter to the Deputy Fiscal Manager to ensure compliance with the A-133 requirements.

State Agency: Missouri Department of Economic Development (DED)

Audit Finding Number: 2024-016 - DED FFATA Reporting

Name of the contact person responsible for corrective action: Nikki Wrinkles

Anticipated completion date for corrective action:

FFATA Reporting was completed November 8, 2024. Internal control was adopted April 28, 2025.

Corrective action planned is as follows:

FFATA Reporting:

- (a) In the foreseeable future, if the Missouri Office of Administration (OA) is the recipient of a federal grant and DED agrees to administer the federal grant, DED will attempt to ensure that the issue of which agency is responsible for filing the Federal Funding Accountability and Transparency Act (FFATA) report is clearly delineated. In the event this is not delineated by the time a FFATA is due to be filed in the FFATA Subaward Reporting System (FSRS), DED will simply proceed to file using the Unique Entity Identifier (UEI) on the grant agreement between OA and the federal agency.
- (b) DED did file the FFATA report on November 8, 2024.
- (c) DED did not anticipate any additional awards being made from the Coronavirus Capital Projects Fund (CPF), and no such awards have been made since March 2022. If additional awards are made from the CPF, DED will follow the internal control process it has now established.

Internal controls:

DED has established an internal control process for the CPF in the event additional awards are made in the future and will use OA's UEI for any such future reporting. A copy of the internal control policy regarding FFATA reporting compliance is included with this CAP.

State Agency: Department of Higher Education and Workforce Development

Audit Finding Number: 2024-017 – DHEWD FFATA Reporting

Name of the contact person responsible for corrective action: Elizabeth (Liz) Roberts

Anticipated completion date for corrective action: January 1, 2025

Corrective action planned is as follows:

In response to the auditor's report finding, we dedicated a team of staff to review our subaward files for the date range in question. Staff compared our subawards from that time to federal reporting system data and reported any subawards that were missing. We will continue to monitor these historical files for their reported status as we encounter them through the course of our current normal business activities. We have strengthened internal controls related to FFATA reporting for the WIOA cluster, and our new federal award reporting and monitoring process is outlined below:

On the fifteenth day of every month following the subaward execution month, staff utilize a spreadsheet populated with subaward data the previous month to enter subaward information for that month into the federal reporting system.

After the subawards have been reported in the system, the full subaward report data and their submission receipts (proof of submission) are saved to internal electronic files. Each file now features a descriptive file name to which allows for an easily searchable, historical record.

- Files are organized by FY and report month
- Each month now includes a spreadsheet of the awards reported
- Each report is now categorized by grant, and reports with multiple subawards per grant now contain a cover page with table of contents summarizing the subaward report data included on the subsequent pages with any changes indicated in red
- Each file now contains Auditor notes where necessary, indicated in red

Spreadsheet Summary	Jan 25 FFATA

After the reports are submitted, staff now sends the reports and spreadsheet summary for each month to a supervisor to review, who compares them with each executed subaward notification email sent to the executed subaward notification group in the previous month. The supervisor responds with monitoring results (e.g. missing, incorrect, complete). Reports are adjusted as necessary based on this review.

The supervisor's emailed approval response is saved to the file.

DHEWD will provide proper FFATA reporting training to staff. The process outlined above will evolve slightly since, as of March 8, 2025, [FSRS.gov has transitioned to SAM.gov](#). SAM.gov features enhancements that support improved reporting accuracy, such as auto-checking for previously reported subawards to avoid duplication.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

To the County Commission
and
Officeholders of Livingston County, Missouri

The Office of the State Auditor contracted for an audit of Livingston County's financial statements for the year ended December 31, 2024, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

A handwritten signature in black ink that reads "S. Fitzpatrick". The signature is stylized with a large, flowing "F" and a cursive "S".

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Livingston County, Missouri

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Livingston County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2024, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Livingston County, Missouri, as of December 31, 2024, and their respective cash receipts and disbursements, and budgetary results for the year then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Livingston County, Missouri, as of December 31, 2024, or the changes in financial position thereof for the year then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Livingston County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Livingston County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Livingston County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the

financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Livingston County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Livingston County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 21, 2025, on our consideration of Livingston County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Livingston County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Livingston County, Missouri's internal control over financial reporting and compliance.
